

LOSSES BY STORM
Crops in Middle West Suffer
Heavy Damage.

FIVE STATES IN ITS TRACK

Continuous Rain Floods the Fields—
Iowa, Illinois, Indiana, Ohio and
Pennsylvania Chief Losses

CHICAGO, June 29.—"If the rains continue a few days longer the damage to crops throughout the Middle-Western and Western States, and the loss to farmers will be beyond calculation," said Professor Cox, of the United States Weather Bureau, tonight. While he was speaking reports were coming in showing that it was raining practically all over the Middle West, and that already many flooded states were visited by an inch or more of rain in 24 hours. In Chicago the rainfall was more than an inch. Illinois is one of the chief sufferers. All through the interior, as far south as the Ohio River, the farms are flooded. Corn fields, wheat fields, meadows, pastures and gardens, have been turned into lakes and ponds. Only the most favorable kind of weather will save the agricultural communities from heavy losses.

TWO DAYS OF RAIN.

Storm Extends Through From Allegheny to Rocky Mountains.

ST. LOUIS, June 29.—This city and vicinity are the scene of a rainstorm of unprecedented severity that has prevailed almost incessantly since Saturday morning. According to the local Weather Bureau reports, 5.5 inches of rain were recorded here Saturday and 8 P. M. Sunday, and the rain apparently is not in sight. At times the storm equaled a cloudburst in severity.

But There Are Rumors That Coal Men Will Break.

WILKESBARRE, Pa., June 29.—The beginning of the eighth week of the anthracite miners' strike shows no change in the situation. At President Mitchell's headquarters, National Board Member John Fallon is in charge during Mr. Mitchell's absence. Mr. Fallon said tonight that the miners were just as determined as ever, and unless there should be arbitration the strike is destined to go on. The National board member also declared that he is suffering among the strikers. He said he has no provision, and is not likely to be any for a long time to come. The local operators seem to be a unit in saying that a break in the strike will be made in any time. This belief is based on reports which the operators claim to have received from many sources that the families of many of the strikers are in want. One of the most striking rumors is that at least three washeries in the Wyoming region are to be closed. One operator said tonight that the number of washeries now in operation was greater than at any time since the strike began, and he made it known that he was ready to make a one-step bet on operating a washery and a colliery. Sooner or later he thought an attempt would be made to start up a mine.

LARGEST EXPORTS.

Early Reduction Shown in Figures on Iron and Steel.

WASHINGTON, June 29.—The exportations of manufactures during the eleven months ending with May, 1902, is greater than that of any preceding year, and in iron and steel. The total exports of manufactures for the eleven months ending with May amount to \$71,641,999, against \$73,325,425 in the corresponding months of the preceding year. The exports of iron and steel are, for the eleven months ending with May, 1902, \$28,987,488. For the eleven months ending with May, 1901, they were \$29,943,665. For the eleven months ending with May, 1902, they were \$28,987,488, but when it is remembered that these figures included exports to Porto Rico, Hawaii, which are not included in those of 1901 and 1902, it becomes apparent that the exports of manufactures other than iron and steel in the eleven months of the present fiscal year are greater than those of the same period in any preceding year in the history of our commerce.

Iron and Steel.

While the exports of iron and steel have been decreasing, importations of iron and steel have been increasing. The following table shows the imports and exports of iron and steel manufactures in eleven months of each of the fiscal years 1900, 1901, and 1902.

Imports and Exports.

Table with 3 columns: Year, Imports, Exports. Data for 1900, 1901, 1902.

From This It Will Be Seen That the Importations of iron and steel manufactures have materially increased during the last three years, and the exportations of iron and steel have decreased.

Mount Pelée Has Bombard.

LONDON, June 29.—A dispatch to the Daily Mail from Bombay, says there is great alarm in Western India because of the continued absence of monsoon. The heavy rainfall which usually comes early in June. The non-appearance of the monsoon is traceable to the eruption of Mount Pelée on the island of Martinique. Great excitement prevails in the Province of Gujara. If the rains fail to fall, untold distress will ensue there. The meteorologists declare that the eruption of Mount Pelée deflected the monsoon 300 miles to the westward.

