ASTORIA, Or., July 1.—The fishing on the Columbia River thus far has been quite satisfactory, and with the run of salmon steadily increasing, as well as the size of the fish, the pack promises to be the largest in several years. The amount put up to date is fully double if not triple the pack at the corresponding time a year ago. Especially is thus true of the fish put up by the cold-storage plants. Early in the season the fish were unusually small, and this fact accounts for a few of the canneries not having as large a pack proportionately as the others, as some of them, particularly Booth's, have very little small-mesh gear in the water. The fish packed have been of excellent quality, fully 90 per cent of them being chinooks, and will command the highest market prices. While it is impossible to obtain exact figures, a carefully prepared estimate shows that the amount put up on the Columbia River thus far this season is about 123,000 cases, figured on the basis of four dozen one-pound cans to the case; besides this, the cold-storage plants have handled about 514 tons of cured fish, equaling 685 tons of raw fish, or 23,000 cases. These figures do not include the steelheads, of which fully 150 tons have been shipped in cold storage. On the upper river, the wheels are making good catches, and the deliveries to the canneries will average 12 to 15 tons per day, while on the lower river all classes of gear are doing fairly well.

Advance in Price of Steelheads.

The price of steelheads has again been advanced by Lindenberger, who is now paying 6 cents per pound. He has been paying 5 cents per pound while all other buyers have been and are still paying 4 cents per pound. This additional raise was unexpected, as the run of steelheads is almost unprecedented for this season of the year.

WARREN REPLIES TO TRESCOTT.

Canneryman Says Latter Was Not a Partner in His Business.

ASTORIA, Or., July 1.—Frank M. Warren has filed his answer in the Circuit Court in the case brought against him and the Trescott Packing Company by C. B. Trescott. In his answer Warren denies the allegation made in the complaint that in 1893, or at any other time, an agreement was made between him and the plaintiff whereby the latter was to receive one-half of the profits of the business. He says, however, that an agreement was made to engage in the buying and selling of sturgeon on the following terms: Warren to advance the money required, which should be repaid to him with 10 per cent interest; Trescott to work for a salary of $100 per month, and if the business was successful and profits over and above the advances, interest on same and losses were made, Trescott was to be allowed some further compensation, to be agreed upon later. The answer admits that Warren organized the Trescott Packing Company, and says that at all times he owned and controlled all its stock, also that Trescott performed services for the company as an employe, but not otherwise. It says that the plaintiff knows the amount of money advanced and the profits of the business. It denies that the profits were large, or that there were any net profits.

As a separate answer Warren alleges that on November 8, 1901, the plaintiff filed a petition in bankruptcy in a New York court, and on March 3, 1902, he was declared a bankrupt by the order of that court and discharged from all debts and claims existing against him at the time his petition was filed. Warren also alleges that at the time the plaintiff filed his petition there was due from him to the Trescott Packing Company the sum of $12,000 on account of business transactions, a claim which he admitted was a just one, incurred while he was an employe of the company. The answer seeks to show that Trescott was an employe, and not a partner of Warren's, and asks that the suit be dismissed.

OUT OF TEACHER'S HANDS.

State Board Makes New Ruling as to Eighth-Grade Examinations.

OLYMPIA, July 1.—The State Board of Education closed its labors today after a session of about 10 days. In addition to preparing the questions for state examinations and granting a number of state and life certificates, the board made some important recommendations. One will have the effect of taking out of the hands of eighth-grade teachers the regular eighth-grade examinations. The board holds that this is the intent of the law, and suggests that County Superintendents appoint for the examination teachers holding the highest grade certificates in the county, provided, that they are not eighth-grade teachers. The State Superintendent will prepare the questions on spelling and reading, and there will be three eighth-grade examinations held during the year, one in midwinter, one in April and one in May, the exact dates to be selected by the State Superintendent. The algebraic and geometrical chapters in the arithmetic will be omitted, and no special examinations will be permitted. Five books for eighth-grade reading circle work were selected, as follows, and the reading of one or more of these is made necessary to the procuring of a certificate of graduation from said grade: "Good Manners" and "Pushing to the Front," by Orison Swett Marden; "Heart," by Edmonde de Amicis; "Greek Heroes," by Charles Kingsley, and "Historic Americans," by Eldridge Brooks.

