ON THEIR OWN RESPONSIBILITY. The Umatilla Indians Must Now

Work Out Their Own Future. OREGONIAN NEWS BUREAU, Wash Ington, Sept. 22.-(Special.)-The recent abolition of the old Umstilla Indian res-ervation in Eastern Oregon, and the discontinuance of the office of Indian agent. continuance of the office of Indian agent, is in line with the general policy of Indian Commissioner Jones, who believes, at the proper time, in throwing the Indian upon his own resources. Under these conditions, Commissioner Jones believes it would retard the progress of the Umatillas to longer kee hem under agency restraint. The former agent, Charles Wilkins, has

made a good record since he has been stationed at Umatilla, and for this reaschool system as bonded superintendent. This office is a little more than super-intendent, however, as Mr. Wilkins will be expected to act as general adviser of the Indians and to render them such as-sistance as they may need from time to time. At the same time, he will not ex-ercise his former control over them. The Indians are to be given every liberty and privilege that is enjoyed by their white

TACOMA ARRIVES FROM CHINA. Brings Valuable Merchandise Cargo

TACOMA, Wash., Sept. 21.-The steamthey sustained this year by reason of the early contracts made. Many growers ship Tacoma, Captain Dixon, of the Northern Pacific line, arrived in this after-noon from Hong Kong, Yokohama and other Oriental ports. The Tacoma brought over a heavy cargo

The passenger list included Dr. A. D. Vanderburgh and wife, medical mission aries, and their four children, from Hainan, China. Dr. Vanderburgh and wife have been engaged in the work for the past eight years, and this is their first visit home during that time. They will leave in a day or two for their former home near New York City. The officers of the Tacoma report a pleasant voyage over and fine weather until off Vancouver Island, where they ran into a dense fog and were obliged to lay up all day Saturday.

From Singapore the steamer brought news that the Siamese have sent a war-ship to kidnap the Rajah of Tulobin, and that the Rujah of Paini, who was kid-naped sometime ago, has been poisoned. Intense indignation prevails among the Malays.

The school, already very efficient, will be continued. and possibly broadened to a slight de gree, but, whereas under the agency agency much attention was puld to the care of the Indians outside of the schools, all efforts will now be concentrated in one ction. Commissioner Jones believes that the only way to make the Indian a self-supporting citizen is to haunch him forth into the world, cut loose all Government support in the way of annui-ties, give him his own land and instruc-tion as to how to use it, and then let him work out his own future. Conditions at Umatilia are such that this can be done, and no doubt is felt as to the outcome. The Umnitilias are a comparatively forward tribe, and there is no apparent reason, in the department's eyes, why they cannot succeed, as a number of other tribes have done before them. This change at Umnilla is the same as was made at Vatima West

was made at Yakima, Wash., several months ago. Those Indians also werb found in fit condition to be thrown upon their own resources, and their agency was likewise abolished, the whole being d in charge of a bonded superin tendent. .

Secretary Dunbar Following Rule, First Come, First Served.

SALEM, Sept. 22.-(Special)-Secretary of State Dunbar has assigned seats to as many members of the Legislature as have requested them, and has proceeded upon the usual rule of "first come, first served." As those who have been in the Legislature before are more awake to the advantage of a good location on the floor of the legislative halls the old mbers have secured the best seats Many of the newly-elected members have not yet sent in requests for particular seats. Those who do not apply at all will be assigned to the seats that remain after the requests have been filled.
