

ENJOY HOME RULE

Conditions Satisfactory to the Filipinos.

PROFESSOR SCHURMAN'S TALK

Goes Over the Situation With President Roosevelt—Other Visitors Yesterday at Sagamore Hill.

OYSTER BAY, N. Y., July 23.—The President entertained at luncheon today Professor Schurman, of Cornell University, President Butler, of Columbia University, and Captain Norton A. Goddard, of New York, who has long been identified with the vice reform in New York.

President Roosevelt today received T. J. Madigan, secretary and general agent of the City Municipal Association of Philadelphia, who called to enter a complaint in behalf of the association against William McCosh, Collector of Internal Revenue, First District of Columbia, who, it is stated, holds a city office. No action upon the case was taken.

The papers in the court-martial case of Major Edwin P. Glenn of the Fifth Infantry, tried for cruelty to the Filipinos, have been received by the President from the War Department. He is final reviewing authority. It was not announced whether he will make his indorsement on the papers or not.

Captain C. J. McConnell, Chief Engineer, United States Navy (retired), who was sent on a tour of inspection to New York during the Spanish-American War, talked briefly with the President today on technical questions relating to the proposed island canal.

President Roosevelt has commuted to dishonorable discharge and 15 years' imprisonment the death sentence of Private George Stevenson, Troop M, Ninth Cavalry, who was convicted of murdering a man in Semar, Philippine Islands, of rape.

During the afternoon President Roosevelt and Professor Schurman had a talk about the Philippine situation, going over the subject with some care. Professor Schurman August 4 is to deliver an address at Chautauque, in which he will deal pretty fully with the Philippine situation as he views it. It is understood that he regards it as likely that the subject will resolve itself into a condition entirely satisfactory to the Filipinos in a comparatively brief time, as the Philippine government law recently enacted by Congress will enable the natives of the archipelago to participate in their home affairs, and, in a short time, enjoy practically the same rights as they possess as their municipal governments are concerned. It is not improbable that Professor Schurman may elaborate on this point in his Chautauque speech.

President Roosevelt will receive the guest of the President until tomorrow, but he will not accompany the Presidential party to Sea Girt.

George Edward Graham, of Albany, was one of the guests of the President at luncheon today. He returned to his home tonight.

President Roosevelt is displeased somewhat by a misinterpretation of his motives in accepting invitations to meet and speak to the people of several sections of the country this fall. It has been announced in some places that Mr. Roosevelt is to make a campaign, particularly in New York, with the idea of effecting an aggressive opposition to his political views. It can be said that he has no such intention. Such invitations to speak as he has accepted have come from people representing all shades of political opinion. While his addresses will be along Republican lines, they will not be political speeches.

Secretary of the Navy Moody is expected to arrive at Sagamore Hill Friday, perhaps in the evening, on either the Dolphin or the naval tug from the Brooklyn navy-yard. He will remain with the President probably until Monday morning. Secretary Moody probably the 30th inst., coming to Oyster Bay, in accordance with previous arrangements, on the yacht Mayflower.

STATISTICS OF THE WAR.

Major Parker Finds That 2156 Engagements Were Fought.

WASHINGTON, July 23.—Major James Parker, of the Adjutant-General's Department, has compiled statistics regarding the insurrection in the Philippines. There were 2156 engagements with the enemy, more or less serious, from February 4, 1899, the date of the battle of Manila, and April 20, 1902, fixed as the virtual downfall of the insurrection. The larger portion of these fights were attacks on small parties of American troops or skirmishes in which only small detachments took part.

In almost no case in these engagements," says Major Parker, "did American troops surround or have to retreat or have to leave their dead and wounded in the possession of the enemy, notwithstanding that in many cases the percentage of loss were high. The number of troops that have been reported to the Philippines and have arrived there up to July 15 last was 4125 officers and 123,882 men. The average strength, taken from monthly returns, was approximately 40,000.

Major Parker summarizes the casualties of the American Army as follows:

Table with 2 columns: Category (Killed or dead of wounds, Deaths from disease, Deaths from accidents, Drowned, Slaughtered, Total deaths) and Count.

HEROISM IN PHILIPPINES.

Shown by Hospital Corps During the Cholera Epidemic.

WASHINGTON, July 23.—The epidemic of cholera has been particularly hard on the medical corps of the Army stationed in the Philippine Islands, and the casualty list received here shows that the surgeons and the hospital corps have borne their share of the suffering. Surgeon-General Forwood has received a copy of one of the orders in which casualties are announced as follows:

Private Joseph G. M. Elemen, Hospital Corps, U. S. A., was detailed to face death as a cholera nurse for one of our comrades, and died from the disease caught in his charge—an example of devotion to duty to be held up for all men to emulate.

