COLER OFFICIALLY NOTIFIED. Touches on Coal Strike in His Speech of Acceptance.

NEW YORK, Oct. 15.—Bird S. Coler was tonight officially notified of his nomination by the Democratic state convention for Governor of New York. In his speech of acceptance, Mr. Coler referred to the coal-strike situation, saying: "The unfortunate industrial conflict between the anthracite mine operators and the miners was not, of course, intentionally treated by the Republican party. Its causes, however, are directly attributed to Republican policies, and no clearer admission of the responsibilities of the leaders of that party for the unfortunate con-

ditions which have prevailed in Pennsylvania could be made than that furnished by the frantic and belated efforts of the Republican Governors and Senators of States of New York and Pennsylvania to avert the consequences of their party's folly.

"In respect to the suggestion in the 'National Federal ownership of the anthracite coal mines may be found necessary in the public interest, I must be entirely frank. My view of all such questions is that before the Government is called upon to assume the responsibility of ownership of the power of regulation should first of all be honestly and thoroughly tested. I furthermore believe that state regulation and control of corporations of its own creation whenever possible be preferred to the concentration of such power in the hands of the Federal Government."

Uncommon Colds. "It is just a common cold," people say, "there's no danger in that." Admitting their statement, then there are uncommon colds, colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

Dr. Pierce's Golden Medical Discovery cures coughs, bronchitis, "weak" lungs and other diseases of the organs of respiration. It increases the supply of pure, rich blood and builds up the emaciated body.

"I took a severe cold which settled in the bronchial tubes," writes Rev. Frank Hay, of Newtonville, Jefferson Co., Kansas. "After trying medicines labeled 'Sure Cure,' almost without number, I was led to try Dr. Pierce's Golden Medical Discovery. I took two bottles and was cured, and have stayed cured. When I think of the great pain I had to endure, and the terrible cough I had, it seems almost a miracle that I was so soon relieved. That God may spare you many years and abundantly bless you is the prayer of your grateful friend."

If you ask your dealer for "Golden Medical Discovery" because you have confidence in its cures, do not allow yourself to be switched off to a medicine claimed to be "just as good," but which you did not ask for and of which you know nothing.

Dr. Pierce's Pleasant Pellets cure diarrhoeas and sick headaches.
