ONE OF 100 TONS CAPACITY FOR WALDO COPPER MINES.

Will Do General Custom Business for District-Wagon Road to Be Improved for It.

GRANT'S PASS, Nov. 9 .- (Special.)-Colonel T. W. Draper, manager of the mines of the Waldo Smelting & Mining Company, at Waldo, announces that his company has decided to put in a 100-ton smelter at once at its copper mines in the Waldo district. The smelter is to be erected at Takilma, the new town that has sprung up near the mines, and on the line of the proposed Oregon & Pacific

A smelter at Waldo will be of great benefit to the vast mineral district of that section, as, aside from treating the ores of the Waldo Smelting & Mining Company's mines, it would also do a general custom business. A number of good mines of that section would be able to do their smelting at home and with much less expense than heretofore, as they have been obliged to haul their ores to the railroad and ship to California. Many mineowners who could afford to ship their ores will be able to operate their properties by having a smelter at

With the building of the smelter, the traffic over the stage road from this city to Waldo will be much greater than it is at present, and hence the necessity of having a better road. For this purpose the county has appropriated \$1900 for the improvement of the road, and the Board of Trade of this city and the citizens in general are aiding liberally toward its betterment. Under present conditions, it the advantages which would accrue to British Columbia by the laying of the steel is well-nigh impassable during the wet weather of the Winter months. A bridge is also to be built across the Illinois River at waido for the convenience of the min-ers and farmers of that district, but more especially for the copper and gold miners who will have refractory ores to haul to the smelter.

PREVENTED A "BOXING MATCH." Sheriff Who Meant to Observe the Law Did the Business. HELENS, Nov. 9 .- (Special.) -An al-

leged boxing match was announced to take place in the Knights of Pythias hall at Rainier last night, between Swanson, of Portland, and Freeman, of Oregon City, but Sheriff R. S. Hattan interfered, and the entertainment was called off. Sheriff Hattan stated that he had information that it was to be a fight for blood, and he did not intend that a prize fight should take place in Columbia County under the guise of a boxing match. Two or three days previous Sheriff Hattan procured warrants for the arrest of the principals, and notified all parties interested that arrests would be made in the event that an attempt was made to carry out the programme. The Sheriff went to Rainier Friday, and served notice on one of the principals, and notified interested parties in Portland. It was to be a great event. and many people from Portland were to be in attendance. Sheriff Hattan again went to Rainier yesterday evening, with a determination to see that no mill took place. Freeman came down from Port-land yesterday, but returned. The town was full of people who came in to see the fun, but the entertainment was turned

County Court yesterday afternoon The County Court yesterday afternoon awarded the contract of printing the de-linquent tax list to the Oregon Mist. There is only about \$2500 delinquent on the tax roll. For a number of years past the delinquent list has been printed in Democratic and Populist papers, but the new law gives the printing of the delin-quent list to the County Court. The embers of the County Board are Republicans, while the Sheriff is a Democrat.

DIED OF CANCER.

William R. Jackson, a Washington County Pioneer of 1854. HILLSBORO Nov. 9 .- William Rasselas

a prominent pioneer of this at his h e in this city

this afterneon of cancer.
Deceased was born in Harrison County. Indiana, August 9, 1832, and came to Oregon with his parents, Mr. and Mrs. Hyer Jackson, in 1854, and settled north of this city. His father was one of the first County Judges of Multnomah County. Mr. Jackson was married in 1860 to Miss Ellen L. Moore, who survives him. They have no children. P. M. Jackson, Hills-boro, and Eugene Jackson, of the Methow (Wash.) country, brothers; Mrs. D. B. Emerick, of Scholis, a sister, and Mrs. Elizabeth Jackson, his mother, aged 86, of this city, survive. Deceased was at one time one of the wealthiest citizens much to do with his financial undoing. He was liberal and public-spirited, and had many friends here. For the past two years he has suffered from cancer in one of his eyes, and his last days were prac-tically sightless. The funeral will take place tomorrow afternoon, interment being in the Masonic Cemetery.

HOWARD GOES TO PENITENTIARY. His Second Time in Prison for Same

BAKER CITY, Nov. 9.—(Special.)—The final chapter in the noted Manny Howard case was written vesterday, so far as the courts of the county are concerned, unless the Supreme Court shall grant him a new trial. Judge Eakin directed the Sheriff to proceed to execute the sentence of the court. Sheriff Brown left last night with Howard for Salem, where he is sentenced to serve five years in the penitentiary.
Something over a year ago Howard was convicted and sentenced for seven years. He was in the penitentiary only about 40 days, when he secured an appeal to the Supreme Court and was released on bail. The Supreme Court reversed the sentence of the lower court and remanded the case for a new trial. At the second trial the

ACCIDENTALLY SHOT.

jury found him gulity, and he was sen-tenced to the penitentiary again for five

W. H. Westcott, of Salem, Suffers Serious Wound.

SALEM. Nov. 9 .- (Special.)-W. Westcott, of this city, was accidentally shot and seriously injured this noon by the explosion of a shotgun in the hands of Clifford Glover. The lad was running with the gun toward the river with the intention of shooting a duck, and West-cott started toward the boy to warn him not to shoot in that locality, as there was a large number of children at play who were likely to be injured. They boy slipped and fell and the gun was dis charged, the entire load of No. 4 shot lodging in Westcott's right leg just be low the thigh. The injury is considered a serious one, for at the time of the accident Westcott was only a few yards distant from the gun. The injured man is about 40 years old and has a family of five small children.

