BIG SALMON PACK

Product of Spring Run Is Over 300,000 Cases.

FISHING SEASON ENDS FRIDAY

Gill-Netters Have Already Quit Work -Canneries Getting Fish From Traps and Seines at Low Prices.

The "Spring" salmon season on the Columbia will end Friday. The harvest is practically over, and cannerymen are figuring their gains. It is estimated that the pack is between 250,000 and 275,000 The canneries are putting up lit the of the product at present, and the pack is now almost complete. Accurate figures of the output will not be available for several days yet. It is believed that the fish pickled and put up in cold storage amount to the equivalent of at least 15,000 cases more. All these figures are for one-pound cans, four dozen to the

The canneries have put down the price The canneries have put down the price of fish to a figure which does not profit gillnetters, and consequently these fishermen are out of business. It is well known, however, that some cannerymen are paying more than the 2-cent price for chinooks, giving as high as 4 cents, in spite of the understanding that 2 cents to be the top notch.

Although the canneries give it out that they are using little or no fish, the fact remains that traps and seines are going. This gear is owned by the cannerymen and they pay wages for its operation. It is said that the salmon are much inferior to the fish caught in the early Summer and that sooner than run down the qual-Ity of their product, the cannerymen were decided to lay off for the year. Fishing at the present price offered yields small compensation for the additional reason that the nets bring in many low-grade

The outlook for Columbia River prices The outlook for Columbia River prices is very favorable. Pound cans now bring \$1 25 and \$1 40 per dozen. If there had been a big pack of sockeyes at Puget Sound this year, these prices might not be maintained, for the Puget Sound product in large quantity at \$1 and \$1.10 would offer severe competition. But the pack of sockeyes is about 1,000,000 cases short of what it was last year, when 1,400,000 cases were put up. The Puget Sound canneries may pack a large quantity of dog salmon, but it is inferior prod-

INCREASE IN VALUES Showing Made by Report of Whitman County Assessor.

COLFAX., Wash., Aug. 11.-(Special.)-County Assessor Duft today filed his annual report of the taxable property in the county with the County Auditor. The report shows a wonderful increase in val-ues of Whitman County property during the year ending March 1, 1962, the value of farm lands, improvements and livestock showing a far greater increase than ever before recorded in the history of the county. The report shows that there are 1142 acres more land assessable than last year, while 22,552 acres of new land have been placed under cultivation during the year. It shows a net increase in values of the farm lands of Whitman County of \$1.840,740, while the improvements on farm lands are worth \$147,000 more than they were one year ago, a net guin of nearly \$2,000,000 in m lands and improvements on the same

A comparative statement of the farm lands and values for the two years ending March 1, 1901 and March 1, 1902, is interesting in showing the rapid increase in values. The Assersor's reports for the two years show that in 1901 there were Whitman County. This has increased to 1,145,275 in 1902. In the first-named year there were 653,263 acres in cultivation in the county. This has increased to \$75.816. net gains of 22,500 acres. In . 1901 the farm lands of Whitman County were valned at \$6,861,100. In 1902 the value has increased to \$5,641,840, a net gain of \$1,840,-740. In 1991 the improvements on farm lands were valued at \$835,155, but had increased in one year to \$884,215, a net gain of \$147,060.

But one of the most satisfactory showings made in the report is the increased value and number of livestock in the county. The number of horses in the county has decreased 1174, owing to heavy sales of draft and cavalry horses; but those remaining in the county were worth \$39,045 more than the greater number in the county one year before. The most re-markable showing in the report, however, is in the case of the cattle of the county, which had increased in number from 28,-921, in 1901, to 36,714 in 1902, a net gain of 7796, and a net gain in value of \$158,770. the heavy importations of blooded cattle, stockgrowers estimating the number of thoroughbreds in the county at four times what it was one year ago. As the Assessor's report makes no account of the calves born last year, which were not "I year on and over" when the assessment was made, the report shows only a small per cent of the actual increase during the year, but it is a good showing.

COMPANY'S NAME CHANGED New Title for a Southern Oregon Mining Concern.

