FOR POSTING ADVERTISEMENTS .- F. T.

Rogers was arrested yesterday afternoon on a warrant sworn out by Thomas Mc-Cusker, the president of the Civic Im-

provement Association, on a charge of placing advertisements in a public place. Rogers had inclosed a telegraph pole in

front of his barber shop, on Alder street, with a box about 12 feet high and three feet in diameter, purposing to have

the regulation barber stripes painted upon it. He was interrupted some time ago, and tried to get a permit, but this was not allowed. He has now gone ahead without the permit. Mr. McCusker says: "We will fight this case out, and make a text ease of the says."

To KEEP BICYCLES IN BASEMENT.-The stairway being built through the sidewalk in front of the Commercial Bank is simply nable the basement to be used as a bicycle-room. Heretofore it has only been used as a lumber-room, but it having been decided to renovate the finish of the building by cleaning, repainting and var-nishing, it was concluded that it would be necessary to keep all bicycles out of the halls, the damage to the finish by battering and bruising being largely attributed to them. It was concluded to pro-vide access from the sidewalk to the basement, and no longer to allow bleycles to be taken up the elevator or staircase. As the foundation wall in places is inside the line of the property, it was only necessary to procure permission from the Council to use two feet of the sidewalk, in order to build the staircase, which is nearly completed. Just how the occupants of the building will like having to take their bleveles down into the basement instead of up in the elevator with them, to be left in the hall, interests them only. No doubt the change will have a beneficial effect on the finishing of the halls in the building.

"WOOD BUTCHERS" IN ALTERCATION. Not all the "wood butchers," or men who pile the wood, have gone to the hopfields, pile the wood, have gone to the hopnelds, us two typical members of the fraternity were seen on Second street yesterday, engaged in a rather violent altercation with a meek-looking Chinaman, who had employed them. "We do not pile wood up to the sky," said one. "You get a ladder and get up on it, and we will bring the wood to you and you can tile it as high and get up on it, ind we will still the wood to you, and you can pile it as high up as you like." "I wonder what he takes us for?" asked the other butcher. "What is the row about?" asked a passer. "Oh, he wants a place two feet square and 20 up filled with wood, but we will fool the Chink on that." As the passer went on his way, the altercation was be-ing renewed, the Chinaman plucking up spirit to insist on what he considered his rights, and the butchers demanding their money, and a mixed crowd gathering nd to enjoy the rumpus.

OLD RESIDENCE TO BE TORN DOWN. The last tenant moved out of the old John B. Price residence, at the southeast corner of Second and Jefferson streets, yesterday, preparatory to the building being torn down. This residence in the early days of the city was one of the finest mansic in the southern part, and here was raised a rather numerous family of sons and daughters, who have been widely scat-tered, but some of whom still reside in this region. Mr. Price died many years ago, and Mrs. Price only a comparatively short time ago. She left the residence property to a daughter, Mrs. Potter, who is to have the old buildings removed at once, and a three-story wooden building. 50x100 feet, with stores below and rooms crected there.

Lost Purse at Carnival.—Miss N. Somerville, who is at the Imperial from Tacoma, lost a purse containing 230 and a gold watch at the Carnival last evening and believes that the valuables were stol-en from her. Miss Somerville was sitting and watching one of the attractions, with her purse in her lap, and got up and went to another part of the grounds, forgetting about the purse. When it came to her mind that it was gone, she hurried to the place where she had been sitting, but was unable to locate it, and she now thinks that it was found and taken by some thief. She reported her loss at the ice station, and an effort will be made

to locate the missing property. SPECIAL round-trip excursion rate of-fered by A, & C. R. B. between Portland end all beach points during Elks' Carnival. From September 3 to 11, inclusive, the A. & C. Young Woman's Narrow Escape -serious accident was narrowly averted yesterday afternoon by the quickness of a motorman. The afternoon crowd was leaving the Carnival grounds, and the Seventh-street crossing was filled with people. At 4:45 o'clock car 14 of the Washinston ington-street line came down Washington at a good rate of speed. A passing truck scattered the crowd, and a Miss Clinton scattered the crowd, and a Miss Clinton stepped directly in front of the down car. Shouts were unavailing, and there was no time to reach her. By prompt action on the part of the motorman, the car was brought to a standstill within an inch of the young woman. When it was seen that she was unhurt, several byatanders gave vent to acrimonious remarks on a railway management that permitted its cars to run at a high rate of speed past the main entrance to the Carnival grounds, where thousands pass hourly. It was suggested by some that an officer was suggested by some that an officer should be posted there for the protection of visitors not so agile as Portlanders in

pied by the old vehicle, which will prob-ably be used by one of the hospitals. dodging swiftly-moving vehicles.

