STRIKERS CONTINUE TO BEUGLY

Men at Work Are Waylaid and Stopped—One Laborer Is Clubbed by Foreigners and Jumped Upon While Dying.

Reinforcements for Troops.
SARATOGA, Pa., Sept. 25.—The Eighteenth Regiment, with Colonel Hoffman in command, left here today on a special train for the upper coal region. The particular spot to which they were going could not be ascertained.

WILKESBARRER, Pa., Sept. 25.—Colonel Dougherty dispatched three companies of the Ninth Regiment to Pittston and Nanticoke today to suppress mobs that had assembled in those places.

SCRANTON, Pa., Sept. 25.—James Winston, aged 42 years, was killed, and his son-in-law, S. J. Lewis, was severely injured by a mob of Hungarian strikers who waylaid them on their way to work at Grassy Island colliery of the Delaware and Hudson Company today. The affair took place only half a mile from the camp of the Thirteenth Regiment at Olyphant. Lewis got away, but Winston's skull was crushed with a club and he fell unconscious. While he lay prostrate and dying the crowd jumped on him, kicked him in the face and then with clubs and stones he was killed. Mrs. Doyle, a nonunion man, and Mrs. Doyle, who witnessed the murder.

Harry Stinson, Tom Preston and Harry Stinson, the three men who are accused to have committed the crime, have fled. Six men and a woman who were in the crowd from which the assailants emerged were arrested and held in \$1000 bail each as witnesses.

Mrs. George Marshall, colored, wife of the proprietor of a hotel at Jessup, armed with a shotgun, safely escorted a hunted nonunion man through a crowd of 150 strikers from the hotel to the Storey Creek colliery stockade last night. When the crowd began to advance toward the hotel, Mrs. Marshall fired on the mob with birdshot. This quieted the mob.

This evening a crowd of strikers threw stones at nonunion men who were being escorted home from work in Forest City. The soldiers loaded their clubs and the commander said he would give the word to fire if another stone was thrown. The crowd melted away. One man who held back was arrested. Cold, heavy rain all day and late into the night kept the soldiers' work by discouraging the congregation of mobs.

MARTIAL LAW NOT NECESSARY.

Stone Says Military Will Be Made Large Enough to Preserve Order.
HARRISBURG, Pa., Sept. 25.—Governor Stone was asked today if he would declare martial law in the coal regions. He replied:

"Without discussing the power of the Governor to declare martial law, it would be wholly unnecessary to resort to that remedy. The National Guard has been sent to the coal regions to suppress tumults, riots and mobs, where the civil authorities are unable to suppress them. They will not interfere with the civil authorities, but are there to aid and assist them. There is now a surplus in the treasury, and the state is prepared to maintain a large army in the field for an indefinite time. I have no hesitation in expressing my disapproval of tumults, riots and mobs, and all acts of violence and my determination to suppress them and preserve order regardless of cost."

New Troops Take Up Their Station.

WILKESBARRER, Pa., Sept. 25.—The Eighth regiment arrived at the mining town of Durban, this county, late this afternoon. The town is almost on the dividing line between Luzerne and Lackawanna counties, and ever since the strike began, has been the scene of many acts of violence. After leaving some orders, General Gobin came to Wilkesbarre tonight. One battalion of the Ninth Regiment today went to Nanticoke, Plymouth, and Wanamie, and dispersed large crowds that had assembled in the vicinity of the mines. Sheriff Jacobs accompanied the soldiers to Nanticoke and placed under arrest John Zuecho, who was heavily armed.

President Mitchell and his advisers at strike headquarters say the presence of troops in Luzerne and Lackawanna counties had the effect of strengthening the ranks of the strikers.

Mitchell Says Riots Are Not Serious.

INDIANAPOLIS, Sept. 25.—President Mitchell of the United Mineworkers of America, in a long-distance telephone message to the News today from Wilkesbarre, said:

"The reports of lawlessness in the strike region are greatly exaggerated. There has been no serious outbreak. There have been individual acts of lawlessness, but nothing that has approached a concerted move on the part of strikers."

