CHOLERA IN JAPAN

Death List Already Numbers About 1000.

PLAGUE SPREADS FROM MANILA

Tien Tain Reports Nearly 800 Fatalities, Rate in Other Parts Not So High-Conditions Are Now Improving.

VICTORIA B C., Aug. 12.-According to advices received here today, the epidemic of cholera has spread from Manila and the ports of China to Japan. Up to the middle of July cases and deaths were officially reported as follows: Tokio, 4 cases, 3 deaths; Saga, 75 cases, 42 deaths; Nagasaki, 2 cases, 5 deaths; Pukuoka, 102 cases, 73 deaths; Fukuoka Goal, 27 cases, deaths; Formosa, 19 cases, no deaths; total, 231 cases, 142 deaths.

Experts state that the cholera in Japan this year was first brought to Karatau by a Chinese junk, and the cases in Tokle are understood to have come from Kar-atau. It is regarded strange that Osaka, in which the largest number of deaths has occurred in previous years of choiera epidemic, has not reported any cases so far this year. The disease, as a rule, in-vades Kobe and Osaka from Klushiu, but it has made its appearance in Tokio direct this year. The number of cases in Fukooka Ken up to July 16 was 121, of which 93

A Tien Isin dispatch states that the number of cases in the city up to July 14 was 1049, of which 764 have proved fatal. The total in the northern section was 10th, out of which 593 deaths have been recorded. The epidemic is becoming less preva-

PROGRAMME OF REFORMERS. Their New Russian Paper Outlines a

Plan of Peaceful Revolution. ST. PETERSBURG, July 24.—(Correspondence of the Associated Press.)—Oswolzhdenia, the Liberal newspaper established in Stuttgart by the exile Peter Von Struve, to bring about the political emancipation of Russia, has appeared in print. Printed on Bible paper, its 16 pages make a half-ounce letter, and a few copies of the first two issues have reached their addressees and are being circulated widely from hand to hand.

The periodical does not pretend to be a

complete news organ. It priots no matter that is satisfactorily handled in the legal Russian press. The contents of the first two numbers are sufficient varied to stimulate curiosity. Among the headings are: "The Popularity of Political Murder in Russia," "Death of Sipiaguine," "Indictment and Trial of the Nobleman, Stephen V. Balmasheff," "Last Words of Balmasheff," "From the Universities,"
"Letter From Poltava on the Peasant Dis-orders," "Review of Russian Life."

By far the most important article is "From the Russian Constitutionalists." This is a carefully elaborated programme of peaceful revolution, and is apparently the joint product of many pens. It cites and adopts Minister Von Piehve's speech on assuming office, in which he said the situation demands "deeds, not words," and inquires if he will continue the ruinous policy of the last 30 years. All thinking Russians, these writers proclaim, de-mand serious political reforms. They then proceed to map out a programme. This programme provides that the first demands must be for:

First-Personal freedom guaranteed by independent courts, and consequently abandonment of arbitrary arrests and inquisitions of administrative banishment, extraordinary courts and summary trials. Second-Equality before all the laws, and consequently abandonment of all class, racial or religious discriminations.

These elementary rights, the programme continues, requires as guarantees the freedom of the press, including abolition of the censorship and the responsibility of te the press to the courts alone; the freedo of assemblage and association, and the right of petition.

The members of the royalty were amused at the unconventionality of the colonials, who, after they had received medals, seated themselves comfortably on the grass and smoked as they watched the decoration of their comrades. NO CLEW TO BARTHOLIN

CHICAGO POLICE BELIEVE MATRI-CIDE IS STILL IN THE CITY.

Boarder at the House of Death Again in "Swent-Box," but Refuses to Divolge Anything.

CHICAGO, Aug. 12.-The idea that Bartholin, the supposed murderer of his mother and his sweetheart, is being aided by a fraternal society in his escape, was shattered tonight. Bartholin had been a member of the Mutual Protective Association, but was expelled July 1. The officers of the organization emphatically denied that they had had anything to do with Bartholln, and declared they would not protect him under any circumstances were

He maintained that the story told by him when first arrested was the truth, and that he knew nothing about the crime. The police do not credit Thompson's tale, and he is still under arrest.

