#### Bloodshed at New Jersey Primary Elections.

#### LOUDENSLAGER VS. VAN SANT

In the Rioting One Man Was Killed, Several Were Stabbed, and Joe Goddard, the Pugilist, Was Fatally Shot.

CAMDEN, N. J., July 28.-The primary election for delegates to the Republican Convention of the Pirst Congressional District of New Jersey was held today in Camden, Gloucester and Salem Counties, which comprise the district. The candidates for the nomination are Henry C. Loudenslager, the present Congress-man, and J. Alpheus Van Sant. The con-test has been one of the most bitter ever held in Southern New Jersey. The polls were open from 5 P. M. to 8 P. M., and the three hours were marked by serious fighting. One man was killed in this city and Joe Goddard, the well-known heavy weight pugilist of Philadelphia, was

a quarrel with a colored Constable named Robert Washington. It is alleged that Goddard assaulted the Constable that Goddard assaulted the Constable with a baseball but and that the Constable in soif defense shot Goddard in the head. The Constable surrendered himself to the police and the injured prizefighter was brought to Cooper Hospital here, where the physicians say he

Near a polling place Constable C. A. Fowler, while in a fight, was stabled twice. His wounds though painful, are not considered serious. There was much trouble in Pensauken township and at Merchantsville and a number of persons were budly beaten.

The most serious affray occurred at Third and Beckett streets in this city. Each side had a crowd at the polling place at that point and a general rict was started. When it was over it was found that John Morrissey, of Philadel-phia, aged 25 years, had been shot through the heart by some unknown person and that a polleeman not in uniform, Harry Miller, had received two cuts on the head and a probably faial stab-wound in the left lung. A number of other persons were hurt in the fight, but

The adherents of both Loudenslager and Van Sant are charging each other with fraud and bringing large numbers of repeaters from Philadelphia. The Conon wil be held at Woodbury, Wed-

Secretary Mullaly has been very ac-tive in the strike. It is said that through his influence he had 90 per cent of the firemen firm. Engineers and pumpmen have gone back to work in large numbers since the strike began, but the fire-men have remained out. At strike headquarters Mullaly's arrest on so many

warrants is termed an outrage. Sheriff Jacobs was called to Duryen tofay to disperse a mob which gathered in the vicinity of the Warnke washery and some men from going to work. When the Sheriff arrived on the scene the growd left. The work of distributing re-lief among the strikers of the Wyoming

region began today. The most needy cases will receive aid first. Agents from the soft coal regions in Western Pennsylvania, Ohio, Indiana and Illinois have been in the Wyoming region past few days hiring miners to work in the bituminous mines. Nearly 160 min-ers and laborers left the region today for ostern Pennsylvania and Ohio, More will go tomorrow or Wednesday,

#### FRIEND OF THE MILLERS Speaker Henderson Tells Why Deck Charges Bill Did Not Pass.

DUBUQUE, In., July 28.-Speaker Hen-

derson, in an interview today on the reports about the National Millers' grievance against him, on the ground that he prevented the passage of the London dock bill, said:
"I had not heard anything of it since Saturday last, when I first saw an article on the subject. I was greatly sur-prised to see anything of the kind from the millers, whose friend I have been all the time, and I tried to get their bill through. I gave them the floor and let the bill come up the second time, but members in charge of the measure wanted it presed over, as they hoped for was dangerously stabbed in this city and a fourth man received a stab wound at Dog Corner, near Merchantaville.

# CENSURES ARMY OFFICER

CHAPPEE ADMINISTERS REPRI-MAND TO CAPTAIN WILD.

Lack of Co-operation With the Civil Authorities - Americans Attacked by Moros.

WASHINTON, July 28-The action of General Chaffee, in reprimanding Captain Frederick S. Wild, Thirteenth Infantry, upon the sentence of a court-martial, has been received at the War Department. Captain Wild was in command at Lingsyan, where a cockpit was burned, two soldiers of the commission having been previously stabbed in the cockpit. It was generally understood that the cockpit was burned by the soldiers in revenge. It was brought out in the testimony that Captain Wild had been requested by the civil au-thorities to place a guard over the property after the first attack, and failed to do so, and a second attempt at burning resulted in its destruction. General Chaffee, in carrying out the sentence of the

court, said:
"The necessity for this trial is based on the intention to accentuate to the ac-cused that the existing order to give complete and unqualified support to all branches of the civil government in these islands must be complled with and to show by example that nothing short of such support will be accepted from offi-cers on duty in this division. Captain Wild's conduct is but mildly punished by reprimand. It is destructive to the very foundations of discipline, and when con-sidered in connection with the duty which devolved upon him is in the highest de-gree reprehensible."

#### MARE ISLAND DRYDOCK.

Dispute With Contractors Is Settled and Work Will Proceed.

WASHINGTON, July 28.-The Atlantia Gulf & Pacific Company, which has the contract for building a drydock at the Mare Island Navy Yard, has decided to comply with certain requirements imposed by the Government and will proceed with the work. Several months ago controversy arose between the Government and the company over certain shoring that the Navy Department in-sisted should be made by the company. The latter refused to perform the work and the matter was referred to the De-partment of Justice, which decided that the demands of the Department were reasonable under the contract. Today, Admiral Endicott, chief of the Bureau of Yards and Docks, received word from the company that it had decided to yield its contention. For several months during the dispute work was suspended upon the dock, which is about one-fourth completed.

