United States Wins the Pious Fund Case.

FINDING OF THE HAGUE COURT

Award Is for \$1,420,682, and the Decision Is Unanimous-Action in Behalf of Archbishop of San Prancisco.

THE HAGUE, Oct. 14.—The arbitration court in the plous fund case has con-demned Mexico to pay the United States \$1,420,682 in Mexican currency. The de-cision of the court was unanimous. The

First-That the claim of the United States in behalf of the archbishop of San Francisco is governed by the principle of res judicata, in virtue of the arbitration decision pronounced by Sir Edward Thornton, November 11, 1875, and amended by Sir Edward Thornton, October 24, 1876.

Second-That in conformity with this decision, the Government of the United States of Mexico should pay the Government of the United States \$1,420,682 in money of the United States strategy of Mexico within the period fixed by article 10 of the protocol of Washington. This sum will cover the total payment of annuities due from and unpaid by the Government of the Mexican Republic, namely, the annual payment of \$43,050 in Mexican curncy, from February 2, 1869, to February

Third-That the Government of the United States of Mexico shall pay to the Government of the United States, Febru-ary 2, 1968, and every following year on the same date, forever, an annual pay-ment of \$43,650 of money of the legal currency of Mexico.

The decision of the tribunal was read by Secretary-General Rulyssenaers, in the presence of the members of the special diplomatic corps, their wives, and repre-sentatives of the litigants. Dr. Matsen, president of the court, who declared that a revision of the sentence was possible only in event of new facts coming to light, thanked the representatives of the United States and of Mexico for their assistance in enlightening the arbitrators. He added that, while no single judge was infallible, the unanimity of the arbitrators who had so closely examined the whole question at issue was a guarantee that no mistake had been made. #### DEATH AT CELEBRATION. Bursting of a Bomb Causes Death of Boy-Several People Injured.

NEW YORK, Oct. 14-By the bursting of a bomb a boy has been instantly killed and three persons were seriously injured. The accident grew out of the celebration of the feast of St. Sebastian, which took place in the Italian colony in the Bronx Michael Pasilo, 7 years old,

Michael Fasilo, i years old.

The injured: Antonio Chapelo, 30 years old, contusions on the head and face;
Raphael Inqu, 13 years old, contusions;
Leonard Lacessa, 40 years old, right arm fractured and many contusions.

The explosion occurred just after the disbanding of a parade in which 2000 persons participated. Italians who saw the havoc which resulted were in a frenzy of excitement. They rushed about the streets spreading the story of the boy's death, and the crowd increased. Police reserves were called to restore order.

MANCHESTER, Oct. 14 .- A notable addition to the controversy over the govern-ment's education bill was made tonight by Premier Baifour in an address he de-livered before a mass meeting held in connection with the annual conference of the National Union of Conservative and Constitutional Associations. The Premier declared that the agitation against and opposition to the bill was due to misun derstandings in false statements of its intentions. Mr. Balfour said the voice of the calumntator had been long uninter-rupted, but that the country would no longer be hoodwinked by the travesties of truth which had been drunk in by those from whom better thinks were to be expected. The threats of the non-conformists to refuse to pay the rates, the Premier said, were unworthy the citizens of a free country. Civilized government was impossible if dissatisfied citizens refused to obey the laws. The non-conformists, the Premier declared, should hall the bill with pleasure, for it was an effort to give the people unlimited control of education; and their objections to it were really political, their objection being to turn out the Conservative gov ernment. If the government were defeated in this measure, there would be no hope of educational reform, as the agitat-

ors did not desire it.

Mr. Balfour said he did not consider the consequences on political grounds, be-cause the stake was the education of a generation of children. "If this reform is not unhesitatingly carried through, con-cluded the Premier, the government will earn and deserve the contempt of parents and of children yet unborn." The meeting passed a resolution pledg-ing its support to the bill.

