### BURGLARS' SMALL HAUL. but His Sack Was Downtown.

Fastidious burglars broke into Mr. Bondurant's house, 181 Thirteenth street, yes-terday morning about 2 o'clock, and after sampling the various articles they came across, walked off with \$7, after leaving the plunder they discarded at the rear of the Dekum house, on the other side of Yamhili street. Edward Shleids, the pro-prietor of Shleids' Park, lives with Mr. Bondurant, and the police have reason to believe that the robbers tracked Mr. Shields home and afterward entered the rooms in the hope that they would somehow run across the "sack" containing the drawings of the performances at Shields' Park. But luck was against them, as it is Mr. Shields' invariable practice to deposit his mammoth drawings in a downtown safe every night before he goes home. After this, however, he will be guarded on the way home by his dog, which will attend to all marauders. Mr. and Mrs. Bondurant were asleep when the burgiars came through the window, which had been left open on account of the heat, and the robbers picked up a gold nugget, valued at \$17, several articles of clothing, a watch bonds of \$25 for his appearance at court when wanted. But when the case was called for trial Cooper had gone to Baker City.

Special Brack Tropper 155 will our special brack they made, and she observed sight noise they made, and she observed one midnight visitor in the act of making

"Burgiars," she whispered, shaking her husband. The latter hurriedly dressed and went out to take a view of the burgiars, but by this time they had disappeared. Just then a report was heard as if some one was firing a revolver. Officer Branch was found, and on being told of the robborhood and found the gold nugget, the clothing and the stolen t of the Dekum house. But the \$7 in money was gone.

### FUNERAL OF EZRA ST. JOHN Odd Fellow for 53 Years and Prominent Builder Laid to Rest.

The funeral services of Egra St. John who died in Portland July 17, were held yesterday afternoon from the First Christian Church. Interment was held in Riv-erview cemetery. He had been an Odd Fellow for over 53 years. He joined Jefferson Lodge, No. 9, at La Fayette, La., June 14, 1849, withdrawing therefrom Au-gust 23, 1849, to go to California. He became a member of California Lodge, No. 1, of San Francisco, in October, 1848, and a l, of San Francisco, in October, 1848, and a charter member of Yerba Buena Lodge, No. 15, in the same city, in July, 1852, becoming its first vice-grand, and noble grand the following term. Removing to Oregon, he became a member of Samaritan Lodge, No. 2, of Portland, in August, 1858, and held continuous membership therein until his death. He was elected grand warden of the Grand Lodge in 1859; deputy grand master in 1860, and grand master in grand master in 1860, and grand master in

son Encampment, No. I. I. O. O. F., of this city, January 24, 1859, and remained an active member in that branch of Odd Pellowship until the day of his death, holding all offices in the subordinate encampments of the state, always performing his duties in the several positions to which he assigned in a satisfactory manner.

Mr. St. John was one of the pioneer

builders and contractors of Portland, and during the 30 years that he was engaged in business he supervised the construction of some of the finest residences and buildings in the earlier days. Among the struc-tures which were built under his direction were the old First Presbyterian Church, at the northwest corner of Third and Washington streets, where the Canterbury building now stands, and the residences of Henry Falling, H. W. Corbett, C. H. Lewis, George H. Flanders and Joseph N. Dolph, Nearly 12 years ago Mr. St. John retired from active business and devoted much of his time to Odd Fellowship and the management of the standard of the proposed standard of the standard lowship and the management of the Odd

CONSUMERS IN HIGH SERVICE DIS-TRICT ON EAST SIDE COMPLAIN.

Water Committee Will Lay a Mile of 20-Inch Pipe, but That Helps Little Now.

There is much complaint by residents of Sunnyside, Irvington and other portions of the high-water service on the East Side on account of shortage of water at this It may be said that the water plying the high service with an abundance of water. A 20-inch water-pipe has been ordered to be laid on Marguerite avenue through Sunnyside to East Stark street, thence to East Twenty-eighth street and on East Twenty-eighth street to about Oregon street. One mile of this pipe has been ordered laid for the present. Work will start on this pipe line as soon as the 14-inch main now being laid on East First street is completed. This on East First street is completed. This latter main will likely be completed this week. While but one mile of this 20-inch main is to be laid at present, it will finally be continued to Russell street and Union avenue, and further when required. The pipe for the main is being manufactured at the Oswego Iron Works, and will probably be delivered the latter part of this month.

While this main may not afford much relief for Irvington, it will improve all the higher service to a great extent. It will relieve all of Sunnyside and the district at least north to Sullivan's Guich, improve the service through Central East Portland and incidentally improve the service north

of the gulch. The growth of the East Side is indi-cated in the great demand for water mains in every direction. The demand is much greater than can be supplied. With labor agitation out of the way, building operations have been resumed, and the remainder of the year promises to make up to some extent the losses in the first half.

Carrier Makes Prompt Delivery. The improved mail service in the free-lelivery district at Mount Tabor is appreciated by the residents. Since the carrier was supplied with a horse and cart, which were furnished last week, he has been able to cover much more territory and make more prompt delivery. He tankes one complete delivery per day.

While it may be some time before an-

other carrier will be given the district, it will probably come after a time. Mail comes out there twice a day, but the carrier makes one round a day. One of the inspectors says that there should be two deliveries daily. But the people will not complain very much over the present service, which is very satisfactory.

#### MAN VERSUS WOMAN. What Is Finery Put on for, Unless

It Is to Be Admired?

HILLSBORO, Or., July 18.—(To the Ed-itor.)—Mrs. W. H. Barry, armed with a question mark and a scatter gun, does some execution in your issue of the 18th inst. And why not hit something when there is so much game to shoot at, in sizes from a microbe to a mastodon? The faults and peculiarities of mere men are fired at at random and unavoidably hit on account of numbers.

