Raises New Question.

# **CROWDS VIEW FRUIT**

Perfect Weather, Big Attendance at Hood River.

Geer and Congressma Moody Among the Many Prominent Visitors - Fruit Awards Today.

HOOD RIVER, Or., Oct. 16 .- (Special.) -Today has been the greatest day thus far of the greatest fruit fair ever held in the state. The weather has been perfect and the attendance a record-breaker, The first excitement of special interest was caused by the visit of the entire school of 264 pupils, who marched in a bedy from the school building and made a splendid showing for their corps of teachers.

At 2 o'clock this afternoon the baby show was held for bables over 1 year of age and under 2, which created lively Idona Fern Sherrill, the 13months-old daughter of Mr. and Mrs. W. E. Sherrilli, won first prize, and Marian Taylor, the 22-months-old daughter of Mr. and Mrs. J. W. Taylor, won second. Miss Avery, of Hartford, Conn.; Mrs. Sherwood and Mrs. Eggert, of Portland, hwere the judges.

This evening the celebrated Rev. Poldng's Glee Club, of The Dalles, rendered a programme of unusual merit, which was highly appreciated. The club was ompanied by 200 excursionists from The Dalles, who fully enjoyed the beautiful moonlight ride on the Columbia, in laddition to their visit to the fair. ball was given in the K. of P. hall after the concert.

Among the promipent visitors were Governor T. T. Geer and wife, of Balem: Congressman Malcolm A. Moody, of The Dalles; Professor A. B. Cordley, of the department of entomology of the Oregon Agricultural College; Lloyd Reyholds, Commissioner of the Second Hort-Commissioner of the Second Hortcultural District of Oregon; R. H. Weber,
Commissioner of the Fourth Horticultural
District; Judd Geer, Commissioner of the
Pifth Horticultural District; George H.

Lake La Barge while she was on her

H. Weber, Lamberson, Secretary of the State Board of Horticulture; A. L. Craig, General Passenger Agent of the O. R. & N. Co., Portland; C. H. Jones, editor of the Oregon Teachers' Monthly; George H. Hines, assistant secretary of Oregon Historical

Society: J. H. Page and W. B. Glafke, of Portland, and a host of others. But, anotwithstanding the many other attractions, the magnificent fruit display, and especially the famous "big red apples," are by all means the great gem in a congenial atmosphere, and nothing can detract attention from them. The awards for the fruit exhibition will be made Saturday, and a stereopticon entertainment showing characteristic Hood River Valley scenes will be given in the

### REGENTS ACCEPT BUILDING. Agricultural Hall at Corvallis Ready

for Dedication. CORVALLIS, Or., Oct. 10.-(Special.)-Agricultural Hall, at the Oregon Agri-cultural College, was accepted by the building committee of the board of reyesterday, and settlement made with the contractor. Dr. Withycombe, director of the station, already occupies quarters in the new hall, and Professor Kent is moving in the dairy machinery The latter is to a portion of the basement story. A por-tion of the department of Professor Lake has also been moved into the new buildbut the removal will not be completed for some time to come. The other departments that are to be housed by the new structure are the bacteriological department (Professor Pernot), the chemical department (Professor Knisely), and entomological department (Professor Cordley). Before the latter departments can be installed the plumbing and various other equipment necessary for prose-cution of work will have to be provided, and for this purpose two or three months may be required

cultural Hall, including connection with the heating plant, has cost about \$45,000. The funds were derived in part from a special appropriation by the last Legislature of \$20,000 for improvements and repairs at the college, and the balance comes from the \$5,000 annual appropriation of the Legislature, which bein to be available the first of this year. On account of the need of the building the board of regents has economized in every other direction to the utmost limit, even to the extent of requiring in-structors in one department to assist in other departments that were overcrowded, in order to husband funds for build-

ing purposes. completed, the building is by far the finest, as well as the largest, on the college grounds, and is probably the most imposing college building in the state. It is built of Cascade granite in the basement story, and of pioneer sandstone in the superstructure. It is 125 feet long, 85 fee feet wide, and its extreme height is 50% feet. Though called a two-story and ent; it has four floors, each of

which has a 18-foot ceiling.

