BEAR CAMPAIGN AT END

A REVIVAL OF CONFIDENCE IN WHEAT AT CHICAGO.

Buying Was Vigorous, Notwithstanding the Government and Foreign Reports—Corn Market.

CHICAGO, Aug. 12.—A revival of bull confidence and fear on the part of the bears put through a heavy business in wheat. The general impression prevailed that the end of the bear campaign had set in yesterday, and, strangely enough, the low prices of this campaign had come before the Government report. Usually a Government report is followed by depression. The case was different today. Whereas the estimate of a Spring and Winter wheat crop of about 750,000,000 bushels had gained credence, the Government suggested only 620,000,000 bushels. Foreign markets gave the report a bullish interpretation and sent higher quotations, and the Northwest had lighter receipts. Primary receipts were heavy, the weather was good and ordinary conditions wer bearish as before the receipt of the report. Coarse grains, however, also had an upturn. Selling was almost nothing, and buying for the support of September was so vigorous that shorts bid prices up hurriedly. New York and St. Louis were in the market heavily on the buying side, and there was a good commission demand all day. There were several lapses from high prices on the advance, but the close was near top figures. Grading shows but little improvement, and the local contract stocks are fast disappearing. September opened ¼@⅛c to ⅛@⅜c higher, at 67⅞@67⅝, sold to 69⅛c, and closed strong, 1⅜@1½c higher, at 69c.

Corn showed much strength, partly because the Government report showed 1 per cent reduction since July 1, but principally on heavy covering by a great many shorts, who secured handsome profits. The market was influenced by frosts, very small receipts, and the strength in wheat. September sold as low as 50½c, and jumped to 52⅝c, closing strong, 1⅜c up, at 52¼c. Receipts were only 62 cars.

There was not influential buying in oats, but prices responded quickly to the bullish sentiment in the other pits. September closed firm, 1@1¼c up, at 30@30¼c. Receipts were 542 cars.

Provisions were irregular. The demand was not heavy, but buying orders came in sufficient quantities to put good strength in the market. Several reactions occurred, but the grain strength held the price up. September pork closed 30c up, lard unchanged and ribs 22½c up.

CROP CONDITIONS.

Weather Unfavorable to Growth in the Northwest.

WASHINGTON, Aug. 12.—The Weather Bureau's weekly summary of crop conditions says:

Some injury was caused by excessive heat in Kansas and Oklahoma in the early part of the week. On the Pacific Coast the weather was hot and dry, while conditions were favorable for harvesting, yet detrimental to growing crops in Washington and Oregon. The corn crop experienced another favorable week, and the outlook in the principal corn states continues very promising.

The threshing of Winter wheat is much belated in the lake region and the northern portions of the Middle Atlantic States. Harvesting continues in the Northern Pacific Coast region, with a disappointing yield in north portions of Oregon. The Spring wheat harvest is nearing completion in the southern portion of the Spring wheat region, and is advancing rapidly in the central and northern portions. A considerable part of the crop in the Red River Valley is still very green and is ripening unevenly.

The oats harvest is now practically finished, and while a generally heavy crop has been secured, the quality in many sections is poor, after being in shock, as a result of injury by rains.

The progress of the cotton crop as a whole continues favorable.

The general outlook for apples continues unfavorable except in Oklahoma, Kansas, Nebraska, Michigan and New England, while by reports from New York very light crop is generally indicated.

PORTLAND MARKETS.

Grain, Flour, Etc.

The wheat market was apathetic yesterday and "buyers and sellers apart" characterized all grains. Exporters were quoting between 60@61c for Walla Walla. A quantity of bluestem was reported sold at 50½c per bu, Pendleton basis. In freights, no activity was reported. Shipowners have not yet recovered from the coronation and, besides, are unwilling to get down to rates offered. Only two ships are loading at present, and grain will not begin to move from the interior until the new freight rates go into effect. The market for oats and barley has not fairly opened yet. Growers are disposed to be independent, encouraged by the good prices of the former crops and by the competition of buyers, who are already entering the market.

CURRENCY MOVEMENT STILL IN FAVOR OF NEW YORK.

Increased Export Demand for Grain Keeps the Market Firm—Effect of Monthly Crop Report.

NEW YORK, Aug. 12.—The dominating factors in the stock market continue to be the coming crops and the money outlook. Crop news was exceedingly satisfactory today, both that of the monthly report of the Agricultural Department and the later current news of the Weather Bureau; but it is to be borne in mind that the speculation for some time past has been diligently discountenancing good crops, which have been clearly foreshadowed. On the other hand, the Autumn activity in the money market, while it has been expected and made the subject of industrious warnings, has been ignored in speculation. This week's rise in money rates, therefore, would naturally be of most effect on speculative conditions. Buyers, in anticipation of good crops, seeing the danger of a flurry in the money market, which might force liquidation of stocks, and attracted by the high level to which prices have attained, are tempted to sell to realize their profits.

There was considerable strength at one time today, and in a few cases it continued to the close, but for the most part the early rise in prices was taken advantage of to realize profits, and the general level of prices ended lower than last night. There was a further contraction also in the volume of dealings, which dropped back again below 500,000 shares. Unofficial estimates on today's Government reports indicate a wheat harvest of over 652,000,000 bushels. This is nearly 100,000,000 bushels below the crop of last year, but has never been exceeded except the crop of 1898.