For the teachers' reading circle work the following books were adopted: "Seeley's History of Education," "Tarr's Geology," "Prang's Art Instruction in Primary Schools," "Gordy's Psychology," "White's School Management," "Swinton's Studies in English Literature," "Nature Study in Elementary Schools," by Mrs. L. L. Wilson.

YEARLING SALMON PLANTED.

Government Marks Them for Experimental Purposes.

OREGON CITY, Or., July 1.—Eighteen yearling chinook salmon have been planted in the Clackamas River by the United States Fish Commission, and have been marked for experimental purposes with copper tags three-eighths of an inch in diameter and fastened to the fish with a copper wire. The fish were from eggs taken at the Clackamas station during the fiscal year 1901, and are approximately 18 months old. Field Superintendent Wisner requests that all cannerymen and others interested in the propagation of salmon keep a close watch for these salmon, in order that the Government may know of the results obtained. For their information the tag number and weight of each fish is given. No. 91 was tagged in the dorsal fin and weighed 6½ pounds; No. 94, 3¼ pounds; No. 99, 6 pounds, and No. 92, 2 pounds, were tagged in the caudal fin; The following were tagged in the lower jaw: No. 78, 7½ pounds; No. 52, 7 pounds; No. 97, 3 pounds; No. 81, 7½ pounds; No. 74, 8 pounds; No. 72, 6½ pounds; No. 59, 5 pounds; No. 95, 2½ pounds; No. 80, 2½ pounds; No. 92, 2½ pounds; No. 60, 7½ pounds; No. 71, 1½ pounds; No. 57, 4 pounds; No. 56, 2 pounds.

MARKLEY MUST PLEAD NOW.

Judge Overrules His Motion for Extension of Time.

SALEM, July 1.—John F. Markley, who was yesterday indicted for the murder of J. D. Fain, at Champoeg, today applied to Judge Burnett for an extension of time to plead until October. His reasons for the extension of time were that he was held to answer by an order made by the Justice of the Peace on June 27, after the June term of the Circuit Court began, and is therefore not compelled to plead or go to trial until next term; that all the regular jurors except four were recently discharged by the Judge, and are not now in attendance upon the court. Judge Burnett overruled the objections and made an order requiring Markley to plead on July 7. Should the case go to trial before October, all the jurors except four must be drawn from the qualified citizens of the county, and not from the regular panel, though those who were on the regular panel might be called by the Sheriff.

The question whether a trial can be had over objections, when part of the regular jurors have been discharged, is an unusual one, but not entirely new. Several years ago all the jurors but one were discharged, and thereafter a criminal case was tried before a jury composed of this one and 11 others who were called by the Sheriff.

STAMP-MILL FOR IDAHO MINE.

Eastern Owners of Silver King Propose to Develop It at Once.

WEISER, Idaho, July 1.—Arrangements are being made by the owners of the Silver King mine, at Warren, to place a 10-stamp mill on their property. Manager Ambrose Stewart and Fred S. Meyers, of Richmond, Va., of the great tobacco firm of Meyer Bros., owners of the mine, are in the city arranging for the mill and for extensive development work at the mine. The mill purchased is on the Iola mine, near Warren, which has not been in operation for some time. It will be removed to the Silver King. A number of buildings will be erected at the mine for boarding and bunk-houses, offices, etc. A 380-foot tunnel, with a six-foot ledge of high-grade ore, is on the property, and a tunnel will be commenced immediately to tap the ledge at a depth of 1200 feet. The ledge grows larger and the grade higher as the shaft is sunk. The Silver King is a wealthy corporation, and proposes to make a mine of its property.

KILLED FILIPINO IN COLD BLOOD.

Spanish War Veteran Gives Himself Up to Ease His Conscience.

SAN JOSE, Cal., July 1.—With a desire to ease his conscience of the crime of a cold-blooded murder, William F. McAllister, a Philippine veteran, has surrendered himself to Chief of Police Kidward. McAllister, who is 30 years old, comes from Wheatland, Ill. He enlisted in the Army during the Spanish-American War and was sent to the Philippines in Company K, Thirteenth United States Infantry. The man claims to have seen much hard service, and finally became hardened and possessed of an insane desire to kill a Filipino single-handed. In 1900, McAllister says he stole away from camp and met three inoffensive Filipinos. He raised his gun to his shoulder and shot one of them dead. On April 1, 1901, McAllister was mustered out of the service. Chief Kidward will hold the man until an investigation can be made.