Mines to Resume Work.

HARRISBURG, Pa., Sept. 25.—The big breaker at Overton was operated yesterday, and over 200 wagons of coal were handled. No interference was attempted by the strikers. The breaker at Lykens will be started tomorrow and run until the coal mined this week. Both buildings will be strongly guarded. There are over 300 men at work in the mines in the Lykens region, which is in the lower end of Schuylkill county.

Stray Firing by Lebanon Strikers.

LEBANON, Pa., Sept. 25.—There was some stray firing in the vicinity of the American Iron & Steel Company's plant tonight, but no one was injured. Pickets were stationed about the big plant. President Stenberg, of the steel company, today expressed his satisfaction with the situation.

Stone's Order Made Public.

HARRISBURG, Pa., Sept. 25.—The formal order issued by Governor Stone placing troops on duty in Lackawanna and Lebanon counties was made public today at the headquarters of the National Guard.

STRIKERS WANT NO ARBITRATION.

Union Pacific Boilermakers Will Not Accept Services of Labor Man.

OMAHA, Sept. 25.—John McNeil, grand president of the Brotherhood of Boilermakers and Iron Shipbuilders, said tonight that the striking boilermakers of the Union Pacific road would not accept the services of Lee Johnston, Labor Commissioner of Kansas City, who is quoted as saying that he would undertake to settle the strike.

NEGRESS TAKES GUN

Escorts Hunted Miner Home.

STRIKERS CONTINUE TO BEUGLY

Men at Work Are Waylaid and Stopped—One Laborer Is Clubbed by Foreigners and Jumped Upon While Dying.

Reinforcements for Troops.
SARATOGA, N. Y., Sept. 25.—The strike of the motormen of the Hudson Valley Railway is again assuming a serious aspect. Cars without convicts of soldiers were run today on the Saratoga division, but early in the evening the cars were stoned as they entered this town. The military escorts resumed their places on the Saratoga division tomorrow.

EFFECT OF STRIKE IN ENGLAND.

Operators Are Not Profiting and the Consumer is Suffering.
LONDON, Sept. 25.—"The American demand for anthracite coal continues good, but up to date we have not made much from it, and the English consumer has been getting all the worst of the situation," said a representative of the Associated Press by the largest anthracite operator on the coast.

"What I may call abnormal American demand has been felt for about a month past," he continued; "we always have a steady trade with Canada and the Pacific Coast, and the statements referring to large shipments to Portland appearing in the English press mean to Portland, Or. So this is merely our regular trade."

"The abnormal shipments to date total about 35,000 tons, of which our firm has sent all but 1000 tons or so. I know my estimate is accurate. We are slow, I confess, in taking advantage of the American demand. All the orders thus far filled have been at just about the normal price, but free on board quotations at Swansea advanced 50 cents during the past week, and while there are inquiries for 50.00 more, the merchants thus far have been reluctant to pay the advanced price."

"The people who are really suffering from the boom are the English consumers, because the retailers sharply advanced prices coincident with the boom in the export trade. As the case stands, dealers are unable to fill all their orders on account of the miners' union. We could double the output of the mines without increasing the force, but the union regulations forbid the miners from increasing the daily output. We expect the American demand to continue for some time."

HIS LANGUAGE A MYSTERY

Fifteen Tongues Turned Upon Sick Man Without Success.
NEW YORK, Sept. 25.—Physicians at Bellevue Hospital and officers of the outdoor poor department are greatly mystified over the conduct of a man who was taken to the hospital on Labor day suffering from malaria. He has not spoken a word since arriving here. It was assumed the patient was a foreigner and effort was made to hit upon some language he could understand. One after another was tried without success. Fifteen different tongues were turned upon him without effect. Finally the sign language of deaf mutes was brought into play, but the man evidently understood what was being done and merely shook his head.

The illness passed away and some disposition had to be made of the patient, so he was turned over to the poor department. Here an effort was made to put him to work. A pall and scrubbing brush were placed in his hand and signs were made that he should clean the floor. He shrugged his shoulders wearily, laid the articles on the floor and resumed his seat.