Venezuelan Ports Blocked.

CARACAS, June 29.—The government has issued a decree declaring the ports of Laredo and Guayana, Cano Colo and Puerto Bolivar and the Orinoco River blocked.

IN MEMORY OF CUMMINGS

HOUSE HELD FIRST SUNDAY SESSION IN 91 YEARS.

Tributes of Respect to the Dead New York Congressman—Also to Oter, of Virginia.

WASHINGTON, June 29.—The House of Representatives held a session today to pay tribute to the memory of the late Representative Amos J. Cummings, of New York, and the late Representative J. Oter, of Virginia. By special direction of Secretary Moody, the Marine Band was in attendance in the lobby in the rear of the hall and rendered an appropriate musical programme.

Quiet on German Bourse.

BERLIN, June 29.—The Bourse had an extremely dull week and many prominent securities were not quoted for some days because of the lack of transactions. All departments scored declines, especially in coal shares and iron and machinery shares were unusually heavy. The present tendency of speculators is to close their engagements for the summer vacation, believing that no improvement is probable in the immediate future and that the forthcoming yearly reports will prove disappointing. Another disquieting factor is found in the latest reports of the coal and iron industries. The recent improvements in the coal situation seems to have been reversed. Bank stocks were all lower, less noteworthy notwithstanding a number of bond and stock flotations from which good earnings may be expected. The monthly settlement is passing off under much more favorable rates for money than is usual.

King's Illness Flattened Stocks.

LONDON, June 29.—With only three days of business left, the Stock Exchange shows little that is worth recording. King Edward's illness flattened everything, prices falling in anticipation of sharp selling, but no sales of importance were made. Quotations revived, however, and the decline on the week proved generally small. The demand for money was strong, the holiday settlement and the turn of the half-year all falling together. The market was forced to go about £10,000,000 in debt to the bank, but there is an expectation of easier rates during the coming month and talk of a resumption of the market. The general feeling is that there is good business ahead, barring a serious relapse in the condition of the King.

STRIKERS STILL FIRM.

But There Are Rumors That Coal Men Will Break.

WILKESBARRE, Pa., June 29.—The beginning of the eighth week of the anthracite miners' strike shows no change in the situation. At President Mitchell's headquarters, National Board Member John Fallon is in charge during Mr. Mitchell's absence. Mr. Fallon said tonight that the miners were just as determined as ever, and unless there should be arbitration the strike is destined to go on. The National board member also declared that he is suffering among the strikers. He said he has no provision, and is not likely to be any for a long time to come. The local operators seem to be a unit in saying that a break in the strike will be made in any time. This belief is based on reports which the operators claim to have received from many sources that the families of many of the strikers are in want. One of the most striking rumors is that at least three washeries in the Wyoming region are to be closed. One operator said tonight that the number of washeries now in operation was greater than at any time since the strike began, and he made it known that he was ready to make a one-step bet on operating a washery and a colliery. Sooner or later he thought an attempt would be made to start up a mine.

WILKESBARRE, Pa., June 29.—The beginning of the eighth week of the anthracite miners' strike shows no change in the situation.

While a number of coal and iron policemen are guarding the Nottingham mine of the Lehigh & Wilkesbarre Coal Company at Plymouth, Pa., the miners are breaking this morning, one of the men went off and a bullet struck one of the men. Benjamin Carr, in the side, inflicting a very serious wound. The wound is being treated at the Wilkesbarre Hospital in a critical condition. A notice was issued from strike headquarters tonight that all union miners should keep away from Fernie, R. C., who is being held on by a committee. It is said that agents from British Columbia have been in the anthracite region for some days past trying to hire men to go to Fernie.

Mitchell in Chicago.

CHICAGO, June 29.—President Mitchell, of the United Mine Workers' Union of America, arrived at Chicago today and will be met by a committee of the city. Mitchell is expected to be the guest of the city. Mitchell is expected to be the guest of the city. Mitchell is expected to be the guest of the city.

Union Pacific Mechanists.

