Took Prominent Part in Business and in Public Life, and Was Faithful and Competent.

ASTORIA, Or., Oct. 28 .- (Special.)-Judge J. H. D. Gray, one of Oregon's plonee residents, died at his home in this city this evening, after an illness of several months, the result of a severe attack of la

grippe.
Judge Gray was born at Lapwai, Idaho (then Oregon). March 20, 1839, his father, the late W. H. Gray, Oregon's first his-torian, having come from New York as assistant missionary to Oregon with Dr. Whitman in 1836. He had lived in Oregon all his life, with the exception of three years spent in British Columbia prior to when he returned to enlist in the Washington guards, expecting to be sent East during the Civil War. On the disbanding of the regiment he entered the employ of the Oregon Steam Navigation Company and engaged in steamboating on the Upper Columbia and Snake Rivers. In 1868 he returned to Astoria, and had resided here since that time, first engaging in the transportation business on the river.

and afterward conducting a general store Judge Gray was elected a member of the State Senate in 1886, representing Clatsop, Columbia and Tillamook Counties, and served in that capacity for four years, during which time he succeeded in passing a bill giving Clatsop County two Representatives and one Senator in the State Legislature. He was elected County Judge in 1894, and was re-elected in 1898. his last term expiring in July of the present year. He also held several other public positions, and was always a faith-

ful and competent official. He leaves a widow and eight children all of whom excepting Mrs. R. C. Wright of Portland, reside in Astoria. The de-ceased was a member of the A. O. U. W. and Oregon Pioneer Society. The funeral will be held on Tuesday under the aus

Chester Caufield, of Oregon City. OREGON CITY, Oct. 26.—(Special.)— Chester Pope Caufield, the eldest son of Robert F. and Emma Caufield, died last night at the home of his parents in this city, aged 23 years 5 months and 22 days. The young man had a wide circle of friends in this city and county, where he had lived all his life. For the past two years he had been a sufferer from Bright's disease, and on last Friday suddenly became very ill. The funeral will be held tomorrow afternoon at 2 o'clock, from St. Paul's Episcopal Church.

NO ATTEMPT AT REFORMATION. Criticism of Preacher on State Peni-

tentiaries-His Suggestions. SALEM, Oct. 26 .- (Special.) -- Rev. H. A. Ketchum, pastor of the First Presbyterian Church, in this city, preached a sermon this morning on "Prison Reform." The subject was discussed in compliance with the suggestion of the National Con-ference of Charities, which recommended that the last Sabbath in October be observed as prison day and that appropri ate subjects be discussed on that day. Dr Ketchum took as his text, "Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such an one in the spirit of meekness; considering thyself, lest thou also be tempted."—Galatians

The sermon did not apply particularly to the Oregon penitentiary, but was a general discussion of the methods of management of a prison. The speaker de-clared that in three state prisons he has visited he has seen no apparent desire on the part of the prison officials to reform the prisoners, except as the confinement under the sentence of the court might accomplish that end. No incentive or encouragement is given the criminal to lead a better life. Dr. Ketchum criticised the rule which forbids a minister to converse with a prisoner, except in the pres-ence of a guard, and advocated a seperation of the prisoners into classes, so that the better ones may be kept from and the incentive to better conduct be thus afforded. He advocated the employment of a prison chaplain who should have free access to the prisoners at all times. He denounced the flogging ners as brutal and inhuman, and said that although men may be tortured into submission they cannot be tortured into reformation. In the course of the address the speaker said that the saioon is the feeder of the penitentiary, that is dominates politics, and that political in-fluence controls the management of state prisons. The saloons rob the boys oney and character, and then the prison doors open to receive them. The saving of the boys means the saving of and in this lies the salvation of the country.