The contract for the construction of the building was signed January 11, 1902, and the first ground was broken January 16. Until last Tuesday, when the final finishing was completed, a force of men that sometimes numbered 38 to 40 has been almost constantly employed. The contractor was H. Snock, of Salem, and the architect C. A. Burggraff, of Al-

The new building is to be dedicated with appropriate exercises next Wednes-day, when a large number of visitors from abroad are expected, and for whom elaborate preparations are being made.

### EFFECTIVE WORK FOR OREGON. Work of Harriman Immigration Bu-

reau Producing Results. SALEM, Or., Oct. 10.—(Special.)—Very direct evidence has been received here showing that the immigration agents of the Harriman lines are doing effective work for Oregon. By means of a copy of last New Year's Oregonian, placed in the hands of J. J. Reasor, of Gallatin, Tenn., by Immigration Agent J. C. Fo-gerty, whose headquarters are at Louisville, Ky., a movement has been started which may result in the location of a colony in Western Oregon. Mr. Reasor writes that he and about 30 other men in his neighborhood will leave for a visit to Oregon about December 1. They will stop at different points in the state, particularly in Salem, and will investigate the opportunities for investments here. The party will represent some \$60,000 of capital. Some of the men will come for the pleasure of the trip, others seeking investments, and still others seeking homes. Mr. Reasor expects to leave for Oregon with a colony about February 1.

This is only one instance in many in which the immigration agents of the Harriman lines have directed the atten-tion of Eastern people to this state. The immigration agents are distributing lit-

erature advertising all the Western coun-

try reached by those railroads, and Mr. Reasor wrote to Salem to make arrangements for his visit here because he was attracted by the advantages offered by this section of the state. The literature provided by the railroad people is com-prehensive, and does not advertise any place in particular. The immigration agents will, nevertheless, distribute free any literature supplied by any locality. It is apparent from the practical manner in which the agents are westiges the 200 DALLES EXCURSIONISTS

in which the agents are working that every community in Oregon would get good returns for money expended in good literature presenting in attractive form the advantages of the different sections of the state.

The Greater Salem Commercial Club

of the state,

The Greater Salem Commercial Club
has arranged for the publication of 100,000 copies of a pamphlet advertising Salem and vicinity, and \$1000 is to be raised for this purpose. Subscriptions are com-ing in very slowly, but it is hoped the entire amount will be raised. There is no doubt that the entire 100,000 copies, could be judiciously distributed by the Harriman agents during the next few

### STORM SWEEPS NOME COAST. Surf Dashes High, but Shipping Es-

capes Damage. SEATTLE, Oct. 10.-The worst storm of the season swept the Cape Nome Coast Thursday and Friday, September Z and 26, and caught the steamers Senator, Oregon and Centennial, all of which went to Siedge Island and escaped the force of the heavy seas. There was no material damage done to shipping, but a great deal of inconvenience was caused. On Saturday the wind abated and the sea calmed, and since that time there has been good weather. The wind began in the morning with a storm blow, and increased during the day to a gale, reaching a climax Friday evening. During the flercest of the storm the surf reached the highest point it has attained this year. It swept over the sandpit into Snake River. This stream overflowed its banks and inundated River street at

At the beginning of the storm there were a large number of barges moored out in the roadstead. These were all washed ashore and were left high and dry when the storm abated. One barge was washed up to Snake River as though it had an invisible helmsman. Strange to say, there was very little damage done along the Nome water front, although for a time it looked as if a repetition the storm of two years ago was at hand. The tug Lee, belonging to the Sesnon & Liebes Lighterage Company, drifted on the sandpit and was not pulled off for two days. It was not badly damaged.

## SESSIONS OREGON SYNOD

GRANT'S PASS MEETING IS BEING WELL ATTENDED.

Resolutions for Scientific Study of Criminals-Discuss Temperance and Sunday Observance.

GRANT'S PASS, Oct. 10.—(Special.)— The 12th annual session of the Oregon Synod of the Presbyterian church convened in this city is proving a most suc-cessful one. Between 60 and 75 ministers and prominent Presbyterians are present from all parts of the state. Portland is well represented at the synod, there be-ing present from there: Revs. W. S. Holt, J. N. Milligan, William A. Forbes, Ed-ward M. Sharp, Edgar P. Hill, W. S. Gil-

Rev. Edgar P. Hill, who spoke on "Foreign Missions" at the Presbyterian Synod last night.

bert, Andrew J. Montgomery, M. D. Mc-Clelland, H. S. Templeton.

