Work on Holman Bullding.—When Ed-ward Holman, a short time ago, pur-chased the old Gilman residence property at the corner of Third and Salmon streets, at the corner of Third and Salmon streets, for the purpose of erecting a handsome building thereon, the work of clearing off the ground and excavating was commenced at once. In a short time this work ceased and nothing more was done there until yesterday morning when the occupants of the Gilman residence moved out. A force of men was set at work at once, quickly dismantled the building, and Contractor Cook soon had an engine on the spot and at work tearing the old house down. Mr. Holman stated that the delay in preparing for the construction of the new building had been caused partly by its being impossible to get the tenant to evacuate somer, and partly betenant to evacuate sooner, and parily because the architect had still some details to decide upon, and partly because he had to have a lot of Roman bricks made to order. He says that construction will be pushed as rapidly as possible. The building is to be of two stories with a clate roof and attic. The first story and because will be accounted by the Halman basement will be occupied by the Holman Undertaking Company, and the upper

It was also stated that when Officers Balley and Gibson attempted to arrest him he had pulled a gun and told them to get a warrant before he would go with them. A charge of threatening to kill was also preferred against him on this account. The officers testified that on their regular rounds they had found Kuber's saloon open and doing business at 1:25. Wit-nesses were brought by the defendant who swore that it was six minutes before 1 when the officers arrested the salcon-keeper. The case was taken under advisement and the defendant given a chance to bring more witnesses to estab-lish his claim of closing on time.

JAVA PEAFOWL FOR HOMER DAVENFORT.

The trio of penfowls from Java, which prived here on the steamship Indrapura prived here on the steamship Indrapura some four months ago, and for which no sale was found, were shipped yesterday to Homer Davenport, New Jersey. The Java peafowls differ from those usually seen here in several respects. They have long tufts on their heads, are longer legged, and the feathers on their necks are marked with the same kind of "eyes" as the tail feathers. They are also free from the horrible harsh voice which makes the common peafowl a nuisance. Mr. Davenport takes a great interest in Mr. Davenport takes a great interest in birds and fowls of all kinds and has extensive aviaries on his place in New Jersey, and when he heard of the Jave peafowis being here he bought them at

It has not yet been decided whether the mill will be rebuilt there or at some other point.

CHARGED WITH STEALING ON A TRAIN. S George E. Snyder is charged with stealing \$450 in bills from Mrs. Lippkowski on the George E. Snyder is charged with stealing \$450 in bills from Mrs. Lippkowski on the Southern Pacific train between Portland and Ashland, October 1. The case was to be tried yesterday and the Municipal Couriroom was filled with people interested in the case. Owing to the large amount of work however, it had to be postponed until today. District Attorney Gatens states that he has some strong evidence against Snyder and thinks that he will be convicted. Snyder was a news agent on the train, in the employ of the Dennison News Company. J. B. Markley, conductor of the Pullman car, states that the colored porter, Graves, complained to him that about midnight on the night of the robbery he found Snyder in the toilet-room of the train, with the window open, when in the vicinity of Albany; that Snyder was asked what he was doing in there at that time of night and said that he was washing. But the porter says that there was no water in the bowl. Important evidence is that of the teller of the Canadian Bank of Commerce, on which the stolen bills were drawn. The teller states that on October 6 he exchanged money for one \$106-bill and four \$50-bills for a man answering the description of Snyder.

FLYING IRON SPLINTER DOES DAMAGE. FLYING IRON SPLINTER DOES DAMAGE.—A plate-glass window on Third street was broken Thursday by a peculiar accident. A small piece of iron about the size of a wainut flew from the construction work on the car track and struck the pane. The iron came from the impact of siedge hammers. The value of the pane was about \$100, fully covered by insurance. The insurance agent was in mourning all day yesterday. "Beats the dickens!" he exclaimed. "Insure a window and it goes to smash. Insure a house and it burns up. Insure a man's health and he gets sick. Insure his life and he dies. Insick. Insure his life and he dies. In-sure him against accident and he breaks a leg. These losses make me weary. No. I don't have to pay them, but they make me weary just the same. I wish some window would break or some house burn up, or some man get sick that wasn't insured. When you hear of any such, just let me know, will you?"

