25-CENT HOP SALE

400 Bales at Dallas Sold to English Buyers.

CREATES A FLURRY AT SALEM

Firm Is Said to Have Orders for 1000 Bales-With England a Buyer Considerable Activity Is Expected in Oregon Hops.

SALEM, Or., Oct. 13 .- (Special.)-Quite a flurry was caused here this evening among the hopmen upon receipt of a telephone communication from Dallas reporting the sale of 400 bales of hops at 25 cents to Kirkpatrick & Williams, Aside from the magnitude of the sale and the exceptionally high price paid, the more important factor about this transaction is that Kirkpatrick & Williams operate for a onden house exclusively. This is said to be the first purchase made for English account, and it is reported that this firm has an order for 1000 bales. With England a buyer, which now seems an assured fact, considerable activity can be looked for in the hop market from now on. As samples of choice Oregon hops are just now reaching England, it is to be expected that orders from England will now be received by all houses buying for that

DALLAS HOPS TWENTY-FIVE CENTS London Market Buyers Secure 300 Bales.

DALLAS, Or., Oct. 13.—(Special.)—Kirk-patrick & Williams today purchased of local growers 300 bales of choice hops for the London market for 25 cents per pound. These buyers have had 12 years' experience in the market, and, after a careful investigation of prevailing conditions, make the prediction that 1902 hops will yet reach 30 cents, if the growers will sta

Culifornia Hops 25 Cents.

SALEM, Or., Oct. 13 .- (Special.)-News received in hop circles here shows that the price of hops is advancing faster in California than it is in Oregon. On Saturday the Leggitts' crop of about 250 bales, in Somona County, Cal., was sold at 25 cents. When the 25-cent point is reached here, there will be quite a lively movement of hops. While some will hold for 30 cents, and a few for perhaps more than that; the general feeling reems to be that a majority of the growers will let go at 25 cents. At present growers seem i different. Buyers are very active and are getting hope from day to day, but not in large quantities. Each advance in the price brings about a few more sales. The conditions are very noticeably different from those of a few years ago, when growers went from office to office with samples under their arms, seeking a buyer. The growers are not rushing their hops, nor even seeking to sell, but let go when they get an offer that suits

SUIT ON HOP CONTRACT.

Buyer Sues for Hops and Grower Says Contract Was Rescinded. SALEM. Or. Oct. 13.-(Special.)-A. F. Backhaus, a hopbuyer, and F. W. Buells, a hopprower, are involved in a lawsuit over the contract executed by them last March. By the terms of the contract Euclis sold to Backhaus 19,000 pounds of hops 'to be of choice quality, sound con-dition, bright uniform color, fully matured, free from mould and from damage etc. The buyer agreed to pay 12 cents per pound therefor and to ad-vance 5 cents per pound at picking time, Last week Backhaus brought suit to recover possession of the hops and today Buells filed an answer, in which he sets up the contract and alleges that the plaintiff falled and refused to advance the picking money, as agreed. The con-tract provides that the advance is to be made only in case the buyer thinks the hops are of the specified quality. Buells also brings into court \$1 advanced at the time the contract was made, and 16 cents interest thereon, and tenders this to the plaintiff. He contends that the contract was rescinded when Backhaus refused to advance the picking money. This is the first suit entered here th season on a hop contract.

BAKER CITY ELECTION.

Mayor Carter Has Consented to Run for Re-celction.

BAKER CITY, Or., Oct. 13.-(Special.)-An election for Mayor and half the members of the City Council will be held in this city November 3. Mayor R. D. Carter has consented to be a candidate for re-election. He was very much averse to serving again, but there was a general demand for his re-election in view of the fact that the water works system, which was inaugurated during his administra-tion; is not finished, and the people fee that he should continue in office until that work is completed. There is very little general interest taken in municipal elections in this city. They are absolutely nonpartisan, and usually there is but one candidate for any office. This year there will be two candidates. James Milne, the city scavenger, came out some time ago as the candidate of the Federated Trade Council of this city, but the officials of the Council repudiated his claim. He secured enough names to his petition to have his name printed on the official ballot, and he will make the race against Mr. Carter. Mr. Milne is confident of his election, and he will probably poll quite a number of votes cast by people who will vote for him just for fun. So far there is no indication of a con-test for members of the Council.