Private Leonard B. Stevenson, Hospital Corps, U. S. A., was detailed to nurse both of our comrades, with the knowledge that his predecessor had been cut down while performing the same duty. Without a murmur he responded and remained till the end covered his plague-stricken charges, and then he returned to his routine duties.

The men of this command who have faced death amid the whirl of bullets and excitement of a fight can readily appreciate the courage required daily to

SLATE WAS NOT BROKEN

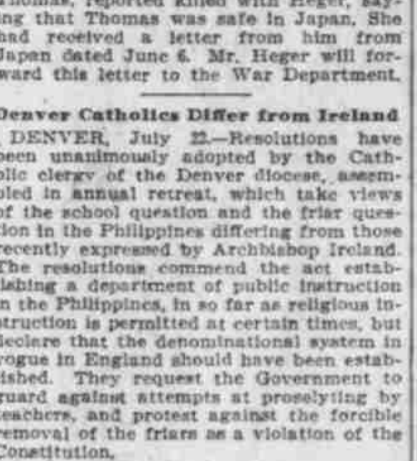

NOMINATION BY NORTH DAKOTA REPUBLICANS.

Effort to Amend Platform With a Plank Demanding Resubmission of Prohibition Question.

FARGO, N. D., July 23.—The efforts of Editor Street of Emmons County, to amend the report of the committee on resolutions to include a plank demanding that the question of prohibition be resubmitted to the voters was almost the only feature of today's Republican State Convention. The effort, while unsuccessful, was a surprise in its apparent popularity. The ticket arranged by the leadership went through smoothly, despite the efforts made to "break the slate." It is as follows:

Congress—L. F. Marshall, Dickey; E. F. Spaulding, Cass. Governor—Frank White, Barnes. Lieutenant Governor—David Bartlett, Griggs.

ROBERT W. WILCOX

HAWAIIAN DELEGATE TO CONGRESS WHO IS OPPOSED BY A FACTION OF THE HOME RULE PARTY.

Judge of the Supreme Court—John M. Cochran, Grand Forks. Secretary of State—E. F. Porter, Foster. Auditor—D. F. Holmes, Pembina. Treasurer—D. McMillan, Cavalier. Commissioner of Insurance—Ferdinand Lutz, Morton. Attorney-General—C. W. Frick, Nelson. Superintendent of Public Instruction—W. L. Brockwell, Walsh. Commissioner of Agriculture and Labor—R. J. Turner, Stark. Railroad Commissioner—C. J. Lord, Chando; J. F. Shea, Wahpeton; Andrew B. Chantz, Harvey.

The resolutions denounce the attacks made upon the Administration by anti-imperialists, and approve the state and the Republican party from the charge that either is dominated by corporations.

HAMLIN'S PLATFORM.

Will Conduct Reform Campaign if Democrats Name Him for Governor.

BOSTON, July 23.—Charles S. Hamlin, ex-Assistant Secretary of the Treasury, today announced that he was a candidate for the Democratic nomination for Governor of Massachusetts. In a statement announcing his candidacy Mr. Hamlin says: "If nominated, I shall take the stump actively throughout the Commonwealth in behalf of certain reforms which I believe to be vitally necessary to effective, representative government, among which are:

"The referendum as a popular check on representative government. "Home rule and increased legislative powers for cities and towns. "Prohibition by law, under heavy penalties, interference with the Legislature or legislators by corporations by means of campaign contributions or appointments to office. "Rigid municipal control of public utilities, with a view to ultimate municipal ownership whenever necessary to make such control effective in the public interest. "Grants by the Legislature or municipalities of rights on or along the public ways or streets to be subject to revocation at the will of the grantor. When not revocable, to be short-term, for adequate consideration, and subject to the referendum. "Concentration of executive power in the office of Governor, with seats for heads of departments appointed by the Legislature."

DEMOCRATIC DINNER.

New England League Will Meet at Nantasket Beach Today.

BOSTON, July 23.—Everything is in readiness for the great banquet of the New England Democratic League, which is to be held at Nantasket Beach tomorrow, and at which at least four men of National reputation are to give their views on conditions of political importance. The president, an officer will be Mayor Patrick A. Collins, of Boston. The speakers will be William J. Bryan, Edward M. Shepard and Senator E. M. Carmack. The visitors are expected to arrive in Boston early tomorrow. After a short rest, Mr. Bryan will be at home to a few friends, but there will be no public reception. The party will leave for Nantasket at 11:30 A. M., and dinner will be served at the Rockland House at noon. About 300 persons have secured tickets to the dinner. After dinner the party will adjourn to a large tent, where the speaking will take place.

