BARLEY WAS BRISK

Large Sales of the Cereal Were Made in Past Week.

WHEAT MARKET WAS QUIET

Good Supply of Fruit, With Prices Maintained by a Steady Demand—Oregon Peaches and Tomatoes Coming in Slowly.

There has been only a light movement in the local wheat market in the past week. The activity in grains has been confined mostly to barley. Large quantities of this cereal have been bought by Portland exporters. One of the most prominent selling places was Dayton, Wash. Nearly all the crop has been bought up and is in the hands of exporters. A number of big sales have been announced at $19 a ton. The cereal is strong all along the Coast. In San Francisco the market has been steadily advancing for the past month.

Wheatgrowers are hanging on to their product pretty well, and have sold only a small fraction of the new crop. Harvesting is now well under way, and does not seem to have been greatly retarded by wet weather. On account of the comparatively small purchases of exporters, the cereal is not yet freely moving toward tidewater. The first carloads were received Monday. Prices have remained steady during the week between 60@61c for Walla Walla and 62@63c for bluestem. Valley has been quoted at 64@65c, but exporters have ceased to look to it for cargoes.

Tonnage has shown a noticeable hardening. The engagement of two ships for Europe at 26s 3d and of a steamship at 27s has given strength to charters. There are two free ships in port, and it was generally admitted yesterday that they could obtain 26s 3d. The owners are firm, however, at 27s 6d.

The market in oats has not fairly opened yet, but some transactions have been made from $18 a ton upward. At Shaw, Marion County, on Monday, bids were received for a pool of about 2000 tons, but all were rejected because the highest was only $15 a ton.

In speaking of the American and European crop and the visible supply, George Broomhall's Corn Trade News gives the following tables and comment:

*Commercial estimate.

This season's aggregate crop, here forecast, is 7,200,000 quarters larger than last season's, which was itself the largest, with one exception, of which we have any record.

The world's visible supply on August 1 was 11,000,000, a decrease of 6,000,000 quarters from the visible supply of last year.

From this it will be seen that the excess of the production of this year over last is just about offset by the deficiency in the visible supply, while if the depletion in farmers' invisible stock were also to be taken into account it would be found, we venture to state, that there is less wheat in existence at the beginning of the current season that there was a year ago.

Russia—Favorable harvest weather has continued to prevail generally, and there are practically no complaints, except from the Crimea, where a spell of hot dry weather did much damage when the crop was growing. Of the great Spring wheat crop there are no complaints, and a "condition" map issued by the officials a short time ago shows that crop as satisfactory or good throughout the great producing regions of the East. Port stocks are now reduced to about 100,000 quarters, which is probably the smallest on record, and naturally shipments during the week ended August 2 were of quite modest proportions.

Roumania—Harvest is about finished, except in Upper Moldavia, and receipts at Beaila have increased to about 4000 tons per day, the grain being mostly wheat; but there are also some barley and oats. Wheat shipments increased last week.

Austria-Hungary—For the wheat crop of Hungary the official indication of the yield has been further increased 400,000 quarters, the total now standing at 19,900,000 quarters, against 15,400,000 quarters, the final official estimate for last year.

Argentina—Our correspondent at Buenos Ayres reports that prospects for the new wheat crop are excellent. Wheat shipments are practically nil.

Germany—In the west the weather has continued unsettled, delaying the ripening of crops. In other parts of the empire harvest work had made fair progress. Some samples of the grain have been shown, but they have been mostly discolored, and a good deal of the new crop is out of condition.

