

IN HIDING FOR RULER

Plan to Assassinate Loubet Nipped in the Bud.

ANARCHIST IN PALACE GARDEN

Man is Arrested and Recognized as Manufacturer of Explosive Machines—Convicted Three Times on This Count.

PARIS, Oct. 22.—The Flicars this morning say a man was detected early Tuesday morning attempting to climb a wall of the Elysee Palace. It is believed that he intended to hide in the palace garden in the hope of obtaining an opportunity to assassinate President Loubet. The man was arrested, and was found to be armed with a poniard and a loaded revolver. He has been recognized as a dangerous anarchist, who has already been convicted three times, and upon two of these occasions for manufacturing explosive machines. The police are trying to keep the matter quiet, and refuse to divulge the man's name.

GERMAN TARIFF BILL DOWNED.

Opposition Makes Amendments the Government Will Not Accept.

BERLIN, Oct. 21.—The government was defeated in the Reichstag today in test votes on the tariff bill, by the Conservatives and Centerists inserting in the Ministry's bill amendments fixing the minimum wheat duties at \$1.39 per metric hundredweight, in place of \$1.25, and the rice duties at \$1.375 instead of \$1.25. The vote was: Wheat, 194 to 145; rice, 157 to 122.

The Ministry was composed of National Liberals, Socialists and Radicals. Previous to the rollcall, Chancellor von Bülow again firmly announced that it was impossible for the government to accept the amendments. Three courses are now open to the Ministry—dissolve the Reichstag, negotiate for a compromise or let the majority pass the bill in any form it chooses, and suppress it in the Bundesrat. In the latter event, commercial treaties will be negotiated on the basis of the present tariff. The Chancellor's plan appears to be to do nothing immediately, and wait to see if the majority will yield.

Prior to the votes, Von Bülow made a fitting speech in which he said the bill drawn up by the federal government. These, he declared, agreed that all possible protection was accorded to agriculture, compatible with the conclusion of commercial treaties. The Chancellor protested against the assertion that the imperial government was "sawing off the branch on which the monarch was sitting." Other interests could not be ignored in favor of agriculture. He had done the best possible for the farmers, and he did not care whether in return he received thanks or ingratitude.

As to the talk of a change of government, a long time would elapse before any Imperial Chancellor would do so much for the interests of agriculture as he had endeavored to do. Continuing, he said no pledges had been given to foreign countries, but the government was fully aware of the feeling prevailing abroad. From the first, the federal government had shown clearly how far it was prepared to go in the matter of minimum duties. He had been reproached with saying to the Reichstag, "Swallow the bill or die." The government, the Chancellor declared, did not desire to influence the opinion of the majority of the House, but as it was a question of taking action which would have an effect abroad, the government must ask for a larger measure of authority. He declared it was impossible to conclude treaties with higher minimum rates, and hoped the majority of the House favored the treaties.

NATION'S STRIKE POLICY SCORED.

French Legislators Object to Military Protection for Coal Barons.

PARIS, Oct. 21.—The French miners' strike was brought up in the Chamber of Deputies today in the form of a Socialist interpellation criticizing the government's military measures to protect the coal fields. M. Thirivier, Socialist, Deputy from Mount Lunon, declared that the government, by placing troops at the service of the company, was abandoning its neutrality, and demanded their recall. M. Baly, Socialist, insisted that the government should impose arbitration on the mineowners, who, he declared, were alone benefited by the strike, as it kept up the price of coal. After other speeches on the subject, but which brought no new facts to light, the discussion was postponed until Thursday. The chamber then adjourned.

Manufacturers of London Protest Against Brussels Convention.

LONDON, Oct. 21.—At a meeting held today of manufacturers connected with the sugar industry, a resolution was passed protesting against the ratification of the Brussels sugar convention on the ground that the abolition of the bounties on sugar increased the price of the articles.

Italy Tells the Sultan to Move Quickly or It Will Take Action.