SHERIFF GOT TWO BOYS. Persisted in Hunting on Private

OREGON CITY, Oct. 26. - (Special.) -Sheriff John R. Shaver had a lively con test this morning with two Portland boys who were trespassing on the farm of Captain J. T. Apperson at Parkplace. Early this morning Captain Apperson dis-covered that the two were hunting pheasants on his farm, and as he objects to hunting on his premises, he ordered them off, but they flatly refused to go. Captain Apperson then telephoned to Constable Moody, who notified Sheriff Shaver. He secured a buggy, and with W. H. Young started for Parkplace. The boys were discovered making their way toward this city, and were ordered to go with the Sheriff, but the elder of the two started to run down the road. A shot from the Sheriff's revolver over his head had no effect, so Mr. Shaver climbed into his buggy and gave chase, soon overtaking his man, whom he compelled to enter the buggy. Leaving W. W. Smith to get the other hunter, the Sheriff, Mr. Young and their catch started for town. Just they entered the city, near Green Point, the coupling broke and the three were pitched ove the dashboard. Shaver's hand was badly torn on a plank in the

Deputy District Attorney Campbell ex-amined the boys and allowed them to go on their own recognizance, and their cas will come up in the Justice Court tomor-row morning. The boys have "fresh" manners, and are a sample of the hunters that come from the city to make trou ble for the farmer. These two are broth ers. The eldest, who tried to resist ar is an elevator boy in the Chamber of Commerce building. His brother, Henry who is only 16 years of ago, is employed by Acheson, a Portland tailor.

TWO TRAINS COLLIDE.

Engineer Killed, Fireman Hurt,

Three Engines Wrecked. BUTTE, Mont., Oct. 26.-A special to the Miner from Missoula says, as a result of a collision on the Northern Pacific be tween a light engine east-bound crash-ing into a double-header freight train a few miles west of Hope, Idaho, Fireman Thomas P. Sayers, of this city, was killed, and Engineer A. L. Bussey, of this city, was severely injured, and the three en gines were badly wrecked. No statement as to the cause of the accident could be

DEMOCRATS ORGANIZE EARLY.

They Hope to Take Clackamas County in 1904.

OREGON CITY, Oct. 26.—(Special.— From now on until June, 1994, the Demo-crats of Clackamas County propose to put up the hardest kind of a fight against the Republicans, who scooped everything in sight in the last campaign. At the

JUDGE GRAY IS DEAD special meeting of the Democratic Country Central Committee yesterday the matter was fully discussed, and prominent Democrats have made a determined stand against fusion. In every campaign for several years a fusion deal has been ar-ranged, which has been productive of no good results for the Democrats, who now ume that if they put up a straight ticket two years hence and conduct a campaign of education along Democratic lines until that time, they will have a chance of electing some of their candi-dates to office. In the recent election the Republican pluralities ranged between 140 and 1300

> TOO MICH MARTIN J. KALEZ. Brothers of Same Name in a Land

> Squabble. SPOKANE Wash., Oct. 26.-(Special.) A most remarkable similarity of names of two brothers who have fallen out in a land deal is developing in the troubles of the two Martin J. Kalezes, of this city. Both men have exactly the same name, both are in the restaurant business at different locations, and each accuses the other of unfairness in dealing with his re-

> In 1896 Martin J. Kalez, the first, was naturalized, coming here from Australia. Six months later his brother was naturalized. The second Martin was unfamiliar with American customs and the English language, and his last name was spelled Kalig instead of Kalez, his brother appearing as a witness.

> Martin the first claims ownership of a piece of land east of the city. He recently tried to sell it, but abstracters found the title clouded by a homestead claim made by Mrs. Kalez, wife of the second Martin. Later it developed that the second Martin went into court about a month ago and succeeded in having his name changed to Martin J. Kalez, the same as his brother. Who owns the land, which both claim, and who is the rightful possessor of the Martin J. name, is puzzling lawyers on both sides of the con-

Capital City Brevities.

SALEM, Oct. 25.—(Special.)—Judge J. W. Hamilton, of Roseburg, has presented the Salem Women's Club with a gavel made of beautifully grained myrtle. The club has had the gavel mounted with sil-ver bearing the words: "J. W. Hamilton, to the Salem Women's Club, 1902."

The Reform School football team defeated the Salem High School yesterday by a score of 16 to 0. The game was played at the Reform School.

Ellery's Royal Italian Band is scheduled to appear at Cordray's Opera-House in this city, October 30, under the auspices of the Salem Lodge of Elks. The Willamette Valley Prune Associa

tion is shipping three carloads of prunes a day, and is operating its packing-house both night and day. All prunes are shipped in boxes bearing the association brand. Sales are being made on the basis price of 2% cents for the four sizes, in bags, and a half cent more for fruit in 23-pound boxes.

Salem milk dealers have advanced prices from 5 cents a quart to 6 cents, the net rate to go into effect November 1. A rate of \$1 per month will be charged for one pint per day. In all the leading churches in this city special collections were taken tonight for the benefit of the striking miners in the

not learned this evening, but it is known that the donations were liberal. Columbia and Clatsop Granges.

