CROWERSINMARKET

Show More Anxiety to Sell Their Hops.

PRICES ARE NOT SO FIRM

One Thousand Bales Changed Hands Yesterday-Weekly Review of the Local Trade Situation-Big Deal in Wool,

Cereals - Wheat firm; oats steady, with emaller offerings. Hops-Active and not so strong, grow

ers entering the market, brewers not in-

Wool-Fleavy dealing in Oregons at

Fruit-Prices steady; demand affected

by weather conditions. Farm and Dairy Produce-Poultry low and moving well; butter steady; cheese firm; eggs scarce and higher.

Groceries-Beans, rice and oil firm; sugar steady; coffee prices unsettled. Meats and provisions — Live and dressed meats firm; lard lower; side

amount of business transacted in the Portland markets in the week just closed has not been evenly distributed, though the volume of transactions was satisfactory. Whole-Green produce is in better demand, but the inquiry for Summer fruits has declined with the cooler weather, though there was considerable activity in this line yesterday. In the market for farm produce, poultry has been weak on the oversupply, eggs firm because of scarcity, and butter in good demand at former prices. The hop market has been extremely active, with growers, instead of buyers, pressing business. A steady, active eported in ments and provisions, with

a number of changes in the list. though the tone of the market was stronger on he firmness in the East and the weakness in There is nothing doing in charters, shipowners asking 25s, and shippers offering from 23s 64 to 23s 8d. Fifty ships of a total tonnage of 92,994 are listed for this port.

wheat situation abroad is thus summa rized by the correspondent of the Commercial West, in his letter, dated London, Septem-

timid and afraid to lay in a heavy face of the quantity immediately from the States, and the offers from which have been more numerous lately, however, no pressure from any part of the world, and as we are every day con ome stock for Winter supply, and the pe-when inland navigation, especially in Rus-closes and cuts off supplies from up-coun-we cannot see any reason for a big drop, pits of the Continent not helping us at the in spite of the Continent not helping us at the moment. Of course, it may be that on account of the approach of the Winter Bussia and Roumania may become more willing sellers as we get deeper into Autumn, but at present there are no indications for such events happening, and they are unlikely to happen, especially with Roumania, on account of the low water in the Banuke and its ributaries, which makes it difficult for up-country wheat to come down in large quantity to the Roumanian seaboard.

From France we have advices stating that the crop in the south has been very deceptive, in fact, so much so that consumers there are already obliged to go to the middle of France for supplies, and as this center has also to supply the north, owing to the poor state of the Crop there, we should not be surprised if France will be an importer of foreign wheat carlier than we anticipated some time ago.

Beautiful to the Continent not helping us at the in this state. In the New York market prunes continue firm on the spot, and a good jobbing demand is reported at full figures. Occasionally, sales of small sizes are reported at the 2%c four-size basis for Santa Charas, October shipment, on 70-90s. Oregon futures are in good request, with a 3c four-size basis quoted on 30-40s.

Green produce is in demand at former prices. Chickens, after a dull week, are moving better, the lower quotations having stimulated the demand. Prices have been too high of late, and the local supply piled up. As quotations have now settled down to a reasonable basis, a better movement is looked for. earlier than we anticipated some time ago.

From Australia reports continue fairly favor

ply us with white wheat, and in Oregon the

The recent pressure on the part of the more needy farmers to market a portion of their crop, as evidenced by the pretent enormous shipments, is said to be relaxing, and there is not a huge American crop this season to hang menacingly over the market, as there was last scason, consequently one may perhaps venture to hope for a livelier condition of affairs directly the present heavy movement in a measure subclides. As we have already submitted in a previous issue, the American crop, estimated ure subsides. As we have already submitted in a previous issue, the American crop, estimated by us at 40,000,000 bushels over the other highest forecast, viz., 650,000,000 bushels, will only farnish 200,000,000 bushels (25,000,000 quarters) for exportation, even if stocks are drawn down at the end of this senson to the low level to which they sank at the end of last senson, and seeing from recent custom-house returns and other indications that the world's requirements will unount to at least \$5,000 at requirements will amount to at least 55,000,000 quarters, and perhaps 2,000,000 quarters more, it is evident that countries other than America will be called upon to contribute very liberally, to the extent say of 31,000,000 to 33,000,000 quarters, and as India and the Southern Hemisphers will be out of the running for half the season, there remain only Southeastern Europe and Caunda to fill the real parties at 200 and

senson, there remain only Southeastern Europe and Canada to fill the gap, barring the 3,000,000 quarters, which North Africa and certain smaller countries should ship.

A semi-official Russian crop report makes its wheat crop 488,400,000 bushels, against 428,400,000 bushels last year; 172,000,000 bushels of 77s, against 691,000,000 bushels last year; 704,000,000 bushels of onts, against 526,000,000.