Efforts are being made to find Coreana and Eskimes, in the hope of getting him to talk to them, as nearly everything else has been tried. Evidently the man is a recent arrival in the country, and how he got past the immigration officials is a mystery.

BARRETT DOING GOOD WORK

'04 Fair Commissioner Reports Excellent Progress, in the Orient.
WASHINGTON, Sept. 25.—Secretary Hay has sent recent instructions to the United States diplomatic officers abroad to do everything within their power to secure displays at the world's exposition at St. Louis in the countries to which they are assigned. The instructions call for national exhibits by the governments. Encouraging reports are coming in now, and one just received from Commissioner General John Barrett of the Philippines, announced that China, Japan and Korea will participate in the fair on a much more extensive scale than they have undertaken in any preceding international exposition. The three countries named have agreed not only to prepare comprehensive exhibits, but to erect buildings on the fair grounds and sending imperial commissioners to represent them.

Commissioner Barrett has started on a tour of Southern China, bound for Australia and New Zealand.

STRONG-YOHE WEDDING.

New York Man and Actress Will Be Married Saturday.

BUENOS AYRES, Sept. 25.

It is believed that the marriage of Putnam Bradie Strong and May Yohe, who arrived Saturday morning, will take place next Saturday. The couple still have obstacles to overcome, and the ceremony may be postponed.

ASK LARGER SUM.

Continued from First Page.
declared Robert Glen yesterday, Mr. Glen is a resident of Canyon City, Grant County, where he is one of the proprietors of the News. He is well known in Portland. In 1898 he was a Police Commissioner under the administration of Mayor Penoyer. "Yes, sir, you may say to your readers that Eastern Oregon will stand in for a big appropriation. It's our fair just as much as yours. We are a liberal people over east of the mountains, and if any of you Webfooters don't know it, you'd better get acquainted with us. What appropriation say I? Well, sir, \$500,000 or \$750,000, if you need it. And don't you worry me with any way will say the same thing."

"Do I think the Fair will do Oregon any good? You bet I do! It will advertise Oregon and the Northwest as nothing else could. Just put me down for the best friend of the Fair, will you? And don't forget that the other people of Grant County are as good friends of it as I am."

French Miners Cable Sympathy.

PARIS, Sept. 25.—The National Congress of French miners in session at Commeny, in the Department of Allier, has cabled to John Mitchell, president of the United Mineworkers of America, fraternal greetings and wishing for the success of the strike of the anthracite miners in America.

ALMOST EXHAUSTED.

FAVOR ALGER FOR SENATE

MICHIGAN REPUBLICANS INDORSE EX-SECRETARY OF WAR.

His Forces Won Great Victory Over D. M. Ferry—Senator Beveridge Opposes the Campaign.

GRAND RAPIDS, Mich., Sept. 25.—After a long and laborious session, in which more oratory and enthusiastic partisan strife were in evidence than has been seen in the councils of the Republican party in this state for many years, the Republican state convention today indorsed the Senatorial candidacy of General Russell A. Alger, ex-Secretary of War, and nominated Judge William L. Carpenter, of Detroit, for Justice of the Supreme Court to fill the vacancy caused by the death of Justice Charles D. Long. General Alger's friends were a great victory over the supporters of Dexter M. Ferry, of Detroit, the test of strength having been made on a motion to adopt the minority recommendation of the committee on resolutions to the effect that no expression of sentiment on the Senatorial candidacy of any one be taken. The test vote by roll call of counties rejected the minority report by a vote of 14 to 10.

HEINZE STILL FIGHTING CLARK.

He Holds a Convention and a New Party May Be Launched Today.
BUTTE, Mont., Sept. 25.—The followers of F. Augustus Heinze, who were driven from their homes by the boot of the law, met today in a hall in Butte, where they appeared as a contesting delegation, held a mass

INDORSED FOR UNITED STATES SENATOR BY MICHIGAN REPUBLICANS.

