MOBPURSU ESNEGRO

An Assault on Coos Gounty Woman Arouses Miners.

BRUTE ESCAPES FROM OFFICERS

Attempt Was Made by Constable to Evade Enraged Citizens, When Prisoner Jumped Under Wharf -He is Still at Large.

MARSHFIELD, Or., Sept. 17 .- Mrs. Ben jamin Dennis, wife of a Libby coalner, was wayleid on the road today by Alonzo Tucker, colored, while returning from this city, and dragged into the brush and criminally assaulted.

Tucker seized Mrs. Dennis by the throat when he caught her, and threatened to kill her if she made a noise. When remsed she went straight to her house and told what had happened.

The miners, when informed of the crime were frenzied with rage, and at dusk this evening a crowd of about 100 armed themelves with rifles and marched to the jail in Marshfield, for the purpose of lynching

On arriving there, the jail was found to be empty. City Marshal Carter and Constable Sunderland say that they were taking the negro to a boat to get him away from the mob, when he sprang away from them, jumped to the mud flat under the wharf and made his escape. At an early hour this morning he was till at large, although pursued by a large

The outraged woman has a husband and three small children,

STATE UNIVERSITY OPENED.

Flattering Outlook Under the New Regime of President Campbell. UNIVERSITY OF OREGON, Eugene Sept. 17.—(Special.)—The 27th annual ses-sion of the university was opened today under the new regime—the presidency of P. L. Campbell. Regular instruction in dess work will begin Monday, September 22, the remainder of the present week being devoted to matters of registration and removal of conditions.

The outlook for a large attendance is at present very flattering. Already many w students are in the city, and many ore are expected during the week. But few of thet year's students are on hand owing, perhaps, to the lateness of all kinds of crops throughout the state. Also, heretofore, and especially last year, all compelled to walt two uld be taken up, and this condition may ce their tardiness. President Camp ters, no that class work may begin by the Monday following the opening day, Among the new instructors is Dr. Carl C. Rice. Dr. Rice was elected and ofessor of romance languages and Latin the meeting of the Board of Regents in June, 1961, and, by request, was granted a year's leave of absence to complete the work for the doctorate at Harvard University. Mr. Rice was graduated by the University of Texas in 1897 and was given the degree of master of arts in 1898. During the academic years 1895-1900 to 1901-1902 he was a graduate student in Harvard, and in June of 1902 received the degree of octor of philosophy. Dr. Rice speaks ueptly German, French and Spanish, and well acquainted with ancient and modern Provencel, Portuguese and Italian, as well as with the romance literatures. E. E. De Cou, successor to Professor

George Lilley, of the chair of mathematica was graduated from the University of onsin in 1894, and was for two years principal of the High School at Evans ville, Wis. He was a graduate studen at the University of Chicago in 1896-1897 and again in 1839-1900. Mr. De Cou attended the graduate department of Yale 1900-1901. He was professor of atles at Russellville, Ky., in 1901-

chair of Latin during Professor Dunn's nce, was graduated from the University of Gregon in June, 1892, with the degree of A. B. Mr. McKiniay then taught in the Portland High School for five years as professor of Letin. In 1901 he entered Harvard University, and during the Summer of 1902 he has been studying in Europe. He is expected to arrive in Eugene in a few days.

Frank D. Frazer, the new instructor in the department of mathematics to suc-ceed Dr. C. W. M. Black, deceased, received the degree of A. B. from the University of Washington in 1897, and in 1898 he took the masters degree. During the school year 1899-1900 he was instructor in mathematics in the University of Washington, and during the past two years. ington, and during the past two years he has been a graduate student at the Uni-

Albany College Begins 37th Year.

ALBANY, Or., Sept. 17.—(Special.)—The Eith year of Albany College was opened this morning with a good attendance, in-cluding most of the old students and several new ones. The faculty remains the same, with the exception of the commercial department. In this Professor George Horner, of Clarkesburg, W. Va., succeeds Professor I. M. Walker, who has accepted a position in a Portland commercial school. The college this year has the adschool. The college this year has the ad-vantage of an additional building, the orphans home near the city having been moved to the college campus and prepared for a dormitory.