Raising of Gray Eagle Given Up.

OREGON CITY, July 1.—Work of raising the steamer Gray Eagle, which ran on a rock above Clackamas Rapids last Wednesday evening and was beached on the west side of the river near this city, has been abandoned. It was found after repeated trials that it was almost impossible to raise her by means of pumps. The extent of the damage to her hull is considerable. It is now the intention of the Oregon City Transportation Company to do nothing until after the river falls sufficiently to repair the boat where she is beached.

WALLA WALLA, Wash., July 1.—Two checks for $25,000 each were received here yesterday by President S. B. L. Penrose, of Whitman College, as a gift from D. K. Pearsons, of Chicago. This makes $250,000 Dr. Pearsons has given to Whitman College. This endowment was offered if the first story of the new girls' dormitory at Whitman were completed by June 1, and the officials managed to meet the requirement.

MEETINGS FOR TEACHERS

SUPERINTENDENTS PLAN A CIRCUIT OF INSTITUTES.

Several Counties Will Co-Operate and Engage Some Noted Eastern Educator to Lecture.

SALEM, July 1.—A number of the Western Oregon County Superintendents of Public Instruction are planning a circuit of county teachers' institutes, by which they may be able to secure lectures from educators more widely known than those who usually participate in such educational meetings in this state. Marion, Linn, Polk, Yamhill, Benton and Jackson Counties are already interested in the movement. It is proposed to arrange the dates of the institutes in these counties so that they will follow in close succession. Then some prominent institute worker in the East will be employed to make the circuit of all the counties participating in the "union."

One of the great difficulties encountered by County Superintendents in arranging for the annual gatherings of teachers is that the funds available for institute purposes will not permit the employment of lecturers of National reputation. The amount that one county can pay will not induce the most successful lecturers to come to the Coast.

The reason for the co-operation of the County Superintendents is much the same as that which led the managers of the Pacific Coast fairs to arrange dates following in such succession that desirable attractions could be seen at all the fairs in one season.

There is also a project on foot for the holding of a joint institute between Marion and Polk Counties, and this plan will be carried out if it meets the approval of the teachers of Polk County. If any objections are made, the institute must be held in each county, but it is believed that since the joint expenditure of institute funds would make the meeting much more successful, the Polk County teachers will favor the idea of meeting at Salem.

GUN ACCIDENTALLY DISCHARGED.

Two Indian Children Dead and a Third Seriously Injured.

NEW WESTMINSTER, B. C., July 1.—Two Indian children are dead and a third is seriously injured from a rifle accident which occurred last night. Two Indian boys began wrestling for the possession of a rifle outside one of the tents on the reservation at Albert Crescent. In the scuffle they discharged the rifle. The bullet went through a tent near-by, which was occupied by an Indian woman and children. One child, a boy of 6, was instantly killed, the bullet passing through his body and entering the head of another child, who died about 15 minutes later from the wound. The fatal course of the leaden missile was not stayed, however, and a third child received the bullet in the shoulder, and, after passing through her chest, it struck a squaw in the face, inflicting a slight injury.

CONDEMNED MAN NERVOUS.

Murderer Schieve Will Be Hanged at Noon Today.

ST. HELENS, July 1.—August Schieve, the murderer of Joseph Shulkowski, who is to be hanged at noon tomorrow, was somewhat nervous this afternoon, for the first time since he has received his sentence. However, he still makes an attempt to appear cheerful. Previous to this afternoon he had not shown the least indication of weakness, and has at times made jocose remarks about the coming execution. It is expected that the county authorities will take charge of the body after the execution and bury it in the pauper plot in the Germany Hill cemetery, as Schieve's relatives have not expressed any desire to attend to the interment of their convicted relative after death shall have taken place.

L. F. Mascher, Silverton, 20,000 pounds at 12 cents.

WELL-KNOWN PIONEER OF LANE COUNTY

The Late Mrs. Andrew McCornack.