CONSTANTINOPLE, Oct. 21.—Red Sea pirates have been raiding the Island of Dahlak, in the group belonging to Massawa, capital of the Italian colony of Eritrea. Two Italian gunboats which went in pursuit of them cornered the pi-

rates at the Island of Mindia off the Lohela (Arabia) Coast, which the Italians briskly bombarded. The gunboats afterward proceeded to Hodeida, the most flourishing seaport of Yemen, and demanded reparations. The Porte has promised the officials of the Italian Embassy here to take measures to arrest the culprits. In the meantime, the commander of the Italian gunboats threatens unless prompt reparations is accorded, that he will be compelled to take action necessary to obtain it.

SOLDIERS' CONDITION TERRIBLE.

The Mad Mullah Had the British in a Regular Trap.

LONDON, Oct. 21.—A letter from an officer belonging to the Somaliland expedition received here shows that the force is in even more precarious condition than has been indicated in the official dispatches. The writer says: "No one will appreciate this because it is too late. We are in a regular trap, and how are we going to get out we do not know. We have had serious fights and have lost many men. The worst is that our blacks are flunking and our camels have nearly all been killed or captured. We have next to no water and we are miles from any wells. We have no supplies and nearly no ammunition. They have captured two of our Maxim's. I do not suppose they care at home what happens to us. It is a mortal shame to send us blind into an ambush like this. I hear fresh troops are coming up and only hope they will come from India." The writer refers incidentally to some brisk fighting which he apparently presumes was already known of here, and adds: "Thirty-three of us escaped. By Jove, that was a pretty affair. We hit our out-but-oh, well, we have two more blacks."

WAR OFFICE IS BLAMED.

Military Men Hold It Responsible for Disaster to Swayne.

NEW YORK, Oct. 21.—Military men hold the Foreign Office responsible for the disaster to Colonel Swayne's force, cables the Tribune's correspondent at London. For economy's sake, they say, the department accepted raw levies of Somalis as trained, disciplined soldiers, while Colonel Swayne's urgent counsel to establish a permanent military post at Curao was not followed. Lord Cranborne's statement in the House of Commons has created an uneasy feeling, and further news is eagerly awaited. There is no question that Colonel Swayne's force is now in a most perilous position, as the Mullah will receive large accessions of fighting strength from the tribes which previously remained passive.

MAD MULLAH A WILY MAN.

American Guns Said to Have Been Brought in as Calico.

LONDON, Oct. 21.—An official connected with the Red Sea ports in an interview published in the States today, says: "The Mullah and other turbulent chiefs have been liberally supplied with rifles by Americans and Germans, in spite of the British gunboats. The rifles supplied by the Americans were done up as cotton goods. This explains the frequent reference in Consular reports to the fondness of the Somalis for American calicos and shirting. It is not calico the Somal prizes, but the rifles inside the calico."

SIMLA, Oct. 21.—The Second Bombay Grenadiers, stationed at Mhow (Central India), have been ordered to Somaliland. Other troops will probably follow. Twelve officers and 400 men of the Twenty-third Bombay Infantry will accompany the Second Grenadiers. The troops will sail for Somaliland Thursday.

Injuries Threaten to Prove Fatal.

WASHINGTON, Oct. 21.—Mrs. Ada Gilbert Dennis, the fashionable dressmaker who was so brutally assaulted here during the night of December 9 last, is reported to be in a dying condition tonight. Mrs. Dennis has never been able to give the police any information which would lead to the identity and capture of her assailant. From the effects of the blows on her head she had become paralyzed and her mind impaired to such an extent that he talk most of the time was irrational.

It is rumored that the independent steel makers were first to purchase the ore property to fortify themselves against a probable war with the United States Steel Corporation.

Russian Minister Plans to Make Radical Changes Next Year.