ST HELENS, Oct. 25 .- The principal topic of discussion at the meeting of the district Pomona Grange for Columbia and Clatsop Counties, in session at Houlton today, was the matter of good roads. A good roads committee, consisting of three members, was appointed, which will

formulate a report.
Granges are represented at the meeting, and about 75 patrons are in attendance. State Organizer J. S. Casto is present. The visiting members are being entertained by Houlton Grange. The fol-lowing officers were elected, and will be

lowing officers were elected, and installed at the January meeting:
Master, W. A. Young, of Cedar Valley
Grange; Overseer, R. N. Lovelace, of
Valley Grange; lecturer, L. H. Beaver Valley Grange; lecturer, L. H. Copeland, of Houlton Grange; steward, T. J. Everman, of Beaver Valley Grange; assistant steward, Frank J. Peterson, of Mist Grange; chaplain, G. L. Tarbell, of Yankton Grange; secretary, G. H. Higgins, of Clatskanie Grange; gatekeeper, S. G. Schoonover, of Vernonia Grange; Ceres, Theresa Lindblone, of Beaver Valley Grange; Pomona, Mrs. Anna Cope-land, of Houlton; Flora, Miss Mabel Boisof Clatskanie; lady assistant steward, Mrs. Nettle Peterson, of Mist.

Insane Patients From Alaska SALEM, Oct. 26 -W. H. McNair, Chief Deputy Marshal for the First Division of Alaska, and two deputies today brought to the asylum Robert Sweet and Max Stelvall, both of Skagway, George Smith (colored) and Louis Bronson, both of Ju-neau. There are about 39 Alaskan patients receiving treatment on contract at the Oregon State Insane Asylum.

IMMIGRATION INSPECTION

Commissioner Says Consuls' Chinese Vises Are of Little Value.

OREGONIAN NEWS BUREAU, Washington. Oct. 26.-In his annual report the Commissioner of Immigration calls attention to the necessity for increasing the efficiency of the immigration service, as respects the certification of Chinese desir-ing entry to the United States. On this subject he says:

"The bureau has to recommend further that competent officers be appointed for service in the enforcement of these laws in China, both at Hongkong and at Canton. At present the facts alleged in their certificates by Chinese applicants for admission to this country are investigated by the United States Consuls at the ports of foreign departure. Such investigations, however, require an expenditure of time and care which the said officers cannot always give. always give. This is shown by the al-most invariable coincidence in date of issue of such certificates by the Chin government official designated for that duty and the vise of the United States Consul. This coincidence is the more re-markable as the residence of the Chinese person holding the certificate is some times several days distant from the Con sular port. It also appears from the tes-timony of the Chinese themselves that the investigation required by law by the Consul is made at times by such Consul's Chinese servant or office employe. A verification thus made of the truth of the allegations of Chinese perions endeavoring to establish a right to enter this country would seem to be of little practical value.

"On the other hand, the use of experienced and trusted officers of this service would make the provision of law referred to of great practical value in the detec-tion of fraudulent cases where the evi-dence of fraud is easily obtainable, at the home of the applicant."

To Prepare for Winter Maneuvers. NEW YORK, Oct. 28,-The United States cruiser Olympia, flagship of Rear-Admiral Coghlan, and one of the first yes seis to leave for the scene of the Winter maneuvers of the combined European, North Atlantic and South Atlantic Squadrons, at Culebra Island, near Porto Rico, left this port today, having been delayed several days on account of not being able to secure an adequate coal supply. The Olympia precedes the combined fleets to Culebra for the purpose of preparing an-chorages for the ships and landing places to be used by the forces during the period of the maneuvers. The work will be in charge of Rear-Admiral Coghlan.

ACTIVE WORK IN MINES

COUNTY GOLD FIELDS.

Ten-Stamp Mill in Hornbrook District Pounding Away - Fifty Men Busy-Rich Ore Bodies Tapped.

