HISTORICAL SOCIETT ROOMS POPULAR-Between 60 and 70 people a day visit the rooms of the Oregon Historical Society in the City Hall. The quarters of the soclety will soon be enlarged by the addi-tion of four or five rooms, which the city has granted free of charge. It has been suggested that a great convenience to the public would be the location of the so-clety rooms and the city museum on the same floor. A still greater convenience would be the operation of the elevator. A proposal to do so has been before the Council lately, but it seems to have been lost in one of the committees. The so-clety has received a proof of a photoclety has received a proof of a photo-graph of Dr. McLoughlin, taken from a print in the possession of his grand-daughter, Mrs. M. L. Myrick, of this city. society has just issued another edition of the Quarterly. It contains arti-cles by M. C. George, on "Political His-tory of Oregon, From 1870 to 1895, Inclusive;" by Mrs. Frances Fuller Victor, on "The First Oregon Cavalry," and by H. S. Lyman, on "Recollections of Horace ciety. Holden.

INVITED TO TRANS-MISSISSIPPI CON-GREES.-Copy of the call to the Trans-Mississippi Commercial Congress has been received by the Board of Trade. The meeting will be at St. Paul, August 19-22. Subjects of discussion will pertain to reclamation of arid lands, waterways and arbors, department of mines, Pacific caele, Isthmian canal, merchant marine trade with the Orient, Consular service, preservation of forests, and a number of other subjects. The prospectus says: "In former years the discussions crystallized into resolutions, thence into bills and laws, have had a direct bearing on legis-lation at Washington, and year by year we have seen the beneficial results which have accrued." Delegates are appointed by Governors, Mayors, county officials and business organisations.

ENGINEERS TO EXAMINE GUILD LAKE-In the absence of President Corbett, who is ex-officio chairman of the executive ittee of the Lewis and Clark Corporation, the committee has elected Charles E. Ladd chairman and directed him to confer with Engineers Oscar E. Huber, W. H. Maxwell and W. B. Chase reference to the engineering prob-involved in selection of the Williamwith refere ette Heights tract for a site for the Lewis and Clark fair. It is understood that those engineers will make an examination of the lake and of the practicability of maintaining it fresh during the fair, and make a report that will guide the committee in declaring for or against the adoption of that site.

SOON TIME TO PLANT ROSES.-F. V. Holfor setting out hardy varieties of dor-man says that the season is approaching for setting out hardy varieties of dor-mant roses. A good time for planting them is in October. They stay dormant during the Warter of the stay dormant during the Winter and in the Spring they get a much better start than if planted along with the delicate varieties. Sometimes such plants yield as fine roses the first year as at any time of their life. There are many varieties of roses adapt-ed to Fall planting, a list of which is contained in the recent publication of the Boas Society. the Rose Society.

to Portland.

The child was born in Vancouver on Wednesday evening, its mother being Rose Carkey, an unmarried girl of 16 Summers and its putnive father one L. B. Hunt, formerly a member of the Eighth Bat-tery, U. S. A., stationed at Vancouver Barracks. Louis Caskey, who is an elder brother of the unfortunate girl, is 15 years The outold, and appears to be an honest, hard-working lad. At the police headquarters, last evening, he told the following story: "My sister gave birth to a girl baby Wednesday night, and, not knowing what to do with it, we decided to bring it to Wedne the Baby Home. L. B. Hunt, who served in the Eighth Battery until two months ago, is the father of the child. He and my elster were to have been married, Hunt skipped out and deserted her. He is 25 years old and good-looking. We live on the corner of Fifteenth and E streets, at Vancouver. I work in a hotel, in order motherly to support my mother and the rest of the family." Police Captain Moore sent the unfortu-

nate little waif to the Good Samaritan Hospital for the night, while the Caskey boys were locked in the upper apartments of the station.

Park, whose downward movement has for a year. This is due to the fact that the subterranean water, which made the slide, has been drained off. The flow of water is now about one state of the fact that water is now about one-fifth of what it was last Winter. There seems no reason for doubting that the movement of the hillside has entirely ceased and that the reservoirs can be permanently repaired.