GRANT'S PASS, Aug. 11 .- (Special.)-The name of the company that has owned and managed the noted Victor Junior mine, of the Grave Creek district, for the gust three years, has been changed from the Victor Junior Mining Company to the Greenback Mining Company. The new company is incorporated under the laws of the State of Arizona, instead of Cold rado, as was the former incorporation. The head office has also been changed from Denver to New York City. The change made affect the name of the company only, as all of the stockholders of the former company are included in the new

incorporation. Aside from the change of name, the mine Itself is undergoing an important change also. A new 20-stamp mill is being built at the foot of the mountain, below the old mill. This change will allow a much greater pressure in the hydraulic pipe for the turbine wheel that furnishes a portion of the power for the mill. It will also allow the removal of the ore from the lower levels by tunnel, instead of by hoist. The entire equipment of the mine is being increased, a new cyanide plant being among the new additions. The new mill will have a crushing capacity of 50 tons per day. The old li-stamp mill will be reduced to a 5-stamp battery, and will be used as a sampling mill only.

Spencer Penrose, secretary of the Waldo Mining & Smelting Company, is here, making an inspection of the company's properties and holdings in the Waldo cop-per district. Mr. Penrose is secretary of the United States Reduction Works at Cripple Creek, Colo. He is highly pleased with the outlook and prospects of their mines at Waldo. The company has a large crew of men at work continuing development of the several mines, or erecting buildings. A new and larger smelter is being contemplated by the company, and preparations are being made for the beginning of the construction of the same at the mines in the near future. They have

two surveying crews at work surveying the route of the proposed railroad from here to Crescent City. The preliminary survey from Grant's Pass to Waldo has been completed, and the surveyors are now at work setting stakes and mapping out the actual route of the new line from here

TRAPPER'S REMAINS FOUND Assessor McDonell Is Given Until Missing Since a Snow Storm Last November.

NORTH YAKIMA, Wash., Aug. 11.-(Special.)-The remains of T. W. Rathburn. a trapper who was lost in a snow storm late in November, have undoubtedly been found. Rathburn left Tampico, in this county, on the afternoon of November 19 last, and later in the afternoon as he walked the trail up toward the headwaters waited the trait up toward the headwaters of the Little Klickitat, he was overtaken by Frank Horke, of this city, a sheep rancher, who had charge of a bunch of sheep which were Wintering in the foot-hills. Rathburn said he was bound for Al C. Kesing's camp shack, and was going to put in the Winter trapping. He carried flour and bacon as he trudged along the trail following the lead of Kesling's

Rathburn did not come out in the Spring. and his brother, in Lodi, Cal., came up to search for him. After days spent in search he gave up the chase. Last Wednesday Albert Beck, John P.

Offield and Fred Herke, all engaged in nerding, were traveling up the Little Klickitat. Beck was on foot, and the others ranged along the uplands. While traveling along the washed-up shore of the river, between two jutting points of high rocks, he found a rifle. Strewn about were bits of clothing. Two pieces of bones were found. Herke was called. He found a flour sack, the same that Rathburn had carried when he last saw him nine months ago. Further search showed a pocket-knife, an Ansonia watch, a pipe, a lead pencil, all scattered among the rocks at the base of the cliffs, between Mount Arams and Cispus Pass.

TO PASS ON CRANK'S SANITY New Yorker Who Said He Was the Savior Still Held in London.

LONDON, Aug. 11 .- D. H. Fanning, of New York, who rode into the court yard of the Hotel Cecil yesterday afternoon and declared that he was the Savior, will remain in the St. Giles Infirmary, where he was removed, until tomorrow, when he will be taken before the Linacy Comdoners. He is in the same condition as he was yesterday, is perfectly con-tented, being well cared for by a friend,

Sane When He Left New York. NEW YORK, Aug. IL-At the office of Hans Bros., slik importers, it was said today that Mr. Fanning was employed there, and that he had gone abroad on business for the firm. He was perfectly rational when he left New York, and the members of the firm were at a loss to account for his condition, unless it might be due to a recent accident, when he was thrown from a carriage to the pavement.