The synod began its work today at 8:30 this morning, and pased a haif hour in worship, led by Rev. H. S. Templeton, of Portland. The moderator appointed standing committees to handle the business of the synod in all of its various depart-

During the morning session a resolution

SALEM, Oct. 10 .- (Special.) -- G. W. Hunt, who died at his home in this city Thursday night, October 9, 1902, was an Oregon ploneer of 1847. He was born in Indiana in Miss Elizabeth N. Smith, of Marion County. Mrs. Hunt died in 1891, and the same year he was married to Elizabeth Ewing, who survives him. He leaves four children-Mrs. T. E. Ashby, of Albany; M. W. Hunt, of Salem; J. F. Hunt, of Vhiteaker, and Mrs. B. D. Steeves, of Weiser, Idaho.

CAME TO OREGON IN

1847.

When the vessel struck there was a great among the passengers. was found that two of the ribs of the steamer had been broken, also some of her planking, but as she was not making much water the voyage to White Horse

was continued. Last week the steamer Canadian ran ashore on a bar near Hell's Gate. She was on her way from Dawson to White Horse and had a large number of pass-engers on board. The passengers were taken off the Canadian by the steamer Bailey and conveyed to their destination. At last accounts the Canadian was still

Salem Libel Suit Settled. SALEM, Oct. 10.—(Special.)—The libel suit of Mrs. Louise Combest against the Statesman Publishing Company has been settled and was today dismissed by stip-ulation of the parties. Mrs. Combest ught suit for \$600, alleging damage suffered by reason of certain statements published by the Statesman regarding the accidental shooting of Clara Wilson by Lloyd F. Combest at St. Paul last

way from Dawson with 150 passengers, is a development of work already begun under the Federal Government. And that such study shall include the collection of jurisprudential, sociological and patho-logical data in institutions for the de-linquent and defective and in hospitals, schools and other institutions. And that especially the causes of social svils be sought out, with a view to preventing or

checking them.

The question of temperance was liberally discussed at the morning meeting. the several reports presented showing that the Presbyterian church is taking an active interest in temperance work in Oregon. The question of Sabbath observance also engaged the attention of the synod during its morning eastlen. The matter of Sunday baseball playing, har-vesting, threshing, hunting and all other forms of Subbath desecration were discussed and condemned. A conclusion reached in this discussion was that if Mr. Quimby and all other citizens want the upland birds protected the best way to do it is to have a law passed forbidding Sun-

# viting as their guests a number of the preminent ministers in attendance. The afternoon session opened with an address by Professor Glichrist in the interest of the seminary at San Francisco. The remainder of the afternoon session was taken up in the discussion of Sunday school work and the record of the

day school work and the reports of the missionaries of the fields of the state. This evening the church auditorium was

Some Entire Crops Average a Strong 40-50, for Which 44 Cents Per Pound Can Be Had.

prisoners increased during the year, the majority being recruits. The number of descritions from the department numbered \$25. General Hughes says: vent into the 30-40 size. Petite prunes are of good size and many 60-70s have been received. They will not average this large, however. Petites "The foregoing figures are not pleasant to dwell upon. It seems possible to raise the standard of accepted recruits by lookare selling on a 24-cent basis, which is the Santa Clara price. The association has been selling Petites at this price and MORTGAGE CANCELLATION ASKED.

WHITE DEER SHOT.

Judge Burnett will hold a session of the Circuit Court at 1 P. M. tomorrow to set cases for trial next week. The J. F. Markley murder case has been set for 1 P. M. next Monday.

Rev. B. J. Hoadley, professor of English at Willamette University, has been granted leave of absence during the remainder of this school year. He will go to Myrtle Point, where he will occupy the pulpit of the Methodist Episcopal Church.

## Chester Murphy Returns.

SALEM, Or., Oct. 10 .- (Special.) -- Chester Murphy, the Oregon man who became famous as captain of Stanford's football team, returned today from a three months' tour of England, Scotland, Ireland and Continental Europe. His trav-els are supplementary to his courses of study at Stanford and Harvard. After a day hunting, as more birds are killed on Sunday than on all the remaining days of the week.