OMAHA, Neb., June 29.—There has been no change in the situation of the Union Pacific coal strike today. Each side is waiting until Monday, when the strike can be noted. The company officials declare the strike will not affect the smaller share of the road, and that only the heavy rainfall which usually comes early in June. The non-appearance of the monsoon is traceable to the eruption of Mount Pelée on the island of Martinique. Great excitement prevails in the Province of Gujara. If the rains fail to fall, untold distress will ensue there. The meteorologists declare that the eruption of Mount Pelée deflected the monsoon 300 miles to the westward.

Street-Cars Stopped.

PAWTUCKET, R. I., June 29.—Street-cars were stopped and obstructed by sympathizers of the striking conductors and drivers in Pawtucket and Central Falls today. Two street-railway men were injured by missiles. After running 10 cars during the day the traction company took all off at dusk.

Mount Pelée Has Bombard.

LONDON, June 29.—A dispatch to the Daily Mail from Bombay, says there is great alarm in Western India because of the continued absence of monsoon. The heavy rainfall which usually comes early in June. The non-appearance of the monsoon is traceable to the eruption of Mount Pelée on the island of Martinique. Great excitement prevails in the Province of Gujara. If the rains fail to fall, untold distress will ensue there. The meteorologists declare that the eruption of Mount Pelée deflected the monsoon 300 miles to the westward.

Venezuelan Ports Blocked.

CARACAS, June 29.—The government has issued a decree declaring the ports of Laredo and Guayana, Cano Colo and Puerto Bolivar and the Orinoco River blocked.

Democracy not being united, pending an agreement by the majority.

Signed the Canal Bill.

WASHINGTON, June 29.—President Roosevelt last night signed the isthmian canal bill.

A DRUG IMPAIRS SIGHT.

Chemists Sued for Damages Caused by the Use of Jamaica Ginger.

Chicago Chronicle. Manufacturing chemists, oculists and the people of every local option town in the United States are deeply interested in the outcome of the first of five damage cases, aggregating \$12,000, against a concern of Baltimore, which is one of the heaviest drug firms and manufacturing chemists in the country, and which will call Wednesday next in the Superior Court.

The allegations on which the suits are based are that the plaintiffs were made blind by drinking preparations put up by the house of Jamaica ginger, a cheap ginger, in the manufacture of which wood or methyl alcohol had been used, instead of pure grain or ethyl alcohol.

Dr. Herbert Harlan, of Baltimore, and one of the leading oculists of the country, called attention to the prevalence of blindness among people who used Jamaica ginger as a stimulant and tonic. He said in a long article published in the Optician, and the article attracted very great attention. He showed that in the local option towns of Pennsylvania, the Virginia states, Maryland, and West Virginia, he had resorted to the use of essence like Jamaica ginger for the effects of the alcohol which entered into their composition.

It is said that the number of cases of total blindness in the four states mentioned exceeds 1000, all of them directly traceable to the use of adulterated essence like Jamaica ginger. The eye operation could be secured added to its danger. Any country storekeeper is permitted to sell "medicines."

After the publication of Dr. Harlan's article, the Baltimore Ophthalmic Society, urged by specialists throughout the country, decided to begin a crusade against the makers of the stuff.

Growth of the Telephone.

Philadelphia Bulletin. The statement in a recent publication that on the 1st of May, 1902, there were, in round numbers, 2,600,000 telephones in use throughout the United States is not far from the truth. The figures are accurate, that in the past eight years the number of telephones employed by the American people in their daily affairs has been multiplied more than tenfold.

Northwestern People in New York.

NEW YORK, June 29.—Northwestern people registered at the hotels here today as follows: Fred and Miss A. Lane, E. T. Weathered, at the New Amsterdam; Mrs. J. S. Conner, at the St. Denis. From Salem, Or.—C. E. Murphy, at the Imperial. From Spokane, W. C. Hindman, at the Imperial.

Render Justice to Cuba.

Minneapolis Times. Up to the present time our treatment of Cuba has been so honorable but so generous. It will be a lasting reproach to the Republican party and to the Nation if we deny the young republic those favorable commercial relations with her older and vastly more powerful neighbor that are justly and logically her due.

Havana Negroes Want Equal Rights.

