

CASTORIA

The Kind You Have Always Bought and which has been in use for over 30 years, has borne the signature of
Chas. H. Fletcher
and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

WHAT IS CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—the Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

The Kind You Have Always Bought. In Use for Over 30 Years.

DOESN'T BIND HIM

Representative Cushman on the Tacoma Platform.

CUBA WAS NOT MENTIONED

And in This Assertion He is Not in Accord With Members of Platform Committee.

That Representative Cushman, of Washington, deems himself absolved by the Republicans of his state from support of President Roosevelt's Cuban policy is plainly set forth in the following message received from him yesterday:

Colville, Wash., Sept. 21.—(To the Editor.)—Responding to your telegraphic inquiry I would say:

The Republican state platform of Washington does not bind the nominees to support the Cuban policy of President Roosevelt. It does not do so in express terms or by reasonable implication. In general terms the platform indorses the policy of President Roosevelt. In express terms it indorses the course of the two Congressmen from this state who voted and talked against Cuban reciprocity, so-called. The platform, though reasonably lengthy, does not mention Cuban reciprocity. If the framers of the platform had desired to bind the nominees to this particular policy, only two additional words would have been necessary, to wit, "Cuban reciprocity." However, in my present campaign through this state, should I become convinced that a majority of the people who understand the subject favor Cuban reciprocity as advocated by the Administration, I would not permit any personal opinion to prevent me from properly registering their will by my vote.

FRANCIS W. CUSHMAN, Congressman-at-Large from Washington.

The Lewis County member of the platform committee, George Dyars, of Centralia, plainly regrets the action of the committee in dropping specific indorsement of the President's Cuban policy. His unsolicited letter to The Oregonian was as follows:

My attention has been called to your editorial in Thursday's Oregonian concerning the platform of the Republican party of Washington. As a delegate to that convention, and a member of the committee on platform, I wish to state that in the original draft the platform contained a specific plank indorsing President Roosevelt's reciprocity policy with Cuba.

Before the committee had reported to the convention, friends of Mr. Cushman made an earnest appeal to the committee to strike this plank from the platform, on the ground that it would embarrass Mr. Cushman on the stump and furnish ammunition for the Democratic party.

I thought then that the committee was making a mistake in striking the plank, and I think so now. I heartily agree with all you say, and believe an injustice has been done the Republicans of Washington. This view is quite in contrast with the "construction" placed on the platform

LEARNING FROM OREGON

BRITISH COLUMBIA'S EFFORTS TO IMPROVE FRUIT.

Hire Oregonian to Give Instruction in Packing Methods—The Law of the Dominion.

SALEM, Or., Sept. 21.—(Special.)—The Province of British Columbia has paid Oregon fruit packers a compliment by engaging one of their number to deliver a seven weeks' course of lectures before the growers of that province on the subject of fruit packing. W. T. Jenks, of the firm of Gile & Jenks, of this city, has just returned from British Columbia, where he addressed special meetings, local fairs and fruit associations, showing by practical demonstration the best methods for packing fruit so that it will sell to the best advantage in the markets. While engaged and paid for his services by the government, his itinerary and programme were mapped out for him by the leading fruit association in this way the government provided the instruction and the fruit-growers themselves saw that it was presented in the most practical manner. He had no trouble in selling the same box of apples for \$1.25, or an advance of 45 cents. He says that he found while traveling around in the province delivering his lectures that apples were being packed in a manner that would not properly pack and of no better quality, were bringing \$1.

While on his trip Mr. Jenks had many talks with growers and packers, and on the subject of fruit packing. He gave him practical instruction in fruit packing. The statement of the Whatcom member of the committee, C. W. Howard, is as follows: Platform does not ignore Cuban reciprocity, but indorsement thereof was intended to be included in the clause which reads: "We indorse the foreign and domestic policies of President Roosevelt and pledge our Congressional delegates to the hearty support thereof." The gentlemen nominated at Tacoma for Congress, when elected, are pledged to the hearty support of that policy, not of all those policies that go to make up this foreign and domestic policy.

Our present members of Congress are bound by their oath to support the party's will, and will support the President's policy when they return to Washington this winter.

The statement of the Whatcom member of the committee, C. W. Howard, is as follows: Platform does not ignore Cuban reciprocity, but indorsement thereof was intended to be included in the clause which reads: "We indorse the foreign and domestic policies of President Roosevelt and pledge our Congressional delegates to the hearty support thereof." Both committee and convention were strongly in favor of the President's Cuban policy, but President Roosevelt's policy, in view of former attitude of Congressional delegation from this state.

Of similar purport was the following from W. W. Robertson, Yakima County's representative on the committee: "I don't think the Republican state platform ignores the foreign and domestic policies of President Roosevelt, but pledges the Congressional delegates to support thereof. Mentioning reciprocity on the platform Wednesday afternoon who expressed themselves as of the opinion that the Washington Congressmen would be bound by their plank to support the President in the matter of Cuban reciprocity."

BOILER BLEW UP.

Too Much Pressure—Engineer and Fireman Killed.
LOS ANGELES, Cal., Sept. 21.—Too much pressure in the boiler caused a locomotive drawing a heavy freight train to blow up this morning between Raymond and Action on the Southern Railway. The body of the engine was projected forward nearly 100 feet upon the track. Harry R. Swan, fireman, was instantly killed, and Engineer William B. Love was so terribly injured that he died two hours after the accident occurred. Both men lived in this city.

REPORT FROM ALASKA.