At midnight the police declared they had ot a single clew to the whereabouts of Bartholin. During the day Bartholin was reported from the following places, and in nearly every instance the identification was positive: St. Joseph. Mich.: Kenosha. Wis.; Elkhart, Ind.; Doris, Is., and Guth-rie, O. T. The police are of the opinion that Bartholin is still in Chicago, and that if he has left he has gone

Digging Up Bartholia Basement. CHICAGO, Aug. 12.-Police officials were in consultation again today trying to for-mulate new theories that may tend to solve the mystery surrounding the murders of Minnie Mitchell and Mrs. Bartno-lin. Spurred on by offers of reward for the arrest of William J. Bartholin, the police in neighboring towns made several arrests today, but in each case the prisoner's identity with that of the suspected

Working on the hypothesis that the orderer had a mania for killing, officers today began systematically to dig up every inch of the basement in the Bartholin bouse, on Calumet avenue. crowds throng the neighborhood of the now notorious death house, and officers have been compelled to keep curiosityseekers off the premises.

The fight occurred just before dawn, near Jackson Boulevard and Ashland avenue, in the aristocratic section of the West Side. The fusliade of shots aroused the neighborhood. The police soon had six men in custody. Before Pennell died he was able to gasp out a few words about Late tonight the police received a clew o the murderers of Officers Devine and Pennell. Replying to questions of Mr. Guthrie, for the defense, Mr. Lamb said that Power had paid him for services n the case, and denied that he had received a dollar from Camille Weldenfeld or Content & Co. Telling of a talk with Governor Van Sant, of Minnesota, he declared that the Governor had said to him that it would be a good thing for the if it could buy the stock of the Northwestern railroads but the Attorney-General of the state had come to lusion the state could not own the stock. "Did Mr. Weidenfeld ever tell you he

The Captain, he said, took the stock West for the purpos of beginning a lawsuit. The witness said that the certificate of stock was returned to him about 10 days after. The certificate, he averred, had never been under the con-trol of Mr. Lamb, and he had never agreed to carry 100 shares of Northern Pacific for Mr. Lamb or Mr. Power. He had contributed between \$5000 and \$6000 to this suit. Captain Steyn, he said, had received it. "Did you ever tell Mr. Lamb you wished to punish anybody for the panic of May asked Mr. Guthrie

STARTED BY CAMPERS, THREATEN VALUABLE PROPERTY.

East of the Sandy River and South of Gresham Flames Are Spreading in the Slashings.

For the next few weeks there will be great danger of fire in Eastern Mult-nomah and Clackamas Counties, on acount of the great number parties who are camping on Bull Run, andy, Salmon and other fishing streams. Most of the outing parties leave early in the morning and build fires by the roadelde, which they usually leave burning, endangering the surrounding forests. Yesterday morning several fires were noticed along the roadside as far as Pleasant Home, probably left by care-

ess campers. There are hundreds of acres of brush that have been slashed for clearing be-yond Gresham, in which a fire would do great damage should it get started at this time. If fires are carefully ex-tinguished when built by campers there will be no danger of damage. Those who have cleared land by slashing brush and leaving it to dry, intending to burn it later, should not undertake to burn it at present. Some of the worst fires in the county have been caused by their being started in this way when everything is as dry as tinder and when a fire is almost sure to get beyond control.
All about Pieasant Home and for miles beyond the sawmills have cut down the standing trees, but there is still much timber and dry brush in which bad fires might be started. The many camping oints are the danger places, Spain, of the Bull Run headworks, who is in the city, said yesterday that people are exceedingly careless about leaving fires, notwithstanding the warnings that the forest rangers have posted up all through the country. He says that he has known some very prominent people to go away and leave their camp fires burning, which he had extinguished. With so many people camping on the fishing streams some may be careless. There is a heavy fine for starting fires, bestiefs the liability for damners all of besides the liability for damages.