Change in Dormitory at Corvallis. CORVALLIS, Sept. 17.-(Special.)-Arrangements have been perfected to change the young men's hall, or Cauthorn Hall, from the co-operative plan to the straight rate of 25 per week. Mr. and Mrs. R. L. Whitehead, of Concord, Mass., will take charge of the finances and the cultmary department; otherwise the manage-ment of the hall will not be materially ment of the hall will not be materially changed. Mr. Whitehead is a college man, having been a student with the sons of Henry Ward Beecher and General Fremont. Mr. and Mrs. Whitehead thor-oughly understand college life, and they know the students in the great hall. The same professors will continue in the hall as last year.

MILES TO ARRIVE TOMORROW.

Captain Lewis, of Fort Casey, Preparing Deer Hunt for the General. EVERETT, Wash, Sept. 17.—General Neison A. Miles is expected in Scattle to-morrow, en route to the Philippines. While in the Northwest Miles will visit Forts Casey, Flagler and Warden. The principal reason for the General's visit here is to meet Captain I. N. Lewis, commanding Fort Casey, who is the inventor of the Lewis depression position-finder, used generally in coast fortifications. Captain Lewis and his staff are arranging a deer-hunting party for General Miles.

CARNIVAL A DISAPPOINTMENT. Exhibits at Baker City Street Fair

number of exhibitors failed bring in their exhibits even after the very disappointing, because Baker County can boast some of the finest cattle and horses in the state.

The rock-drilling contest was the only special feature of the day and it drew special feature of the day and it drew a large crowd during the afternoon. There were six enfries, each team consisting of two men and one coacher. The team that drilled the deepest hole in hard grante rock in 15 minutes was to take the first prize, \$250 in gold; the second prize was \$100 in gold. The contest opened at 2:30 and continued until 5 o'clock. Dun and Bessier won first prize, drilling 28 7-16 inches. Pickens and cook won the second, with 28 5-16 inches. second, with 28 5-16 Inches.

amateur confest between boys un der 15 years of age was won by Peters and Markham, who drilled 15 5-3 inches. The exhibition ball game between Baker City and Caidwell this afternoon was won by Baker City, score 8 to 7.

OPERATOR SKIPS OUT. N. Waymire, of Hoquiam, Leaves

Shortage of \$3000. HOQUIAM, Wash., Sept. 17.—(Special.)— N. Waymire, the trusted operator at the Hoquiam depot, on the Northern Pacific Railway, and husband of the station agent here, has fled the country. A check-up of his accounts shows a shortage of

Waymire left Sunday morning, osten sibly for a ride on his wheel to Aberdeen, where he boarded the train and has not een heard of since. He sent his wife a etter stating that he was short in his accounts and would soon be out of his misery. Both Mr. and Mrs. Waymire were prominent in society circles of the city, and the news of his defalcation comes as a great shock to the community.

Stole \$3000 at Hooniam.

A telephone message was received yesterday by the city police from the police authorities of Hoquiam, Chehalis County, Wash., that a warrant has been issued for the arrest of Noah E. Waymire, telegraph operator at Hoquiam, charged with lar-ceny by ballee of \$3000 from the Northern Pacific Railroad Company, Waymire dis-appeared Sunday, and a railroad suditor has since found that the absent operator's books are short \$3000, and perhaps more. Unless Waymire is caught and a satisfactory settlement effected, the police say factory settlement effected, the police say that Mrs. Waymire, station agent at Ho-quiam, and wife of the operator, will be forced to make good the shortage by sell-ing her private property, as she became her husband's bondeman when he received the appointment on the railroad. Ho-quiam people speak in the highest terms of Mrs. Waymire and her two children. Clews were found showing that the ab-sent man, after leaving Hoquiam, probably went to Centralia, and then to this city, but a careful search has failed to find him at these places. Waymire is 28 years old, weighs about 180 pounds, and

SERIOUS CRIME IN HOPYARD. Man Fractures Another's Skull Over

Triviality-He May Die. BROWNSVILLE, Or., Sept. 17.—(Special.)—About 4:30 this morning, in the hoppard run by Ju Loy, a Chinese, about mile east of this city, J. H. Coope culted and beat George W. McCome with some kind of a heavy club so badly that he will in all probability die. It seems that McComey had refused Dwight Hines, a nephew of Cooper, some material for making a fire, saying that Hines was always begging from him. Cooper came out of his tent and began cursing Mc-Comey, who sat on a small box in front of his stove. McComey replied by telling him to go away and leave him alone. Cooper then raised a heavy club, striking McComey on the side of the head as he still sat on the box, badly fracturing the skull. McComey pitched forward and a little sideways towards the stove then dealt him another blow, inflicting a dangerous wound on the other side of his

