

Supply home trade, and the foreign demand, there is sure to a shortage somewhere. If we let 75,000 bales be exported, there will be 140,000 bales loft. Our annual consumption is close to 150,000 bales. The shortage will be felt. How soon is another question. If grow-ers will part with their hops at say 20c per pound, they will be used to feed the demand. until the trade can be worked up to paying 25650c per pound, then the dealers will have all their holdings to put in at full figures.

CHICAGO, Oct. 17.-On the Produce Ex-change today, the butter market was firm; reameries, 164/1234;c; dairies, 15621c, Eggs-Firm; loss off, 21%c. Cheese-Steady; 104/@11%c.

New York Cotton Market. NEW YORK, Oct. 17 .- The cotton market

opened steady, with prices 2 points higher to 1 point lower, and closed steady, with prices net 365 points higher.

High Tariff Carelessness.

Boston Herald. We spoke the other day of the frank-ness of Senator Lodge in the admission that the Wilson-Gorman tariff was a protective measure. He sold this while all about his fellow-orators were declaring the crops, and it is expected the yields will ex-ceed last year by over 40 per cent. Wheat areas in Australia have been helped, that Mr. Lodge was careless rather than by beavy rains. by heavy rains. Generally favorable reports of coming crops neve been received from all provinces of India. The rice crops of faran hurt by the week the statement that "the habit of charging to the tariff whatever ills, real or imagined, afflict the country, has be-come an evil of itself." Or perhaps Mr. Lodge is not responsible for this any more than in admitting it in the revision that he gave to the resolutions. It is so dam-

aging an assertion for the high tariffites that it contradicts logically all that they had claimed for the tariff in saying the country owed its prosperity to that legislative measure. With what possible face, after declasing that the habit of charging evils to the tariff had become an evil in itself, can men turn about and claim that good to the country should all he credited to that source? Here is a contradiction, that political partiaans should shrink from presenting to intelligent men, so apparent is it upon its face. It was rank carelessness to let it into Repub-lican resolutions unless the claim that public prosperity is dependent upon the tariff is about to be abandoned.

The French Ministry of Agriculture has issued a preliminary report giving the wheat produc-tion of France as \$52,000,000 bushels, an in-

The crops in Belgium are stated to be com-paratively satisfactory. In Great Britain the area under wheat cultivation is 25,285 acres greater than in 1901. The recent weather throughout Great Britain has created by the state of the same the same the same the the iron trade as a result of the probable eng-ing of the coal strike is as yet a matter of wentiment, but with the free movement of coal Eastern iron furnaces now banked are expect-ed to resume operations. Wheat, including flour, exports for the week ending October 16, aggregate 5,240,688 bushels, against 5,647,719 bushels last week, 5,336,073 bushels in the corresponding week last year

against 5,647,719 pushels into week last year hushels in the corresponding week last year and 3,796,643 bushels in 1900. Wheat experis

and 3.706,043 bushels in 1900. Whent exports since July 1 aggregate 78,371,130 bushels, against 85,103,817 inushels hast season, and 55, 302,165 bushels in 1900. Business failures in the United States for the week ending Thurnday, October 16, number 203, as against 170 last week, 108 in this week last year, and 222 in 1900. In Canada, failures for the week number 15, against 20 last week, and 29 in this week a year ago. ushels.

Summer, probably will be below the average. The official estimate of Spain is that the country will have the largest wheat crop for many years, and will have a considerable sur-plus for extended.

plus for exportation. The Nile flood this year is the lowest in the last 25 years, and although the scarcity of water will partly be compensated for by the new works executed by the British Government.

has greatly helped its farmers in completing their belated barvest.

Harvesting is progressing favorably in Den-mark. Rye and wheat are of normal yield and

good quality. The wheat crop of Italy, according to present dications, will be approximately 139,000,000

The recent rains in Argentina entirely saved

"I have called, sir," said the young man to "I neve called, sir, said the young man to the editor, "to request you to make a correc-tion. I sent in an item referring to my recital, in which I described myself as 'the amateur bugler." "Oh, well," said the editor, "why not let well enough alone?"-Judge.
