Good Outlook Is Reported All Along the Line.

RAILWAY EARNINGS INCREASING

Formers Will Be Fully Compensated for Any Shortage in Crops by Higher Quotations-Business Failures at Low Mark.

NEW YORK, Sept. 5.-R. G. Dun's weekly NEW TORK, Sept. 5.—R. G. Dun's weekly review tomorrow will say:
Steady progress is reported in trade and industry. Distribution of merchandles is heavy, and a healthy tone is evident. Domestic conditions continue much better than those existing abroad, and home trade received more attention for foreign commerce. Farm products have appreciated in value, owing to the less favorable weather, and producers will be fully compensated for any decrease in quantity by the higher quotations.

Earnings of railways during August were 3.6 per cent larger than a year ago, and 18.9 per

per cent larger than a year ago, and 18.5 per cent in excess of 1900. Better deliveries of coice and liberal receipts of foreign material have lessened the pressure in the iron and stell industry, while quotations in a few lines have weakened. Domestic demands are not decreas ing much, new business having been placed, and home consumption will continue to call for imports on a larger scale. New plants are being added to the productive capacity as rap-Mry as possible in railway equipment, especially steel rails, and orders are already placed for

at the recent advance. A good feature is the urgency for quick shipment, indicating that stocks are low. Leather sells freely at recent advances in quotations, but hides appear to have risen above the views of tanners, result-

ing in a quiet market. Advancing raw material aroused much anxiety among purchasers of cotton goods, and there were numerous inquiries for forward contracts, but the volume of business was not

Agricultural conditions are satisfactory, and Agricultural conditions are satisfactory, and the official estimate as to cotten is not exaggerated. The yield will not be large enough to sustain confiamption at the present rate. Wheat is coming forward freely, though receipts do not equal the abnormally heavy movement a year ago. Corn developed strength because of fears that injury would be done by frost, and the movement is very slow compared with last year's flures.

NEW YORK, Sept. 5.—The following table, compiled by Bradstreet, shows the bank clear-ings at the principal cities for the week ended September 4, with the 'percentage of increase and decrease, as compared with the corresponding week last year:

20.2

NEW YORK, Sept. 5 -- Bradstreet's tomorow will say: All available data confirms reports of past good trade, and foreshadows good or better yet to come. It has been essentially a week of active buying in distributing trade. Reports as to August trade have been almost uniformly favorable, and the records of failures show business mortality to have been confined to a low Summer minimum. Prices show persistent strength, despite the fact that agricultural products, except corn and prime cattle, tend

Pather less disturbance is noted in labor matters. The anthractic trouble etill hangs over the situation, but the volume of coal shipments is slowly and stendily increasing. Some wage advances are noted in widely sep-

Collections in the North and West are unl. entisfactory volume at the West. Dry goods and shoes, millinery, drugs, hardware, grocer-les, clothing and lumber figure actively in the demand. Leather sales are high at the West, but high trade prices discourage the move-

The advance in cotton is stimulating the cotton goods market. Good reorders are noted in woolen goods, but Spring goods are meeting meet attention. The fuel shortage is pressing on the iron furnaces, and now the scarcity of cars and motive power is affecting the move-ment of ore from Lake ports to the Pittisburg district. New demand for pig fron, however, is light. Heavy imports of foreign fron and steel have out down premiums on immediate deliv-ery business. Sales of foreign-made materials are large. Copper is slightly firmer, while the

Wheat, including flour, exports for the week

ending September 4, aggregate 6,278,290 bushels, against 5,438,530 bushels last week, and 4,404,864 bushels in this week last year.

Bushess failures in the United States for the week number 123, as against 140 last week, and 169 in this week last year.

PORTLAND MARKETS.

Grain, Flour, Feed, Etc.

In the absence of any pressing necessity for wheat, local exporters are not forcing matters by paying a premium over export values, which are in the vicinity of 6096ic for Walla Walla. Farmers seem equally independent, for they are not disposed to sell at these figures, except in a small way. As most of the ships in port were chartered with lay days beginning september 15, or later, clearances will be very light until the latter part of the month. Some of the Valley mills are taking time by the forelock, and picking up choice wheat wherever they can find it, at a premium over export values. This prevents any Valley wheat of consequence coming to this market, and there are no signs of a full cargo in eight yet. Freights are quiet, with not much show for an advance for an indefinite period.

Wheat—Walla, Walla, 6096ic; bluestem, 62 965c; Valley, 63c.
Barisy—Feed, \$18 per ton.
Flour—Best grades, \$3 0568 60 per barrel; Grain, Flour, Feed, Etc.

HEAVY TRADING IN THE STOCK AT NEW YORK.

Made a Net Gain of Almost Three Points-The Chesapeake Pool Checked.