THIRD REQUISITION ASKED FOR Complications in Attempt to Take Hansen to Yakima.

SALEM, Oct. 13.—(Special.)—Sheriff H. L. Tucker, of Yakima County, Washing-ton, is in Salem tonight with a third requisition for the delivery of Earl Hansen, who is wanted to answer to the charge of horse-stealing. The first requi-sition for Hansen was made by Governor McBride, upon an information filed by the District Attorney. Governor Geer honored the requisition, but warned Sheriff Tucker that it would not stand the test of the courts for the reason that it was not based upon an indictment, nor a complaint filed with a committing Magistrate. Hansen was arrested, but immediately released on habeas corpus products. ceedings at Portland. The second regulsition was defective in form, and Governor Geer refused to honor it. The third requisition seems to be regular, but Governor Geer is confronted with the fact that Han-sen has been arrested in Washington County and held to appear before the next grand jury. The question now is whether Governor Geer can and should issue a warrant permitting Hansen to be taken to Washington, when he is ordered by an Oregon court to appear here on a certain date. Hansen's attorney, W. T. Hume, will be heard on the matter before

land Bids Are Lowest. SEATTLE, Oct. 13.-The awarding of the contract for 11,000,000 feet of lumber for the Philippines, to be used in the construction of an Army post, is still hang-ing fire. It has been announced unoffi-cially that Portland bidders are lower on the aggregate amount. The Washington authorities asked Major Bingham to learn from W. Wheatley, the representative of the Charles Nelson Company, if he would take two-thirds of the contract and deliver the lumber on Puget Sound. Mr. Wheatley's bid was the lowest one opened in Seattle, and he stated that he would deliver either at Puget Sound or Columbia River points. He now says that the men from whom he had options on Puget Sound have raised the price of lumber \$1 50 higher than they themselves bid to the Government, and if he takes twothirds of the contract he will have to make it Columbia River delivery, for he has made arrangements with mills in that section to furnish the lumber. Major Bingham has wired the facts to Washington, and the matter will be handled from there.

Deceased was born in Mon-roe County, Virginia, in 1828. Upon his arrival in Oregon he engaged in surveying and mining, and trayeled about from place to place as business called him until 1864, when he settled on Howell Prairie, where he resided until 1892, when he came to Salem. For 18 years prior to 1887 he filled the office of County Surveyor of Marion County. He was successful in business, and highly esteemed as a citi-zen. In 1965 he married Miss Olive Greenwood, who survives him. He also leaves two children-Mrs. Walter Buchman, of Sidney, and A. Newsom, of Portland. Mr. Newsom had been suffering from paralysis for five years, but had been able to walk out, and his death came unexpectedly. Funeral arrangements have not been

margin in addition to wages and interest on money invested in lands and ma-chinery. The country is in better finan-cial condition than it has been for many years.

The farmers have reaped the full benefits of the reduction in rates made by the three great railroads traversing this country, which took effect August 15, and conservative estimates place the amount saved to the farmers of Whitman County at \$160,000 for this crop. The contention of President Hill, of the Great Northern, that the farmers would not receive the benefit of any reduction made by the railroads, but that the warehouse-men and exporters would absorb it, has been proven to be a mistake. The farmcused of robbing small postoffices in ers have not only received the full bene- The remains were interred in the Eureka various parts of Southern California, fit of the reduction in rates, but the cemetery. warehousemen and exporters have made a reduction in handling charges, amount-ing to just two-thirds of the reduction

made by the railroads.