In a Railroad Man.

Wilson is from tradition and interest, from breeding and instinct, a friend and ally of the railroads. Knowing that powerful influence were at work to take the railroad support away from him, the thought of coming out boldly as the ally of the Governor and the champion of low fares and relief from railroad extortion has never occurred to him. On the other hand, he has pulled every string to retain the railroad support, and through his newspaper—the Seattle Post-Intelligencer—has continued to fight the railroad battle.

In this county, his two candidates for the State Senate are pledged secretly against Governor McBride's policy, while the convention which nominated pledged them to support it. This is an open secret. Wilson had intended to have Harry Rosenhaupt named for the State Senate; but Rosenhaupt had introduced a railroad rate bill into the lower house two years ago, and the order came to Wilson from railroad sources to see that Rosenhaupt was not nominated, and that Frank D. Shaw, who was conspicuously absent when the vote was taken on Rosenhaupt's bill, be named in his stead, and Wilson obeyed orders. Shaw got the nomination.

Wherever possible, Wilson named ship-owners for the places on the Legislative ticket. No shipper can afford to antagonize the railroads. In other places he named ex-railroad employees. And so it went down the line. The instruction given by the convention to such men to support Governor McBride's policy smacks of opera bouffe.

And thus it is that Spokane Democrats and Turnerites are jubilant today, while thoughtful, conservative Republicans are saying: "Well, we can elect the county ticket, but it looks as if the Legislative ticket is gone."

In Sweeney a Candidate!

Charles Sweeney, mentioned in the foregoing, is believed to have a promise from Wilson that in case the latter's election is impossible he will throw his strength to Sweeney. Wilson declared in his speech in the county convention that if he could not be elected himself, he was willing to support a Spokane man who could be elected.

Sweeney is a man engrossed in business affairs and endless minding litigation, but he took an active part in the Wilson fight, and is evidently hard at work trying to cultivate the favor and friendship of local politicians. He was a delegate to the county convention, and took an active hand in managing its affairs. He was one of the men who pulled the Wilson strings. Sweeney has money, and district agents will be required to elect the Wilson slate in Spokane County. So it need occasion no surprise, should Mr. Sweeney, sometime in the future, but into the Senatorial fight as Wilson's legate.

Mill on Harmony.

ALLIS WELLS, Mass., July 23.—At a political meeting here, attended by 300 people, a letter from ex-Senator D. B. Hill, of New York, was read, expressing regret at his inability to attend, and dealing at length with National issues. He stated that the party of Jefferson, Jackson and Tilden did not need to be reorganized, but

THE TROOPS WILL STAY

REGULARS AT SKAGWAY WILL NOT BE REMOVED.

Plans for Buildings at Haines' Mission Being Prepared, and Construction Will Soon Begin.

OREGONIAN NEWS BUREAU, Washington, July 23.—The establishment of a battalion Army post at Haines' Mission, under the recent orders of the Secretary of War, will not, for the present at least, interfere with the garrison stationed in rented quarters at Skagway. As long as there is need of armed protection of American interests in the disputed territory at the head of Lynn Canal, it is proposed to retain troops within easy call.

This new and large post would have been located at Skagway but for the fact that no available site could be found. The 600-acre military reservation at Haines' Mission, 15 miles below, offered the nearest acceptable site, and was chosen on this account. Ultimately, if it is found that the garrison at Haines' Mission can adequately protect American interests the troops may be withdrawn from Skagway, except in times of emergency, although a full battalion will constantly remain on duty at the large post.

Plans for the necessary buildings at Haines' Mission are being prepared in order that work of construction may be begun this summer. The post is not likely to be ready for occupancy before next summer.

DEMOCRATS ARE WORKED UP.

Missouri Convention's Silver Plank Stumps Eastern Men.

OREGONIAN NEWS BUREAU, Washington, July 23.—Eastern Democrats are very much disturbed on account of the action of the Missouri convention. They are quietly saying that a "fat is in the fire" for this campaign, when a great Democratic state like Missouri not only indorses the Democratic platform, but specifically singles out the "heaven-born ratio of 16 to 1."

