

SHOT BY A DEPUTY

Fatal Result of a Clash in the Anthracite Region.

STRIKING MINER WAS KILLED

Order Was Quickly Restored, However, and Troops Were Not Summoned—Confidence of John Mitchell.

NESQUEHONING, Pa., Aug. 18.—In a clash between striking miners and deputies here tonight, Patrick Sharp, a striker of Lansford, was shot and killed almost instantly by a deputy. The shooting caused considerable excitement for a time, but order was restored without any other person being injured, and the town is now quiet. A deputy, named Harry McElmer, was arrested, charged with the killing of Sharp, and was taken to the County Jail at Mauch Chunk.

The shooting occurred shortly after 6 o'clock. Five deputies were on their way to shift No. 1 at the Colliery and Navigation Company, just outside of the town. In the center of the town they were met by a number of strikers, who began persuading them not to go to the colliery. The strikers did not stop, but kept on their way and tried to prevent any trouble. The strikers, it is said, then began to abuse the men, and followed them nearly to the colliery. There are conflicting stories as to what actually brought on the clash, but just before the deputies entered the place, a shot was heard and Sharp dropped to the ground. The bullet entered his body close to his heart and he died almost instantly. Witnesses say that the shooting was done by McElmer, and that he stood only six or seven feet from Sharp when he fired his revolver. Only one shot was fired.

The deputies immediately withdrew to the colliery and a large crowd gathered about the place. When it was learned that Sharp was dead, there was the greatest indignation among the strikers and other townpeople, and for a time it looked as if serious trouble would follow. Cooler heads among the miners, however, prevailed upon the crowd to disperse, urging the argument that if there is any bloodshed troops will be sent here from Scranton, and the town dispersed and the town soon calmed down to a normal state.

SHENANDOAH, Aug. 18.—It is understood that the second battalion of the Twelfth Regiment will leave here for Nesquehoning before morning.

MILITIA AND MINERS.

Many Members of the Union in the National Guard.

NEW YORK, Aug. 18.—The subject of the relation of the militia to the coal miners has caused an animated discussion among the delegates at the meeting just held of the Central Federated Union of this city. The matter was brought up by a delegate, who said he had been informed that there is a regiment of militia in Pennsylvania composed entirely of members of the United Mineworkers.

"This is a remarkable condition of affairs," he continued, "and the union is able to be called on to take up arms against their brethren who are on strike for living wages."

He proposed that President Mitchell, of the United Mineworkers, be requested to see that members of the union in future do not join the National Guard. Several delegates said that the central body should consider well before taking such action. The miners, they said, have trouble enough on their hands now. Another delegate remarked that it would be better if the National Guard were made up of trades unionists, and to encourage members of labor unions to join the militia.

"If the militia are made up of the members of labor unions," he continued, "the soldiers would hardly care to shoot their fellow workers on strike. I want to see battalions, regiments—in fact, an army of militia—composed of trades unionists, and that is better than the United States Army."

"I am a member of the National Guard," another delegate said, "and I am not ashamed of it. I was called upon to shoot down workmen on strike. I would resign."

The decision was to allow the subject to rest until after the end of the strike.

IN THE WYOMING VALLEY.

WILKESBARRE, Pa., Aug. 18.—Sheriff Jacobs reports everything quiet among the striking miners of the Wyoming region today. No attempt was made to start work at the Wyoming washery at Durys, and although preparations are said to be going on for resumption at the Malby colliery of the Lehigh Valley Coal Company work was not commenced today.

The 24 deputies who were arrested by the authorities of Durys last week for feloniously wounding and inciting a riot, were given a hearing before Judge Halsey today, and all but three were charged. The three were placed under \$500 bail each. Judge Halsey said the Sheriff would have to protect the Warnock washery. The law demanded this, and the Sheriff must see that the law is carried out. It is said that the washery will resume operations tomorrow.

UNION PACIFIC STRIKE.

Two Hundred Carmen at Omaha Shops Walk Out.

OMAHA, Aug. 18.—Two hundred carmen, including carpenters, coachbuilders and painters, employed in the Union Pacific shops here, went on strike today against the piecework system. The leaders say that all the carmen on the system will be asked to quit work. Some time ago the carmen completed an agreement with the Union Pacific road which included what was known as the premium scale, and which put the men on a piece basis. The understanding was that no man was to receive less than his time amount to at the regular hour-wage scale, and was to have premium for extra work accomplished over a certain amount. The agreement created dissatisfaction and internal friction in the Carmen's Union, and today's strike is the result.