WOOL—Practically nothing was done in the wool market during the week. The wool is now in the hands of the dealers, and prices were very steady. In a review of the New York market the Journal of Commerce of August 16 said:

The local wool market has shown signs of increased activity during the week, with fair transactions reported in several quarters. Prices remain firm, and buyers, though using every effort to secure concessions, are seldom successful. On the whole, the market is in a more healthy condition than it has been for some time. Inquiries have been more numerous and many sample bags have changed hands, orders resulting in some cases upon receipt of samples. Lambs' wool has moved well, with limited supplies only on hand. Medium and high-grade wools continue to be the prime movers. Fine B supers, A wools, fine As and Cs, with fine combings, continue in fair request. Texas and Territory wools have not been as active, owing to the difference between buyers' and sellers' ideas. The steady tone of the carpet market has greatly encouraged handlers of carpet wools, and, although business in this line has been quiet, an increased demand is looked for at no very distant date. The mills are in good shape, and agents are stated to be busy filling orders, while the new business placed is fully up to last season's average. Manufacturers are now working full time and are likely to do so for some time to come. In foreign wools the demand continues light, but prices remain firm, and a better business is looked for. Orders at present are of a hand-to-mouth character, with instructions for prompt delivery. This would seem to indicate that stocks are low and will need replenishing as soon as manufacturers have a call for goods.

HOPS—Hops were quiet, and news from the Valley was to the effect that the growers are looking for better prices. Some contracts for the growing crop at 21 cents were reported. Advices from New York state that the crop of Otsego County will be equal to at least 60 per cent of that of last year. In the New York market business was quiet and the market was without changes or new features of interest. There was no attempt on the part of dealers to hurry sales, they holding firm for full quoted values. No crop news was reported received from England or the Continent.

CANNED SALMON—Of the salmon market in New York the Journal of Commerce of August 16 says:

Salmon, spot and futures, claim the attention in this department. Soft sockeye, in sympathy with an active interest and reports of probable high opening prices, has advanced to $1 25 on talls, with, so far as can be learned, few holders willing to sell even at that figure. Some flats are available at $1 27½, but holders generally quote $1 35, and half-pounds are held at 87½@90c, where available. Of future sockeye, Coast advices report the pack all told at approximately 275,000 cases. One interest has wired a price here of $1 25 on talls, $1 35 on flats and 85c on half-pounds, f. o. b. Coast. This interest previously withdrew prices on the $1 05 basis on talls and is credited with a pack of 5000 cases. It is strongly intimated that the P. P. & N. Co. will name a price that will regulate the market, but nothing that can be regarded as official has been said on this point. At the high basis the impression exists that buying in this market will be limited. In Alaska salmon the feeling is sympathetically stronger, but not quotably higher at the moment. Talls are available at $1 12½@1 15. Future red is offered at 95c, with, however, a disposition shown on the Coast to advance quotations. Columbia River salmon is held at around quotations.

FRUIT—The market is plentifully supplied with all kinds, but the demand has been steady and prices have been steady. There has been a falling off in the inquiry for watermelons, and stocks are accumulating. Oregon peaches are beginning to come in from The Dalles and Southern Oregon and are of a fine quality.

VEGETABLES—Oregon tomatoes are arriving in small quantities and buyers have to depend mainly on the California stock. The market is well supplied, and the only scarcity is in sweet potatoes.

POULTRY—Receipts of poultry have been light on account, it is thought, of the activity in the grain fields. Stocks are expected as soon as the harvest is completed and farmers have an opportunity to arrange shipments for the market.

STIMULUS TO STOCKS

MORGAN'S RETURN HAS GOOD EFFECT ON TRADING.

Tone of Money Market Is Distinctly Easier—Interior Demand for Funds Still Delayed.

NEW YORK, Aug. 20.—Today's stock market was more broad and active than that of yesterday, and generally strong, but the strength was very unevenly divided, and was not consistently maintained. The hand of the professional was quite manifest in the market. After one group of stocks had been pushed up to a certain extent, they would meet selling orders to realize in the moment that aggressive appearance of strength was developing in some new quarter, thus encouraging continued buying by outside speculators in the stocks, which were advanced, and thus facilitating realization. It was distinctly a Morgan market. That is to say, the buying of stocks was based upon the assumption that Mr. Morgan has returned to Wall street ready to take up the broken continuity of many important projects which he had under way when he left for his vacation. Some of these projects have got into a snarl, legal, financial or speculative. Professional speculators in the street have an abiding faith that Mr. Morgan will promptly settle them all. His immediate appearance at his office, going directly there from the ship, gave additional strength to the conviction that he would give immediate attention to pressing problems. It is needless to say, however, that some of the expectations expressed by the active speculators in the market as to the scope and promptitude of Mr. Morgan's measures reached a degree of absurdity.