STOUR FEED FIC.—The flour bushess is

FLOUR, FEED, ETC.-The flour business to going ahead remarkably well, and the demand is in excess of the supply. In fact, orders are plling up, owing to the shortage of transportation facilities and the inability of the milis to grind fast enough. The demand is principally from the Orient, and the cargo capacity of the Pacific steamers is taken as far ahead as the end of November. No changes have oc-

Onts are steady at former quotations, with Cerings less numerous than beretofore. The barley situation is unchanged. Feedstuffs are in good demand, and prices are firm.

HOPS-The situation in the hop market has undergone a change. At the opening of the searon the business was in the hands of dealctivity, but at prices not so firm. A large baies, also Clatsop County hops just arrived in the market, and several lots at Woodburn, a total of probably 1000 bales, all from 21c to 22½c Excepters are not in the market, declar-ing prices to be too high, and until London be-comes a buyer it is not likely that any ad-

ing prices to be too high, and until London becomes a buyer it is not likely that any advance will be recorded.

New York advices to a Portland dealer yesterday said: "Brewers show ne disposition to buy. Unless England comes into the market soon, Coast growers will want to sell, and we expect to see the price at 18620c. The fact that England is able to fill most of her requirements on the Continent at lower figures quirements on the Continent at lower figures.

| Continent | Contin influence adverse to a further advance." The New York Journal of Commerce of Octo-

The feature was the receipt of cable advices from Nuremberg, Germany, reporting an active and excited market at an additional advance in prices of 5 marks. Reflecting the stronger ad-vices from Germany, local dealers were quoting

higher prices for German hops, and 36c was named as an inside quotation.

named as an inside quotation.

On the following date, the same paper said:
Business in the local market continued quiet, but there was no pressure to sell, and grices were firmly maintained. German cable advices continued to report a firm market, but business for the day in the Nuremberg market was interrupted to a considerable extent by the Jewish holiday. London cable advices reported a firm, but quiet market. Advices from the Coast showed that some growers in Oregon were showing more of a disposition to meet the bids of dealers, which ranged from 21½ for prime up to 23c for choice. The price named by growers of Sonoma and Takima hope ranged from 23½ to 12c, but at these prices there were few buyers. Sacramentos were quoted at were few buyers. Sacramentos were quoted at from 20½c to 21½c. Reports from up the state reported the market firm, with choice grades igure, and a sale was reported of about to bales at 26c.

The Otsego Republican of October 1 says of

The local market does not start up yet. Growers are not ready to sell. We learn of two sales in Springfield at 30c.

The Waterville Times of September 30 says The Waterville Times of September 30 says:
Growers who have choice bops are firm, and
are helding for better than 30c, at least offers
at that figure do not tempt many of them. Still
there are sales made every day at 25@30c. A
50-baie lot grown on Daniel Conger's farm
brought 30c last week, and Thomas Lally sold
his half of the growth on the Hanover farm
at 30c. Other smaller lots have brought 25@30c.

These second products how in this localere are many good-grade hops in this local, which will command the highest price enever they are in the market.

The Journal of the 3d quoted Pacific Coast ops in the New York market: 1902, 24629c per pound; 1901, choice, 25@26%c; do medium rime, 23@24c; 1900, 19@21c; olds, 8@124c.

WOOL-Oregon wools figured extensively the big transactions that recently took place to 30,000,000 pounds of wool were taken up by manufacturers, and of this amount some 7,000,-600 pounds were of Oregon production. Says the American Wool and Cotton Reporter of Oc-

tober 2:

Oregon wools, as before pointed out, have been active. It is estimated that the sales aggregate in the neighborhood of 7,000,000 pounds, comprising some choice staple wools, which brought as high as 55c clean, while those of shorter staple were taken at about 50c clean. The American Woolen Company has been the chief purchaser of these wools, and is reported to have taken 5000 bales of one house. In the grease the prices are reported to have ranged from 16c to 18c. Quite an amount of wool, taken at 10½217c, cost about 32c clean. Such purchases as these have greatly depleted, of course, the supply of Oregon wools in this market.

market. California wools are selling moderately right along at unchanged prices. The tone of the market is firm, and the Fall wools in California are commanding full prices. Sales are reported there at 11@12c. It is estimated that some of these wools will cost 43c, clean, landed, The choice northern wools in this market have seld at 52953c clean. Middle county wools have brought 46248c. The Reporter quotes Oregon wools at sea-

board markets as follows: Eastern staple, 17@ 18c; Eastern Oregon, choice clothing, 14@15c; do average, 13@14c; do heavy, 11@12c; Valley freights. Foreign markets show no improve- Oregon, No. 1, 19820c; do No. 2, 19820c; do No. 3, 18619c; do lambs, 16617c. FRUIT AND PARM PRODUCE-Fruit deal-

ers saw several good and several bad days during the week. The demand, as was to be exer. Yesterday there was considerable activity, and large receipts were worked off at steady of California produce, especially grapes, some of which were not in good condition. Peaches are in large supply for the season, and apples

exhausted. on the light Northwestern supply and the jobbers say it should not have much effect on the Oregon market, as Prenchmen want French prunes, whereas, Italians are principally raised

able, the late rains having decidedly improved the outlook, but whether Australia will be an exporter to any extent in the coming season is two boulful, and we shall in that case have practically only Oregon and California to supplie of the company of the compa Fresh ranch eggs have been scarce for a long

crop is expected to be only 80 per cent of that of last year; in Walla Walla, 80 per cent in bleestern, and 60 per cent in Oregon wheat.