For the company the following statement was given:

"We entered into the contract with the carmen in good faith on July 7, for a period of 12 months, and so far as we know, everything was satisfactory. No grievance committee was called out, and if the carmen will not stand by their agreement, there is nothing left for us to do. We do not expect men at other points to quit work without notice, and will stand by their contract until one is made. The effect of the strike here will cause little trouble, as there is little work to be done at this season. There are enough men left to meet the present requirements and new men for carshops are not hard to obtain."

No Demand for Troops.

NORTH PLATTE, Neb., Aug. 18.—Governor Savage today announced that he does not think it necessary to call out the state militia to guard Union Pacific property at this point. The Governor had a conference with General Manager Dickinson, General Attorney Baldwin and other officials, and with a committee of strikers and citizens, and so discussed

VICTIM OF A VOLCANO

LITTLE JAPANESE ISLAND OVERWHELMED BY ERUPTION.

More Disorders in France Attend the Closing of Religious Schools—Shah Welcomed in London.

YOKOHAMA, Aug. 18.—The little island of Tokushima was overwhelmed by a volcanic eruption between August 15 and August 16, and all the inhabitants, numbering 150 persons, were undoubtedly killed. The island is covered with volcanic debris and all the houses on it have disappeared. The eruption is still proceeding, and is accompanied by submarine eruptions in the vicinity, which make it dangerous for vessels to approach the island.

Tokushima is one of a chain of islands extending between the Bonin Islands and Hondo, the biggest island of Japan.

BOER LEADERS LEAVE LONDON.

An Agent Starts for America to Pave the Way for Their Visit.

LONDON, Aug. 18.—The Boer Generals, Botha, Dewet and De la Rey, started for Brussels tonight, Captain O'Donnell, who served on Dewet's staff throughout the war, starts immediately for America to prepare the way for the visit of the Generals. He says that altogether about 500 Americans and 60 Irishmen were with the Boer forces.

Late in the afternoon the Boer Generals left their hotel and proceeded to the docks to embark on the steamer Batavier, bound for Rotterdam. In spite of the secrecy of their movements, a large crowd awaited the Generals, and cheered the departing visitors.

Montagu White, ex-Consul-General in London of the Transvaal, has issued a statement authorized by the Boer Generals, as follows:

"The Generals are proceeding to the Continent for the purpose of greeting Mr. Kruger and Mr. Steyn, and attending the funeral of General Buller, which they do not intend to return to London at an early rate for the transaction of business, but they have not decided on any fixed plan. During their brief stay in London they will be in receipt of many invitations and kind messages of welcome, which they fully appreciate. The report that the decision of the Generals not to visit the naval review was due to the influence of Mr. Fischer is not true. The real reason for declining the invitation was that they did not consider their attendance quite suitable for a ceremonial visit, and the necessarily short notice conveyed to them did not give them the time for necessary preparations. They were, however, glad of the opportunity of paying their respects to the King on the following day, after they had made the necessary purchases, and were gratified at the kind manner in which they were received by His Majesty."

CLAIMS AGAINST TURKEY

Nonpayment by the Postes Leads to Strained Relations.

CONSTANTINOPLE, Aug. 18.—The non-execution by the Turkish Government of the agreement entered into on several questions affecting the interests of American citizens has led to somewhat strained relations between the United States Legation and the Porte. United States Minister Belmont is endeavoring to have the matter will not discuss other matters until the terms of the settlements already agreed upon are carried out. Diplomatic efforts are being made to bring about a settlement of the matter, and that this may possibly lead to a sharp reminder by the United States.

WASHINGTON, Aug. 18.—The State Department is fully informed of the position of Major Leishman, but neither his action nor that of the Turkish Government will be disclosed.

THE PRESIDENT'S GUESTS.

Representatives Babcock, Hull and Overstreet at Sagamore Hill.

OSYER BAY, N. Y., Aug. 18.—Congressmen Babcock, of Wisconsin; Hull, of Iowa, and Overstreet, of Indiana, were the guests of President Roosevelt at Sagamore Hill tonight. Mr. Babcock is chairman of the Republican Congressional Committee; Mr. Overstreet is secretary to the committee, and Mr. Hull is chairman of the advisory committee of that body. They discussed the coming fall campaign and left on a late train tonight for New York. This is Mr. Overstreet's second visit in two weeks.

