TO DEDICATE ITALIAN CHURCH—The new Italian Catholic Church of St. Michael, which has just been completed at Fourth and Mill streets, will be dedicated next Sunday morning at 9:30 by Archbishop Christie, assisted by all the bishops of the province and the clergy of the city and surrounding neighborhood. There will be present three courts of Catholic Foresters, the Society of St. Joseph, several Italian benefit organizations and the regular members of the church. The building is handsome and ranks among the most complete of Portland's religious institutions, over \$30,000 having been spent on its construction for stained-glass windows, new altars and interior decorations. The foundation is of stone, while the walls are of brick, the whole being of Roman architecture. Among the interior features is a very large assembly hall under the church for the various meetings that are held in the building.

Today a statement will be mailed to each shareholder, showing the number of shares held by him and the amount due under the levy. Shareholders are requested to fetch these statements with them in paying, or to inclose them if they cannot get to the office in order, or express order. IS SHE PLAYING SICK?

EXTENT OF MRS. M. C. WELLS' INJURIES QUESTIONED IN COURT. She Sues City & Suburban for \$10,000 for Alleged Damages—Doctors Say She is All Right.

As a defense to the suit of Mrs. M. C. Wells, to recover \$10,000 because of alleged personal injuries sustained as a result of being thrown off a Third-street car, the City & Suburban Railway Company, at the trial yesterday, called witnesses to show that it is a case of malingering, or pretended sickness. The trial is on before Judge Fraser and a jury, and will be concluded today.

Mrs. Wells was a passenger on an open car going south along Third street on July 14, 1901. She testified that she desired to alight at Jefferson street, and the motorman allowed her to do so. When Jefferson street was reached the car was not stopped, so she pulled the bell cord. She said the motorman allowed and stepped in the car at the station, but just as she was in the act of stepping off, the car was suddenly started and she was thrown violently to the ground.

Dr. Rockefeller testified that she was seriously injured, especially in the hip, and has been confined to her bed ever since, and cannot now walk without the aid of crutches. The motorman of the car testified that Mrs. Wells pulled the bell cord when the car was midway between Jefferson and Columbia streets, and he turned off the power so that the car would stop at Columbia street, and Mrs. Wells jumped off the car before it started. Conductor Lind gave similar evidence.

Dr. Rockefeller testified that he was called by Mrs. Wells, but on the first visit refused to have anything to do with the case until he had obtained the consent of the attending physician, Dr. A. C. Pantan. The witness said he afterward called and made measurements such as are necessary to ascertain in such cases whether an injury exists, and the result was that he found that there was absolutely no displacement of the hip joint. Dr. Rockefeller said further that Mrs. Wells complained of pain in the neck and back, and he examined her and discovered everything to be in a normal state.

On cross-examination by Henry E. McGinn, attorney for the plaintiff, Dr. Rockefeller said he had been paid \$10 for his services by the City & Suburban Railway, which was all he charged or expected to receive. "Mr. McGinn asked: 'Do you mean to say that you believe that where a woman was hurt on July 14, 1901, and has been in a hospital ever since, that there is nothing the matter with her?'"

Dr. Rockefeller answered: "I have known of people to remain in bed for years after such an accident, and cannot walk now. I know a woman who stayed in bed for seven years from the effects of a fever until she was undeceived and found that there was nothing the matter with her."

The doctor also stated that with the non-use of the limb and letting her mind run on crutches she cannot walk now. He said that there was nothing the matter with her. Dr. A. C. Pantan, the regularly employed physician of the City & Suburban Railway Company, testified that Mrs. Wells told him immediately following the accident that she pulled the bell rope and jumped off the car before it had stopped; that she could not walk now, and that nobody was to blame. The doctor said she fell on her knee, and he discovered no indications of any serious injury. He said she was within herself; there was no evidence to him that she was injured, although she complained of pain. She had all the use of her limbs from August 7, 1901, the day Dr. Rockefeller made the examination. The accident was on July 14.

Mr. McGinn asked: "You think this woman who is here in court walking on crutches is pretending to be lame?" "I do."

"You think she is pretending to be sick for the purposes of this damage suit?" "I do."

Dr. Pantan admitted that he was the physician for the City & Suburban Railway Company in all of this class of cases, and he identified a considerable number of bottles shown to him as having contained liniments and medicines which he had prescribed for Mrs. Wells, and acknowledged that he visited her often.

WHICH IS THE DEBTOR? U. S. McHargue and I. W. Butler Each Have Claims Against the Other.

The trial of the A. D. McHargue against I. W. Butler to recover \$33 on account of money lent by U. S. McHargue to Butler between July, 1901, and October, 1901, was commenced yesterday before Judge Cleland and a jury, and will be concluded today.

U. S. McHargue is a school teacher, who will be removed from a charge of bottles shown to him as having contained liniments and medicines which he had prescribed for Mrs. Wells, and acknowledged that he visited her often.