# FRENCH LEGISLATORS AT WORK.

Stormy Times in Sight Over the Budget and Closing of Schools. PARIS, Oct. 14.-The Chamber of Dep uties reassembled today. The session promises to be a stormy one, in view of the interpellations before the House attacking the government for employing troops against strikers, and also for using the military in the case of the school trou bles in Britanny. Moreover, the govern-ment's proposed new bill strengthening it in the adoption of measures against filegal congregations under the associations law, and Finance Minister Rouvier's scheme for readjusting the country's finances, will certainly lead to animated debates. The budget showed that the revenue was estimated at \$715,100,000 and

the expenditures at \$715,000,000 Rouvier, after introducing the budget, explained that, in order to effect an equilibrium, it would be necessary to create new taxation amounting to \$41,400. 000, which amount is included in the estimated revenue.

A mining deputy, M. Basly, presented a proposition for establishing old-age pen-sions, which the chamber agreed to discuss at the first opportunity, and M. Bau-dey d'Asson submitted a demand for an arraignment of the government for vio-lating the law by closing schools conduct-ed by the congregations, and asked for its immediate discussion, which was re-

fused by 531 to 414 votes.

The chamber has decided to take up immediately as a unit all the interpolla-tions relating to the application of the law of associations. M. Aynard. Progressive Republican, opened the discussion by severely criticising the action of the government in closing clerical schools, and violating the rights of parents to give their children religious education, thus inaugurating civil and religious war. Count de Mun. Conservative, followed M. Aynard and spoke in the same strain. Both speakers were frequently interrupt ed. Debate of the matter was postponed until next Thureday. The chamber the adjourned. The Senate, after formally reopening, adjourned.

> AMERICAN GUEST OF MRS. BOTHA Daughter of Prominent Official Entertained by Boer Leader's Wife. PARIS, Oct. 14.—The Boer Generals re-mained at their hotels most of the day. In the afternoon they drove around the city and went to the Town Hall, where

they were received and welcomed by the President and other officials. The daughter of a prominent American official, who has become intimate with the wives of the Boer Generals, was entertained today in Mrs. Botha's private drawing-room, where the General's wife showed the American girl three photographs; first, General Botha's beautiful home in the Transvaal, surrounded by trees and stock; second, a snap-shot of the house in flames; third, the smouldering ruins of the General's home. Mrs. Botha said:

"The first picture shows us before English civilization; the second depicts us during the process of civilization, and the third represents us after English civiliza-tion has been extended to us."

This incident indicates the real senti-

ments of the Boer leaders.

General Botha said he spoke in the name of his people and thanked France for its generous encouragement, and for the ald she had given the Boer wounded. He eulogized Colonel de Villebots-Marcull. Frenchman, who was killed while fighting with the Boers in 1900. He said the losses of the Boers amounted to \$3,000,000. The Boers, he said, did not ask for special, but for economical intervention. eral's allusion to the concentration camps and farm-burning were received with hoots. Generals Dewet and Delarey followed Botha in making speeches. At the conclusion a collection was taken up, which realized \$1715. The Generals were presented with medals. On their way back to their hotels they were cheered by the crowds in the streets.

The bill-posters, who have the monopoly of the city's advertising on the Pillars, have broken their contract, and refuse to put up any more placards advertising the reception of the Boers. It is intimated that the reason for this action on the part of the bili-posters is that they re-ceived a secret hint from the police to cease advertising the entertainment. The government seems determined to prevent the slightest demonstration that might be construed as offensive to Great Britain.

Resignation of Francis. WASHINGTON, Oct. 14.-In addition t WASHINGTON, Oct. 14.—In addition to the appointment of Henry L. Wilson, Minister to Chile, to succeed Charles Francis, resigned, as Minister to Greece, the State Department today announced the following appointments: John B. Jackson, now First Secretary of Embassy at Berlin, to be Minister to

H. P. Dodge, now Second Secretary Embassy at Berlin, promoted to be First Secretary, in place of Mr. Jackson. R. F. Reynolds Hitt, now Third Sec-retary of Embassy at Paris, to be Second Secretary at Berlin, in place of Mr.