Would that there were some superior beings on earth to expound the case of man vs. woman and show for what they are already suffering and will suffer for. The preponderance of males at the Poor Farm as accounted for by the editor is the source of all this affection for said ed-itor, who, with the scales removed from his eyes, beholds the truth blazing like the noonday sun. The rest of the affec-tion is probably intended for others. Prob-ably if the editor had said females preferred working and starving and suffer-ing to support some lazy brute of a male rather than go to the almshouse as a reason for their absence, there might be missiles other than bouquets flying around his head. It is possible, too, that females prefer the madhouse to the poor farm. As to silliness, we doubt if any editor in his most reckless moods would grant females any monopoly in that. A male with the latest brand of that commodity can hypnotize all females within range of his deadly influence. The best education of two continents will avail nothing against it and consigns its owner to a sit down way back with the wall-flower and has-beens.

Suppose we term our so-called under-standing of art as expressed in pictures of nude females as a yearning for the natural, that almost forgotten element. Whatever it is, it saves redaubing the canvas every turn of the moon with new plumage, the latest creations and crazes, in order to be up to date. The clothes rack don't change like the clothes, so let us have the rack-the tangible reality. But then there are male clothes racks,

In the new order of things, are females to spend everything they make, or can get from their husbands, on dress and finery and not to be observed and ad-mired as they pass by males? Such wasted effort is appailing to think of. But there may be an ecstacy in wearing a delirium of paraphernalia. We don't know, poor fools.

The writer has no quarrel with any one, and he rejoices that such momentous questions are discussed, as it gives light artillery a chance to do its part.

### WHY NOT PAY REWARD?

Plea in Behalf of Mrs. Waggoner,

PORTLAND, Or., July 20 .- (To the Editor.)-I have been waiting for some one to take up the cause of Mrs. Waggoner, the discoverer of Convict Merrili's body. The terms of settlement tendered by Superintendent J. D. Lee, of the penten-tiary, are an insult to Mrs. Waggoner and the people of Oregon and worthy of pro-test. The escape of the convicts was un-fortunate and the people have been generous in withholding criticism. It is, how-ever, too bad that Mrs. Waggoner must apply for the reward to the man upon whom the onus for these escapes falls, Naturally, his wish is to minimize the expense of his mistakes.

I believe that I voice the sentiment of the majority of the people of Oregon when I say that she is entitled to the full \$1500, less costs for returning body. I have not heard one expression to the contrary. If the reward is ignored in one case it may be in another (especially if a woman should return Tracy), and the example in the Merrill case must be discouraging to the members of the posses now after Trucy, Suppose Tracy should be killed while in a boat, and his body lost in Puget Sound, will his slayer receive any reward?

Why was the reward offered? Not for why was the reward offered? Not for death; that is inadequate. Capture alone is insufficient, but the great requirement and the purpose of the capture and re-ward is the return to Salem. Yea, return -return dead or alive-but return. Why return? Because Oregon must convince her prisoners that none can murder their legal guards and escape swift punishment, and because the graves at Salem of Merrill now and of Tracy later will always be mute but decisive proof that in Oregon law and order are supreme, even over murderous convicts. Hence the value to the state of the return of either Merrill or Tracy is above computation in dollars and cents. Oregon must be above suspicion of diabonesty by quibbling over a word. We all know that the object sought was the return of the convicts, dead or alive, and as Mrs. Waggoner has returned Merrill's body, she is entitled to the re-ward. It is hoped that Governor Geer, in good judgment, will take a broader view than that of Mr. Lee and see that no doubt exists that right and justice shall prevail in this case by ordering the payment to Mrs. Waggoner of the full amount of the

### Planos for Particular People-An Ideal Plan.

Some people want "the best at any price." To such we would commend for their thoughtful consideration and recommend in the highest terms the renowned Chickering plano. The most extravagant words of praise could not do justice to this superb instrument. It is a plano that will last a lifetime, and while it is a little more expensive than most planos, the extra satisfaction that it gives will far more than compensate for the additional cost.

Those who cannot afford to pay so much for a plano and who still desire the best, will be interested in the liberal terms that we make on the Hobart M. Cable planos. We will allow you to take your choice of our extensive line of these beautiful instruments, pay us \$10.00 down and \$5.00 per month. Or, if you wish to test the plano to prove that all we claim for it and more is true, we will allow you to rent any new plano, pay us the cartage and \$4.00 a month. After a time, if you are satisfied with your instrument, you may retain it, and we will allow you on its purchase price all you have paid us for cartage and rent. If you are dissatisfied with it, you may return it at any time, and all you will be out is the rent, \$4.00 a month and cartage, and even then your payments may apply toward any other plano you may desire. This is an ideal plan for those who cannot afford or do not wish to make a cash purchase. Eliers Piano House, \$51 Washington street, opposite Contravys Theater.

HAIR WON'T FALL OUT If You Kill the Dandruff Germs With

the New Treatment.

John N. Fuller, a well-known citizen of Colfax, Wash., says: "I had dandruff so badly that it caked on my scalp. Her-pickie completely cured me." George H. McWhirk, of Walla Walla, Wash., says: "Herpicide completely cured me of a bad case of dandruff of 30 years' standing." They took the only really sensible treatment, a remedy that destroys the dan-druff germ-Newbro's Herpicide. Stop dandruff, hair won't fall out, but will grow naturally, luxuriantly. Allays itch-ing instantly and makes hair glossy and soft as silk. At druggists. One bottle will convince any doubter of its merits.