HAVANA, June 29.—A meeting of the negro element in Havana at which Juan Qualbert Gomez presided was held here today. It was declared that this meeting represented all the negro organizations of Cuba. Speeches were made denouncing exclusion of the negroes from the Havana Convention, and the demand for equal rights for the whites in all matters.

Prominent Florist Dead.

INDIANAPOLIS, Ind., June 29.—William Bettegman, a prominent business man of this city, died today at Sacramento, Cal. He was one of the best-known florists in the country and one of the most active members of the National Carnation Association.

STRUCK BROKEN RAIL

CAUSE OF BAD TRAIN WRECK IN COLORADO.

One Killed Outright, Others Will Die—Thirty Injured—Cars Crushed to Kindlings.

COLORADO SPRINGS, Colo., June 29.—At 10:30 o'clock this morning an excursion train on the Colorado Midland Railroad coming down Ute Pass from Cripple Creek, struck a broken rail and several cars were piled in a shapeless heap. One man, Francis M. English, a prominent musician of this city, was instantly killed and about 30 other passengers were more or less seriously injured, three or four probably fatally. The complete list of the killed and injured follows:

Dead: Francis M. English, Colorado Springs. Injured: Mary O'Rourke, aged 11, 160 Portland avenue, Victor, left arm torn off, face cut and internally injured, may die. Dr. Estelle Lewis, 12 West Carr avenue, Cripple Creek, left ribs on right side broken, left wrist fractured, bruises and internal injuries, may die. James W. Greene, 164 West Bacon street, Cripple Creek, leg broken, face bruised. Frank Guyer, 211 South Eighth street, Cripple Creek, collar bone broken. Mrs. Kintzell, Goldfield, lip cut and face bruised.

Mrs. Vanderweiden, 316 Erin street, Cripple Creek, face badly bruised. William Vanderweiden, leg sprained. Vanderweiden's baby daughter, face bruised. Charles Carlson, Buffalo Springs, face cut badly. H. Smith, Cripple Creek, all teeth knocked out, mouth and thumb cut. Mrs. Simon O'Rourke, neck sprained. O'Rourke's her son, face cut and bruised.

H. E. Parker, 223 Main avenue, Cripple Creek, leg sprained, head cut. J. H. Weyman, 59 South Nevada avenue, Colorado Springs, head cut. Henry Pickens, Woodland Park, back sprained. Mrs. George Powell, Omaha, leg broken. C. Turnage, 411 Colorado avenue, Cripple Creek, leg broken, face bruised. I. E. Disque, of Tomkins Supply Company, Cripple Creek, knee badly hurt, cannot walk. R. W. Hadden, Goldfield, bad scalp wound. F. T. Baker, Cripple Creek, lip cut and scalp wound. C. P. Cotten, Cripple Creek, cuts and bruises. R. Tucker, Denver, cuts, bruises and severely shocked. J. H. Olds, Cripple Creek, cuts and bruises. H. M. Parker, Victor, cuts and bruises. Mrs. White, Cripple Creek, cuts and bruises. Rose Redford, Cripple Creek, cuts and bruises. H. Hellenblin, Victor, cuts and bruises. G. A. Grant, Victor, cuts and bruises. B. M. Chamberlain, Divide, cuts and bruises. Michael Marts, Goldfield, cuts and bruises. Mrs. M. Kintzell, Goldfield, cuts and bruises. H. Holstrom, Goldfield, cuts and bruises. Oscar Peterson, Cripple Creek, back sprained. John P. Concanon, Goldfield, cuts. J. Shray, Cripple Creek, badly shaken up.

The wreck occurred at an abandoned station at Culbers Springs, one mile above Cascade in Ute Pass, and the mile iron bridge was broken. The cars were piled north of the track contained 150 passengers and it was by the most miraculous escape that could be imagined that the death list was not enormous.

The second car on the train, a day coach, was crushed to kindling wood, being turned completely over on its end, so that the rest of the coach was forced forward. The third coach plunged clear through the second and it was in the forward end of this car that Mr. English was killed. His neck was caught between the seats and he was strangled before he could reach him. He suffered severe scalp wounds and a fracture of the jaw, and would doubtless have died even had he not been caught and choked. He was coming to Colorado Springs from Cascade to play the organ at St. Stephen's Episcopal Church, where he had been organist for several years.