Edison on Future of Electricity. COPENHAGEN, Aug. 11 .- The official rgan of the press exhibition, which was pened here on June 14, prints a letter from Thomas A. Edison, in reply to queries as to his opinions concerning motion, traction and aerial pavigation. Mr. Edison's letter read as follows:

"I believe that within 20 years nearly all railways will discard steam locomo-tives and adopt electric motors and that the electric automobile will displace the horse almost entirely. In the present by which one could predict any comby which one could predict any com-mercial future for serial navigation."

Demur to Inspection of Books DENVER Aug. II.—Attorneys for the Colorado Fuel & Iron Company appeared before Judge Johnson in the District Court today, and filed a demurrer and mo-tion to strike out certain parts of the application for an alternative writ of mandamus filed by attorneys of William N. Valle to compel D. C. Beaman, secretary of the corporation, to allow the defendant and his attorneys to inspect the books of the company. Judge Johnson announced that he would hear the case tomorrow.

Salmon Run on Skeena Is Over. VICTORIA, B. C., Aug. 11.-The salmon have stopped running on the Skeena River, but the canners have already put up 200,000 cases. At River's Inlet 76,000 cases were put up.

BRIDGE MEN ARE NAMED

COUNTY COMMISSIONERS MAKE AP-POINTMENTS.

October 2 to Complete the . Assessment Roll.

Appointments to positions on the bridges were made by the County Commissioners yesterday. The names of the successful ones are: D. C. Lounsbury, gateman Burnside-street bridge; Martin Johnson, gateman Morrison-street bridge; Frank Dolan, gateman Morrison-street bridge; Charles Clark, gateman Burnside-street bridge.

There are a number of men on the bridges working on probation, without ompensation, who will be appointed soon if they prove competent. It has not been necessary so far to remove men on the bridges to make room for the new ap-pointers, because there have been a number of resignations. Just when other ap-pointments will be made to various places s something the Commissioners do not esire to discuss, but they are not in a hurry to make changes.

The County Court yesterday made an order, at the request of Assessor McDoneli, extending the time to complete the assess-

ment roll until October 2.

The County Clerk was instructed to make a charge of 50 cents for his services in issuing each tax redemption certificate; 50 cents for canceling a tax sale and filing Sheriff's certificate of sale, and 10 cents for entering a transfer of the Sheriff's cerificate of tax sale.

The Commissioners decided to advertise for bids for furnishing the steel rods and bolts, and also the heavy timbers to be used in the construction of the trusses of the Madison-street bridge. Bids will also be asked for the reconstruction of the second bridge from the mouth of the Sandy River, near Troutdale,

Bids will be advertised for macadamis-ing the new part of the White House road,

AGAINST FRANK PHILLIPPI.

Judge Webster Aunounces Decision in Probate Case.

Judge Webster yesterday announced a decision in the matter of the estate of Appoionia Phillippi, deceased, that under the terms of the will Frederick Phillippi was entitled to all the rents and profits of the entate. He was charged with the education of Frank Phillippi, a grandson of the deceased, and to put him in business when he was 21 years of age, and to have him taught a trade, but Frederick Phil-lippi had full control of the property, and could dispose of it or do what he pleased with it. Frank Philippl, the court held, was not entitled to one-half of the rents

and profits.
On the death of Frederick Phillippi without issue. Frank Phillippi is to receive onehalf of the property remaining, so the will provides. Frederick Phillippi is dead, and left no children. Judge Webater has not been called upon to pass upon the latter clause of the will. The property is valued at about \$75,000. Frank Phillippi is still a minor, and his

mother is his legal guardian. D. L. Rountree Sues for Divorce. Dean L. Rountree has filed suit in the State Circuit Court against Hattle Sampson Rountree for a divorce, on account of desertion. They were married in February, 1886, and in his complaint Rountree

TO NAME ARBITRATOR. Board to Settle American-Mexican Dispute Will Soon Meet.

