Says Roosevelt Is "Bluffing" in Fight on Trusts.

BUT THEY DON'T THINK SO

Democratic Chairman Finds One of His Expected Issues Gone-Sale of Fort Hall Lands Will Be at Poentello Instead of Blackfoot.

WASHINGTON, July &-A shrewd Republican long ago declared that the Demcrets could not make an issue on the subject of trusts, as the Republicans would oppose the unlawful combination of capital as vigorously as the Democrats; there fore there could be no contest on that point. That this assertion is true is made evident by the wati that Chetrman Griggs, of the Democratic Congressional campaign committee, issued today, in which he criticises the President for not insisting upon anti-trust legislation while Congress was in session, and for delivering his message on the subject after Congress had adjourned. He declared that the Republican movement against trusts is merely a bluff, and will not amount to anything. It is rather an amusing condition that the President is criticised by the Democrats as either doing nothing or "bluffing," while certain Republicans who are very much interested in the trusts and large combinations are quite severe on the President for taking the firm stand he has against the trusts, not only in his public utterances, but through his Ad-

#### ARIZONA WILL ACT ON TIP. Likely to Go Republican to Hasten

Admission as State. WASHINGTON, July 8,-Delegate Mark Smith, of Arizona, announces that he will not be a candidate for re-election, but that he will do all in his power to elect a Republican from that territory. Smith is, a very popular man in Arizona and is generally elected when he is a candidate. It is quite probable he has taken a tip from some Arizona people who are anxious to see the territory admitted, and decided not to run, in order that Arizona may go Republican this Fall, and increase her chances of admission as a state in the omnibus bill pending in the Senate, If Arizona should join the other two territories in the Republican column, it would make admission of the three almost cer-

#### IS IT AN EPIDEMIC?

Increase in an Already Prevailing Disease-Are Any Exempt?

At no time in the history of disease has there been such an alarming increase in the number of cases of any particular malady as in that of kidney and bladder troubles now preying upon the people of this country.

Today we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of their serious illness or sudden death, caused by that fatal type of kidney trouble-Bright's disease.

Kidney trouble often becomes ad-vanced into acute stages before the af-flicted is aware of its presence; that is why we read of so many sudden deaths of prominent business and professional men, physicians and others. They have

men, physicans and others, they have neglected to stop the leak in time. While scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the chances of contracting dreaded and dangerous kidney trouble, or eradicate it completely from their system if already afflicted. Many precious lives might have been, and nany more can yet be saved, by paying attention to the kidneys.

It is the mission of The Oregonian to

benefit its readers at every opportunity, and therefore we advise all who have any symptoms of kidney or bladder trouble to write today to Dr. Kilmer & Co., Bing-hamton, N. Y., for a free sample bottle of Swamp-Root, the celebrated specific which is having such a great demand and remarkable success in the cure of the most distressing kidney and bladder troubles. With the sample bottle of Swamp-Root will also be sent free a pamphlet and treatise of valuable information. Iown Rivers Higher Than They Have Been for Years.