ST. PETERSBURG, Oct. 21.—The Minister of the Interior, Von Plehwe, has proposed a sweeping scheme, by which the whole municipal administration of the capital will be practically handed over to the government. Most of the urban liberties will be suppressed. Franchises for election to the City Council will be largely restricted, and the city funds will be placed under the control of the government, which will, in short, appoint all the city officers and take general direction of municipal affairs. The Minister hopes the scheme will go into operation early in 1903.

MOB RULES IN TEXAS

OFFICERS OVERPOWERED IN COURT AND NEGRO TAKEN.

Lynched Along With His Pal—People Not True to Their Promise to Do No Violence.

HEMPSTEAD, Tex., Oct. 21.—After being tried in legal form and procedure for criminal assault and murder, Jim Wesley and Reddick Barton, negroes, were, late this afternoon, taken from the authorities of this city and lynched in the public square by an infuriated mob. The District Judge yesterday asked the Governor for militia to accompany the negroes here from the jail at Houston, where they were safe. At the request of a large number of citizens of Hempstead, who, it is said, signed a written promise to aid the authorities in preventing any mob act, Judge Thompson this afternoon countermanded his request, and the troops did not accompany the negroes. Barton was tried first. He pleaded guilty to criminal assault, and then to the murder of Mrs. Susan Lewis, aged 62, on Sunday, October 12. The jury, on which were several negroes, promptly returned a verdict imposing the death penalty. During the afternoon, Wesley was put on trial. He pleaded guilty to assault, and then to the murder charge. While his trial was proceeding, a mob

broke into the courtroom and attempted to take him, it having been ascertained that the Sheriff had asked for troops. The mob was dispersed, however, and the trial proceeded, the state putting through its testimony hurriedly in corroboration of the plea of guilty. In this case, too, the jury imposed the death penalty. The officers of the court sat about the room at the conclusion of the trial, awaiting the coming of the militia, when there was a sudden movement on the part of several men in the room; the Sheriff was overpowered and Wesley was taken by the mob and hurried away. Another portion of the mob, while this was going on, attacked the jail where Barton had been taken when his trial was over, and the prisoner was surrendered to them without a struggle. The two prisoners were hustled to the public square, and there executed by hanging. Neither of them had been sentenced, although District Judge Thompson had positively refused to permit them to waive the 30 days of grace allowed by law. The suggestion to burn the negroes met with small favor. It was the general desire that they die quickly. They were hanged to the arm of a telephone pole, where only last month another murderer had been hanged by a mob. The town is quiet tonight. Sheriff Lipscombe was badly injured in the back by the rough treatment of the mob. During the first rush, a shot was accidentally fired, and Sheriff Sparks, of Lee County, was wounded in the stomach, though not seriously. The Governor was informed of the lynching. Governor Anticipated No Trouble. AUSTIN, Tex., Oct. 21.—Late this even-

ing, Governor Sayres received a telephone message from Sheriff Channon at Hempstead, asking for state troops post haste, as a mob was trying to get two prisoners away from him. This was followed by a telegram from the District Judge asking for troops by special train. Orders were issued for the Houston and Bryan Companies to respond, but before they could be assembled the mob had lynched the negroes, and the order was countermanded. The Governor, in view of the assurance of the citizens and officers of Hempstead, did not anticipate that soldiers would be necessary to protect the prisoners. TAX-FIXER IS INDICTED. President of Masonic Association Charged With Conspiracy. CHICAGO, Oct. 21.—The grand jury has returned an indictment against James H. Gormley, president of the Masonic Temple Association, for alleged complicity in the transactions by which an effort was made to have the taxes of the corporation, amounting to over \$20,000, marked as paid on the books of the County Treasurer when no money was paid. The evidence in the case and that Williams said was given in the trial of Captain Edward Williams, who is charged with conspiracy to avoid paying the taxes of the association. Dr. David G. Rush, who was a director in the Masonic Temple Association until July 1, testified that he heard Williams and Gormley discussing the payment of the taxes and that Williams said that the \$20,000 of taxes could be paid for \$3,000, and that it was with the consent of Gormley that the job of avoiding pay-
