Cross-examined by ex-Governor Black for the defense, Cornish told of his first meeting with Mrs. Adams and her daugh-

Union Engineers Must Testify When Called Upon.

KNOX DECIDES STRIKE CASE

Inspectors Are Authorized to Revoke the Licenses of All Unwilling Witnesses-Point Same as Recently Raised in Portland.

OREGONIAN NEWS BUREAU, Washington, Oct. 21.-Attorney-General Knox today rendered a decision to the effect that when a licensed officer of a coastwise vessel, duly summoned to give testimony before a local board of the steamboat inspection service, refuses to answer questions which are material and proper, the board has full authority to compel an answer under penalty of suspension or revocation of the witness' certificate or license. The Solicitor of the Treasury had ruled to the contrary. This decision of the Attorney-General, it is said, will hereafter prevent sympathetic strikes among registered steamship officers.

The statute provides that if any licensed officer shall, to the hindrance of commerce, wrongfully or unreasonably refuse to serve in his official capacity on any steamer, as authorized by his certificate, or shall fall to deliver to the applicant for such service, if demanded, a statement showing good reasons for his refusal, etc., his license shall be revoked. Today's decision grows out of the strike which provailed on the Great Lakes during the past Summer, and which finally resulted in the discharge of all but union men.

Two cases of similar import recently arose in Portland when three assistant engineers were deprived of their licenses on the steamer Elder and as many on the Columbia, for refusing to testify. The Attorney-General, in answer to the plea that by giving testimony these officers would be deprived of their employment, and be dropped from the unions, holds that the good of the service is a paramount consideration, and to that end, ofcers cannot be permitted to withhold information affecting the service, and yet remain a member of the service. Most of the strikes in point have arisen from the refusal of union men to serve on vessels employing nonunion officers. With authority to revoke licenses, the department believes the coastwise shipping will not be subjected to serious damage from prolonged strikes. There is no intention of destroying the unions, but merely to prevent them from working an injury to

MITCHELL WELL PLEASED.

He Will Act as Attorney for Miners Ecfore Arbitration Board. WILKESBARRE, Oct. 21.—When asked for an expression of his views upon the

action of the convention today, President "I am well pleased with the action of

the anthracite mineworkers in deciding to submit the issues which culminated in the strike to the commission selected by the President of the United States. The strike itself has demonstrated the power and dignity of labor. Conservative, intelligent trade unionism has received an impetus the effect of which cannot be measured. I carnestly hope and firmly believe that both labor and capital have learned from the minero strike lessons which will enable them to adopt peaceful, humane business methods of adjusting their difficulties in the future."

AMERICA NOT WORRIED.

It Has No Information of Secret South American Alliances.

WASHINGTON, Oct. 21.-The State Department is entirely without information respecting the existence of any secret treatles of alliance between countries of South and Central America which could in the slightest degree affect the interests of the United States. It is not doubted that secret treatles have been entered into between these countries during the past 25 years, and, in fact, there have been open demonstrations, but up to this point mone of these agreements has affected the United States. Just how an agree-ment between two countries that might make the Isthmus of Panama the score of hostilities would be regarded can be safely conjectured from the character of the instructions supplied to Commander McLean and Admiral Casey during the troubles on the isthmus recently. But the State Department steadfastly refuses to express any opinion upon the subject at this stage, taking the ground that it will be time to define its policy when something occurs requiring it.

As to the agreement said to have been entered into between Chile and Colombia touching mutual co-operation, it is be-lieved here that this convention, if really made, was for a special purpose, which it has already served in influencing Ar-gentina to nettle without more ado her long-standing controversy with Chile growing out of the boundary dispute, and other matters.

AT OUTS WITH BRITAIN. Venezuela Sees Ulterior Motives in

Dealings With Rebels. CARACAS, Venezuela, Oct. 4.-Diplo matic relations are very strained be-tween Venezuela and Great Britain, and should the revolution not triumph all circumstances justify a prediction of a rup-ture between the two countries. In an interview which General Castro granted the correspondent a short time ago, he said, referring to the commencement of the Matos revolution and the incident of the revolutionary steamer Ban Right
"It is now several months since the Ban

Righ, chartered by the Matos revolution, arrived at Trinidad, and we protested against her presence at that Island. The British Minister (Mr. Haggard) immediately repaired to the Foreign Office and assured General Pachano, the Venezuelan Minister of Foreign Affairs, that he would do all he could to obtain instructions from his Government that the Ban Righ and all revolutionists residing at Trinidad and the other British West Indian islands should receive orders to leave and not return to those islands if the Venezuelan Government would agree that the surtax of 30 per cent imposed in the customs on goods coming from the British West Indies, on their entry into Venezuela, should be repealed."

A Cabinet meeting was held, at which General Pachano submitted Minister Hag-

gard's proposal. It was rejected as un-worthy of consideration, and the ques-tion remained at that stage. It seems, therefore, from these facts that the Brit-ish Government, tiffough its representa-tive here, offered security against the revolutionary party in exchange for a ommercial advantage. Dollar for Dollar With the Landlords' Fund Will Also Be Given -Convention Closes.

BOSTON, Oct. IL—When the convention of the United Irish Lengue was called to order today, the report of the officers giving a detailed account of the organization of the lengue was read. From the time of the inauguration of the lengue, December 4, 1901, the report showed the organization had spread with remarkable rapidity. The report also reviewed the work itselion had spread with remarkable rapidity. The report also reviewed the work performed by the various officers. At this point ex-Governor Boutwell, of Massachusetts, entered the hall and met with a rousing reception. He was presented to the convention. He said it was not the first time he had appeared in that hall before an audience of Irish citizens. He referred to the meeting of Irishmen protesting against the denoration of Smith testing against the deportation of Smith and O'Brien, of which he was chairman. He outlined what had been done in '45 and '55; how in those years he had written and spoke in the cause of Ireland. He had held that the dissolution of the British Union did not so for expourt, and had ish Union did not go far enough, and had advocated that Ireland, Scotland and Wales each should have an independent parliament.