TWENTY-MOHT APPLES TO THE BUSHEL Box.-A down-town market got in a lot of Hood River apples yesterday and the price was so high that he could get no orders for them over the telephone. Housewives flatly refused to pay \$2.50 a box for apples at this time of the year. The market man did not worry about that, however, when people began to collect about his stand and ask how much aplece the apples were. At 10 cents each he sold several boxes of the fruit in a short time and then concluded he was not maktime and then concluded he was not making profit enough for selling in that manner. There were only 23 apples in a
bushel box. So he resumed quoting at
\$2.50 a box and he is not at all arraid they
will spoil on his hands. Gorgeous WoifRiver apples that run 28 to the box must
be expected to rise to the top, and to
stay there too. stay there, too.

DEAD FROM PTOMAINE POISONING.-E. F. Hanshew, who is employed by the O. R. & N. Co. at Wyeth, came to Portland last night and brought tidings of the death of Glenn Livings, a former resident of this city. Livings and Hanshaw had been working together, and the former suddenworking together, and the former suddenly threw up his hands and fell dead,
what caused his death. Mr. Hanshaw
says, is not known, but the doctor who
attended him was of the spinion that he
had been poisoned by ptomsines. The
night previous to his death Livings had
eaten a quantity of canned grapes, but
although others had partaken of the same
fout town of them suffered from it. Livefruit none of them suffered from it. Liv-ings was about 22 years old and he has relatives in Ohio.

To "GIVE AWAT" A BABY.-The service of "giving away a baby," one of unusual interest in Salvation Army circles, will be performed at the barracks on Davis be performed at the barracks on Davis street, near Third, tonight, Colonei French will preside, and all are invited to attend. The baby to be "given away" is the Ilmonths-old child of Ensign and Mrs. Sawyer. It will not be given away in the literal sense, for its parents will retain possession of it, while its soul will be devoted to the Lord. This is the usual form of baptism in the Army, but it will probably be the first time it has been seen in Portland and the members of the organization are making great preparaorganization are making great prepara-

tions for the occasion.

Fine Poplars Cur Down.—The five large poplars which have graced the north side of Everett street, between Fifth and Sixth, for many years, were cut down yes-terday in order to make room for cement walks. The roots of the poplars had caused a sort of upheaval of the piank walks in the past, and in order to prevent such damage to the more expensive pave ment in the future the property-owners decided to cut down the trees. The towering poplars were the admiration of all visitors to the north end of the city, and while they will be missed people whose business calls them to that section will be comforted by the better walks afforded.

Felden-heimer, who has returned from his trip heimer, who has returned from his trip to the Eastern markets, states: "Never before in the history of our country have manufacturers of goods in the jewelry line been so busy. LOCAL CHURCH TO PROFIT Oregon Diocese Will Receive Part of Pions Fund.

The Roman Catholic church of Oregon will doubtless receive a good percentage of the Plous award recently decided in favor of the United States by The Hague tribunal. Archbishop Christie states that he will not know the amount of Oregon's share until he receives word from the Archbishop of San Francisco, but that as the lion's thare will go to California, where it properly belongs, the amount to come here cannot be very great. The fund was started by rich Spaniards before the accession of California by the United States, and when the Mexican authorities retired they claimed that the fund be-Davis Co.

The Trachers' Club will meet this creating, 7:20, at the Library building.

The Catholics did not share this opinion and this fund has been a bone of contention for half a century. The board of arbi-

tration which decided the case at The Hague this week in favor of the United States fixed the amount at \$1,420,552.67 in Mexican currency. This is to be paid within eight months, besides the sum of \$43,050.99 to be paid each following year.

COMING ATTRACTIONS

"Friends" Here Next Week. Crowded houses continue to be the Neill Stock Company has settled down to a prosperous engagement. This popular organization seems to be the talk of the town and the talk with its ensuing disthe town and the talk with its ensuing dis-cussion makes every one want to see it. The demand for seats is causing a long line at the box office from the time it opens in the morning until it closes after

the performance.