EUGENE, July 1.—Mrs. Andrew McCornack, who died here yesterday, was one of the best-known pioneer women in this section. She moved to Lane County in 1858 from Olympia, Wash., where she had come five years before with her husband from the East. She was born January 7, 1824, near Londonderry, Ireland, where she spent her childhood. She moved to America in 1849 with her parents, and settled on a farm near Elgin, Ill., where, two years later, she was married to Andrew McCornack. In 1853 they crossed the plains to the Pacific Coast, settling near Olympia, Wash., and in 1858 moved to Lane County, where they settled upon a farm and prospered. Mr. McCornack died in 1872, and the widow removed to Eugene, to have better facilities for educating her children. She was the mother of 12 children, all of whom are living, as follows: W. R. McCornack, of Florence; E. A. McCornack, of Eugene; Dr. W. A. McCornack, of Mendocino, Cal.; E. P. McCornack, of Salem; Dr. H. F. McCornack, Mrs. J. G. Stevenson, Mrs. C. M. She was twice married, once in the old country, where her husband died, leaving to her care seven small children. In 1834 she emigrated to the United States, where she married George Willis the same Fall. Three children were the fruits of this union, all of whom are living. Mrs. Willis had an excellent memory, and remembered distinctly the homecoming of her father from the battle of Waterloo. Mr. and Mrs. Willis came to Oregon in 1862, settling in McMinnville.

CONVICTS SHOW UP AGAIN

TRACY AND MERRILL APPEAR AT STATION NEAR TENINO.

New Bloodhounds Are Now on Their Trail—Pierce County Sheriff Joins Posse.

OLYMPIA, Wash., July 1.—Late this afternoon Sheriff Mills received a telephone message that Convicts Tracy and Merrill had been seen at Rainier, a station a few miles from Tenino on the road to Tacoma. The Sheriff left immediately to join the other members of the posse. The two dogs brought over from Ellensburg a few days ago will now have their first fair chance to show what they can do. Heretofore they have unfortunately been at too great a distance from the point where the convicts' trail was discovered. They are right on the ground now, and important developments are expected. Messages were sent to Tacoma, and a Pierce County posse took the field tonight to head off the fugitives.

Pierce County Sheriff Starts Out.

TACOMA, July 1.—Sheriff John Hartman, of Pierce County, left Tacoma this morning to join in the hunt for Tracy and Merrill. He took one or two men with him, and has arranged for other men to join him further south, in addition to the five men who left Tacoma with Deputy Sheriff Johnson yesterday. Deputy Sheriff Webb, at Wilkeson, and officers in other towns of Pierce County have been reinforced and are guarding public highways and bridges.

FROM SUPERINTENDENT LEE.

Tracy and Merrill Were Never Flogged at the Penitentiary.

SALEM, July 1.—(To the Editor.)—On the strength of a story that Tracy and Merrill has been severely whipped, some newspapers and correspondents have read very caustic lectures to the prison management.

As an answer to all of them, allow me to say that neither Tracy nor Merrill was ever struck by a lash of any kind, whip or rod, not even by a Brockway spanker.

Other stories, quite as startling, but equally unfounded, are in circulation. The man who should attempt to review and refute them would find himself confronted by a Sisyphean task. I shall not attempt it. At the proper time a calm and complete vindication of our management can be presented to the public.

FINANCES OF OREGON.

State Treasurer Issues His Semi-Annual Statement.

SALEM, Or., July 1.—The semiannual statement of the Treasury Department, issued by State Treasurer C. S. Moore, today, shows for the six months ending June 30, receipts aggregating $1,203,227 37, as compared with $1,108,560 14 for the corresponding period last year. This increase of $105,000 in the income is due to heavy gains in the receipts for sales of school land and interest on loans and deferred payments. The disbursements for the six months were $762,269 32, as compared with $968,185 43 for the first half of 1901. The decrease of $190,000 is due in part to decreases in the following items:

General fund	$29,000
School fund principal	22,000
Scalp bounties	80,000

The latter disbursement last year was merely a transfer, so the decrease in disbursements is practically $150,000. The balance on hand July 1, 1902, is $1,269,267 70, as compared with $1,094,938 71 on July 1, 1901, showing an increase in the treasury of $174,328 99.