NEW YORK, Sept. 5.—At the opening today the stock market reflected little of yesterday's reactionary tendency, though the undertone was somewhat heavy, in view of the unstable money market and lower prices from London. St. Paul came into early prominence, and with Missouri Pacific divided the day's bonors, renewing rumors of a closer working agreement between those two lines. On transactions exceeding 55,000 shares, St. Paul, while closing somewhat below the best, made a net gain of almost 3 points, while Missouri Pacific, which was much more active, gained 1½. The other Southwestern stocks, especially those in the Gould system, made some recovery on the growing belief that the Government crop reports would prove somewhat exaggerated. The NEW YORK, Sept. 5 .- At the opening today growing belief that the Government crop reports would prove somewhat exaggerated. The
comparative inactivity of Reading common,
which was heavy throughout, resulted, it was
believed, from the impression that the probable contest for control had been settled. The
Chesspeake & Ohlo pool was checked by reason
of the road's poor showing for the latter part
of August, but closed with a fractional gain.
Wabash issues advanced on news of a favorable judicial decision, and the debenture Ba,
together with St. Paul common, were among
the few issues that made new high records. The
early realising also brought gains to a number of industrials. Manhattan was the feature
of the transactions, though its gain was only
fractional.

Irregularity followed another squeeze in call money, which worked nominally as high as 10 per cent, but actually not higher than 8%, and fell off as low as 3%. Much afternoon's business was in the industrials, notably Colorado Fuel, Pacific Mail, People's Gas, Leader issues and the independent steel and iron companies, all of which closed with net gains. In the last hour there was a general recovery to above the previous days final prices.

The Subtreasury's debt balance at the clear-

ing-house of over \$1,000,000 was chiefly due to heavy payments for the Navy, and \$250,000 for account of Kiondike gold. omorrow's bank statement will, it is believed, show a further loss of surplus reserves, but it is not expected to reflect in full the \$6,000,000 lost to the Bubtreasury and the interior by local institutions.

Railroad bends showed a good tone throughout the day, but the market was less active.

York. New York buying in the afternoon of St. Paul, which touched a new mark of 1961s, and of Norfolk, was regarded with suspicion, the belief being that the purchases were mere-ly efforts to cover realization elsewhere. The general list repended feebly. The Government is disbursing largely. The Rothschilds obtained the bulk of the week's gold arrivals, \$800,000. GOOD UPTURN IN WHEAT

CABLES ARE STEADY AND THE OUT-SIDE DEMAND LARGE.

SAN FRANCISCO, Sept. 5.—Sterling on London, 80 days, \$4 84%; sterling on London, sight, \$4 87%.
Mexican dollars—Nominal.
Drafts—Sight, 2%c; telegraph, Sc. Sentiment Is Generally Bullish-Onts Move in Sympathy and Close Strong and Higher.

> CHICAGO, Sept. 5.—There was a brisk demand early in the wheat pit, largely from the outside. Commission-houses bought liberally, and there was good support under December options. Much of the talk on the bull side was fear of frosts in the Northeast. This was supposed to be the principal cause of the upturn, but steady cables, lighter receipts and bad grading heiped materially. The sentiment generally was bullish, and there was no selling pressure present. After the early bulge, the generally was bullish, and there was no welling pressure present. After the early bulge, the market was inclined to duliness and prices fluctuated narrowly. September soid from 72972%c and closed %c higher at 72%c72%c. December closed strong, %c%c higher, at 68%c8%c. Corn had a large trade early, and the market advanced strongly on general demand, induced by the weather scars. Some reports had it, however, that there was not much corn to be hurt by frost, and the demand soon fell off and prices slumped. September closed a tride firmer at %c advance, at 50c. December closed firm, %c%c up, at 43%c54%c.

from, %5%c up, at 43%,653%c.

Oats were influenced largely by the same conditions that helped other grains. September closed fix up at 35%c. December closed firm, %c up, at 31%c.

WOOL MARKET ADVANCES. And Still Trading at Boston Has Been

Dull and Narrow. BOSTON, Sept. 5.-The Boston Commercial trade, will say:

The receipts of wool in Boston since January I. 1902, have been 244,721,034 pounds, against 195,187,478 pounds in the same period in 1901. The Boston shipments to date have been 187,-The Boston snipments to date have been 187,-539,919 pounds, sgainst shipments of 175,680,-678 pounds for the same period in 1901. The stock on hand in Boston January 1, 1902, was 77,340,463 pounds; the total stock to date is 134,521,578 pounds. The stock on hand Au-

gust 31 was 97,145,885 pounds.

The market has advanced in spite of dull trading. Fine Nevada clothing has sold on a secured basis of 55c, and the same price has been paid for fine medium Montana staple The price of domestic quarter-blood wools has directed attention to Canada. Heavy purchase have been made there at 27c, duty paid in Bos ton, or 38c clean. The wood is rather lowe in grade than American quarter-blood, but 1 costs 7 cents less the scoured pound.