Th undeniably strengthening effect upon confidence of this capitalist's return to active direction of affairs was promptly taken advantage of by various speculative pools to make demonstrations in their favorite stocks by rapidly advancing prices. A distinctly easier tone to the money market facilitated the operation for the advance. The ruling rate for call loans was 4 per cent, as against 4¾ per cent yesterday, and the market for time loans was also called easier. The foreign exchange market naturally hardened in consequence. Continued selling of stocks for London account was also a factor in the demand for exchange. The interior demand for funds seems still to be delayed, and bankers report that outside lenders were placing their ready funds on call in today's stock market. Owing to the large pension payments and the decline in the recent high level of Government customs receipts, the Subtreasury has contributed over $800,000 to the money market this week. Today that institution paid out $580,000 on account of gold deposited at Pacific Coast points, which is presumably Klondike gold. The Treasury statement from Washington, however, shows a surplus of revenue for the day of $1,593,465, which cuts down the month's deficit about three-quarters.

Unfavorable crop weather, the futility of the coal conference to effect a strike settlement, and the violent break in Colorado Fuel on account of the international conflict in the company, were ignored in the trading. The special strength of some Colorado railroad stocks was supposed to be connected with the liquidation of Colorado Fuel. Recent rumors of a merger of Southern Railroad stocks was supposed to be connected with the liquidation of Colorado Fuel. Recent rumors of a merger of Southern railroads, of the Canadian Pacific's alleged intention to secure an entrance to Chicago, and of a prospective absorption by large railroad systems of sundry small systems, were all manifest influences in the market. Profit-taking was general during the last hour, and the closing was active and irregular.

Bonds were generally firm. Total sales, par value, $2,500,000. United States bonds were all unchanged on the last call.

Foreign Financial News.

NEW YORK, Aug. 20.—The Commercial Advertiser's London financial cablegram says:

The stock market was firm today and the American department was lively and buoyant. The opening was stronger on New York afternoon support, which encouraged the local professional contingent to take a hand in the market. The close was animated, and at the top figures for the day, the features being Louisville & Nashville, Denver & Rio Grande, Missouri Pacific and Norfolk & Western.

Consols sold at 95 3-16 on talk of a Transvaal 3 per cent loan of from £30,000,000 to £40,000,000, the plan involving the conversion of railroad securities and a redemption of the floating debt. Some persons expect a prospectus in October, and others not before the new year. Rio Tintos sold at 43⅝ on a rise in the metal of 10s to £52¼ the ton. The market is steady. We are closely watching new exchange, which is now 2c above our gold export point.

Metal Markets.

NEW YORK, Aug. 20.—The feature of the metal market abroad was the sharp advance in English iron, due to the heavy demand from this country. Glasgow closed today at 58s 6d, as compared with 56s 9d yesterday, and Middlesboro at 53s, against 52s 3d yesterday. Domestic markets are firm, but without quotable change at the moment. Warrants remain nominal. No. 1 foundry Northern, 23@25; No. 2 foundry Northern, $22@23; No. 1 foundry southern, $22@23; No. 1 foundry Southern soft, $22@23.

There was a fair business doing in tin today, principally for jobbing account, and prices were raised nearly ¼, spot closing at $28 30@28 40, and firm. English prices improved 5s, closing at £128 and futures at £124 5s.

There was an easier ruling to the local market for copper, under liberal offerings, and values were shaded somewhat on one or two grades. Demand was principally of a jobbing order. Standard spot closed at $10 87½@12 05; Lake, $11 50@11 75; electrolytic, $11 40@11 50, and casting at $11 35@1 50.

Lead ruled steady at unchanged prices locally, with spot quoted at 4⅛c. London declined 1s 3d to £11 2s 6d. Spelter was in better demand and firmer, both here and abroad, the local market closing at $5 50 and London £18 7s.

LONDON, Aug. 20.—Bar silver—24¼d per ounce.

Chicago Provisions.