As for the corn crop, today's Government figures indicate a yield the largest in the history of the country. This had its effect among the Southwestern grangers, especially among the Gould group. Another striking show of strength was made by Baltimore & Ohio. Among the returns of the railroad's gross earnings for the first week of August Chesapeake & Ohio shows a decrease of $103,553, compared with last year, and Missouri Pacific earnings for the same period declined $28,000. The two groups of railroads in which the strongest stocks are, were thus handicapped by this unfavorable influence.

As for the money market, the rate for call loans averaged more nearly 4 per cent than the 3 per cent, which was the maximum today. Time loans and commercial paper showed a hardening tendency as well, five and six months' loans on good mixed Stock Exchange collateral ruling at 5 per cent. The rise in money rates, however, had a perceptible effect upon foreign exchange rates, which receded a fraction, and tentative plans for further shipments of gold this week were abandoned. The currency movement seems to be still in favor of New York. Exchange at Chicago remained at a premium of 20c today. Another development was an increased export demand for grain, which held the market firm, in spite of the crop report, and made some exchange. The United States Treasury operations are also showing a continued deficit, the excess of expenditures for this month exceeding $1,500,000, while for the same period last year receipts were more than $900,000 in excess of expenditures. This affords some relief to the money market, but the beginning of the interior demand for currency is awaited, nevertheless with anxiety.

The bond market was dull, and the Central of Georgia incomes weak. Total sales, par value, $1,880,000.

United States bonds were all unchanged on the last call.

Foreign Financial News.

NEW YORK, Aug. 12.—The Commercial Advertiser's London financial cablegram says:

Trading started heavy, under the lead of consols, which declined to 95 3-16 on sales by the £6,000,000 syndicate. They afterward recovered to 95⅝. Other sections of the market moved in sympathy with consols. American issues, after initial flatness, were supported on favorable crop reports, closing only a shade under the best. Baltimore & Ohio was the feature on New York's afternoon buying orders. The carry-over showed little change in the size of the account, though the disappearance of backward actions in St. Paul and Louisville & Nashville proved that the bears have rebought. The general contango ranged from 4 to 4½. Canadian Pacific touched 139⅝. Speculators are disappointed over the action of the dividend, but conservative opinion supports the board's policy. Rio Tintos touched 42⅞, owing to a drop of 10s to £52 the ton on copper. The Bank of England has bought £44,000 gold in bars.

Application to List Bonds.

NEW YORK, Aug. 12.—Application has been made to the Stock Exchange to list 2,310,000,000 rubles 4 per cent certificates of rentes of Imperial Russian Government. The application, it is known, has the support of J. P. Morgan & Co., who are interested in the issue. There is little doubt that the application will be granted. Other foreign bonds are regularly listed on the Stock Exchange, including a recent external loan of the Mexican Government, and bonds issued by the municipalities of Frankfort-on-the-Main, Germany, and Quebec, Canada.

Gates Will Gain Control.

NEW YORK, Aug. 12.—Harris, Gates & Co. state that T. T. Mitchell, John W. Gates and James A. Blair, as a committee, have received proxies for about 200,000 shares of Colorado Fuel & Iron Company stock, out of a total of 200,000 shares. According to this, the Gates faction is quite certain to gain control of the company at the annual meeting to be held in Denver the latter part of this month.

Metal Markets.

NEW YORK, Aug. 12.—Yesterday's weak copper market was followed today by a further sagging off of prices and weakness of undertone. The lower basis of prices had the effect of stimulating an active demand, and a good business was transacted, amounting to 1,000,000 pounds altogether, at $11 62½ for August and September delivery. At the close of the market the tone still ruled weak, and offerings were made on the quoted basis. Standard spot closed at $11 12½@11 40; lake, $11 70@11 82½; electrolytic, $11 60@11 62½, and casting at $11 50@11 60. English prices also suffered declines, spot and futures both easing off 8s 9d and closing £52 2s 6d for spot and £52 6s 3d for futures.

Liberal offerings of tin in the local market, coupled with an absence of demand from speculators or consumers, broke prices today about 30c on spot, the market closing weak at the decline. Spot closed $28 20@28 30. London market reported a drop of 5s for the day, presumably due to the same cause. Spot closed at £126 10s and futures at £124 5s.

In lead there was little change noted, and prices remained as last quoted. Spot closed at 4⅛c. London was unchanged at £11 2s 6d.

Spelter ruled firm on moderate demand and absence of offerings. Spot was quoted at $5 44. The English market was unchanged at £18 12s 6d.

Domestic iron was in fair demand for the season and foreign undertone. Prices were unchanged. Warrants were nominal. No. 1 foundry, Northern, $23@25; No. 2 foundry, Northern, $22@23; No. 1 foundry, Southern, $22@23; No. 1 foundry, Southern, soft, $22@23. Glasgow was unchanged at 56s 6d and Middlesboro a trifle higher at 51s 7½d.

Close Friend of Abraham Lincoln.

LOUISVILLE, Aug. 12.—Mrs. Frances Henning Speed, the widow of Joshua Speed, who was one of Abraham Lincoln's closest personal friends, is dead at the age of 82 years, at her home on the Cherokee road. Her early life and the life of her husband were closely connected with that of Lincoln. As it is told in Hay and Nicolai's biography of him, Lincoln was Mr. Speed's confidante throughout his courtship of Miss Henning, who afterward became his wife, and on the testimony of his friend of the happiness which he found in his marriage was due to Lincoln's union with Miss Mary Todd, of Lexington, Ky.
