A few years ago tuberculosis among the Chinese was almost unknown, but during the past month or two several have fallen victims to it, and consumptive-looking Chinamen may be seen on Second street any day.

GROWTH OF DAIRY INDUSTRY.—Food and Dairy Commissioner Bailey has just returned from a week's trip to Tillamook county, and says that the dairy industry there is in a very prosperous condition. More than 1,500,000 pounds of cheese, he said, would be produced this year, an increase of 31-1/2 per cent over last year.

BUILDING STILL DELAYED.—The delay in the arrival of some iron pillars is again interfering with the work on the new falling building, and until the pillars arrive little work can be done.

COOLER WEATHER.—The maximum temperature yesterday was but 70 degrees, as compared with 90 degrees for Saturday and Friday, making the day much more comfortable than the previous days for those who went to the parks or the ball grounds.

Too MANY STREETS.—According to the calculations of a civil engineer, 40 per cent of the property of Portland is occupied by streets. The figures of the engineer show that the plan of the townsite was due to a mistaken idea that the city would never become the metropolis of the Northwest.