One of Missouri's Democrats stated today that it has been "the idea all along to keep the long-haired Democrats in the background, so as not to scare away silk-stocking gold Democrats of the East." Now, he points out, it will be impossible to make the Eastern Democrats believe that Bryanism is as rampant as ever in the solid Democratic states.

The Democratic campaign managers are making a great deal of fuss over what "will be the paramount issue." They are still divided between imperialism and trusts. Some sections of the South, especially Georgia, are very outspoken against any Philippine talk in the campaign, while Carmack, who consulted with Bryan last night in this city, is still vouchsafing that the paramount issue of 1902 must be carried along in this campaign.

THE DEATH ROLL.

Isaac Knowles.

EAST LIVERPOOL, O., July 23.—Isaac Knowles died at his home in California today, aged 85. He was the oldest living manufacturing potter. He built the first pottery here in 1854. He invented the electric calliper, lettered playing blocks for children, and many labor-saving devices used in potteries.

Dr. Martin Deescher.

NEW YORK, July 23.—Dr. Martin Deescher, one of the best-known and most prominent homoeopathic specialists on children's diseases in this country, is dead at his home in this city from heart trouble.

Mother of Late Senator Ingalls.

ATHLON, Kan., July 23.—Mrs. Elizabeth Chesebrough Ingalls, mother of the late United States Senator John J. Ingalls, of Kansas, is dead, at her home, at Haverhill, Mass., aged 90 years.

Setting the McKinley Accounts.

WASHINGTON, July 23.—Secretary Shaw and Secretary Cortelyou had a final conference today regarding the payment of the accounts resulting from the illness, death and interment of President McKinley. The Treasury Department has sent a notice to every person who is to receive any of the appropriation made by Congress for their purpose, to forward a claim and voucher in regular form, when the money will be transmitted shortly thereafter. It has been decided that no detailed account of the expenditures shall be made public, but when all the claims are settled an announcement will be made as to the total.

Salt Rheum

You may call it eczema, tetter or milk crust. But no matter what you call it, this skin disease which comes in patches that burn, itch, discharge a watery matter, dry and scale, owes its existence to the presence of humors in the system.

It will continue to exist, annoy, and perhaps agonize, as long as these humors remain. It is always radically and permanently cured by Hood's Sarsaparilla which expels all humors, and is positively unequalled for all cutaneous eruptions.

Now is the Time

Launching of the Des Moines.

BOSTON, July 23.—The cruiser Des Moines, which is being built at the yard of the Fore River Ship & Engine Company, will be launched Saturday, September 28.

Your Doctor

Always comes promptly? Ever faithful? Saved your life? Then hold fast to him. We believe in doctors. Ask yours about Ayer's Cherry Pectoral for hard colds, coughs of all kinds, asthma, bronchitis, and other throat and lung troubles. For 60 years doctors have used it.

"I have used Ayer's Cherry Pectoral for 52 years. Just a little of it cures a cold and stops a cough."—A. C. Hamilton, Marietta, Ohio.

Small Pill. Small Dose. Small Price.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They Regulate the Bowels. Purely Vegetable.

Small Pill. Small Dose. Small Price.

PECULIAR CAUSAS

Palpitation of Heart, Cold Hands and Feet, Sinking Feelings—Pe-ru-na Cures Catarrh Wherever Located.

Mrs. X. Schneider, 309 Thirty-seventh Place, Chicago, Ill., writes:

"After taking several remedies without result, I began in January, 1901, to take your valuable remedy, Peruna. It was a complete wreck. Had palpitation of the heart, cold hands and feet, female weakness, no appetite, trembling, sinking feeling nearly all the time. You said I was suffering with systemic catarrh, and I believe that I received your help in the nick of time. I followed your directions carefully and can say today that I am well again. I cannot thank you enough for my cure, and will always be your debtor. I have already recommended Peruna to my friends and neighbors and they all praise it. I wish that all suffering women would try it. I testify to the truth."—Mrs. X. Schneider.

Over half the women have catarrh in some form or another. And yet, probably, not a tenth of the women know that their disease is catarrh. To distinguish

catarrh of various organs it has been named very differently. One woman has dyspepsia, another bronchitis, another Bright's disease, another liver complaint, another consumption, another female complaint. These women would be very much surprised to hear that they are all suffering with chronic catarrh. But it is so, nevertheless.

Each one of these troubles and a great many more are simply catarrh—that is, chronic inflammation of the mucous lining of whichever organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other. This is why Peruna has become so justly famous in the cure of female diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate—it cures.