CHICAGO, Aug. 20.—Provisions were strong and higher, but inclined to dullness. There was a fair demand and no selling pressure. Liquidation for profits went on at times. Hogs were higher and helped in the advance. September pork closed 22½c up, lard 7½c up and ribs 22½c higher.

RECREATION.

If you wish to enjoy a day of rest and pleasure, take the O. R. & N. train from Union depot at 9 A. M. for a short trip up the Columbia, returning, if desired, by boat from Cascade Locks. Tickets and particulars at O. R. & N. ticket office, Third and Washington.

WHEAT STILL GOING UP

SHOWERY WEATHER IN NORTHWEST CAUSES ALARM.

Shorts in Corn Are Frightened Again by Depleted Stocks—Oats Rule Strong.

CHICAGO, Aug. 20.—Wheat gained much of its strength from the coarse grains. There was considerable changing going on, and this constituted the bulk of the trade. At the opening there was a good advance on the rains, firm cables and damage to wheat in the shock. There was much fear among the September shorts over the congestion in that month, and the improbability of relief from contract receipts. No contract stuff came in with the 303 cars received. The showery conditions in the Northwest gave rise to fears that the growing crop in that section may be dangerously retarded. After the early rush of buying orders trade was very dull for several hours, but a good rally set in late on a fair cash demand and 15 loads accepted at the seaboard. September opened ⅝c up to unchanged at 70½@70¾c, dipped to 69⅞c and reacted to 70⅝c, closing strong, ⅜@⅝c up, to 70⅝@70¾c.

Corn receipts were only 13 cars, three of contract grade. Cables were higher and the wet weather badly retarded growth. It was officially stated that the corn is very green and stocks were so depleted that shorts were frightened again. September closed ⅞@1c up at 52⅝c.

Bad reports from the oat fields caused good buying. Commission-houses had large orders and local shorts were eager to cover. The market ruled strongest on the floor at times and held most of its strength. September closed strong, ⅝c up, at 33⅝c.

FORWARD COMPANY FAILS

President of Reduction Works a Bankrupt.

CLEVELAND, Aug. 20.—Dr. Chauncy B. Forward, president of the Forward Reduction Company, today filed a petition in bankruptcy in the United States District Court. His schedule shows that he owes $478,587, and has assets worth $4225, of which $910 is exempt. Dr. Forward's creditors as named are scattered all over the United States, it is said, and he owes them each all the way from $100 to $50,000.

Dr. Forward went into bankruptcy because of the financial embarrassment of the Forward Reduction Company, of which he was president, a principal stockholder and a heavy indorser. The Forward Reduction Company will follow him into the bankruptcy court. The holdings of the company are located in Orange and Jefferson Counties, Texas, and across the state line in Louisiana. They represent lands owned in fee simple and held under long-term leases. Of the leasings it is estimated that 80,000 acres are alive, some of the poorer territory having been abandoned. Fully 12,000 acres are owned outright. The company was engaged in the refining of oil and other similar products under a secret process of Dr. Forward's discovery.

Dr. Chauncy B. Forward and L. V. Denis organized the company in Cleveland in 1897. It has a capital of $5,000,000, of which $2,800,000 has been issued, the balance being held in the treasury. The stock is held all over the country and a lot of it abroad. There are about 800 stockholders. The attorney for the company said:

"The company will be reorganized along lines already defined. Creditors will be satisfied by giving them stock if possible; at any rate, in the manner best possible. The concern will not go to pieces."

Lawyers, doctors, clerks and many toilers in shops and factories are numbered among the shareholders.

Fell Down a Shaft.

HELENA, Mont., Aug. 20.—Charles Claff, a miner, fell down the shaft of the Seven-Up Pete mine, 45 miles northwest of Helena, last night and was instantly killed. He had a son in Butte and a wife who has not been located.

Matthias Lorenze, an old placer miner, who has been complaining of poor health for some time, and recently said he did not care whether he lived or died, hanged himself 11 miles north of Helena last night, in a cabin adjoining the home of his son, John Lorenze, with whom he lived. The son found him suspended from the ceiling of the cabin this morning, and notified the Coroner.
