to Ellis Gray, president of the local union, 56 goldbeaters and 40 apprentices are on strike. The tie-up is said to be complete everywhere. There are about 400 goldbeat-ers in the United States, and all are members of the union. They demand the dis-charge of the women employed as mold-fillers who, Mr. Gray says, do the work at the rate of 18 cents, for which the gold-beaters formerly received 90 cents. The beaters, he claims, can only earn \$12 to \$15 a week.

Warrants for Union Miners.

CHARLEBTON, W. Va., July 21.-Upon the application of the Collins Colliery, Federal Judge Kelly today issued attachments for the arrest of John Bichards, president of district No. 17, United Mine-worker of America, and 65 other union miners who participated in meetingz held near their mine. Complaint was made against a meeting July 17 as in violation of the injunction issued in the suit against National Secretary, Wilson, "Mother" Jones and others.

Glovemakers Win a Victory. CHICAGO, July 21.-After a strike of nearly two months' duration, 1000 mer and girls employed in the glove factorics of this city returned to work today. Pres-ident P. H. Secretary Hoot's Glowing Tribute to

the General. WASHINGTON, July 21 -- Secretary Root nnounces the retirement of General

Brooke today as follows: "War Department, July 21, 1902 .-- The re-tirement from active service this date by operation, of the law of Major-General John R. Brooke, U. S. A., is announced, terminating a period of over 40 years of fore Dr. Asser, the Dutch jurist, who is efficient, honorable and distinguished serv-ice on the active list of the volunteer and regular Army General Brooke volunteered his services

and was commissioned by the Governor Pennsylvania in the Fourth Regiment of Infantry from that state at once upon the call of the President for volunteers following the attack on Fort Sumter. He

was subsequently commissioned Colonel of the Fifty-third Pennsylvania Volun-November, 1861, and was apteers in pointed Brigadier of volunteers by President Lincoln, May 12, 1864, for distin-guished services in the battles of the Wilderness and Spottsylvania Courthouse. He day with President Roosevelt, and early was twice severely wounded-in the battle in the following week will proceed to of Gettysburg, July 2, 1863, and in the bat-tle of Cold Harbor, June 3, 1864-and was breveted Major-General of volunteers for gallant and meritorious service in the battle of Tolopotomy and Cold Harbor, Va. He resigned from the volunteer service February 1, 1555, and entered the

regular service with the grade of Lieutenant-Colonel of Infantry, July 28, 1866; was commissioned Colonel in 1879, prigadier-General in 1888, and Major-General in 1887. He was breveted Colonel and Brigadier-General, United States Army, March 2, 1867, for gallant and meritorious service in the battles of Gettysburg and ttaylvania Courtho

ottaylvania Courthouse, respectively. "In the beginning of the war with Spain he was assigned to the command of an Army corps, and in July, 1888, sailed in command of the troops embarked for Porto Rice; and after the declaration of truce in August, 1808, was in command of the troops in that island to December

He was chairman of the commission to arrange for the evacuation of Porto Bleo by the Spanish troops; and December 28, 1898, to December 20, 1899, General Brooke was in command of the livision of Cuba, and as military Governor of the island under circumstances of great difficulty rendered faithful and effective service.

"During his long service General Brooks has exercised important military com-mands both in peace and in war-and always administered them with honor to country.

"It is a pleasure to refer to a record such as this, which should serve as an example and an inspiration to the young officer who has yet to shape his character and career in the military service, "ELIHU ROOT, Secretary of War."

RUSSIANS STOWED AWAY.

The Montana Senator Considers His Death a National Calamity. BUTTE, Mont., July 21.-United States

Senator W. A. Clark enjoyed a personal acquaintance with John W. Mackay, and when interviewed, spoke of his death as "We were warm personal friends," entid the Senator, "and although we had no business relations together, we frequently met in New York. Mr. Mackay was

a genial, whole-souled, broad-gauged, typical Irish-American. He was liberal to a fault. I consider his death a Na tional calamity. His ambition in life was to encircle the earth with his telegraphic and cable lines, and there was little doubt that he would accomplish his purpose had he lived. His latest enter

prise was the Pacific cable to the Phil-ippines. He accomplished great results with his Postal Telegraph Company, and pushed his lines across the country against the powerful influence of the Western Union Company.

"Mr. Mackay visited Montana in 1863, ad he told me he rode from Virginia City to Helena on horseback, looking ver the country. I believe he returned Nevada. He had some copper interests in Idaho, and helped to build a railroad unch in the Lost River country. "He built the finest mausoleum it

Greenwood cemetery, Long Island, that was ever constructed, for the remains of his con, who was killed some years ago in an accident while riding horseback. The remains of the late Marcus Dely are now in that mausoleum."

