PLATFORM UPHOLDS BRYANISM

The following ticket was nominated by acclamation:

Representatives in Congress—George F. Cotterill, of King; Stephen E. Barron, of Okanogan, and O. R. Holcomb, of Yakima.

United States Senator—George Turner was indorsed for re-election.

The platform adopted indorses the Kansas City platform, opposes imperialism and colonialism, government by injunction, trusts and trust-fostering tariffs, and asset currency.

It condemns special privileges given for grazing sheep on Government forest reserves, and demands complete exclusion from all American territory of all Chinese, and denounces the Republican majority in Congress for "tampering" with the antitrust law.

Abhorrence is expressed of the tragedy that resulted in the death of President McKinley.

The convention declared in favor of a railroad commission to be appointed by the Governor first, and subsequently chosen in such manner as the Legislature shall determine.

THE PLATFORM

Kansas City Democracy Indorsed—Many State Reforms Declared For.

TACOMA, Sept. 16.—Following is the platform in full adopted by the Democratic state convention today.

We, the Democratic party of the State of Washington, in convention assembled, hereby adopt the following declaration of principles:

We renew our allegiance to the fundamental principles of government and the rights of man as set forth in the Declaration of Independence and the Constitution of the United States, and we reaffirm and indorse the principles laid down in the last National platform adopted at Kansas City.

Regarding those principles, as opposed to imperialism and colonialism, as opposed to trusts and trust-fostering tariffs, as opposed to financial monopoly and an asset currency, and as opposed to all other legalized monopolies, subsidies and privileges, we condemn every effort which tends to repudiate or ignore them.

We deeply deplore and lament the untimely death of Washington's great and good Governor, John R. Rogers. He was a public-spirited citizen, a courageous social, a champion of justice and an honest man, and we herewith bear witness to the above and respect we had for him.

Along with all good men, we express our abhorrence of the tragedy that resulted in the death of the President of the United States, William McKinley.

The manner of his death was a blow at constitutional government, and we make an effort to undermine our civilization and to destroy the foundations of republican institutions.

State and County Affairs.

In state and county affairs we pledge the nominees of our party to an honest, efficient and economical administration of public affairs, and an evidence of the fidelity with which Democrats discharge public duties, we point to the administration of state affairs from 1897 to 1901, which, for honest and economical management, stands unmatched in the history of this state.

We demand the rigid enforcement of the law relating to the assessing of all property, and we especially insist that the personal property and franchises of the railroad and other public service corporations, shall be assessed at not less than their salable value, as going concerns, so that they shall not hereafter evade just and equitable taxation.

We are in favor of so amending the constitution of the state that questions of fundamental character may, under proper conditions, and at the initiative of a sufficient number of electors, be submitted directly to the people for adoption or rejection, thus providing a corrective for the infidelity of government by political parties, and making it certain that the voice of the people in all such questions will be in the end prevail.

We are, without qualification, in favor of the election of United States Senators by a direct vote of the people.

We commend the wise, statesmanlike and patriotic course of Senator George Turner throughout his term in the United States Senate, and we commend the efforts he has made in the halls of Congress have reflected an honor on the credit upon his party and his state. Never before in her history has Washington had a Senator so able and so useful in the interests of the people of the state. We pledge that every Democratic vote in the next Legislature will be cast for his re-election.

We unqualifiedly demand the complete exclusion from all American territory of all Chinese, of either whole or mixed blood, according to the terms of the bill presented to Congress by the American Federation of Labor, and we deplore the Republican majority in Congress for their treason to the working people and to the Pacific Coast in rejecting this bill and passing the present weak and inadequate law. It is believed by the Democratic party of Washington that this state, great in all natural resources for the production of wealth, rich and prosperous, can well afford to give such statutory protection to its wage-earners as will tend to equalize their relations with their employers and protect them from the unnecessary hazards of their employment.

Demand Passage of Following Bills.

We declare it to be a part of the policy of the Democracy of Washington to enact into law the following bills:

First—A bill relating to the protection of dangerous machinery.

Second—A bill relating to the assumed risk of workmen in mills, factories and other workplaces.

Third—A bill relating to an eight-hour work day on state public work.

Fourth—A bill defining who may be fellow-servants and providing a reasonable penalty for his violation.

And we instruct Democrats in the Legislature to vote and vote for the same.

We invite the earnest consideration of the voters of Washington to the bills which best present industrial conditions, growing out of the formation of enormous corporations, commonly known as trusts, organized for the purpose of concentrating capital in the hands of a few large capitalists, thereby enabling them to dictate to the farmer the price of his product, to the consumer the price of his necessities, and to the laborer the price of his wages; and we call attention to the fact that these evils are fostered largely by National legislation giving no adequate protection to products of monopolies and to the refusal of the Republican party, now in control of the legis-

Another Sensational Scene in the Recently All-Absorbing Tragedy Thought to Be Ended.

CHEHALIS, Wash., Sept. 16.—(Special.)—Mrs. Waggoner, who gained some notoriety by finding Dave Merrill's body, has eloped with Ben Merrill, brother of Dave. Mr. Shively is one of the best-known speakers in the state. He has just retired as chairman of the Republican State Central Committee, in which capacity he served during the last two campaigns. He is at present deputy State Insurance Commissioner.

