FIRST WORK OF HERBERT
New British Ambassador Signs Trade
Treaty With Hay.
WASHINGTON, Oct. 17.—The first official
function performed by Sir Michael
Herbert, the new British Ambassador
here, was the signing with Secretary Hay
of an amendment to the reciprocity treaty
with Barbados, extending the period of
time allowed for the ratification of that
convention for six months from the 25th
inst., which carries it over the approach-
ing session of Congress. This is the last
of the British West Indian and Central
American treaties to be so extended.

PLAN OF ENGINEERS' BOARD
Pumping Machinery Will Be the Du-
plicate of Largest Type Used by
Government—Haupt Jetty Plan
Still Under Consideration.
OREGONIAN NEWS BUREAU, Wash-
ington, D. C., Oct. 17.—Recognizing the
demand for a deep channel at the mouth
of the Columbia River, Secretary Root
today authorized the Chief of Engineers
to convert the Army transport Grant into
a sea dredge, and to commence operations
on the bar at the earliest possible date.
The action is taken on recommendation
of the special board of engineers that re-
cently visited the mouth of the river. It
is proposed to scoop out a channel of
about 20 feet depth to begin with. When
this has been completed, the dredge will
probably be used in maintaining and
deepening the channel until the jetty is
completed.

Democracy as a Clog.
Morgan Says This Will Be Result if
His Party Captures the House.
BALTIMORE, Oct. 17.—In an interview
here today, Senator Morgan, of Alabama,
said:
"I do not see that the Democrats have
anything to gain by controlling the next
House of Representatives. I do not be-
lieve the Democrats of this country want
to constitute themselves as a clog to leg-
islation, but that result would naturally
follow. With the two branches of the
opposite political factions, the Govern-
ment would be seriously embarrassed.
There is nothing to gain by a condition of
this kind. It would not be any advantage
to any one."