The Argentine reports are on the whole good, and if nothing happens to interfere with the outstanding crops this country will have to be seriously reckened with after the turn of the year. the coffee market uncertain because of manipulation in New York. Coal oil advanced during

Live and dressed meats, as good stock, is not plentiful, have been generally firm. Lard is weak and lower. Bacon is firm and higher and dry salt sides have made a great jump, as there is practically none on the market may be two weeks yet before the supply and price again become normal.

NEW TORK, Oct. 8.—There was decided relief today of the pressure of credit contraction by the banks and the result was a sharp recovery in the prices of stocks. The demand to cover short contracts by the bears was a considerable factor, as the recent heavy declines have made operators on that side of the market hold and quite active. There was some show of enthusiasm in the early buying, and considerable gains were established. The enthusiasm, however, did not last the day out, and the bears regained some confidence and cessed their efforts to cover. Some points of strength persisted to the last, notably Union Pacific, but the market generally became somewhat apathetic, and closing prices were generally below the best.

A stiffening in the money rate late in the day to 18 per cent and a heavy selling movement in Amalgamated Copper helped to unsettle the late declines. The weakness of Amalgamated is due to the decline in the price of copper, both in New York and in London.

The considerable strengthening of the position of the banks as a result of the week's liquidation, and several developments today tending to replenish their cash resources gave rise to the query whether the corner had been turned in a money stringency so that some confidence might be felt that forced liquidation of stocks had come to an end. The earlier view was that this might be hoped for with some confidence, but the wavering course of prices later in the day showed that this opinion was shaken. The banks showed no disposition to deviate from their recent determination not to extend credits to stock-market customers for the, present. The \$3,000,000 of Australian gold at San Francisco was made payable at the Subtressury here today. Large requirements for the payment of New York taxes have been met, and are returning to the channels of the market.

Renseuring reports of the health of Russell less were a quisting indication in the market. sausage link, 74c.

 RALLY AFTER WEAK OPENING.

Fair Commission-House Buying of Wheat at Chicago. CHICAGO, Oct. 8.—Wheat started weak or favorable weather in the West and Southwest. There was fair commission-house buying throughout the entire session, induced by the strength of outside markets and small local re-

strength of outside markets and small local reccipts. December opened a shade to ice lower
at 60% 600% to 60% sold at 60%, and then
rallied steadily, closing ice higher, at 60% 670c,
the high point of the day.

Corn opened easier, influence by lower cables,
good weather throughout the West, and the
prospect of a record-breaking crop in Missouri.
Good cash demand and bullish sentiment among
local traders, however, more than counterbalanced these depressing factors, and there was
good buying throughout the day. Trading was
on the whole more restricted than of late. December/closed strong at 45% c. a gain of %6% c. ember/closed strong at 48%c, a gain of %6%c.

met, and are returning to the channels of the market.

Reassuring reports of the health of Russell Sage were a quieting influence in the money market. Foreign exchange continued its downward course, and immediate loan bils were sold in that market. But there was some buying here today for London account, which helped to weaken exchange. There were some hopeful expressions current over the coal strike outlook today, which helped sustain the market.

The bond market was irregular. Total sales, par value, \$3.665,000. United States new 4a advanced % per cent on the last call.

Closing Stock Quotations. Cats were again featureless and followed corn. December closed at 32½c, a gain of ½c. Provisions were dult and easy, influenced largely by further declines in the prices of hogs. January pork closed 7½c higher, lard 2½c higher, and ribs a shade higher. The leading futures ranged as follows:

irregular. Total sales, United States new 4s the last call. Quotations.		WHEAT. Opening, Highest, Lowest, Close, October\$0 879; \$0 65% \$0 679; \$0 68%

Prunes Gathered at Dallas. DALLAS, Or., Oct. 8.—(Special.)—The prune harvest is nearing an end, and nearly all of the crop will be cured by the end of this week. The big evaporators of M. M. Ellis, R. L. Chapman, James El-liott and S. P. Kimball are running to their full capacity night and day, and an immense amount of dried fruit is being turned out. The small driers are also rapidly taking care of their share of the season's output. Several buyers are here and are making offers for the season's crop, but so far no sales have been re-

NEW YORK, Oct. 8.—The Subtreasury has been directed to anticipate payment of \$3,000.000 of the \$3,700,000 gold which arrived at San Try them.