Now, Joseph B. Crowley, Congressman from Illinois, writes from Robinson, Ill., the following praise for the great catarrhal tonic, Peruna. Congressman Crowley says:

"Mrs. Crowley has taken a number of bottles of Peruna on account of nervous troubles. It has proven a strong tonic and lasting cure. I can cheerfully recommend it."—J. B. Crowley.

A catarrh book sent free by The Peruna Medicine Company, Columbus, O. If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

NOW IS THE TIME

TO TREAT AND CURE CATARRH SPECIAL NOTICE—Office Hours From 9 A.M. to 1 P.M. Evenings, Tuesday and Friday From 6:30 to 8:30. Sunday From 9 A.M. to 12 M.

DISEASE DESCRIBED BY SYMPTOMS

The Proper Course for Sufferers. Great numbers of people suffer from the mucous points of the system, as from acute chronic malades, without any correct or definite idea of the nature of their affliction. The following symptoms have been carefully arranged to enable many sufferers to understand just what it is that they are suffering from, and to be able to under various specific names, are really of a catarrhal origin and nature. Every part of the mucous membrane, the nose, the throat, eyes, ear, head, lungs, stomach, liver, bowels, kidneys and bladder,

CATARRH OF HEAD AND THROAT

The head and throat become diseased from neglected colds, causing Catarrh when the condition of the blood predisposes to this condition. "Is your voice hoarse?" "Do you spit up slime?" "Do you sneeze at night?" "Do you blow out scabs at night?" "Is your nose stuffed up?" "Does your nose discharge?" "Do your eyes discharge?" "Is there itching in the throat?" "Is this worse toward night?" "Does the nose bleed at times?" "Do you have to clear the throat?" "Is there pain across the nose?" "Is there pain in front of head?" "Is your sense of smell leaving?" "Do your ears discharge?" "Are you losing your sense of taste?" "Do you sleep with your mouth open?" "Do your nose stop up toward night?"

CATARRH OF THE LIVER

The liver becomes diseased by catarrh extending from the stomach into the tubes of the liver.

CATARRH OF BRONCHIAL TUBES

This condition often results from catarrh extending from the head and throat, and if left unchecked, extends down the windpipe into the bronchial tubes, and in time attacks the lungs. "Have you a cough?" "Are you losing flesh?" "Do you have pain in side?" "Do you take cold easily?" "Do your lungs discharge?" "Do you have asthma?" "Do you have a rattling in the chest?" "Do you spit up little bloody matter?" "Do you have a hacking cough?" "Is there sticking behind the palate?" "Have you pain behind breast bone?" "Do you feel your chest weaker?" "Do you have a wailing pain in the throat?" "Do you have a dry cough?" "Do you have to sit up at night to get breath?"

CATARRH OF THE KIDNEYS AND BLADDER

Catarrh of the kidneys and bladder results in two ways. First by taking cold; second, by overworking the kidneys in separating from the blood the poisons that have been absorbed from catarrh, which affects all organs. "Is the skin pale and dry?" "Is the skin a waxy look?" "Is the hair dry and brittle?" "Do the legs feel the heavy?" "Do the joints pain and ache?" "Is the urine dark and cloudy?" "Are the eyes dull and staring?" "Is there pain in small of back?" "Do your hands feel cold?" "Are they cold and clammy?" "Have you pain in top of head?" "Are the preparations a bad odor?" "Is there puffiness under the eyes?" "Is there a bad taste in the mouth?" "Is there a desire to get up at night?" "Are there dark rings around the eyes?" "Do you see spots floating before the eyes?" "Have you chills feelings under the back?" "Do you see unpleasant things while asleep?" "Do you deposit foam when left standing?"

SYMPTOMS OF EAR TROUBLES

Deafness and ear troubles result from catarrh passing along the Eustachian tube that leads from the throat to the ear. "Is your hearing falling?" "Do your ears discharge?" "Do you feel your ears sting?" "Are the ears dry and scaly?" "Have you pain behind the ears?" "Do you feel a buzzing sound behind?" "Do you feel a tickling in the ears?" "Are there crackling sounds heard?" "Is your hearing bad cloudy days?" "Do you have earache occasionally?" "Are your ears hurt when you blow your nose?" "Do you constantly hear noises in the ears?" "Do you hear better some days than others?" "Do the noises in your ears keep you awake?" "Do you know your nose do the ears crack?" "Is hearing worse when you have a cold?" "Is roaring like a waterfall in the head?"

CATARRH OF THE STOMACH

This condition may result from several causes, but the usual cause is catarrh, the mucus dropping down into the throat and being swallowed.