Peter Augustus Jay, of Rhode Island, appointed Third Secretary at Paris, in

place of Mr. Hitt. The resignation of Charles S. Francis, as Minister to Greece, which caused the changes, is received with regret at the State Department, where the officials declare that he has been a most efficien and painstaking Minister. Mr. Francis took the post originally from sentimental considerations. His father had been Minister to Greece many years ago, and he (Charles Francis) had lived in that country as a boy, so that he contemplated with pleasure the opportunity to return to the scenes of his youth. His desires in that matter have been satisfied, how ever, and his business interests connected with the Troy, N. Y., Times, of which he is editor and proprietor, seeming to need his presence at home, he has been obliged

to quit the diplomatic service. It was fully intended that Mr. Wilson, who succeeds Mr. Francis at Athens should have had a European post as far back as last Spring, but no proper open-ing offered before this date. Mr. Jacksen, nevertheless, preferred a European sta-tion, and it is said he will receive such assignment when a vacancy occurs if the future, for the department sets much value on Mr. Jackson's ability.

The appointments in the minor place are all in line of diplomatic reform which Secretary Hay has marked out. In every case, it is said, the transfer is made en-tirely without regard to individual pres-sure or influence, and solely upon the basis of merit as shown in the work of the Secretaries. Mr. Hitt, who goes to Berlin, is a son of Representative Hitt, of Illinois, and Mr. Jay, who is appointed at Paris, is a lineal descendant of John Jay, who was President Washington's first Secretary of State.

# STRIKE AS A TEACHER.

Thinks It Will Show the Valu Government Control.

MEDFORD, Or., Oct. 12.-(To the Editor.)-The writer has followed the reports of the coal strike with great interest, and has enjoyed the able, just and humane utterances of The Oregonian on the subject. But is it true, as stated in "An Operators' Victory," that "If it (the strike) wins it is a grand blow for lib-

erty. If it falls, it's a crime."

From the standpoint of a concession to
the demands of the union, it seems inevitable that it must fail. Operators with unlimited capital defy the laws with impunity. They defy the press, the Nation Their ears are closed to the cries of distress already going up from thousands of the poor, who, alas! are not among "God's anointed." The state sends men and guns to compel the ignorant, halfcivilized miner to keep the laws his en-lightened masters are breaking. There are men so dwarfed in mind and soul by the hard conditions of life they are rlad to take the strikers' places, go down and dig for the sake of a mere existence Against such odds could the wisest, the most skillful general lead his forces to

But who shall say, though the strike proves a failure, though it has caus mense loss and great suffering, that the price is too great for the lessons it is teaching? Fathers fought and died, mothers gave their only sons, that ours might be a united country. If these lessons are rightly learned, a bloodless revolution rightly learned, a bloodless revolution may give us a free as well as a united country. What could have opened the eyes of the Nation, as this strike has done, to the weakness, the defects of a government powerless to prevent a few plutocrats from working such wee? What could have brought home to the busy man and woman the injustice of our economic system as the knowledge that there are thousands of their fellow-creatures willing to die, even to die of hun-ger, rather than to live miserable, to work hard and gain nothing? Must not the far-reaching results of this strike upon the consumer, as well as striker, show every voter in the land that he cannot be sure of enjoying "life, liberty and the pursuit of happiness" until the Gov-ernment (the whole people) controls the cessities, the comforts of life?

Why is a cry going up from Atlantic to Pacific against the arrogance of the operators and the wrongs of the miners?
Because the union ordered a strike. Today in Southern factories, owned by
Northern espitalists, greater wrongs are
being inflicted on young children than
these miners suffered. But the Nation is not roused to the gravity of these evils, because no protecting union has thrown its arm around the children. Because they are too weak, too stunted in body and mind, to rebel against their masters. Let them strike, the factories close until cotton cloth quadrupled in value, and the eyes of the Nation would be focused on this festering wound in the economic sys-

Right here in Oregon, Eastern capital ists are very quietly gobbling up great tracts of timber land. The coffers of these financial kings are already bursting with profits from the fallen forests of the great Middle West. When lumber reaches the point where only a rich man can afthe point where only a rich man can afford to build a hencoop, the common
people will have learned a lesson.

But this strike is a wonderful teacher.
Only yesterday some of the Nation's
strongest minds were turning from Government ownership as the idle, if not
vicious, dream of the socialist. Today
these men see it is the only solution of
the economic problem.