McComey has not regained conscious ness, and little hope is entertained of his recovery. Cooper was arraigned Tuesday on a charge of assault and battery with intent to kill. He waived examination, and his bail was fixed at \$1000, which h failed to raise. He will be taken to the county jail at Albany, to await trial at the October term of court.

ACCIDENTALLY KILLS HIMSELF.

Gray's Harbor Man Shoots Himself While Cleaning a Riffe. GRAY'S HARBOR, Wash., Sept. Special.)-John Natterstad, boom man for the Saldren Logging Company, accidentally shot and killed himself today. About 8 o'clock this morning he was in the front room of his residence, cleaning a rifle, when his wife, who was in the kitchen, heard a shot, and going to the front room she found Natterstad lying unconscious on the floor in a pool of blood. Her cries on the floor in a pool of blood. Her cries for help aroused the neighbors and the wounded man was taken on board a launch with the intention of bringing him to this city for medical aid. He died soon after being placed on the launch, and without regaining consciousness. An examination showed that the bullet had en-

New Catholic Diocese. SPOKANE, Sept. II.—The Chronicle etates today that plans are being made to form a new diocese of the Roman Catholic Church to extend over Eastern Washington, Northern Idaho, part of Cregon and perhaps part of Montana, with headquarters at Spokane. The plan is to cut off the diocese of Victoria from the

CARRIED OUT HIS THREAT

ROBBER DROPS BOMB AND WRECKS SKAGWAY BANK

Because He Wasn't Given \$20,000-Cashters Escaped-Unknown Dynamiter Dies Later at Hospital.

SEATTLE, Sept. 17.—A special to the Times from Skagway, Alaska, says:

"About 1 o'clock yesterday afternoon an unknown man welked into the Canadian Bank of Commerce, a revolver in one hand and a dynamite bomb in the other, and demanded \$20,000 or threatened to blow all to eternity. Cashier Pooley and Teller Wellice were the only two in the bank. all to eternity. Cashler Pooley and Teiler Wallace were the only two in the bank. Wallace ducked to get his gun and ran quickly to the back of the room, yelling for Pooley to do the same. "No, you don't," yelled the man, and dropped the bomb. The two clerks had by this time gotten out of the rear window. The bank-room was wrecked, the unknown had his bead smashed and one arm torn off: a hole head smashed and one arm torn off; a hole

was torn in the right wall of the bank,

many more will be sent out before the season closes. Growers report that the demand for melons is better this year than ever before. Very few of the cars shipped from here get farther north than albany, as the melons are easily disposed of through the Williamette Valley. A few cars have been shipped to the commission houses at Portland.

Over 600 acres are planted in melons

Over 600 acres are planted in melons in Josephine County. They are grown in fields of from 25 to 100 acres, and occupy the bottom lands of the Rogue and Applegate Rivers. The climate and general conditions here are excellent for the memory of melons both for quality and growing of meions, both for quality and size. Meions of from 15 to 50 pounds in weight are of common occurrence. The industry is growing in Josephine County and is followed as a business by a num-

WOOL MEN ADJOURN.

Adopt Strong Resolutions Favoring Continuation of Scalp-Bounty Law. PENDLETON, Or., Sept. 17 .- (Special.)-At last night's session of the Oregon Woolgrowers' Association, a very instruct-ive address on the present and future of Oregon sheep was delivered by C. J. Millis, general livestock agent of the Oregon Railway & Navigation Company. This was followed by a suggestive paper by

Edward G. Adams.

SUPERINTENDENT OF ALBANY PUBLIC SCHOOLS.

