

MAY BE ARBITRATED

Freighthandlers Anxious to End Their Strike.

HAVE SMALL CHANCE TO WIN

Chicago Business Men Take a Hand in Settling the Trouble—Roads Will Be Approached Today.

CHICAGO, July 10.—Business men of this city took an active part in a meeting to settle the strike of the freighthandlers today, and at midnight, although no agreement has been reached, some little progress has been made.

It is generally conceded that the freight-handlers have but a small chance to win the strike, unless they have the support of the business men.

The determination of the business men to endeavor to secure a settlement of the strike was taken when it was certain that the freighthandlers would not agree to the terms of the roads, submitted the night before, and when symptoms of the appearance of a general strike among the teamsters' union, nearly 400 of the latter refused to go on with their work when they heard that the freighthandlers had decided to continue the strike.

The Illinois Central and the Wisconsin Central Railroads made agreements with their men and the freighthandlers agreed upon which the freighthandlers said was satisfactory to them.

At a meeting of the teamsters employed by the Dixon Transfer Company, the intriguing teaming company, held last night, the men decided that if the strike should not be settled by 10 o'clock tomorrow morning they would leave their places at 12 o'clock.

Members of the Federation of Labor called on Mayor Harrison during the afternoon and intimated that they would refuse to order a sympathetic strike in aid of the freighthandlers.

Managers of other roads assumed positions similar to that taken by the Lake Shore. The hiring of new men will proceed with greater vigor than ever, and a possible movement of prosecuting them will be taken.

The defection of hundreds of teamsters today and the probability of sympathetic action on their part will make a difference in the attitude of the railroads, the managers declare.

Managers of other roads assumed positions similar to that taken by the Lake Shore. The hiring of new men will proceed with greater vigor than ever, and a possible movement of prosecuting them will be taken.