The committee on constitution and bylaws reported. Pending the presentation of the reports, Secretary O'Callaghan read a bulletin announcing the ending of the coal strike. The convention voted to send messages of congratulation to President Roosevelt and President Mitchell. The committee on credentials reported 706

J. G. O'Connor, of Philadelphia, acting chairman of the committee on ways and means, submitted a resolution "that \$100,-000 be raised within the next six months for the cause of Ireland, and that this convention pledge itself for such amount, and that after the sum named has been raised, the league guarantees to give dol-lar for dollar with the landlords' fund, while the struggle continues." The report

was adopted.

The afternoon session of the convention began with speeches by John E. Redmond and Edmund Blake, Member of Parliament. Mr. Redmond spoke first, and, after congratulating the delegates upon the success of the convention, and particularly complimenting the three officers, be said.

he said: "The deciaration of this convention has not merely been eloquent and true, but it has been business-like. We know you need assistance from Ireland for organizing purposes, so I have cabled Joseph Devlin to come back to America. The Irish Land Trust has raised a fund of \$500,000 to crush the Irish National League, and drive out of public life Mr. Dillon, Mr. Davitt, Mr. O'Brien and myself. If such a thing were possible, what a ter-rible calamity it would be for the Irish

people.
"You have pledged \$100,000 in six months to meet the present and urgent necessities of the movement, and you have further pledged yourselves to give dollar for dollar on whatever sum is put into the Landlord Trust. This important action of yours will be read with dismay in Eng-land and Ireland, where there is opposition to our cause. Edmund Blake, Member of Parliament,

congratulated those who organized the committee on permanent organization reported. The report, which was adopted, unanimously named the following officers: President, John F. Finnerty, Chicago; vice-presidents, Patrick Egan, New York; Michael J. Redding, Baltimore; secretary, John O'Callaghan, Boston; treasurer, T. B. Fitzpatrick. EPISCOPALIANS IN SESSION. Nearly 400 Delegates Attend Missionary Council Meeting.

PHILADELPHIA, Oct. 21.-Nearly 400 delegates, including 40 bishops, were pres-ent at the Missionary Council of the Pro-testant Episcopal Church, which opened in St. James' Church today. Bishop Gay-lor, of Tennessee, preached the opening sermon, after which holy communion was celebrated. The business session in Young Men's Christian Association Hall did not open until late in the afternoon. Right Rev. Dr. Alexander Mackay-Smith, Bishop Condjutor of Pennsylvania, delivered an address of welcome. This was followed by a conference which was presided over by Bishop Tuttle, of Missouri. The sub-ject under discussion was "Progress of the Mission." Among the bishops here to attend the council are Brooks, of Okla-homa; Brewer, of Montana, and Mills-

paugh, of Kansas. Sunrise meetings, which were largely attended, preceded the regular session. In the regular convention President Harvey O. Breedon, of Iowa, made the address the morning on "The Gospel of the Age and an immense crowd gathered to hear him. Benjamin Lyman Smith, correspond-ing secretary, made a report for the board of managers, and George W. Muck-

ley reported on the year's work of the board of church extension. The business session this afternoon was devoted almost entirely to the transaction of routine business. Bishop Doane, of Albany, presented his report as chairman Arisiny, presented his report as chairman of the board of managers of the Domestic and Foreign Missionary Society, showing the receipts for the year ended August II to be \$1.099,617. Of this amount, \$18,119 was contributed by Sunday schools; \$229,-887 by parishes, and \$70,967 through the woman's auxiliary. In meeting appropriations, there was a deficit of \$119,142. Ap propriations for the first quarter of the new fiscal year, aggregating over \$150,000, must be met with only \$2000 in hand.

Discussion of "The Progress of the Mission" was opened by General Secretary Lloyd, of the Missionsry Society, who reported great progress in China, Japan, Africa, Porto Rico and the Philippines. General Secretary Powers, of the American Church Missionary Society, said that in Brazil and Cuba the work is progressing favorably, but he complained that the support from the United States was not encouraging. "If we could stop the demand for the luxuries in home churches he said, "you would not for years be again appealed to for funds for the work-

ing of these foreign fields."

Corresponding Secretary John W. Wood, of the Domestic and Foreign Missionary Society, speaking of the work in the United States, said that of 177 missionary districts, 10 have completed their appor-tionment. He reported that Indian schools had been closed, because the Government had falled to issue more rations, and the church did not contribute the \$4000 ne

Vinton, Iowa, July 15, 1901.

DR, KILMER & CO., Binghamton, N. Y. GENTLEMEN-My trouble began with pain in my stomach and back, so severe that it seemed as if knives were cutting me. I was treated by two of the best physicians in the county, and consulted another. None of them suspected that the cause of my trouble was kidney disease. They all told me that I had cancer of the stomach, and would die. I grew so weak that I could not walk any more than a child a month old, and I only weighed 90 pounds. One day my brother saw in a paper your advertisement of Swamp Root, the great kidney remedy. He bought me a bottle at our drug store and I took it. My family could see a change in me, for the better, so they obtained more and I continued the use of Swamp-Root regularly. I was so weak and run down that it took considerable time to build me up again. I am now well, thanks to Swamp-Root, and weigh 148 pounds, and am keeping house for my husband and brother. Swamp-Root cured me after the doctors had failed to do my husband and brothe me a particle of good.