ALBANY, Or., Sept. 16.-Edward G. Adams, of Northfield, Minn., recently elected Superintendent of the Professor Martindale, who was Normal School, has been a promint educator in Minnesota, he has been teaching for 14 years. Three years of this time were spent as superintendent of the schools of Rochester, six years as superintend-ent of the schools of Northfield, and two years as principal of the high school of Owatonna. He was a member of the executive board of the state, and took a prominent part in conducting institutes, as well as in giving educational addresses. He is a graduate of Amage. The Albany public schools will open next Monday, and Profess Adams and family, it is expected, will be here by that tim

Frank F. Wamsley, the local agent of the

At this morning's session George A

Young made a speech on sheddy wool, and J. H. Gwinn urged the importance of

co-operation among Oregon wool men. This afternoon the officers for the com-ing year were elected as follows: Doug-

ins Belts, president; George A. Young, vice-president; J. H. Gwinn, secretary-treasurer. The executive committee con-

sists of W. G. Ayre, T. R. Hynd, T. H. Lafollette and J. D. McAndrie.

demanding the continuance of the scalp-bounty law; favoring a liberal appropria-tion for the Lewis and Clark Exposition,

and indorsing the action of the Interior Department in setting apart the Blue

Mountains forest reserve. The misfor-

tunes due to the recent forest fires

tunes due to the recent forest fires were deplored, and \$100 was appropriated for the relief of the sufferers. The association asked the transcontinental railroads to grant better facilities for transporting livestock East. The Secretary of the Interior was memorialized for making a subdivision of the forest reserves into suitable stock ranges, and the work of cooperation between the Interior Department and the Woolgrowers' Association in allotting the range.

allotting the range.

At tonight's session a new constitution and by-laws were adopted and adjourn-

TO CONTROL DAWSON BEEF.

Combine Organized at Seattle Has

Corner on the Field.

-Intelligencer from Dawson says:

Dawson meat men are organizing a com-bine to control the stock in the Klondike. Their plans are all matured, and at a

meeting which will be held tomorrow the representatives will get together and ar-range for the absolute control of all the

meat in the market.

The combine will have to take care of not only all the stocks now on hand, but

all that have been contracted for, the value of which will amount to more than

will obtain if the organization secures con-trol of the situation is obtainable, but

restaurants and hotels, as well as large mining companies, are laying in large stocks in expectation of a sharp rise in

Charged With Murder of Father.

ASTORIA, Or., Sept. 17.—(Special.)—At-this morning's session of the Circuit Court District Attorney Allen returned a

true bill against Matti Jarvi, charging him with the murder of his father, Ga-

briel Jarvi. The court directed that the defendant furnish new bonds in the sum

of \$2000, and a postponement of the trial

Big Ashland Land Transfer.

bridge, and 1560 acres on the Antelope.

The schedule of prices which

SEATTLE, Sept. 17 .- A special to the

ment taken.

\$1,000,000.

Resolutions were reported and adopted

the front windows were blown clear across the street, and money was scat-tered to the four winds. The side of the building bulged out and furniture in the living-rooms over the bank was tumbled around, the occupants being blown into the air from the concussion. Windows for blocks were broken. The fire bell was immediately rung. The soldiers respond-

ed and Captain Summerall took charge. No one but the unknown man and the two clerks were in the bank at the time. J. G. Price, formerly assistant Prosecut-ing Attorney, was just entering the bank. He was hurt about the head, but not seriously. The dynamiter was taken to the hospital, where he died last night, not regaining consciousness. No papers were on the body to reveal his identity, and there was only \$1 80 on his person. At the inquest if was brought out that the man fired two shots at Wallace, one of which is believed to have sent the dynamite

The bank possibly lost about \$1000, chiefly in gold dust, which was lying on the

UNABLE TO MARKET FRUIT.

Marine Strike on Snake River Losing Thing for Farmers.

COLFAX, Wash., Sept. 17 .- The strike of the marine engineers on the Snake River has completely tied up all boats and the fruitgrowers on the river are losing heavily thereby. In some in-stances hogs have been turned into the orchards to eat up the fruit which is rotting on the ground. W. L. La Follette, the "fruit king" of the Palouse who has an orchard of 260 acres at Wawawai, has turned 300 hogs into his orchard to eat up his prune crop and other fruits. Mr. La Follette had six carloads of fruit in his orchard when the strike began, and will probably save two carloads of this by hauling to railroad points. The remainder will be used for hog feed. His loss will probably be about \$2000.