Will Not Delay Pacific Cable. NEW YORK, July 21 .- The last cable ram from Mr. Mackay, who died Lon dan yesterday, was one in regard to the

posed Pacific cable, an enterprise proposed Facilic caole, an enterprise which had been his dream for 50 years. This cablegram was transmitted from London to New York only a few minutes before he was stricken. It was addressed to Mr. Cook, one of his associates in the

cable, explaining the progress of the Pa-cific cable project and giving assurance of its completion by July of next year if the United States Government would fur-nish the survey made by the Nero. Mr. Cook when asked today as to whether Mr. Mackavis death mould da. whether Mr. Mackay's death would de-iay the completion of the Pacific cable, said that while Mr. Mackay's death was a serious loss, yet the work would go on without interruption and the cable would be completed and in operation by July 1 1801, unless the Government soundings were withheld from the company.

Mackay's Horses Scratched.

NEW YORK, July 21.-All of the many thoroughbreds belonging to Clarence Mackay, which are now in training, will be scratched out of events for which they have been entered, owing to the death of Mr. Mackay's father. His colors will not be seen on the tracks again this year, al-O'Reilly will are a surgeon-General. He was ap-pointed from Pennsylvania as a modical acadet in 1864. He is a graduate of the Medical Department of the University of Encoded after in the season. That will be deter-mined after Mr. Mackay arrives in Eng-During the last two years Mr. Mackay

has gathered one of the largest and most successful racing stables in the East. Mr. Mackay had engagements for his horses at Suratoga and it is a matter of

Boilermakers in Convention.

ATLANTIC CITY, N. J., July 21.-The 14th annual convention of the Boilermak-ers of the United States and Canada began here today. Addresses by Henry J. Hartley, of the William Cramps Ship & Engine Building Company, and Colonel E. D. Mier, of New York, were followed by the annual address of President Richard Hammond.

BALTIMORE TORNADO.

Severest That Has Visited That City in Seventeen Years.

BALTIMORE, Md., July 21 .- The tor nado which struck Baltimore yesterday afternoon involving the loss of 12 lives and a widespread destruction of property. was the severest that has been known in this section for 17 years. No storm had been forecasted. Almost without a moment's warning an irresistible wind, apparently in the nature of a whiriwind, came up from the southwest, and in an instant the waters of the harbor were converted into a seething cauldron, frail boats were capsized, while the stanchest vessels at anchor were violently rocked. A careful estimate today shows that 200 uses were unroofed during the storm The roof of the William-Street Indepenent Methodist Church was lifted high in the air and blown over the roofs of other houses a distance of 150 feet. The ston spire of the Holy Cross Catholic Church

was hurled to the ground. A part of the roof of Trinity Protestant Episcopal Church was torn off, while the historic steeple of St. Mary's Star of the Sen Catholic Church was demolished com pletely. The public squares and parks were dam

aged hadly. Patterson Park is a scene o desolation. The whole extent of these pleasure grounds is strewn with broken branches and uprooted trees and the debris completely blocked up the drive ways. Many handsome trees in Franklin Square and Druid Hill Park, as well as all the shade trees, were *p*rooted bodily, falling across thoroughtares and tempo-rarily blocking them. Much damage was done to house fronts in all sections of the

city by the falling trees. In the business section numerous plate glass windows were blown in, while tele graph and telephone service was crip

Sale of Brown Palace Hotel Stopped.

DENVER, Colo., July 71.-The sale of the Brown Palace Hotel, under a morigage held by the United States Mort. gage & Trust Company, has been stopped by the allowance of an appeal to the Court of Appeals by an order of Judge Johnson this afternoon. The Lockhaven Trust & Safe Deposit Company took the appeal.

PILES CURED WITHOUT THE KNIFE.

Mr. Mackay had engagements for his horses at Saratoga and it is a matter of horses at Saratoga and it is a matter of horses at Saratoga and it is a matter of horses at Saratoga and it is a matter of horses at Saratoga and it is a matter of horse of horses at Saratoga and it is a matter of horses at Saratoga and it is a matter of horse of horses of Paso Uniment to refund pelled to remain in their stables.
 Becded Property to Wife and Son. BAN FRANCISCO, July IL-James L. Flood and Attorney G. W. McEnerney to day fied for record deeds signed by the iste John W. Mackay for all the real estimate which the latter owned in this city at the time of his death. They are drawn

are put down at a value of \$7,505,284,273, or more than 35 per cent of the whole; the hay and grain lands at \$8,373,548,543, or 31 per cent of the whole, dairy prod-ucts over 8 per cent; cotton over 5 per cent.

A chapter of the bulletin is devoted to irrigation, and the following extract from It summarizes the presentation:

"A comparison of the number of irri-gotors and of the number of acres irrigated at the beginning and end of the decade of 1889-1899 shows that these have approximately doubled. The number of irrigators in the arid states and territories increased from 52,584 to 192,819, or 95 per cent, and the number of acres irrigated increased from 3,364,415 to 7,253,273. or 103 per cent. The percentage of in-crease in the number of acres irrigated is somewhat larger than that in the number of irrigators, and occurs principally in what may be termed the newer states-Idaho Montane, Utah and Wyoming This increase is explained by the irriga tion within recent years of large areas on ranches in forage crops and pasture. In California and Colorado the reverse con-dition is noticeable. The increase both in number of irrigators and in area irrigated has been proportionately less than in the newer states, showing a decrease In ratio of growth due to the more con ete development and utilization of available water supply. In these states the acreage irrigated has increased respect-