EX-SECRETARY OF WAR, RUSSELL A. ALGER.

meeting in this city tonight at the Auditorium. It was announced that the purpose would be to launch an independent party consisting of the Heinze Democrats who are opposed to the party leadership of Senator Clark. This faction, it is understood, would succeed in fusing with the Populists and Labor parties. At the meeting several addresses were made denouncing the Democratic convention for not giving Heinze an opportunity to speak. Attacks were also made upon Senator Clark and the Amalgamated Copper Company. The creation of a new party was not accomplished at the meeting, but was left to the action of an organizing committee, which will meet tomorrow and report the result of its labors at a subsequent meeting.

BEVERIDGE OPENS CAMPAIGN.

Issues of Campaign, in Two Words, are "Progress" or "Reaction."
GRAND RAPIDS, Mich., Sept. 25.—The Michigan Fall campaign was opened in the Auditorium here tonight by United States Senator Beveridge, of Indiana. The big hall was packed to the doors. After being introduced by Representative William Alden Smith, Senator Beveridge said in part:

"If we put the issues of this campaign into two words; they must either be 'progress' or 'reaction.' A nation can never stand still. And the two great questions which face the voter for his decision are the trust question and the expansion question."

"Trusts are the outgrowth of our commercial system. They are necessities of modern life. We admit that these trusts have evils, and these evils must and shall be remedied. The light of publicity must be cast upon them, and the evils of raised and watered stock must be forever done away with."

"A commerce has made necessary the trust, so it has made necessary expansion. The only way to make permanent the future prosperity of the land is to invent some way to consume our surplus. The question is, then, Where shall we turn for new markets? History points to the East. We have raised our flag over the Philippines. We have introduced American products and American methods. We have gained a prestige which will open to us the markets of China and her 250,000,000 consumers. Shall we retreat? No; the voters of the United States will never allow the Stars and Stripes to be drawn down from the masthead on the throne of the Pacific. They stand with President Roosevelt for expansion."

DEMOCRATS OF CONNECTICUT.

Kansas City Platform is Relegated to Background—Harmony Reigns.
NEW HAVEN, Conn., Sept. 25.—The Democratic State Convention adjourned tonight. A full state ticket was nominated and a platform was adopted, and the convention, which had promised to be one of the most bitter in the history of the party in this state, closed in harmony. The ticket nominated follows:

Governor—M. B. Carey, of Ridgefield. Lieutenant-Governor—E. Kent Hubbard, Jr., of Middletown. Secretary of State—Arthur B. Calkins, of Old Lyme. Treasurer—Philip Hugo, of New Haven. Controller—Edward G. Kilguff, of Waterbury. Attorney-General—Noble E. Pierce, of Bristol. Congressman-at-Large—Homer S. Cummings, of Stamford.

The platform occasioned a warm debate in the committee-room, but once presented to the convention as recommended by the committee, it was adopted without debate. A strenuous struggle had been made in committee for inclusion of the Kansas City platform, but the committee refused to mention the Kansas City document, and the light practically ended the controversy.

The platform reaffirms allegiance to the Democracy of the Nation, and reasserts faith in its principles. It declares that the prices of the necessities of life have been

MORE QUIET AT PANAMA

AN ATTACK BY REBELS NO LONGER DEEMED PROBABLE.

Present American Force Will Not Be Diminished Until Improvement in Conditions is Marked.

WASHINGTON, Sept. 25.—Secretary Moody was more fully advised of the situation on the Isthmus this afternoon by another and longer cablegram from Commander McLean, at Colon. It was said at the department that the Commander's report was to the effect that conditions on the Isthmus, while not seriously disturbed now, are such that the United States forces at present there cannot be withdrawn or diminished.

The department made public the following cablegrams from Commander McLean:

"Colon, Sept. 25.—Wednesday afternoon 30 insurgents attempted to board train about leaving Empire station and capture Colombian officer passenger from Colon to Panama. A marine knocked the insurgent officer down, and the boot of the law. Guards trained a Colt gun on them, but did not fire, as they fled."