Just before leaving Osyter Bay tonight the President's callers said that they had had a very satisfactory conference with the President on the general features of the coming campaign.

"I told the President," said Mr. Babcock, "that Wisconsin would return Mr. Spooner to the Senate and would heartily endorse his administration."

"And the President told me," added Mr. Hull, "that he was much pleased over the way Iowa stood up for Cuban independence."

Edward J. Sullivan, a New York merchant, today discussed Philippine affairs with the President. Mr. Sullivan is prominent in the Catholic church, and assured the President that his policy regarding church affairs in the archipelago met with the approval of a large majority of the Catholics in this country.

Dr. Rixey and Mrs. Rixey, who were the guests of the President yesterday, left today for Washington.

Chinese Smuggling.

WASHINGTON, Aug. 18.—Mr. Sargent, Commissioner of Immigration, has received information that large numbers of Chinese are arriving in Mexico for the purpose ultimately of crossing the border into the United States. Some time ago at the Treasury Department ruled that Chinese arriving at San Francisco en route to Mexico, landing in Mexico for the purpose of crossing the border into the United States, were not entitled to land. Since then a scheme has been evolved looking to the establishment of a steamship line to run directly from China to Mexico, landing its passengers and cargo in the American border. Mr. Sargent will increase largely the force of inspectors at the crossing points on the Mexican border.

Commerce of the World.

WASHINGTON, Aug. 18.—The State Department made public today a report from United States Consul Winter, at Amsterdams, dated July 18, showing the commerce of the world for 1901, according to German statistics. The total imports and export trade of all countries is given as approximately \$2,900,000,000. Great Britain and the United States are the leading countries in placed second with \$2,610,000,000, and the United States third, with \$2,113,200,000. According to United States Treasury figures the United States share was \$2,340,000,000.

Rowing Club's Jinks.

Members of the Portland Rowing Club will give a "jinks" at the head of Ross Island, ending its managers and other barges will leave the clubhouse at 7:15 o'clock, going direct to the island.

ARE NEARER A SOLUTION FOR CATARRH OF THE STOMACH

President Van Horn Endorses Pe-ru-na—A Letter From Delegate Wilson.

ALL OVER THIS COUNTRY ARE HUNDREDS OF PEOPLE SUFFERING FROM CATARRH OF THE STOMACH, WHO ARE WAITING PRECIOUS TIME AND ENDURING NEEDLESS SUFFERING—THE REMEDIES THEY TRY ONLY TEMPORARILY PALIATE THE DISTRESS, BUT NEVER EFFECT A CURE.

"I have used Peruna for dyspepsia and I cheerfully give you this testimonial. Am satisfied if it is used properly it will be of great benefit to our people. I can conscientiously recommend it to any one who is suffering with stomach or catarrhal troubles."—R. W. Wilcox.

Remedies for dyspepsia have multiplied so rapidly that they are becoming as numerous as the leaves of the forest, and yet dyspepsia continues to flourish in spite of them all. This is due to the fact that the cause of dyspepsia is not recognized as catarrh.

If there is a remedy in the whole range of medicine preparations that is in every particular adapted to dyspepsia, that remedy is Peruna. This remedy is well-known and is in every case.

No one suffering with catarrh of the stomach or dyspepsia, however slight, can be well or happy, it is the cause of so many distressing symptoms that it is a most dreaded disease. Peruna acts immediately at the seat of the trouble, the inflamed mucous membrane lining the stomach, and a lasting cure is effected.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Mr. LeRoy Van Horn, president of American Flag Day Association, writes from 361 Madison street, Chicago, Ill.:

"Peruna is rich in wonderful medicinal qualities, as I have found by repeated use in cases of catarrh of the stomach. I am, therefore, pleased to accord it my hearty endorsement."

—LeRoy Van Horn.

Hon. Robert W. Wilcox, delegate to Congress from Hawaii and the Sandwich Islands, in a recent letter from Washington, D. C., writes:

"I have used Peruna for dyspepsia and I cheerfully give you this testimonial. Am satisfied if it is used properly it will be of great benefit to our people. I can conscientiously recommend it to any one who is suffering with stomach or catarrhal troubles."—R. W. Wilcox.