THE HAGUE, Aug. 11.—The four arbi-rators in the dispute between the United States and Mexico regarding the payment of damages in connection with certain church property in California, will meet on September 1, to appoint a fifth arbi-trator. The full court will meet on Sep-tember 15, to deliberate on the subject.

DENVER TAKES A WHACK AT "INDECENT" LITERATURE.

the arbitrators are to decide what part of that sum, if any, Mexico must pay. The Plus fund was originally established to enable the Jesuits to carry on mission work in what is now New Mexico and California. The Spanish Government ex-pelled the Jesuits in 1767, and seized all of their property, which thereafter was administered by the Franciscans. When Mexico gained her independence she took charge of the fund. In 1842 Mexico sold the properties of the fund and guaranteed the church authorities 6 per cent on it in perpetuity. At the time California was ceded to the United States Mexico stopped paying this interest. In 1864 Mexico paid \$304,700 arrears on an award made in favor of the church authorities. made in favor of the church authorities by Sir Edward Thornton. Since then nothing has been paid. Archbishop Riordan, of San Francisco, sailed on the Celtic on Wednesday last for Europe. He will go to The Hague, where he will present the church's claim for the interest on the fund.)

WILL IGNORE CUBA. Senator Platt Discusses New York Republican Platform

NEW YORK, Aug. II .- Senator Thomas Platt has clearly indicated, according the Herald, that the Republican state platform this year will ignore Cuban reciprocity as advocated by President Roosevelt and indorsed by the Iowa state platform, and confine itself chiefly to state lesues. When asked how the Cuthe state platform, Senator Platt said: "I have not heard that matter discussed. I do not know that the state platform will deal with Federal issues. We have issues enough of our own here in the state."

It was suggested that the Republicans of lowa had taken a different view of the

"As the Republicans of Iowa have about everything in the National Government, it is proper that they should take charge of Federal Issues," Senator Platt replied

Cloudburst Washes Out Graves. MADISON, N. J., Aug. 11.—The cloud-burst last night caused devastation in Hillside Cemetery. About 75 caskets were swept from the graves. The cemetery is situated partly on a hill, but a brook and situated partly on a fill, but a brook and ravine traverse the other side of it. The water backed up on and swept across the lower part of the cemetery. For a distance of about 400 feet the torrent car-ried everything before it, and for a width of 60 feet the graves were washed out. Today coffins were found strewn about in all directions, some of the bodies were found a mile from the cemetery, and it is believed that others were washed into the Passaic River. So far 40 bodies have

been recovered. Lackawanna tracks were badly washed out between Madison and Chatham, and there were no trains west this

LAND OF MANY WONDERS. Galapagos Island Contain Seemingly No End of Minerals.

SAN FRANCISCO, Aug. 11.-Captain Richard Nye, who was one of those on the steamer W. S. Phelps, tells of many wonders of the Galapagos Islands, which that vessel recently visited. In an inter-

view he said:
"The islands are as full of minerals as shad is of bones. On Al-bemarie there is an extinct crater, miles in diameter, in which there is in sight 40,000 tons of pure sulphur. The crater to about 10 miles inland and a tramway will be necessary for transportation to the coast, but this should be a small matter considering the possible profit.

'One of the queer things in Albemaric Island is that it is overrun with wild dogs. The animals are a mongrel breed and were left on the island by whalers. The dogs have become wild and extremely victous. They are wolflike in their habits and run in droves.

Captain Nye also tells of a remarkable lake on the Island of Chatham at an elevation of 3000 feet above the sea level. This lake, according to the captain, rises and falls with the tide and no sounding line has ever reached its bottom. Many relics of an ancient race were found.

Immigrants Held Again by Officers. NEW YORK, Aug. 11.-Geise Rabini-(The arbitrators for the United States are Sir Edward Fry. of England, and F. De Martens, of Russia, and the Mexican representatives are Pagana Guinas Chili, of Italy, and Sovornin Lehmann, of Holland. The sum involved is \$200,853, and eldest daughter had come to marry a vici and his six children are being held a