#### GENERAL BRAGG'S CASE. President May Recall Him or Give

Him a New Post. WASHINGTON, July 28.-It is learned that the Cuban Government went a little further in General Bragg's case than was understood at first. It first made inquiry as to the accuracy of the quota-tion reflecting upon the Cubans, but com-plained of the Consul-General's criticism. The papers in the case are still before the President at Oyster Bay, but some action is expected soon, either in the way of recalling the Consul-General or trans-ferring him to some other post, if a sultable one can be found.

WASHINGTON, July 28.-A cablegram received at the State Department from Minister Buck, at Tokio, says that the Japanese Minister of Foreign Affairs in-formed him that a Japanese naval vessel would leave yesterday for Marcus Island. The purpose of het going is not to make trouble, but to prevent it. An official of the Foreign Office was to have gone on the vessel; and he was to carry a letter to Captain Rosehill, cabled from the State Department here to Minister Buck, advis-ing the Captair to make no disturbance or resort to violence to obtain possession of the island, with possible loss of life and involving international complications. If the Captain would observe this advice the department said, for its part, it would endeavor to settle the claim to Marcus Island diplomatically. Captain Rosehill is reported to have sailed from Honoidlu for Marcus Island in a schooner July II, and at Marcus Island, or very near there. The letter may come into his hands too late to

#### EXAMINATION OF PELEE. Extraordinary Similarity With the Eruptions of Souffriere.

FORT DE FRANCE, Island of Martin-ique, Monday, July 7.—Dr. T. A. Jaggar, of Harvard University, representing the United States Geological Survey in the West Indies, arrived for the second time at Fort de France on June 24 and has since visited Mount Pelee twice, He has also made excursions to the Southern end of Martinique and to the warm springs of the interior of the island. Dr. Jaggar came directly from St. Vin-

As a result of recent examinations of tions of the track of the devistating blast which destroyed St. Pierre, it appears that there is extraordinary similarity be-tween the eruptions of the Souffriere volcano of St. Vincent and Mount Pelee, The products are the same, both are charac-terized by the absence of lava, and the work of destruction, both to inanimate objects and to mankind, was accomplished in much the same way. The destructive effects of the eruption in St Vincent covered a much more extensive area, but the loss of human life was

much less.

There have been no active eruptions of Mount Pelee of importance since June 6.

A great cone of boulders and volcano bombs, which appeared within the fissure from which the explosion came, grown in size since the middle of May when Dr. Jaggar first saw it. Occasion ally there are sudden slides of debris down this cone in the deep gorge and the Riviere Blanche. These slides produce great columns of brown dust which resembled smoke, that rise in billows from pression of an eruption when viewed from the sea. At night these slidings of red-hot rock make a glowing streak in the

mountain slope.

This accounts for the many reports by passing vessels of eruptions; that het lava and dust falls. The pienomenon is a more superficial one. As at St. Vincent, the many mud spouts, steam jets and love grater, that have been report. and local craters that have been reported are all superficial, caused by rain-water draining into the beds of hot, dry gravel. The two volcances of St. Vin-cent and Martinique were in eruption in sympathy in May. Both have gradually me less active since, and it is probactivity, to judge by the present signs. In this opinion the French scientific commission, headed by Professor La Croix, of Paris, concurs, Dr. Jaggar is strongly opposed, however, to any re-habilitation of the devastated slopes of the volcanoes until the respective governments of the islands are willing to establish permanent experiment stations to protect and warn the inhabitants, An addition to his work on the Island of St. Vincent and Martinique, Dr. Jagit is therefore probable that he already is gar has spent some time in Barbadox collecting information and specimens rela-tive to the spread of the dust fall which avert trouble, but the department offi-cials are hoping for the best.

Sharp. In a recent letter to The Peruna Medicine Co., Miss Julia Marlowe, of New York City, has the following to say of Peruna:

"I am glad to write my Indorsement of the great remedy. Peruna, as a nerve tonic. I do so most heartily."-Julia Marlowe.

Nervousness is very common among women. This condition is due to anemic nerve centers. The nerve centers are thu reservoirs of nervous vitality. These centers become bloodless for want of proper nutrition. This is especially true in the warm season. Every Summer a host of invalids are produced as the direct result of weak nerves.

This could be easily obviated by the use f Peruna. Peruna strikes at the root of Peruna. Peruna strikes at the root of the difficulty by correcting the digestion. Digestion furnishes nutrition for the nerve centers. Properly digested food furnishes these reservoirs of life with vitality, which leads to strong, steady nerves, and thus nourishes life, Peruna le in great favor among womer

especially those who have vocations that are trying to the nervous system. Pe-runa furnishes the lasting invigoration for the nerves that such people so much need, Thousands of testimonials from women in all parts of the United States are being received every year. Such unsolicited evidence surely proves that Peruna is without an equal as a nerve tonic and vital invigorator.