During the noon recess the graduates gave a lunch at the Hotel Josephine, in-

# SALEM PRUNES GATHERED

QUALITY FIRST CLASS WITH ITALI-ANS RUNNING LARGE,

SALEM, Oct. 10 .- (Special.)-The work of gathering and curing the prune crop close around Salem is nearly finished. Back in the hills the prunes will not all be dried for a week yet. Reports that the fruit is first-class in quality continue to be gen-eral and the Italians seem to be running to large sizes. Several growers report that their entire crops will average a strong 40-50 to the pound size while a few have crops that will go into the 30-40 size without grading. As 4½ cents per pound can be hed for the 40-50 size the Italians will be found profitable where the yield is fairly good. In orchards that have been poorly cultivated or where the trees hung too full of fruit the sizes will not be so good. At the warehouse of the Willamette Valley Prupe Associa-tion yesterday, 30 tons of Italian prunes were quoted and three-quarters of these

has been selling Petites at this price and Italians on a M<sub>2</sub>-cent basis, with a considerable premium for the larger sizes. About 50 carloads of prunes have already been received in Salem and shipments have just begun. Three carloads went East from Salem last Tuesday and a fourth car was filled today.

white deer, a freak of nature not often seen, was brought into Grant's Pass to-day by Roadmaster G. W. Donnell, who shot it at Union Creek near West Fork, last evening. The deer is like all other deer, with the exception of its hair and It has a snow-white coat and pink eyes. Old hunters, who have examined the freak, say they have never seen a white deer before in the Southern Oregon mountains. They have been met with at rare intervals in various parts of the country where deer are found. Mr. Donnell sent the carcass to Portland to-

BLACK BASS DO KILL SALMON. Superintendent Wisner Says it Has

injurious effects upon salmon by black bass, Superintendent Wisner said:

gation, that it has been proven by the United States Fish Commission, and by

fish culturalists, representing some of the state fish commissions, that the black

bass do prey upon the eggs and young

of other varieties of fish. It is true that at one time it was seen fit to plant a few black bass in the waters of this state.

but it was at a time preceding the inves-tigations that give the commission its

present knowledge. With an industry having a commercial value so large as that of the Pacific Coast salmon it would

be a hardship on the community to place fish in waters used as spawning grounds or inhabited in any way by the salmon or

WASHINGTON

FIFTY YEARS.

FOREST GROVE, Oct. 10 .- (Spe-

cial.)-Mrs. Thomas Reed, an Ore-

gon ploneer of 1852, died from apo-

plexy at her home, at Dilley, Octo-

April 17, 1828, and with her parents

while a child moved to Illinois.

where her girlhood days were spent,

ried to Joseph B. Tupper, who died near Dilley in 1863. The following

year she wedded Thomas Reed, who

died in 1897. Deceased was the

mother of 11 children, five of whom

are living-A. P., B. H. and W. C.

Tupper of Dilley: Mrs. W. E. Mc-

Leod, of Portland, and Mrs. Oilver

Chowning, of Mechias, Wash, The

funeral will occur at Dilley tomor-

row, and interment will be in the Naylor cemetery, Forest Grove,

me in Washington a few years ago the black bass were fed all together on a diet

of carp. In November of that year we

turned approximately 200,000 young carp in the ponds containing comparatively

few black bass. By the time the carp hat

reached a growth that would prevent the

bass from preying upon them there were

GERMAN HOPS ADVANCE & CENTS.

This Means Much to the American

Grower.

SALEM, Oct. 10.-(Special.)-An advance

of 8 cents per pound in the price of hops in Germany in the last few days has stiffened the price of hops here, and all

dealers now have orders for hops at 23 cents. As high as 23 2 cents has been paid.

The advance in Germany means much to

the American market, for it was Ger-many's supply that threatened to fill the

English demand, thus cutting off part of the American market. The English brewers could buy cheaper in Germany

than in America. The advance in German hops has placed America on an equality with that country, so far as prices are

concerned. It is believed here that the advance in Germany has caused a plac-

ing of more orders in America, and that rise here is the result.

Growers have loosened up a little on

hops in the last few days, and about 500 bales changed hands in Marion County

Salem Hop Sale at 23 1-4 Cents.

ley & Co. purchased a 44-bale lot of hops yeaterday at 23% cents. The ruling price for choice hops seems to be 23 cents. A

few sales are being made but business

in hops is comparatively light. The steady advance that is being made in the price

encourages those growers who are dis-posed to hold for the 25-or 30 cents they

expect to get, but the price is also too tempting for growers who think it is better to take a good price than to spec-

Cover Crops Good for Orchards.

