GUTTERS UNDER BIOTOLS PATH.—Some persons who have been looking over the bicycle path in South Fourth street, as far as completed, have been somewhat puzzled with signs things connected with it. Of course, every one understands that the path occupies the place of the gutter on the east or nominally the lower side of the street, though the street is practically level. The gutter will hereafter be alongside the outer curb of the path. In a good many places small, square holes are cut in this curb, apparently for some small gutter to discharge through into the main gutter. Just what those were for no one could imagine. These it was found were to carry off the water from the gutters connected with the alleys, troughs of the houses. In places along Fourth street, where the gutters do not come together, many persons have their sidewalks widened out to the curb to give access to the street crossing. In such places the sidewalk has been extended across the path to the crossing, and a box gutter has been put in on each side of this sidewalk extension, but no one appears to know what these gutters are for. Just how the new gutter will fill the place of the old one remains to be seen.

DOG THAT BARK AND FIGHT
Elderly Woman Says They Are a Nuisance in Portland.
A very respectable elderly woman called on The Oregonian yesterday to express an opinion of the subject of dogs. She said she had been a resident of this city nearly a year and intended to stay here, and about the worst thing she had to do was to take care of her dogs. She said she was not prejudiced against dogs, in fact is an admirer of handsome and well-trained dogs, but she says that there are too many dogs of all sorts kept in the city, both day and night, is tiresome. She said she thought there might be so many in other parts of the city, but Thursday night she found a place that was much worse.

Tivoli Company at the Marquam. It would seem, judging from the line at the Marquam box office yesterday morning, that the Tivoli opera season, which there will be an auspicious season's opening at this theater when the curtain rises next Monday night on "The Serenade," to be produced by the Tivoli Opera Company, of San Francisco. The demand was large and the crowd good natured. There was a good deal of bantering over the problem of seeing three operas and a circus the same week, but the sale showed that no few people will attempt it. The repertoire for the engagement includes "The Toy Maker," "The Idol's Eye" and the famous Bostonian opera, "The Serenade." The opera enjoyed a six weeks' run at the Tivoli during the past season, and was conceded to be the finest production ever seen at the theater. This will be the first time the opera has been given at popular prices, and the cast, mounting and costuming will be exact duplicates of the former production.

"The Tide of Life" at Corday's. "I believe in actors knowing how to sing," says Manager William R. Abrams, of "The Tide of Life," which is to be produced at Corday's Theater next week, beginning tomorrow night. "In this play of mine," says Mr. Abrams, "I have a cast and most of them dance, too. An actor who can sing is sure to be a better educationist than one who cannot, and dancing gives a grace to him that seldom comes from any other source. I know that my patrons like music as a relief from the serious element in a drama, and hence I have put in liberal slices of light entertainment, with music, singing and rollicking fun. This enables the audience to enjoy the dramatic features, because there is nothing which prepares the human heart for the strenuous happenings of life like a taste of its joyousness. I would not think of offering so powerful and realistic a drama without a large mixture of comedy and fun."