JOE GOGGINS GETS 10 DAYS.—Joe Gog gins, who has made his name famous it this city for the frequency with which he has overindulged in strong drink, was up in the Municipal Court yesterday on the same old charge. His case was not even argued. Judge Hogue said: "Well, 10 days." Jailer Roberts was of the opinion that the sentence should be longer, and said: "Well, it's a case of having him said: "Well, it's a case of having him on hand all Winter, anyway, and he reight as well get it all at once now. He'll get on a tear again just as soon as he gets out." The sentence stood, how-ever, and Joe left the room with two tears trickling down his cheeks, thinking that he was a much-abused personage.

FIVE-MINUTE SCHEDULE RESUMED .- The eight-minute car service on the Washing-ton-street line could not accommodate the traffic Wednesday, and yesterday the five minute service was resumed again. The management thought that the cars run at eight-minute intervals could handle the people while the new rails were being laid, but they evidently did not anticipate the number of visitors that would ride while in the city. In 4½ hours Wednesday after-noon more people were hauled than on any whole day this week, and the largest cars that the company could put in serv-ice were loaded to the running boards.

ANYBODY WANT TO TAKE THIS UP?-A nan in the East, who is evidently hunting for white crows and similar animals, has sent the following letter to the Manufac-turers' Association: "Regarding the chair and refrigerator business, would say that if you have a God-fearing man, who is willing to do business on Golden Rule principles, and has \$40,000 to invest in an enterprise of this kind, I can assure him of lucrative position upon the basis of equal ownership, i. e., my experience against his capital." The association has not yet found such a man, and the probabilities are that it never will.

Dog-Owners Pay Up .- In point of interest the dog Heense is a successor to the occupation tax in the City Hall. Yesterday licenses were paid for nearly 200 dogs, and places were claimed for few of them. The only thing in the nature of excitement was a communication from the man who paid the tax on a female numbered 13. He said that his wife chiefs at the said that he wife chiefs at the contract of the said that he wife chiefs at the said that he wife when the said that the said that the wife when the said that the s the said that his wife objected to the number, and, therefore, he wished to have it released. Subsequently he changed his mind, and, as no request for a release was made, he still retains No. 12.

Woodsawter Forferts Ball.—A. Johnson, who was arrested recently on a charge of running a wood-saw without a license, did not show up when his name was called at the Municipal Court resterday. He had deposited \$10 bail, and, as the least amount that he could be fined on such a charge was \$35, he evidently on such a charge was \$5, he evidently figured out that it was cheaper to stay away and avoid the rush. The Municipal Judge ordered his ball forfeited.

FORTY GAMBLING CASES TO BE TRIED,-There are nearly 40 cases of gambling up in the Police Court, and the trials will be commenced as soon as possible. Of the total number, 30 are Chinese, 12 are white men and 6 are negroes. The cases of the Chinese will probably be brought up to-

### DEAD FROGS. Were Killed by Coffee. '

15-1000th of a single grain of caffeine from coffee will kill a frog of moderate size. The frogs die of general paralysis, following violent tetanic convulsions. Falck, Stubiman, Brill, Johansen, Leven and other famous scientists and investi-gators have repeatedly proven it.

This same alkaloid caffeine, a powerful cerebro-spinal stimulant, and diurette irri-tant, was originally discovered in 1220. Eight years later theine was discovered in tea, and the two drugs were afterward proven to be identical. Caffeine in coffee causes the sleeplessness, increased fre-quency of the pulse, tremulousness of quency of the pulse, tremulousness of heart an requent urination noticed after drinking strong coffee. This explains the cause of the nervous diseases that frequently come to regular coffee and ten drinkers. The firug slowly and surely polsons the system and finally brings on some form of fixed disease like valyular heart disease, dyspepsia, kidney complaint or some other, unless the person is strong enough to stand up against the drug.

Practically every steady coffee or teadrinker shows some form of incipient disease. Ask any one you know and you will seidom find one entirely well.

seidom find one entirety well.

Where's the use in slugging and drugging the poor old body until it totters and trembles with diseased nerves?

Can't quit?

It is one of the easiest things you ever tried to do if you will have Postum Food Coffee made right and served hot with good cream and sugar. There is the deep seal brown of rich coffee that turns to golden brown when cream is added. Then the flavor is unique, all its own. Try is 10 days or two weeks, and your dyspepsia will either leave or show good signs of leaving, and your heart and pulse be stronger than for a long time back. It is one of the most delicious sensations known, to feel returning health and vigor.
Health makes heaven here on earth, and people can have it if they will, but live as Nature intended.
Quit coffee, and use the food beverage, Postum Coffee.

Hon. Carrell D. Wright, a gentleman of still longer and larger experience, as head of the Labor Commission, bears similar testimony. Benator George F.