Hon. J. C. Lawrence, president and manager of the Farmers' Warehouse Co., at Garfield, gives out the following state ment as to the effect of the reduction:

Mr. Lawrence said:
"President Hill contended that the warehousemen and exporters would absorb any reduction made in the grain.
This has been rate to Coast points. This has been proven to be untrue. Prior to the re-duction in freight rates the rate on grain to the coast was 12% cents per bushel. The warehouse charges have al-ways been 1½ cents. This makes a total of 14% cents per bushel. The warehouse-men added % of 1 cent for 'margin' and made a difference of just 15 cents per bushel between the Coast and Palouse country price. Thus, if wheat was worth 64 cents at terminal points, the farmers in the Palouse country received 49 cents per bushel for their wheat, delivered at the warehouse. Since the voluntary re-duction the rate to tidewater is 11.55 cents per bushel, a reduction of 1.20 cents per bushel. The warehouse charges remain at 1½ cents, making a total of 12.05 cents per bushel in charges between the farmer and the experter at the Coast. The price of wheat at Coast points is 64 cents, and at Palouse country points it is 51 cents, a not saving to the farmers of just 2 cents per bushel. The warehousemen have not only stopped making a charge of % of 1 cent for 'margin,' but are actually losing 5-100 of a cent from their rightful charges Thus the farmer is getting two-thirds as much from the warehousemen and porters as from the railroads. This fact ought to be made public, in order that all may know the true conditions and that the farmers are receiving the full benefits of the voluntary reduction, and more,

The crop of Whitman county is conservatively estimated at 8,000,000 bushels A reduction of 2 cents, a this year. bushel, which is just, what the farmers have received since August 15, means a net saving to the farmers of \$160,000 on this year's crop. The farmers appreciate this, and their feelings toward the rallroads are more friendly than ever before.

and defective at other places than the seat of government. The repeal of the anti-negro section of

Reform in Printing Office. The first amendment referred to is in-tended as a solution of the difficulty over the extravagant fees allowed the State Printer. Article 12 of the constitution provides that a State Printer shall be elected every four years, that he shall do all the state printing, and that he shall be paid rates which shall not be changed during the term for which he shall have been elected. The proposed amendment provides that "the Legislative Assembly is hereby empowered to provide by law for the election of a State Printer, to provide for his compensation, and to prescribe his powers and duties." Under such au-thority as this the Legislature could require that the State Printer let the printing to the lowest bidder, that official be-ing merely an inspector of the work done. In that case the Printer could be placed

pon a salary, which is not now possible.

Home Rule for Cities. The second amendment referred to will, if adopted, do away with the practice of incorporating cities and towns by special acts of the Legislature. It is an amendment to section 2 of article II of the con-stitution, which provides that "corpora-tions may be formed under general laws, but shall not be created by special laws except for municipal purposes." The amendment provides that "corporations may be formed under general laws, but shall not be created by special laws." The section then further requires that the Legislature shall provide by general laws for the incorporation of cities and towns. Cities and towns already incorporated may organize under the general laws whenever the legal voters thereof so decide by vote. Cities may elect a commission of 15 free-holders to frame a charter, which may he adopted or rejected by the people The purpose of this proposed amendment to the constitution is to relieve the Legislature of the work of passing charter bills, to put a stop to the manipulation of city charters for political purposes, and from St. Michael to York has been cur- to provide a means whereby the people of a city may adopt a charter that suits their needs and wishes,

Consolidation of Elections.

The purpose of the third proposed amendment is clear. The National elec-tion is held in November, while the state election is held in June. It is proposed that the two elections shall be held on the same day, thus saving the trouble and expense of two campaigns and two elec-tions. As state officers do not take their offices until January, the amendment would make no difference in the beginning of their terms, but as county officers go into office July 1, the adoption of th amendment would make it necessary to change the beginning of their terms to the first of the year. The amendment would deprive Oregon of the distinction of being the first state to speak upon National issues.