The Nelll Stock Company continues to make a strong impression in its impersonations of the different characters, and the most enthusiastic ovations at is receiving most enthusiastic ovations at every performance. In fact, three or four curtain calls are a common occur-rence this week. "The Christian" has made a phenomenal

made a phenomenal success. Next week, beginning with a matine tomorrow, an elaborate production of Edtomorrow, an elaborate production of Edwin Milton Royle's beautiful comedy, "Friends." will be given. There are strong touches of pathos which make the comedy all the more enjoyable. The production of "Friends" will be very handsome, and, added to this, are the superb tollettes of the ladies in the cast, which will excite no end of feminine admiration. The company has been caremiration. The company has been carefully cast, and no doubt Portland's favorite stock company will add laurels to the

"The Convict's Daughter," Cordray's. With the matinee tomorrow will begin a week's engagement of "The Convict's Daughter." The story is a touching one. The startling revelation found between the leaves of an old family Bible disclosthe leaves of an old family Bible disclos-ing to an escaped convict and tramp the identity of his daughter as a most beau-tiful and accomplished young lady, who has been adopted and reared by a South-ern Colonel of distinction and fortune, sur-prises the convict so much that his better feelings overcome him, and he then and there resolves for his daughter's sake to be a man in the future that will be an honor to the child. The secret of her birth, however, is revealed by Colonel Gould himself when the hand of his supposed daughter is asked by a young Southern gentleman. His rival hears the story also, and in order to win her him self tries to take advantage of the situ-ation. The girl's own father makes his appearance at this unlucky moment and the rival lover remembers him as an escaped convict and threaters to send him back to prison unless his aids in winning the girl's hand for the rival. A brief outline of the plot having been furnished, the author furnishes the rest. He has provided an American play for the Amer-ican public, full of startling surprises and

dramatic climaxes. A clever company of players, each se-lected for personal ability in a certain line, a wealth of scenery and effects, in-cluding the marvel of an approaching freight train and daring escape of the convict, make this a powerful dramatic play and one not to be missed.

"Beside the Bonnie Brier Bush." "The Bonnie Brier Bush," with the fastellar role, will be the attraction at the Marquam Grand Theater next Monday, Tuesday and Wednesday eveninga This new play could scarcely be classed as a dramatized novel. In fact, it would more properly qualify as a dramatization found-ed upon a series of disconnected stories. In weaving these sketches of Ian Maclaren into his play, James MacArthur, himself a native Scot, has treated with the greatest reverence the atmosphere of his birthplace. The advance sale of seats pened yesterday morning.

MATINEES TODAY.

"Nevada" at Cordray's. Probably the most interesting matines of the year at Cordray's will be that of "Nevada" this afternoon. The sale of seats already assures a packed house, and the great popularity of the pretty star with the gentler sex assures an occasion of uncommon enthusiasm. Ryan introduced some attractive new of a deluge of flowers. The last per-formance will be given tonight.

Last Performances "The Christian." The Baker Theater will no doubt he rowded to the door this afternoon, also crowded to the door this atternoon, also this evening, to witness the last two per-formances of "The Christian," which is being presented in an excellent manner by the Neill Stock Company.

Last Performance of "King Dodo." With all the brilliancy that music and wit can give, "King Dodo" and his court held carnival at the Marquam last night. His reign has been one of effervescent galety, and this afternoon he and his merry followers will fling their jests for the last time at Portlanders. The matinee will begin at, 2:15, and all re-served seats must be called for before 1 o'clock this afternoon.

SOLDIER'S STORY A FAKE Philippine Cruelty He Wrote About

will deliver his charge to the jury.

WASHINGTON, Oct. 17.—Several months ago a paper in Pennsylvania contained what purported to be a letter written by William L. Longenberger, of Company A. Fifteenth Infantry, to his mother in Danville. Pa. In it he was made to say that "the dead bodies of the Filiphos lay around on all sides, unburied, in various stages of decomposition," and that when a Filipino dropped "our boys always shot him seven or eight times, so that he was covered with blood from head to foot."

This story obtained general circulation and was the subject of much criticism against the Army. The matter was made the subject of the story of the story of the story. the Army. The matter was made the sub-ject of an official investigation by General Chaffee, then in command in the Philippines, with the result that the story was shown to be without foundation. Private Longenberger, the reputed author of the letter, wrote to the commanding officer of his regiment that the story given a mistaken impression.

"I heard the story from another enlisted man," he stated, "and have witnessed the death of a native in the Philippines, and I now believe that the story told me was only idle boasting."

WANT RANSOM MONEY BACK Churches Request Hay to Proceed Against Turkey in Stone Case.

WASHINGTON, Oct. 17 .- Representa tives of the missionary societies have at length formally requested the State De-partment to make a demand on Turkey for repayment of the amount of ransom paid on account of the release of Miss Ellen M. Stone. The requests assume the liability of Turkey as settled, but the State Department has by no means assured itself on that point, and it is stated that the responsibility still lies between Turkey and Bulgaria, with, perhaps, the weight of evidence against the latter
