Last month two battles took place between the Vice-roy's troops and the Boxers, the first at Tszyanghslen, less than 500 H away, the second near Anyohslen, not much farther sway, in a slightly different direction. Result in each case was a victory for the government troops and a disaster to the Boxera, A dozen were killed outright, others wounded and later 12 heads were exposed at two of the city gates of Tayang. The Boxer cause was supposed to have been dealt a severe blow by these two actions, and so it was, but the outcome seems to have been a scattering of the seed, to spring up with mushroom rapidity in scores of market towns and villages round about. Officials profess zeal putting the Boxers down, and so far have no reason to doubt their good faith, except that the cult seems to be making steady progress in splie of the two battles above mentioned, several beheadings and two executions by slow tor-
