ISSUES A SWEEPING CHALLENGE

Gubernatorial Candidate Reads Me-Lean Out of Democracy and Then Offers to Meet Him to Discuss Charges Made.

CINCINNATI, Oct. 23.-Mayor Tom L. Johnson, of Cleveland, who is recognized as the Democratic leader in Ohio this year, as the probable opponent of Sen-ator Hanna next year, and a candidate ator Hanna next year, and a canonate for the Presidency in 1994, created a sen-sation here tonight by attacking certain elements in his own party, especially John R. McLean, both individually and as the proprietor of the Cincinnati En-quirer, and Louis G. Bernard, as chairman of the Democratic Committee of Hamilton County. Mayor Johnson's large campaign tent, which has a seating capacity of 2009, had all the standing room taken, and many people were unable to gain admittance. It was generally expected that Mayor Johnson would devote his time workly to relative to the address of the substitution, \$171,000, bringing the total up to \$14,285,000. campaign tent, which has a seating ca-pacity of 2000, had all the standing room taken, and many people were unable to gain admittance. It was generally expect-ed that Mayor Johnson would devote his time mostly to replying to the address of Senator Hanns here last night, which was largely devoted to Johnson and his is-sues. While Johnson referred to Hanne's speech in most caustic terms, he devoted his speech mostly to what he termed the "local traitors in the Democratic party," and his references to McLean and Chair-man Bernard were as bitter as his fluent language could make them. He not only read them out of the party, but challenged them to meet him in his tent or elsewhere on the charges that he made polit-

ically against them. Charles W. Baker, who was the Demo cratic caucus nominee for Senator egainst Foraker before the Legislature last Win-fer, presided, and opened the meeting with eulogies of Johnson and Bigelow. Bigelow was the first speaker, and made a bitter attack on Chairman Bernard. He said he had nothing personally against Bernard, but "politically I abominate and denounce everything for which Bernard stands. We cannot ask Republicans to vote against the boss in their party when we have a worse boss in our party."

HANNA BREAKS DOWN. Senator's Strength Fails Him While Speaking in Indiana.

INDIANAPOLIS, Oct. 23.—Senator Hanna devoted the day to speech-making in Indiana. He began today's work at Evansville, and between that city and Indianapolis he made nine stops. At Linton, where the crowd was made up largely of miners, the Senator discussed the recent anthracite strike. In this city he spoke to a large audience in Tomlin-son Hall tonight," He said in part:

"Over in Ohlo we have an issue, and it is in a circus tent. One of our distinguished citizens, one Tom L. Johnson, is the issue. And his proposition is to the American people, because, while he is taiking to the people of Ohlo, he is taiking over their heads to the whole country. There is no limit to his ambition, and the propis no limit to his ambition, and the propis no limit to his ambition, and the propis no limit to his ambition, and the propision. their heads to the whole country. Senator Hanna nearly broke down at the close of the speech. He was standing some distance from the speaker's table when his strength seemed to fall him, and he had to reach for the stand, dragging himself over to it, where he rested his hand. GREAT STREAM OF LAVA. Salvador Volcano Is in a Violent State of Eruption.

NEW ORLEANS, Oct. 23.-Passengers who arrived on the steamer from Puerto Barrios report the volcano of Izalco, in Salvador, in a state of violent eruption. The eruption began on September 7, when five large openings or craters formed on the north side of the volcano, from which large quantities of lava and burning stones were ejected. People living in the town of izalco and the neighboring country, toward which the lava poured, fied at its approach, and believe that their houses were completely destroyed. The stream of lava, which was very deep, flowed for a distance of 10 miles from the Lake Coatcpeque, which lies at the foot

of the volcano, was flooded with boiling sulphur from the principal crater. Fears were entertained of further disaster. The volcano was still in eruption when the passengers left Guatemala.

SOUFFRIERE STILL ACTIVE. People in Windward District Are Compelled to Ask Aid.

KINGSTOWN, St. Vincent, B. W. I., Oct. 23.—The Souffriere volcano has been ac-tive since October 15, keeping the people in the Windward district in a state of continuous unrest. Evidence gathered in the district proves that the eastern crater was chiefly operative during the last eruption. The devastated lands now include all the plantations on the northeastern coast down to the Grand Sable estate, on which the re-establishment of cultiva-tion will be hopeless for years; even should La Souffriere soon become quiescent. A deputation of distressed inhabitants has walted upon the administrator of the island for the purpose of informing the government of the district of the consequences of the last cruption of the volcano. They appealed for food and shelter, expectable for the contraction of the c cano. They appeared for rood and sherich, especially for their terrified wives and chil-dren, and begged to be removed from the northern quarter of the Island to form a new settlement in another locality where they could safely and conveniently start

The administrator expressed his hearty sympathy for the sufferers and promised to communicate the facts to his chief together with certain suggestions. He said he hoped the government would soon he able to do something to relieve the vic-tims of the volcanic disturbances.