Car Unset and Injured Nine.

DENVER, Colo., June 29.—Eleven persons were injured, four of them seriously, late last night by the wrecking of a tramway car which was returning to the city from Elitch's Gardens. The injured are: Mrs. F. E. Wessell, 3099 Meade street, concussion of the brain, and neck injured. Mrs. W. F. Rogers, 425 Twenty-fifth street, head cut, shoulders bruised, severely shocked. Fred and Miss A. Lane, E. T. Weathered, at the New Amsterdam; Mrs. J. S. Conner, at the St. Denis. From Salem, Or.—C. E. Murphy, at the Imperial. From Spokane, W. C. Hindman, at the Imperial.

Died From Broken Neck.

NEW YORK, June 29.—Major Ira Shaler died at the Presbyterian Hospital today as a result of injuries received in the Rapid Transit subway, June 17, when a large rock which had been loosened by a blast fell on him and broke his neck.

Tien Tsin Situation.

LONDON, June 29.—In a dispatch from Pekin, the correspondent there of the Times says a meet of the foreign Ministers in Pekin was held last Saturday to discuss the restoration of the Administration of the native city of Tien Tsin to the Chinese and that no decision was arrived at. "I am informed," says the correspondent, "that France will follow Russia's example in leaving Great Britain, Italy, Japan and Germany responsible for the Tien Tsin situation."

Defect in German Budget.

BERLIN, June 29.—The defect in the German Budget for the year 1901 is officially announced to be 40,000 marks. The railway revenue in particular has fallen off. It is stated that the prospects for 1902 are not bright, as decreases are expected in the matricular collections, as well as in railway receipts.

Castro Government in Danger.

COLON, Colombia, June 29.—The French steamer, La France, which has

arrived here from Lagayra and Puerto Cabello, Venezuela, brings reports of much unrest at those ports. The Venezuelan insurgents are said to be in the vicinity of Caracas and the overthrow of the Castro Government is believed to be likely at any moment. There are three foreign warships at Lagayra, two American and one German.

TORONTO AND JERUSALEM

For Sunday School Conventions of 1904 and 1905. DENVER, June 29.—Toronto having been selected as the meeting place of the next triennial convention of the International Sunday School Association in 1906, the world-wide convention in 1904 will be held at Jerusalem. At the last world-wide convention in London in 1894, the executive committee was empowered to select the next meeting place, a preference being expressed for either Toronto or Geneva. A quorum of the members of that committee are here in attendance upon the international convention, and they have already practically agreed to hold the next world-wide convention at the Holy City.

Pope's Present to President.

ROME, June 29.—Bishop of Sioux Falls, S. D., when he returns to the United States, will be the bearer of a letter from the pope to President Roosevelt, and will take with him the pontiff's magnificent gift to the American President, which consists of a view of the City of Rome from the Vatican studio, done in mosaic. The idea of appointing Bishop O'Gorman apostolic delegate to the Philippines appears for the present at least, to have been abandoned, although the first suggestion of his appointment was uttered by the pope himself, when he first received William H. Taft, Civil Governor of the Philippines.

Head Beaten to a Pulp.

DENVER, June 29.—George Meyer, a horse trainer, who has been living in a tent in the bottom near Zaig's brewery, with Cornelius Daley, a peddler, was found dead at noon today with his head beaten to a pulp. Daley is missing, as are Meyer's belongings, and the police are working on the theory that the peddler murdered his companion. Meyer was last seen alive last Thursday.

The Non-Irritating Cathartic

Easy to take, easy to operate—Hood's Pills

Tutt's Pills

Cure All Liver Ills. To those living in malarial districts Tutt's Pills are indispensable, they keep the system in perfect order and are an absolute cure for sick headache, indigestion, malaria, torpid liver, constipation and all bilious diseases.

Tutt's Liver Pills

HAIR NATURALLY ABUNDANT. When it is Free of Dandruff, it Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased grows naturally luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy that germ is Newb's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It stays itching instantly; makes hair glossy and soft as silk. "Destroy the cause you remove the effect"—dandruff.