Location of Public Institutions. As everybody knows, the constitution provides that all public institutions shall be located at the seat of government. Nevertheless, the State University, several Normal Schools and the Agricultural College are located elsewhere. Eastern Oregon also wants an insane asylum. The object of the fourth amendment men-tioned is to legalize the maintenance of the state schools away from the Capital, and to empower the Logislature to estab-lish anylums and schools for the defective in other parts of the state. The purpose of the present constitutional provision on this subject was to locate all institution at one place, so as to reduce to a mini-mum the controversies and trading over the distribution of institutions, which caused so much trouble under the terri-

torial government. Repealing a Dead Law. The people of this state once had an opportunity to repeal the section of the constitution which declares that no negro

shall come within this state, hold prop erty here, make contracts or sue in the courts. The aection has been abrogated by the 14th amendment to the Federal by the 14th amendment to the Federal Constitution, and is, therefore, of no effect. In the last National campaign William Jennings Bryan made political capital or this section of the constitution, leading people to believe that the retention of the provision indicated a disposition on the part of the people of this state to discriminate against the negro in the matter of civil rights. The unpleasant advertising Oreson received on that ocadvertising Oregon received on that oc-casion has given rise to the demand for the repeal of the anti-negro section; and this constitutes the fifth proposed amend-

LOOK OUT FOR

The cold-wave flag means zero weather, icy, moisture-laden winds, and the beginning of winter in earn-est. To Catarrh suffer-

ers there is nothing cheering in these elimatic changes, for with the return of cold weather, all the disagreeable symptoms of Catarrh appear: blinding headaches, dizziness, a stuffy feeling about the nose that makes breathing difficult, cliest pains, and as the disease progresses, a discharge of nauseat-ing matter from the throat and nose keeps

one continually hawking and spitting. Catarrh is a most disgusting disease. The foul mucous secretions that are constantly dropping back into the stomach contaminate and poison the blood and is distributed throughout the body, and it then becomes a deep-seated, systemic, persistent disease that must be treated through the blood, for it is beyond the reach of sprays, washes, powders or external treatment of any kind.

S. S. S. soon clears the system of all Catarrhal matter and purges the blood of the irritating poisons, thus effectually checking the further progress of this seri-ous and far reaching disease.

Look out for Catarrh in winter, for cold stirs the blood and causes excessive secretion of mucus and brings to life all the slumbering poisons that make Catarrh the most abominable

the most abominable of all diseases, S.S.S. keeps the blood in such perfect order that cold waves cause no alarm and the no alarm and the change from the heat of summer to the rigors of winter produce no hurtful effects. NOT A RELIEF BUT A CURE

HELENA, Mont., Oct. 4, 1902. Dr. C. A. Perrin, Helena,

Dr. C. A. Perrin, Helena. Mont:

I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me, when, on the advice of a friend. I procured a bottle of your Perrin Pile Specific and took a table-spoonful at night and another in the morning. At half-past tweive noon my wife rave ine another tablespoonful, when my pain all stopped. In two days I was able to attend my requiar business entirely relieved. It was aimply wonderful.

Truly yours.

PERRINS PILE SPECIFIC

JULIUS METHOEFER, Furrier, Helen:

"I do not look as though I ever was sick."

When a woman is sick she falls off in looks. This is particularly the case when she suffers from diseases peculiar to her sex. Not only is her strength undermined, but she loses beauty of

face and grace of form.

It is characteristic of the cures of womanly diseases effected by the use of Dr. Pierce's Favorite Prescription, that with restored health there is a restoration of good looks.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures

female weakness. "I wish to thank you for the good your medicines have done me," writes Mrs. Mae Brown, of Canton, Fulton Co., Ills. "I was troubled with female weakness and doctored with several different doctors. They did not seem to help me, indeed I got worse all the time. I had ulceration and displacement of the uterus. What I suffered no tongue can tell. I had heavy bearing-down pains and thought my back would kill me. I also had a very bad drain, but after taking five bottless of 'Favorite Prescription' and three of 'Golden Medical Discovery,' I am feeling as well as ever. It has been almost two years and I have had no return of the trouble. My friends tell me I don't look as though I ever was sick." "I wish to thank you for the good your medi-