ASHLAND, Or., Oct. 26.-(Special.)-R. M. Bennett, the mining magnate of Min neapolis, has arrived here on his annual visit, and for an inspection of the Wa-bana mine, in the Hornbrook district, which, together with Mr. Reynolds, of Cheboygan, and M. Mattern, of this city, he owns. Everything at the Wabana is now running in a splendid way. The new and strictly up-to-date 10-stamp mill, re-cently installed, is pounding on ore day and night, and a force of 50 men is busily at work developing the property. The mine is one of the best equipped in the locality, improvements having been placed on it during the past year to an extent of \$50,000. There is already a large supply of ore on the dump. Some very rich ore bodies have recently been tapped on the Wabana. It comprises a part of the vein system from which nearly \$1,000,000 were taken in the early days of placer mining in the locality, and adjoins on the east the well-known Jillson mine, which has yielded so largely of gold during the past

Messrs. J. H. Gray, D. D. Bessie and Dr. M. Damourette, recent arrivals here from Colorado have become interested in the Wagner Creek district, and have associated themselves with a number of local people for the development of the Whale mine and six extensions to that ledge. This ledge is from 20 to 30 feet in width and prospects exceedingly well. A num-ber of new locations adjoining the ledge will also be made, and the new company proposes to prosecute the development with much vigor. The new men are practical miners of large experience and have excellent financial backing to carry

few years.

out all they propose doing.

Much activity has recently been noticed in the old Waldo district, and the placers and hydraulies there are quite lively. The supply of water for these properties. which lay along the Illinois River, is one of the best in Southern Oregon, and affords a longer season's run than is enjoyed in many other localities. Considerable improvement has been recently puton the Cameron-Simmons hydraulic mine, among which are a 1,200-foot tunnel through the mountain through which to carry the water to some of the new and rich gravel on the claims that have never been worked before. A Ruble grizzley has also been installed on the property. and three or four glants will soon be in operation, tearing down the auriferous gravel from the slope of the guich in which the new diggings are situated.

Most of the miners in the Beaver Creek

section have ceased work for the season. W. A. Montgomery, who made a rich strike on his Grouse Creek placer mine last Summer, after equipping the property for a Spring run, has returned. The wellknown Espey mine is now worked with a force of nine men and a good head of water from the recently completed high line ditch from Beaver Creek. The miners of the district are still considerably agi-tated over the activity of timber land locators in the vicinity. They have taken concerted action and placed their interests in competent hands, and will contest many of the filings of the locators that

Fuel Coal Found.

J. J. Owens, the coal expert of the Southern Pacific Company, who has had charge of the prospecting for coal on the Furry place, a mile and a half east of Phoenix, recently returned from San Francisco, where he had been called to report to the company on the property It was stated a few weeks ago that there had been some process devised whereby the slate could be economically separated from the coal found on this place, and that it would be used by the company for fuel on its locomotives. However dur been received to stop all operations and move and store the machinery used in the prospecting. This will end the work as but it has been demonstrated that there on the Furry place, suitable for heating and domestic purposes. The development of the coal prospect on the Herr ranch, south of here, by the Siskyou Development Company has been highly success and a very good character of coal is being taken out. What has been mined makes first-class fuel, and 100 feet below the surface much less slate has been found The company intends to develop the pros-pect thoroughly, and feels confident that one of the very best coal mines on the Coast will result from their work. The Bowden mine, in the Gold Hill dis-

trict, has recently been bought by S. Mc-Clendon and others, who are preparing to greatly improve the property. A large amount of new machinery has recently been purchased and will be installed on the mine at once, and several new buildings will be erected on the property. The White Horse mine, on Water Gulch, in the Gold Hill district, is the scene of much development work now. Three hundred and fifty feet of tunnelling has been done on the property, and the driving has been pushed with much vigor, and it is expected that further development will reveal in the ledge a stronger body of high-grade ore. The Gold Chioride mine, on Ward Creek, near Woodville, was recently sold to Portland parties for \$7,000, and they intend to add new machinery and improve the property at an early date. On the Schlifflin Guich, east of Woodville, Harth and Ryan own a most promising claim, on which they have recently been engaged in driving a tunnel. The ledge shows a 24-inch velor rock that goes over \$100 to the ton. A Portland corporation known as the Oak Bar Mining Company, with Dr. C. A. Macrum as president, and Frances Seeley as secretary, is preparing to add to the plant of its mine, on the Klamath River. The company's ground covers about two miles in length of the river bars and high channels, beginning at Oak Bar and extending down the stream. It was for merly known as Poverty Point, and was operated by John Barton, who took many thousands of dollars out of the claim Under the present management a ditch has been built from Buckthorn Creek, some four miles distant, through which they control 1000 miners' inches of water with a pressure of 600 feet, should they desire to use that amount. At the present time work is being done with an 11-incr pipe under a 320-foot pressure, and has stripped the surface from the pay channel

HOPMEN MUCH AT SEA

BUYERS AND SELLERS AGITATED OVER JUDGE'S DECISION.