The honor of speaking in the political campaign of Eastern States of the importance of Ohio is an honor seldom conferred on speakers of the far West, and Mr. Shively's acceptance is very congratulatory towards him on account of the invitation. The invitation will be accepted, and Mr. Shively will leave for Ohio about the middle of the month.

When the stolen metal was turned in it was an easy matter to trace the metal to the firm of Baker & Co.

At the time of his arrest Dr. Kolf was employed as an amalgamator at the Goldbug mine. He denies knowing anything about the theft, although it is known that he was in Grant's Pass the night the assay office was entered.

SAYS HERMANN IS WRONG

Commissioner MULLAN HOLDS LEWIS AND CLARK MAP INCORRECT.

OREGONIAN NEWS BUREAU, Washington, Sept. 16.—The accuracy of the delineation on the latest United States maps of the route of the Lewis and Clark expedition has been called into question by Captain John Mullan, retired. In a letter to Commissioner Hermann he says that inasmuch as the Expedition to be held at Portland in 1903, as well as the St. Louis Exposition the year previous, have much to do with the results of that expedition, it is of importance that the routes traveled by them, if delineated at all on any official map, should be correct.

That portion of the route between the summit of the Rockies and the Snake River, he believes, is incorrectly shown, but cites no authority in behalf of his claim.

Commissioner Hermann believes the markings are correct, as his office was guided by the original reports of Lewis and Clark, who made daily observations of latitude and longitude, which were all recorded. He will investigate the claim, however, and if errors have been made will have them corrected.

The marking of these routes was done at the suggestion of Commissioner Hermann, who himself has given careful study to the celebrated expedition.

UNKNOWN WOMAN MURDERED. Body Found Hanging to a Tree in Northern California.

ASHLAND, Or., Sept. 16.—The mysterious murder of an unknown woman, whose body was found yesterday afternoon hanging to a tree in a lonely gulch in the mountains west of Hornbrook, Siskiyou County, is creating quite a sensation on both sides of the state boundary line.

Last Saturday evening a party of hunters, who were passing through the vicinity, along a mountain trail, came across a woman's hat, fragments of garments and a valise, which contained articles of clothing and \$15 in money. Near by there were some evidences of a severe bodily struggle. The men searched around until darkness caused them to discontinue, and they returned to Hornbrook and told of the incident. No woman was known to be missing from the town, but some miners reported having seen a woman several days previous wearing such a hat as the men had found.

A posse was organized yesterday, headed by C. E. Cragle to search the locality for a trace of the woman, and they were rewarded for their hunt by finding the badly decomposed body of a woman, probably a year or more dead, hanging to a tree on the hillside of a gulch, with every indication of having been recently murdered. Exposure to the sun had so badly decomposed the features that they were unrecognizable.

Coroner Fairchild was summoned from Yreka, and an inquest was held this morning. After all the evidence in the case was heard, the jury returned a verdict that the unknown woman had come to her death through foul play, and that her body had afterward been hung to a tree, where it was found.

The remains were buried at Hornbrook this afternoon. The Siskiyou County authorities have taken the matter in hand, and no effort will be spared to bring the perpetrators of the foul deed to justice.

A hotelkeeper at Hornbrook says that the murdered woman came to his place several days ago in a wagon drawn by a team of buckskin-colored horses and driven by a middle-aged, dark-complexioned man. The two remained for a short time, and then disappeared. He recognized the dress found on the body hanging to the tree yesterday as that worn by the woman in the wagon with the strange man. The police authorities are working on this clue.

EMPLOYEE STOLE PLATINUM. A. D. de Kolf, of Grant's Pass, Charged With the Theft.

GRANT'S PASS, Or., Sept. 16.—(Special.)—A. D. de Kolf, an employe of the Goldbug mine, was arrested and given a preliminary examination in this city this afternoon to answer the charge of stealing platinum from the assay office of W. G. Wright, of Grant's Pass.

The platinum was stolen several weeks ago, though no clue to the theft could be found. Since that time the firm of Baker & Co., of New York, who buys nearly the entire platinum output of America, was notified. When the stolen metal was turned in it was an easy matter to trace the metal to the firm of Baker & Co.

At the time of his arrest Dr. Kolf was employed as an amalgamator at the Goldbug mine. He denies knowing anything about the theft, although it is known that he was in Grant's Pass the night the assay office was entered.

A baby is whatever its parents make it. This is so even to the first stages of gestation, when, if the mother gets proper treatment, the baby will be a jolly, laughing, good tempered, robust little angel. Nature when aided by Mother's Friend will give a healthy child with a free and graceful body, which is evidenced in elastic action of the limbs, clear skin, bright eyes, fine hair. We exclaim involuntarily over such a creation, "How beautiful!" meaning not necessarily that the child is pretty, but that its general effect is one of seeming attractiveness.

Mother's Friend is a liniment for external application. Women's own pretty fingers rub it gently on the parts so severely taxed, and it is instantly absorbed and so lubricates the parts.

Your druggist sells it for \$1.00 per bottle. You may have our book "Motherhood" FREE.