SALEM, Oct. 10 .- (Special.)-Lloyd T. commissioner of horticulture

his fruit crop this year the good results of sowing a cover crop in his orchard. He uses vetches as a cover crop and

sows only a part of his orchard each year. He put in the vetches just after picking the fruit in the Fall and then

plowed the heavy vogetable growth un-der in the middle of the following May.

The increased supply of humus and ni

trogen in the soil brings a better fruit crop as shown by the varying yield in the same erchard, only part of which has had

the benefit of, the cover crop. Mr. Rey-nolds finds that the crop of vetches plowed

under not only enriches the soil but also renders it more loose and porous and more easily worked. He does not believe

in putting in a cover crop every year for such a course would cause the trees

to make too rapid a growth of wood

and the trees would be too soft. Once in two or three years is often enough a cover crop.

### ANOTHER ALASKA SHOOTING. Gld Harrow, of California, Meets With a Mysterious Death.

SEATTLE, Oct. 10 .- Two days before the steamer Oregon sailed from Nome word was brought to that city of the sheeting and death of Gid Harrow, aged 40 years, of Oroville, Cal., who had been employed as watchman at the Hot Air mine, on Glacier Creek. At the first reports it was thought to be a case of sul-cide, but after the Coroner's inquest it

was reported to be an accident.

Harrow has been in Nome for the past three years, and this season has been occupying the position of watchman where he lost his life. He had lain down on a bench to sleep, and a 38-caliber Colt's automatic revolver, which he had in his hip pocket, evidently slipped out to the floor, lighting on the safety and discharging. The bullet took an upward course and entered Harrow's left ear, passing out through the top of his head

### GOOD ROADS ASSOCIATION.

Organized at Seattle as Result of Convention There.

SEATTLE, Oct. 10.-The Washington Good Roads Association was formed to-day as a result of the good roads con-vention which has been in session here two days, and which has been attended by many delegates from the counties of Western Washington.

Hon. Martin Dodge, in charge of the Government party, will leave here for Portland, and thence will go to Boise, The association has as its president Samuel Hill, who has been active in the good roads movement, and James B. Meikle, secretary of the Seattle Cham-ber of Commerce, is secretary. Vice-presidents have been appointed in the veral counties, and an active campaign will be begun for the improvement of the highways of the gestions received at the convention.

OREGONIAN NEWS BUREAU, Washington, Oct. 10.-The Secretary of the Interior has affirmed the decision of the General Land Office repecting the home-stead entry of an 80-acre tract in township ii, range 1 cast, in the Oregon City land district, by George M. Clarke. The land is within the grant to the Oregon & California Railroad Company, opposite a portion of the definitely located section

of the road. The Secretary has denied a motion for review of his decision rejecting the application of George V. Hallock to make homestead entry of a quarter section in the Vancouver Land District. had been previously granted to the state for agricultural purposes.

William G. Gosslin, who sought to make selection of a tract in the Vancouver land district, in lieu of a tract in the San Francisco Mountain forest reserve, has been denied that privilege. The land relinquished by him did not properly

onstitute lieu base. Henry N. Peabody has been denied the right to enter a tract in the Vancouver land district under the timber and stone

The Secretary has finally denied the application of Maria Deits to submit final proof upon a canceled homestead entry, which she attempted to make cov-ering a quarter section in the Seattle

Brothers Meet After 35 Years. MONMOUTH, Or., Oct. 10.—(Special.)— A pleasant meeting of brothers after a ong separation was had Thursday, when Alexander Riddell, of San Fernando, Trinidad, visited William Riddell, at this place. The brothers parted 35 years ago at their old home in Scotland, who their aged parents now reside. They a hale, vigorous, active men, and have seen life in its many phases. This is Mr. Rid-dell's first visit to the United States, and he is greatly impressed with the many possibilities to be found, especially in the

large sugar plantation. Charged With Shooting a Dog. OREGON CITY, Oct. 10.-(Special.)-A warrant was sworn out this morning by C. G. Miller, collector in this county for the Portland General Electric Company charging Charles Franz with shooting his bird dog. Franz could not be found today, but his apprehension by the officers in search of him is certain.

West. He is manager and owner of a
