Gates' Crowd Will Probably Lose on Corner.

RECEIPTS CONTINUE LARGE

Wheat Rules Firm Under Light Offerings and Good Buying From the Northwest, Where Weather Damage Is Feared.

CHICAGO, July 17 .- The trade in the cor pit was all at sea at the opening of business muse of the attitude of the Gates party. Bids were made by the bulls openly at 67%c, and as a result the shorts began to gossip over the possibility that the tale of the broken cornor was only a ruse, and that another equeeze in store for them. At once a demand rose in both July and September, and prices imped accordingly. July, from an opening %81%c higher, at 66067%c, soured to 69c. About this time the crowd came to the conclusion that Gates was simply bidding up the price in order to get rid of the large quantity f expensive corn that he had been forced to take on deliveries. The demand fell off, and forthwith the price of July fell back with a thump to a weak close, %c lower than yester-day, at 65%. Trade was not large. Probably 150,000 bushels became a conservative estimate of the amount unloaded in July. July seemed n tap at all times on the hard spots, but September was offered sparingly, parily because of firm cables. Despite the fact that the bull party in July had a tremendous quantity of cash stuff to get rid of, the story goes that its avy short line in September may yet bring a corner clique to grief. Much of the demand tract stuff being on hand today. September as strong all day, closing firm, 14c up, at

In the face of a good array of bearish news, heat ruled very firm. The weather was al-nost perfect, save in the Northwest, where hot eather in the wheat belt, which is approaching the milky state, threatened the Spring sent. Arrivals were much larger than ex-cted, cables were lower, and statistical jour-is issued bearish reports. Offerings were anty, however. There was a good demand ont the Northwest, where some damage had on done by the cyclones. The corn strength le lower, at 714671%c, at once advanced [2c. Liberal selling by commission houses estimates of 210 cars for tomorrow put the price back again temporarily, but when \$1 cars were reported taken for export at the semboard the buying started on a fair scale again, and September closer firm, %c up, at 72072%c. Outs ruled strong on scarcity of offerings and the very light movement to this market. September closed ac up, at 1254c.

PORTLAND MARKETS.

Grain. Flour, Etc. There is not enough life in the flour trade at present to bring millers into the market for wheat, and accordingly the exporters are the only ones to make the price, when any is offering. A few small lots have changed hands within the just two days at prices ranging from 645,6755c, the latter figure being paid for a small tot of Walla Walla yesterday. Bluestem is performed by the higher, but will command more for milling purposes when it is wanted. Freights are unchanged, with plenty of early tonnage offering at 27s 66, with 28s 94 asked for later leading.

for later loading.

Butter and eggs show no change, but liberal receipts of chickens have caused a pause in buying, although they can hardly be termed weak, as a good demand for the Saturday trade will clean the market up again. Ducks packed the contract of the country of the packed contract of the country of the packed contract of the country of the packed contract of the country of

STOCKS ARE MORE ACTIVE

DESIRE TO TAKE PROFITS A BAR-RIER TO ANY GREAT PROGRESS.

Western Contingent in Corn Returns and Makes Its Presence Known -Call Money Easier.

NEW YORK, July 17.—The aggregate sals of tooks today shows a further increase in the roume of dealings, which fairly crossed the in the nesse that a large number of different securities were dealt in, and the trading was also better distributed among the few stocks in which the principal activity was centered. The same preference was shown for the low-priced stocks today, with the exception of a speculative incursion into the trunk lines and Vandertills. One attempt was made to bring the speculation back into the high-priced Western railroads, but it will be observed that the de-sire to take profits on the considerable ad-vance which those stocks have had was still too easier to allow much upward progress. The United States Steel stock renewed the struggle vance which those stocks have had was still too eager to allow much upward progress. The United States Steel stock renewed the struggle to advance, but again met heavy fales at every stage. Some of yesterday's conspicuous low-priced stocks were actually affected by profit-taking. This was notably true of the Chicago & Alton stocks. The evidence of profit-taking in those, and the sudden relapse of over 2 points in Colorado Fuel, after a 4-point advance, had a decidedly chilling effect and put a sudden stop to the activity of the market, a sudden stop to the activity of the market. leaving it at a level which fairly averaged be-low last night. The opening advance in Colo-rado & Southern and Kansas City Southern was attributed to the same forces as was the Chicago & Alton movement yesterday.

the return of the Western contingent from the corn market to the stock market. The tone of doubt and hesitation shown in the market for the July corn option at Chicago was taken as a warning for possible speculative surprises. The check thus brought about to the animation of the market was changed again by the heavy demand developed for the Reading stocks and the coalers. This demand was hased upon the assumption that the coal miners' convention will decide against a general strike. Late in the day Chesapeake & Ohlo renewed its strong advance to the extent of 2½ without checking the selling to realize at other points, and making the closing irregular.