Probably 30 per cent of the season's crop remained on the trees when the steamers stopped. One-third of this will be saved, so that the aggregate loss will be but a small per cent of the total crop, but will amount up to many thousands of

The fruit crop on the river is much below the average yield for a number of years. Mr. La Follette would have shipped 25 carloads, in addition to the local sales to wagons, had it not been for local sales to wagons, had it not been for the strike. Last year his orchard shipped 50 carloads, and the previous year 75 carloads of fruit. His peach crop this seeson amounted to 15,000 boxes, as against 25,000 last year, and 40,000 in 1900. Local pricee are about the same this year as during the two previous seasons, but the Eastern market was not so good. This is probably the smallest crop of fruit the Snake River orchards have produced in a number of years. Late frosts and a dry Summer, together with two or three very severe

INSTRUCTOR IN PUBLIC SPEAKING AND ENGLISH, PACIFIC UNIVERSITY

Henry D. Smith. FOREST OROVE, Or., Sept. 17 .-

(Special.) - Professor Henry D. Smith reached here yesterday morning. Mr. Smith is a graduate of Beloit College, Wis, and will fill the position of instructor in public speaking and English in the Pacific University, made vacant by the resignation of Professor R. L. V. Lyman, who has gone to take a course of study at Harvard University the ensuing year. While in college Mr. Smith made a record in the line of oratory and debating, and was the lender of the Beloit team which won the debute from Knox College, Il-linois. He has had considerable experience as a tracher, having acted as assistant in the work at Beleit in drilling the under class men in public speaking and debating. Mr. Smith is a son of Rev. Arthur Smith, of China, upon whom the trustees conferred the degree of D. D. at the recent cor

scelesiastical province of Oregon, and form discoves in place of the reform diocess in place of the re-maining three. The new Main-Avenue fruit crop. Church, now under construction in this city, will be built with the hope that it may be chosen as the new Cathedral.

Idan County W. C. T. U. Convention. BAKER CITY, Or., Sept. II.—(Special.)

The attendance at the carnival and fair was not nearly so large as expected to-day. The exhibits are not as the management and the people thought they would be just before the fair opened. A

wind storms which blew off much fruit, are accountable for the shortage of the

GRANT'S PASS MELON CROP. Fifty Carlonds Will Be Shipped This

Season-Demand Is Good. GRANT'S PASS, Sept. 17.—(Special.)— The watermelon season is now at its height in Josephine County. Shipments of melons from here this season will be larger than ever before. Over 25 cars of watermelons have already been shipped from Grant's Pass this Summer, and as

ANOTHER BLAZE DESTROYS \$1,500 000 WORTH OF TIMBER.

Safety of Town Again Depends or the Wind-Fire-Fighters Are Being Paid \$4 a Day.

TILLAMOOK, Sept. 17.-A great timber fire is raging on Wilson River, nine miles from Tiliamook, and there is a possibility that Tillamook may again be placed in danger should the wind continue as at the present time. Already the loss has reached \$1,500,000, and unless the fire can be stopped by means of back fires, may aggregate \$2,000,000. Men are being dispatched to the scene of the fire to fight the flames and good wages are being

The area already burned includes seven sections and two townships of the best timber to be found in this section. The timber destroyed belonged to Blodgett & Co., of Chicago; Gilbert Bros., of Duluth, Minn., and Clark Hadley and Claud Thayer, of Tillamook.

This morning 40 mon left to fight the fire, and those who have timber in that locality have organized and are paying #4 a day for those who will volunteer to go to the burning district and aid in putting out the fire. At the present time the wind is from the

northwest, and blowing toward Tillamook, People feel little apprehension, but it the wind continues and the fire cannot be headed off it may again menace the

WORK OF THE FIRE AT DOLE. J. B. Richardson Tells of His Experi-

ence in the Cyclone of Flames. VANCOUVER, Wash., Sept. 17 .- (Special.)-Reports concerning the fire damage the past week continue to come in. James the past week continue to come in. James B. Richardson, of Dole, who has the mail contract for that section, was in Vancouver today. It is a story of terror that Mr. Richardson tells, and it, was only by the most herole efforts for 24 hours of unceasing labor that he was able to save his home and family. The settlement about Dole laid directly in the path of the torage of fire which swent down the tornado of fire which swept down from the northeast, and covered with devastation a territory full 50 miles long and 15 miles wide. Only four families in the region escaped without serious loss of property, while the rest are bereft of homes, clothing and everything needful to keep them during the approaching Five lives are known to have been lost

while many prospectors in that section are as yet unaccounted for.