SEATTLE, Sept. 21.—Lieutenant G. T. Emmons is on his way to Washington to report upon the finding of ancient boundary lines between Alaska and Canada, but refuses to talk until his report shall be made.

Report From Alaska.

SEATTLE, Sept. 21.—Lieutenant G. T. Emmons is on his way to Washington to report upon the finding of ancient boundary lines between Alaska and Canada, but refuses to talk until his report shall be made. He says the setting aside of the Alexander Archipelago forest reserve will not interfere with the settlement of the islands of Southeastern Alaska, and that development in all lines will be allowed to continue. The forests will be cared for to preserve the smaller growths.

CLARK VS. HUNTINGTON.

Will Compete With Trolley Lines in Los Angeles Field.
LOS ANGELES, Cal., Sept. 21.—Senator W. A. Clark will enter into competition with Henry E. Huntington in interurban railroads about Los Angeles, says the Herald. When the Montana statesman relinquished his option on the properties of the Los Angeles Traction Company it was thought that his threat to enter the electric railway field here would be carried into execution. It was settled some time ago that the Clark road to Pasadena would be electrified or made of double track, the scheme being to run both electric and steam trains over the line. Arrangements are now being made to double-track the road from Los Angeles to Long Beach, one track to be for electric cars and the other, as at present, to remain a steam railroad. From Long Beach to San Pedro there will be no change. How far this scheme of combining the two systems of railroading will be carried by the Clark people, no one of the officials of the company would say. But it was said that the plan of double-tracking the lines to Pasadena and Long Beach and running both steam and electric cars would be carried into effect.

CLARK VS. HUNTINGTON.

Briefly summarized, the British Columbia law, which is in fact a law of the Dominion and applicable in all parts of Canada, provides: That all packages of fruit must be marked before they leave the premises where packed, with the name and address of the packer, the name of the variety of fruit and the grade of the fruit. That no person shall have in his possession for sale or offer for sale any fruit not so marked or upon which there is marked any designation which represents such fruit as of the finest, best or extra good quality, unless such fruit consists of well-grown specimens of one variety, sound, of nearly uniform size, of good color for the variety, of normal shape and not less than 80 per cent free from scab, worm holes and other defects, and properly packed. That no fruit shall be offered for sale packed in any package in which the faced or shown surface gives a false representation of the contents of such package and it shall be considered a false representation when more than 10 per cent

SHOT THROUGH THE NECK.

SERIOUS RESULT OF FAMILY ROW AT WOODBURN.

Man Who Shot Says He Did It in Self-Defense—Held Infant Child at Time—Under Arrest.

WOODBURN, Or., Sept. 21.—(Special.)—G. U. McGuire, a dealer in confectionery in this city, shot his brother-in-law, Fred C. Prevost, a groceryman, of the firm of Prevost Bros., at 5 o'clock this afternoon. Prevost was shot in the neck, narrowly escaping with his life. The assault was the result of domestic troubles, in which McGuire's wife and mother-in-law figure prominently, and occurred during a quarrel between the principals. At the time the shot was fired by McGuire he held in his arms his infant child, and Prevost struck or attempted to strike him. McGuire insists that the shot was fired in defense of his child and himself, and was unavoidable. He was at once placed under arrest, on a warrant issued by Justice H. Overton, charging assault with intent to kill. Prevost is resting easy and unless blood-poisoning shall set in will doubtless recover.

BRONCHO BUSTING TOURNAMENT.

M. J. Flisk, of Elgin, the Champion Other Prizes Won.
BAKER CITY, Or., Sept. 21.—(Special.)—The broncho-busting tournament was concluded this afternoon in the presence of a large number of spectators at the baseball park. Four contestants rode today, making eight in all. The championship belt was awarded to M. J. Flisk, of Elgin. Bob Cavers took second, \$2, and Fred Caviness third, \$1. There was a special exhibition ride by Jess Hart, of Vale, this afternoon, who rode two of the worst bronchos in the lot without a blemish. He was thrown once, but not seriously hurt, as he was able to give another exhibition during the afternoon. Hart is accounted the best broncho rider in the state. He was barred by the other riders from entering for the championship belt because of his well-known ability as a rider. A special purse was made up for Hart.

HAWLEY IS VERY FEEBLE.

But Connecticut Keeps Him in Senate for His Past.

OREGONIAN NEWS BUREAU, Washington, Sept. 21.—It is no doubt true that the public usefulness of Senator Hawley, of Connecticut, is at an end, although he may live on for a number of years. Since the adjournment of Congress Senator Hawley has been in even poorer health than throughout the long session. As a result, more or less sensational stories are put about from time to time concerning his condition, which have at last drawn from his colleague, Senator Platt, the following statements: "Some of the stories that have found their way into the public prints have greatly exaggerated the seriousness of my colleague's illness. He is of course a sick man, but I don't think there has been any change in the last month or two."

THE PERKINS.

UNDERWENT AN OPERATION.

The Duchess of Rochefoucauld Had Appendicitis.
PARIS, Sept. 21.—The Duchess of Rochefoucauld, who is a daughter of United States Senator John M. Mitchell, of Oregon, was successfully operated on yesterday for appendicitis. Her condition today is satisfactory.

MARSHAL KILLED BY BRULERS.

GOLDMFIELD, Colo., Sept. 21.—Gus Kato, night marshal here, was shot and killed by burglars in the drug store at an early hour this morning. Kate saw two men enter the rear of the store and followed them in. They opened fire on him, shooting him through the heart.
