

USE OF STRIKE FUND

Matter Still Unsettled by Miners' Convention.

LEFT TO A SPECIAL COMMITTEE

Mitchell Opposes Suggestion That All Striking Miners Be Treated Equally May Be Determined Today.

INDIANAPOLIS, July 18.—At the conclusion of a secret session which lasted the entire afternoon, the executive committee of President Mitchell for the management of the anthracite strike were referred to a special committee, which is to report back to the convention when it convenes tomorrow morning.

At the opening of the executive session Vice-President Lewis took the floor and delivered an energetic speech on the amendment offered by Delegate Haskins in the morning to the effect that the fund to be raised for the benefit of the anthracite miners be extended to all striking miners where their strike had been sanctioned by the general organization.

President Mitchell then took the floor to urge the adoption of the resolutions made in his speech yesterday. He told the convention that the strikers in West Virginia and elsewhere were being protected by the general organization.

Mr. Mitchell assured the convention that the strike in the Pittsburgh district and all other strikes would be looked after without splitting up the funds for the anthracite men, and again urged the men to disband from their minds all thought of a general strike.

His remarks were greeted with enthusiastic cheers. A vote was taken on the Haskins amendment and it was voted down by a decisive majority. This left before the convention the original motion for the adoption of the recommendations of the president.

At the conclusion of the session Secretary Wilson said: "It will cost \$500,000 weekly to support all the men now on strike in the various districts. An assessment of \$1 per week will bring in \$250,000 per week. This will leave us \$250,000 to raise each week from outside sources, and in the premises and offers that have been made we are confident that we will be able to do this."

Opposition to General Strike. This morning, when the convention opened, the sentiment among the delegates was fully as strong as ever against a strike, and the recommendations of a strike committee that there was no chance of a walk-out. They were hopeless last night when a majority of their own men were opposed to a strike, and the morning meeting of the convention determined to stand as a unit by the recommendations of President Mitchell.

Several long speeches which were not to the point under discussion provoked a motion that all speeches be limited to five minutes. Delegate Fitzpatrick, who made the remarkable speech yesterday, shouted from the gallery: "Oh, if I could only have a million dollars, I would have paid for the floor to be raised to recognize Mr. Fitzpatrick, but the latter replied, in a disgusted tone: "Oh, I don't want the floor; what is the use?"

ANTLERS OF TWO DEER FOUND INTERLOCKED

LAKEVIEW, July 18.—Wade Sander, while out hunting last week near the "T" ranch, at the foot of Stein's Mountain, found the dead carcasses of two deer that had met in mortal combat, their antlers having become locked in the desperate struggle. The animals had evidently been dead several weeks, and the underbrush was beaten down for rods around, telling of the long, but hopeless, struggle they had made to free each other before starvation and death conquered both.

Clark, of New York, a son of Mrs. Alfred Corning Clark, is emphatically denied by the authorities of President Roosevelt, who has not even a personal acquaintance with Lieutenant Clark.

QUENCHING AN OIL FIRE

NOVEL PLAN TO BE EMPLOYED AT JENNINGS.

Huge Cone Will Be Dropped Over the Burning Well and Filled With Water and Steam.

JENNINGS, La., July 18.—Little progress has been made toward extinguishing the fire at the Jennings well, and it continues to burn with all the fury it did last Tuesday night. A new plan for quenching the flames will soon be tried, however. Two derricks are being erected on either side of the fire, and will be connected to the cable and slid along directly over the well. By means of a trap wire, the cone will be dropped over the fire, falling from a great height, to bury itself in the ground and overcome the gas pressure of the well. By permitting it to escape from this cone, it is hoped to check the pressure by permitting it to escape from this vent. The boilers will then be connected and a stream of water and steam will be turned on, which will flood the inclosure, and the oil and water will run out of the drain ditches that have been prepared. Chemicals will be turned on the flames to conquer them.

Dismissed From Indian Schools. PHOENIX, Ariz., July 18.—Some weeks ago orders were issued by the Indian Bureau of the Interior Department that all pupils of Indian schools having Mexican blood in their veins be sent home. This will affect very largely the schools at Phoenix, Tucson and in New Mexico. Pursuant to the order, over 10 have been dismissed from the Phoenix school, which has an enrollment of about 700 and a regular attendance of probably 600. Others may be sent home, as it is difficult in many cases to distinguish between those of mixed blood and natives. Their presence in the schools is accounted for in two ways. Some were born on reservations, but more perhaps were town residents, having a large proportion of Indian blood.

Filing of Affidavits and Counter-Affidavits at Quebec. QUEBEC, July 18.—Today's proceedings in the Gaynor-Greene case consisted principally of the filing of affidavits and counter-affidavits, and it was only a short time before the adjournment of the court. Mr. Erwin, who is representing the plaintiff, commenced his argument on his motions to quash the habeas corpus writ issued by Judge Caron June 29 and 30 last.

The proceedings were opened by Mr. Taché, who counseled for the prisoner, who produced affidavits of Benjamin Greene to the effect that May 11 Mr. Erwin called on him at the Windsor Hotel, Montreal, when Erwin said to him: "If you will go with me to the States, I will give you \$100,000. I will go at once to Washington and advise his acceptance." Greene replied that he could not stand that, because he had not money enough to return to the States. Mr. Erwin said: "Greene has enough. I do not know where it is, but he has it."