Every bridge, the schoolhouse, and fully 20 homesteads were completely consumed, the inhabitants thankfully escaping with their lives.
"The awfulness of the conflagration

cannot be told in words," said Mr. Rich-ardson. "I heard the great roar and to-ward the north saw the heavens pink to the zenith. To the south it was as dark as night. I ran to turn my cows out to-ward the creek, when as suddenly as the explosion of a great mass of gas, every-thing was light, and there was fire on every hand. Such a roaring and seething no words can describe. Great towering, twisting, funnel-shaped flames would come whirling through the air with a noise like the cylinder of a threshing machine. These would disappear like a flash, to be followed by others. Great fragments of logs two feet in diameter would be hurled about, burning fiercely. I saw a big iron-bound trunk, full of goods, which was weighted down with a heavy stove, picked up and hurled for 60 yards against a stump. The goods were scattered and on fire in less time than it takes to tell. It was a veritable tornade of fire, and no man who did not experience it can form any adequate idea of what it was. Imagine how it was to know what little one could do to contend against it, or how futile would be an effort to go to the assistance of any one. For 24 hours I fought the fire around my house, running here, now there, to put out the flames that would break out in the grass and creep toward my For three days and two nights it was so

order to see. Losses About Dole. The following settlers lost everything but the clothes they wore: John Schmidt, whose family was burned,

ost everything. He was away from home at the time.

Daniel Courtney. James Courtney. Michael Welsch. Elmer Osmon. W. J. Chaney. R. B. Cunningham. James O'Bodkin. Jacob Wirts. Thomas Hough. Foster Hidden's property. Peter Neumann L. Windermier.

John Sachs. Other losses were: William Wymann, all but house. C. B. Checker, house.
L. D. Jackson, mower, barn and hay.
A. H. Sigier, one house and barn and household goods; one house remains.
A. A. Alisworth, barn and horses.

James B. Richardson, barn and hay.
There were other losses, not ascertained,
but the informant said there was not
much hope of their escaping damage. The Portland, Vancouver & Yakima Rallroad bridge across the Lewis River was also damaged, and Alexander Colfeit, operator of the Copper Creek mines, lost all the buildings and tools on the works. ASHLAND, Or., Sept. 17.—(Special.)— One of the largest real estate transactions of recent date in Jackson County has just taken place. Benton Bowers, of this city, has purchased the Bybee tract, on the Rogue River, of William Bybee, for \$18,-200. There are 4560 acres in the transfer, 3000 of which are located at Rogue River Dole is situated about 20 miles northeas of Vancouver, and is largely populated by homesteaders, who have gone in there by homesteaders, who have gone in there to carve homes from the wilderness. The

ilficulties of transportation makes the linearities of transportation makes the losses there much more severe.

But the residents of Dole have not given up. Already they have begun the work of clearing the roads. The schoolhouse will be rebuilt and a Fall term of school conducted. There is the prospect of a sawmill being installed within the next month: This will be the best thing possible for the people at this time.

The County Commissioners will doubt-

The County Commissioners will doubt-less direct that the bridges be rebuilt. If the settlers there can secure aid they will be all right, and this last question, in the mind of Mr. Richardson, is the all-important matter at present,

CONSTABLE KEENAN'S EXPERIENCE Was Held Up on the Clackamas for a Week by the Fires. Constable A. D. Keenan, of the East Side Justine Court, had an exciting ex-perience while out on the south fork of

the Cisckamas River last week, where he went with Henry Meldrum on legal business. He was there over a week, when he expected to remain but a day, He drove out with Mr. Meldrum, passing through Springwater the Monday before the fire had swept over the country. When they got ready to start back they found elves surrounded with fires and the roads all blocked. Mr. Keenan said yesterday that there were a large number of campers in the country. They were hemmed in, but they finally got out by leaving their wagons. Some had narrow escapes. Mr. Keenan said he went on the top of a hill from which he could see the country for many miles in every direction. There was fire everywhere. It roared like a tornado. He was told there were houses in the midst of the flames. The fire would start in one place, and in an hour or less would have traveled through the timber for miles. The flames would follow the fences of the farms where there was noth-ing else to burn. Constable Keenan said that they were unable to return by the road they traveled when going in there, and came out by the Oregon City route.