Contracts Not Enforceable Because 1-Case May Be Taken to Supreme Court.

SALEM, Oct. 26 .- (Special.) -- Judge Burnett's decision in the hop cases yesterday has been almost the exclusive topic in crop circles since the decision became known. As said by one dealer last even ing, this decision puts a stop to all con tracting on the plan regarding which the decision was rendered. It has been learned since the decision was handed down that several attorneys in this city have advised their clients, who were interested either as buyers or growers, that the courts. A number of growers were upon the point of making contests, but finally decided to deliver the hops instead

of entering into litigation. The feature of the contracts which makes them unenforceable as contracts of sale, is that they are one-sided. As Judge Burnett said in his opinion, the buyer is at liberty to take the hops or not, as he may choose, and, therefore, the contracts lack the mutuality which is essential to a sale. The grower agrees to deliver, but the buyer does not agree to receive unless he wishes. As the con tracts also provided for advance of picking money, for which a lien was to be had upon the hops, the contracts are held

to be chattel mortgages only. This decision will make it necessary for dealers to draw up a new form of contract, which will not be open to the objection that it is one-sided. It is not known whether the cases decided yesterday will be appealed, but a prominent dealer said last evening that if other growers refuse to deliver the hops as agreed, suits will be brought, and if the contracts are held inoperative as contracts of sale, appeals will be taken to the Supreme Court. The dealers have so much at stake that they cannot give up until they have taken their cases to the

LONE FARMER FOULLY MURDERED. Crime Supposed to Have Been Committed by Tramps.

SPOKANE, Wash., Oct. 26.—(Special.)— "Old Man" Campbell, a well-known farm-er living near Oroville, was foully murdered a few nights ago. Wednesday morning last his body was found out-side his cabin with a large bullet-hole in the head. The wound was in the base of the skull, indicating that Campbell had been shot from behind while about to enter his little cabin. He was fully dressed, and his hat lay beside him where Campbell had some trouble about a

week ago with some hobos, and last Monday night his haystack was fired. It is presumed this act was committed by the same persons who afterward laid in waitdeath. No clew is obtainable as to the guilty persons, and Campbell gave but neager particulars of the trouble with the hobos, and he lived alone on his

Campbell was 'a well-known rancher, and owned quite a valuable place. He was a hale, hearty old man, and generally like. Little is known of his history previous to his coming to Oroville three The Coroner's jury returned a verdict of

death at the hands of persons unknown.

ALASKA SALMON PACKERS. I'wo Steamers Bring Fish Employes and News.

SAN FRANCISCO, Oct. 28.—Two of the Alaska Packers' Association steamers ar-rived today from Karluk, bringing employes and salmon. The President, nine days out, brought a cargo of 6348 cases of

salmon, and the Kadiak had on board 23 employes from the Karluk canneries, which have been shut down for the season. The ship Star of Russia is now on the way with 80,000 cases of salmon from the Karluk canneries, and her arrival. with that of the ships Oriental and Balcutha, will end the salmon receipts by

water for the season. The Kadiak and President bring the report that the season's pack of salmon at Karluk amounted to 205,000 cases. During the Summer 2,000,000 eggs of salmon were hatched by artificial means, and the young fish were liberated in the hope of naking a good showing in future seasons' catches. Sea otter, which have been exceedingly scarce on the Alaskan oast for years, are reported to be again appearing, particularly on the Red River

Crushed Under Falling Log. WALLA WALLA, Oct. 26.-John Marcy was crushed to death by a falling log at Big Meadows, 25 miles east of here, some time yesterday. Only meager details of the accident are obtainable. The Coroner has gone to the scene.

A B. CROASMAN

Agreeable soap for the hands is one that dissolves quickly, washes quickly, rinses quickly, and leaves the skin soft and comfortable. It is Pears'.

Wholesome soap is one that attacks the dirt but not the living skin. It is

Economical soap is one that a touch of cleanses. And this is Pears'.

Established over 100 years.