"Colon, Sept. 24.—Russell and the companies marine railway station and wharves. Panama, one company of marines at Colon. Marines sharing duty with sailors who have been doing guard duty. Placed Mason in command of street cleaning squad."

Commander N. F. Mason was sent down to Colon to relieve Commander McLean of the command of the Cincinnati, but, as indicated in the foregoing dispatch, he is to co-operate with him for a time there.

DANGER OF BATTLE REMOVED.

A Portion of the Rebel Army Falls Back From Near Panama.
PANAMA, Sept. 25.—Traffic across the Isthmus is free, and part of the revolutionary army having retreated to Agua Dulce, the danger of a battle on the Isthmus is believed to be removed. In a communication sent to Commander McLean, of the United States cruiser Cincinnati, Governor Salazar has endeavored to demonstrate that the Colombian Government has here all the force necessary to protect the lives and property of all foreigners, and to guarantee their rights under the laws and international treaties. The Governor adds that he is desirous of having pointed out to him a single case where the lives or property of foreigners have been menaced, and consequently he holds that the landing of the United States marines was not justified. He says he considers it an attempt to assume the sovereignty of Colombia, protests, and says he will hold Commander McLean responsible for whatever may happen as the result of the marines landing in the Isthmus. 250 American marines remain here to protect American interests.

MUCH EXPECTED OF BOGOTA.

Colombia Expects Its New Cruiser to Searc Rebels Out.
PANAMA, Sept. 25.—The government entertains great hope of the new cruiser Bogota, recently acquired by it in the United States, and expected here shortly. It is believed that when the Bogota begins operations the revolutionists will lose their prestige at sea, which government officials declare to be their greatest strength.

The American gunners sent down here for service on government gunboats by the Colombian Minister in Washington, Senor Concha, made an examination this morning of the gunboats Chucuito and Claret, each of which is armed with six-pounders. These boats are thought to be faster than those in possession of the revolutionists, and the hope is entertained that the government fleet will not lose the reputation of the revolutionists will lose their prestige at sea, which government officials declare to be their greatest strength.

FLAG INCIDENT DROPPED.

Venezuela Makes Ample Apology for Misuse of Stars and Stripes.
WASHINGTON, Sept. 25.—It practically has been decided to regard the misuse of the American flag by the Venezuelan warship Restaurador as a closed incident. The incident, which involved the American Foreign Office, and the hoisting and saluting of the American flag by 21 guns is taken as sufficient explanation. As there is every reason to believe that there will be no repetition of the offense, the matter will be allowed to drop. Minister Bowen's energetic action in the matter is approved.

Bowen Handled Matter Well.

CARACAS, Venezuela, Sept. 25.—The Restaurador incident was handled by Herman W. Bowen, United States Minister to Venezuela, most successfully. His negotiations were brief and to the point, and he did not wait to consult with his government in the matter. He took a firm and determined stand and secured signal reparation from Venezuela in a manner which has left no animosity in the mind of the Venezuelan administration, either against the United States or the American Legation here. At Caracas it was first believed that the Restaurador had at first saluted the American flag as a result of influence brought to bear by American ships of war; whereas, the apology was brought about by Mr. Bowen from Caracas. He acted quickly, in order that the Restaurador should not leave the waters before satisfaction for the misuse of the American flag was obtained from the gunboat.

How Flag Came to Be Misused.

PORT OF SPAIN, Sept. 25.—Further explanations of the hoisting of the American flag by the Venezuelan warship Restaurador have been received here. When the United States gunboat Marietta visited Ciudad Bolivar last July, many people took her for the Restaurador, as the two vessels are similar in appearance, and are painted the same color. The American flag at the Marietta's foremast, however, shows that vessel's nationality, and the foreign residents were glad of her presence. The Marietta was expected to return to Ciudad Bolivar, and the Captain of the Restaurador took advantage of this expectation when he hoisted the American flag over his vessel to avoid being fired upon by the revolutionists.

American Quits Colombian Gunboat.

COLOMBIA, Sept. 25.—Captain Hitchcock, who arrived here on the steamer Finagle last Tuesday, is now in command of the government gunboat General Pinzon. He succeeds Captain Merritt, an American, who resigned the command of the Finagle for New York on the steamer Alliance last Tuesday.