RELIEF FOR FIRE SUFFERERS. Oregon City People Sending Aid to

and came out by the Oregon City route. They were compelled to abandon their

Springwater and Shubel. OREGON CITY, Sept. 17.—(Special.)—Relief work is being carried on in this city with the utmost dispatch, and today two wagons loaded with provisions and bedding left for Springwater. The members of the Congregational Church have given much aid, and tomorrow a wage load of groceries will be sent by the Re-bekah Rellef Society. President A. R. Jacobs, of the Oregon City Manufacturing Company, this afternoon announced that he would give employment in the woolen mills to any women and girls who had suffered by the fires and who needed

Information has reached here that aid is required by a number of people living in the Shubel district. So far everything sent has gone to Springwater, but this afternoon Mrs. W. L. Block, who is taking an active part in the work of the Rebekah Relief Society, said that measures would be taken to relieve people in other districts.

There is more smoke hovering over the city this afternoon than there has been for several days past. This is probably caused by the fire at Carus, which broke out this morning. No serious damage has been done so far. The fire, which ap-peared near Postmaster R. M. Cooper's farm, is a continuation of the one

\$5000 Fire at Lebanon. LEBANON, Or., Sept. 17.—(Special.)— Dagleish & Everette's large furniture and terious manner at 10 o'clock this evening and the rear end of the building was entirely consumed. The loss is about \$5000, partially covered by insurance. The fire is supposed to be of incendiary ori-

To Investigate Fire Losses WASHINGTON, Sept. 17.—The forest fires in Washington State are dying down, according to the telegraphic advices to the Interior Department, but no more specific information is given in the report. A Government forest ranger has been ordered to the Lewis River country immediately to investigate the situation there.

Order from

Fleckenstein-Mayer Co.

DANGER SIGNALS.

No engineer would be mad enough to run by the flag which signaled danger. What the danger was he might not under-stand, but he would take no chances. It is different with the average man or woman. They at-

tempt constantly to run by the danger signals of attempt costs every year. When the appetite becomes irregular or entirely gives out, when sleep is troubled and broken, when there is a loss of flesh, when there is a constant feeling of duliness and languor, Nature is hoisting the danger signal. The stomach and its allied organs are failing in their work and the body is loslug the nutrition on which its strength depends.
Such a condition calls

for the prompt use of Dr. Pierce's Golden Medical Discovery. It cures dis-eases of the stomach and other organs of digestion and nutrition, purifies and enriches the blood and builds up the body with sound, solid flesh.

body with sound, solid flesh.

"Your kindness to me I can never forget," writes Mrs. Josie E. Clark, of Enterprise, Shelby Co., Mo. "I cannot express half my feelings of gratefininess to you. I had despaired of ever getting well. I had been in bad health for lwelve years, Hall aches all through me, numb hands, cold feet, and everything I at distressed me; bowels constipated, was very nervous, depressed and despondent. In fact, I can't express half my had feelings to you. When I first wrote to you I thought I could never be cared. I have taken six bottles of Dr. Pierce's Golden Medical Discovery, and my health is now good. You have my honest recommendation to all sufferers. I think there is no medicine in the world as good as Dr. Pierce's."

If constipated use Dr. Pierce's Pleasant Pellets. They cure constipation,

ant Pellets. They cure constipation, biliousness and sick headache. They do not produce the "pill habit."

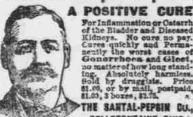

C. GEE WO, The Great Chinese Doctor

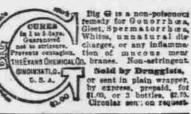

Is called great because his wonderful
cures are so weil
known throughout
the United States,
and because so many
people are thankful
to him for saving
their lives from operations. He treats
any anu all diseases
with powerful Uniness herbs, roots,
buds, back and vegetab.es, that are entirely unknown to
medical science in
this country, and
these harmless remedoctor knows the ac-

this country, and through the barmies remedies. This famous doctor knows the action of over 500 different remedies that he has auocessfully used in different diseases.