Although there was supposed to have been an extensive speculation upon the unknown

an extensive speculation upon the unknown chances of the Amaigamated dividend, the declaration of the unchanged rate failed to arouse that stock from the temper in which it rested all day. The day's activity evidently paign for a rise, which was based today upon the absence of any unfavorable factors, rather

was a diminution of pressure from the interior for currency. Sterling exchange maintained its firm tone, and time loans are strongly held. Bends were active and firm. Total sales, \$4.031,000. United State refunding 2s and the old is declined in per cent on the last call.

Closing Stock Quotations.

PRESSURE OF THE AIR. Raises the Water on the Shores of Lake Michigan.

CHICAGO, July 17.-A ph known to Geneva and other Swiss lakes CLEVELAND, July 17 .- The Iron Trade Reanown to ceneva and other swiss as a "seiche" has made its appearance at Lake Michigan. In a queer convuision, the lake sent a big wave landward, and residents along the shore suddenly found the water lapping at their doorsteps. All view, in its current issue, has this to say of market conditions:

There has been heavy buying of pig iron in the Chicago district in the past week, a total of 100,000 tons being reported, including two transactions for 1002 defivery, one for malieable and the other for foundry iron, which together amounted to over 50,000 tons.

The Alahama coalminers' strike has been settled, the men voting to return to work Monday on the basis of the oid scale, which provided for a 850 maximum. The dny wages of skilled workmen, however, are increased. Of the 50 Alahama furnaces on the active list, 13 were hanked because of the strike, and sonio of these will not resume until toward the end of the month. Many of the miners have not yet returned to work, and it will be next week before the mines are running as before. The pig iron production of July in Alabama, it is estimated, will fall off about 38 per cent, or 8000 tons, from that of June. along the lake front the waves swept up over the breakwaters or over the beach. Steamers were tossed about at their docks, smaller craft were thrown on the shore, boats were broken, and in several instances loss of life was narrawly averted. Two boys bathing north of Lincoln Park were saved after they had been carried out by the receding wave. A fisher man was rescued by the Evanston life-eaving crew, and another bather, an Evanston boy, was pulled out of the water as he was in danger of being

drowned.
At the Weather Bureau the barometer Indicated a sudden high pressure, followed by an equally sudden drop. A wave of Sales of Southern iron for 1903 delivery continue to be made, but some producers in that section are not yet ready to do business for next year. Cincinnati reports 40,000 tons closed furnace prices, ranging from \$16 50 to \$17 for No. 2 foundry. At Fittaburg sales of 20,000 tons of foundry iron have been made in the week for next year. The troubles of the Northern furnaces busined because of coal strikes continue, and in the Central West some stocks that have been operated steadily of lute are now in doubt from day to day how long they can keep going. heavy atmospheric pressure passed over the city, and as it struck the lake, mov-ing from west to cast, the water was nushed back and dashed up over the land

Saddlery Men's Convention.

CLEVELAND, July 17 .- At yesterday's meeting of the Saddlery Men's convention, the list of those who can buy goods from With all the hindrances, the production of iron keeps up at a surprising rate, the active furnaces, July 1. having a reported capacity of 352,580 tons, which is the high record. The uncertainty of supplies of raw material makes the immediate future a problem both for furnaces and foundries. The latter are having increasing difficulty in getting iron under contract, and it is certain that not a little iron bought for this year will not be delivered until after January 15. the manufacturers was made out. T It includes about 175 names. Later the jobbers discussed the questions of admit-ting manufacturers of patent leather goods to the association, freight rates and the making of wooden hames for harness.

To Aid Cuban Industries. HAVANA, July 17.—The Senate has ap-pointed a committee to decide whether the agricultural and cattle industries in Cuba need assistance, and if so to recommend means to aid them. A loan of \$4,000,000 to assist the canegrowers is proposed, and it is also suggested that a bounty of \$5 be paid for each cow imported into the
