SENTIMENT WAS BULLISH. Wheat at Chicago Closed a Quarter of a Cent Higher.

CHICAGO, Oct. 13.-Wet weather and higher

CHICAGO, Oct. 13.—Wet weather and higher cables caused a strong opening in wheat today, but large receipts in the Northwest, with predictions of better weather, caused considerable selling early by commission houses. Local sentiment, however, was bullish, and offerings were well taken. In the latter part of the day prices advanced again on a good demand, with limited offerings. Poor grading, fair cash demand and some increase in the visible were the sustaining features. December opened %0 higher, at 71%671%c, but sild down to 10%c early on heavy liquidation. Later, offerings became limited, and with good buying by commission houses there was an advance to 71%c. Another reaction followed, but the close was 1%6%c higher, at 70%671c.

Corn opened strong on wet weather and higher cables. The feature was the unloading of a long line by a prominent trader, it being reported over 1,000,000 bushels were disposed of. The close was 1%c, lower, at 47%647%c.

Oats were strong with corn, but on commission-house selling prices tended lower. December closed 1%7%c, at 311%c.

Provisions were traded in moderately, and held fairly firm. January pork closed 2½c lower, lard and ribs unchanged.

The closing prices showed a sprinkling of net gains among some of the most important stocks in the list, reaching a point in Reading and Ontario & Western. At one time before noon there were ragged declines indicated of all the way from 1 to 12 points from Saturday's level, many of the leading speculative stocks having many of the leading speculative stocks having lost 3 to 4 points in the two hours of trading. The sentiment in the street seemed mixed before the opening between the contending influences of the reports that a settlement of the coal strike had been arranged, and the admonition contained in the Saturday bank statement that there must be further contractions of logue placed in the stock market. The intof loans placed in the stock market. The latof ions placed in the stock market. The lat-ter influence swept away all other considera-tions, and, with the exception of a momentary rally after the opening, due to the taking of bear profits by Saturday's shorts, the market pursued a steady downward course, under a continuous stream of liquidation. It was evi-dent that further selling out on the part of some large speculative pools was going on, pre-sumably under pressure of the demand from money-lenders for repayment of loans. The Gould Southwesterns and some of the stocks in money-lenders for repayment of loans. Ins.

which the so-called Western contingent have

When the liquidation first showed signs of decreasing, the bears caused a sharp rally by covering of shorts, after which the market lay sluggish and neglected for an hour. The speculative sentiment then yielded to the influence of the hopeful feeling that the consultations and activities of the financial and operating powers of the great anthracite companies would lead to substantial results in the settlement of the coal strike. Any admission of a change in the deadlock was impossible to obtain, and the unvarying assertion by the operators dealt only with the possibility of improving the output of the mines under protection of the military by seceders from the strikers. But the action of the mines under protection to the military by seceders from the strikers. But the action of the market reflected the faith that developments were forthcoming looking to a settlement.

the market reflected the faith that developments were forthcoming looking to a settlement. Reports received over Sunday of the receipts of several parcels of gold from Europe, and of an expected arrival within two weeks at San Francisco of \$1,500,000 additional Australian gold were powerless to offset the depressing influence of the bank statement. Money went to 18 per cent soon after the opening. Sterling exchange broke sharply, but discounts in London responded with an advance. The coming week's syndicate requirements, which foot up week's syndicate requirements, which foot up come \$50,000,000, were considered formidable in view of the money situation. The market closed with a raily in full force and prices of

Taxes Reduced at Ellensburg ELLENSBURG, Oct. 13 .- (Special.)-The

taxpayers of Kittitas County were treated to a substantial reduction in the tax levy by the Commissioners, the decrease from last year amounting to 5.1 mills in Ellensburg. The Ellensburg levy this year is 12 mills, as against 12½ last year. The levy in the school district is 2½ mills, while it was 4½ in 1901. This reduction is while it was 4½ in 1901. This reduction is brought about by the very general payment of taxes, the community being very prosperous; and there has been very little delinquency. Even at the reduced figure, provision is made for the payment during the ensuing year of \$25,000 in bonds of the Issue of 1892, which cleans up that series, \$53,000 having been paid in 1901.

Vote-Buyer Pardoned.

ELLENSBURG, Oct. 13.—(Special.)— Governor McBride yesterday pardoned William Milby, who was sentenced for vote-buying in Rosiyn, in the election of 1900. His fine, which he also chose to serve, made his total time of sentence

TALKS SALMON COMBINE ten months, eight of which he has served. He is nearly 70 years old, and his work was done in the interest of the Demo cratic ticket. His arrest brought th names of prominent politicians, both of Ellensburg and Roslyn, into conspicuous notice, and a great sensation at one time seemed imminent, but it was averted, and Milby, contrary to general expectation, failed to "squeal." The application for his pardon was strongly indersed.