To Protect British Interests.

LOS ANGELES, Cal., Sept. 25.—The Herald tomorrow will say: "There will be a complete revision of the laws governing transportation of fruit from California for the East before the next season's crop."

Bryan in Kansas Campaign.

FORT SCOTT, Kan., Sept. 25.—William J. Bryan made his first speech in the Kansas campaign today. He drew a big crowd at Convention Hall. He talked at length on the taxation issue.

NAVY IN WEST INDIES.

Ordered There Before Its Time Because of South American Troubles.
WASHINGTON, Sept. 25.—A squadron of the North Atlantic fleet is to rendezvous in the Caribbean Sea a good while before the appointed time for the assembly of the vessels for the North and South Atlantic European stations. It is said at the Navy Department that the big cruiser Olympia, the flagship of Rear-Admiral Coghlan, will be ready at that officer's disposal by October 25. The cruiser San Francisco is now on her way to the West Indies, and there are already in these waters the Cincinnati, the Montgomery, the Marietta and the Panther. Besides these vessels, the Navy Department intends to attach to Admiral Coghlan's squadron the protected cruiser Raleigh, the unprotected cruiser Detroit and the gunboat Machias. The Navy Department has two objects in view in this early dispatch of war vessels to the Caribbean, namely, preliminary work in regard to the maneuvers and the disturbed situation. It is argued that, as the vessels are to go down to the West Indies anyway, it is just as well, in view of the state of affairs in Central and South America, to have them go earlier.

NO WILDCAT SCHEMES BY SHAW.

Secretary of Treasury Will Make No Financial Experiments.
WASHINGTON, Sept. 25.—Secretary Shaw today gave out the following statement:

"Money once covered into the Treasury (and this, of course, includes the Sub-treasury) cannot thereafter be deposited in banks. All customs receipts are by law payable to the sub-treasury and Treasury. The only fund, therefore, available in banks is internal revenue. Miscellaneous receipts before they have been actually covered into the Treasury. There amount to about \$600,000 per day, and since the stringency arose to their full extent have been gradually returned to circulation. This policy will be continued for 30 or 60 days, if needed, and longer if necessary."

"In the meantime, National bank circulation has been increased about \$50,000,000, largely induced by the distribution of deposits, and the further increase to the amount of \$3,000,000 is expected."

All rumors of experiments have been unauthorized by the Treasury Department. It is to be hoped that the public will place no credence in vagaries started by irresponsible and untrusted men of the street. It is also hoped that the country will understand that the Treasury Department to the extent of its ability, will stand by the banks, East and West, North and South, and it is also hoped that the banks will stand by every business and every interest that is worth protecting."

"The only way to get money out of the Treasury into circulation after it has been actually covered in is by the payment of legal obligations of the Government. These may be anticipated as the department did anticipate the October interest. It now offers to anticipate all interest maturing between October 1 and the end of the fiscal year, if presented within 90 days, at a rebate of two-tenths of 1 per cent per month, which is at the rate of 2 1/2 per cent per annum. In other words, these obligations will be prepaid at such

A Valuable Little Book Sent Free for the Asking.
Medical books are not always interesting reading, especially to people enjoying good health, but, as a matter of fact, scarcely one person in 10 is perfectly healthy, and even with such, sooner or later sickness must come. It is also a well-established truth that nine-tenths of all diseases originate with a breaking down of the digestion; a weak stomach weakens and impoverishes the system, making it easy for disease to gain a foothold. Nobody need fear consumption, kidney disease, liver trouble or a weak heart and nervous system as long as the digestion is good, and the stomach able to assimilate plenty of wholesome food. Stomach weakness shows itself in a score of ways, and this little book describes the symptoms and causes and points the way to a cure so simple that any one can understand and apply. Thousands have some form of stomach trouble and do not know it. They ascribe the headaches, the languor, nervousness, indigestion, constipation, and similar symptoms to some other cause than the true one. Get your digestion on the right track and the