LITTLE HOPE OF FINDING EGAN. \$1000 Reward Draws Many Men to

the Search. BUTTE, Mont., Nov. 8.—A special to the Miner from Kalispell, says: There have been no new developments in the Egan search. The reward of \$1000 has attracted more men into the district, but no Egan. Another party left Columbia Falls this morning for Hungry Horse Creek and will be the comparison of th BUTTE, Mont., Nov. 9 .- A special to the morning for Hungry Horse Creek and will internal injuries. be out several days. It is now almost impossible to get through the country, ex-

cept on snow shoes, and parties who have gone into the South Fork Country have been compelled to use them.

TO BUILD A SMELTER to the cable on Pyramid Peak and another into the South Fork Country. It will be at least three days before they can make their report. Dr. Houston spent part of the day here, returning to Belton tonight. He has given up all hope of Egan being alive. Houston said that the last words of Egan were: "I am going off here and look around." As he made the above remark Egan pointed east and almost directly away from the railroad. Houston said regarding the time after leaving the car:
"We stood on the track and examined the compass. Mr. Egan remarked that Belton was almost due north and thinking that he knew the locality, we did not question his judgment. Mr. Egan wore extremely heavy pants and vest, my offed canvas hunting cost and felt hat and rifie. He had at least 20 cartridges."

TO LIVERPOOL IN TEN DAYS.

New Route Through British Columbia Under Negotiation.

VANCOUVER, B. C., Nov. 9.—(Special.)

-Butte Injet is to be the Pacific Coast
terminus of the Canadian Northern Railway, and Massrs, Mackenzie & Mann de-sign to bring British Columbia within ten days' 'ourney of Liverpool, England, via

Hudson's Bay.

This is the important news that D. D. Mann brings from Montreal. He has come here with J. N. Greenshields, K. C., of Montreal, to renew the negotiations with the provincial government as to that part of the new transcontinental line which will run through the center of this prov ince. At the last session of the Legis-lature an act was passed authorizing the aiding, by both a large sum of money and a big land grant, of the building of this railway, but there were certain conditions therein which did not please the Canadian Northern men and Mr. Mann has come out here personally to go over the whole matter with the Dunsmuir cabinet. In a talk with a reporter the railway man was able to present in vivid manner

a line to Hudson's Bay and Port Nelson, and that the distance from Hudson's Bay to Liverpool is shorter than from New York or any other American or Cana-aian Atlantic port. The distance from Butte Inlet to Port Nelson is less than 2000 pool in ten days. It would also mean a great advantage for British Columbia and the Northwest Territories to be brought

TO PREVENT DESTRUCTIVE FIRES. First Safe Refuse-Consumer in

Gray's Harbor Country. ABERDEEN, Wash., Nov. 9 .- (Special.) -A. J. West, of the West-Slade Lumber Company, returned from the East today, where he purchased a refuse consumer for his big plant. It will cost \$15,000 to install it. The diameter of the consumer will be it. The diameter of the consumer of the feet and its height 50 feet, and it will weigh 80 tons.

The losses on Gray's Harbor by fires caused by open burning refuse piles at the mills, has been very large in the past few years, and the installing of the consumer will minimize the loss in East Aberdeen, where this plant is located. It is expected that other consumers will be put in by other millmen.

Lecture on Tondstools,

UNIVERSITY OF OREGON, Eugene, lov. 3.-(Special.)-President Campbell has arranged for a scries of Saturday even-ing lectures to be given at the University during the Winter. These addresses will be given by men well versed in some special line of learning or prominent in life, either social, religious or political. The system will be inaugurated on Saturday evening. November 15. when Professor Albert R. Sweetser, of the department of biology, will give the first lecture on "Oregon Toadstools and Mushrooms." Professor Sweetser has been interested in Oregon fungi for the past few years and has prepared a number of lantern slides for use in illustrating his subject. The lectures are free and open to the public.

Requisition for Witness Refused.

OLYMPIA, Nov. 9 .- Governor McBride has refused to honor the requisition of the Governor of Oklahoma for J. H. Carter, now a resident of Green Lake, near Seattle, who is Wanted as a witness in a murder case. Sheriff Carter, of Noble County. Oklahoma, presented the papers. It is represented that Carter was under \$500 bonds in Oklahoma as a witness in the case. He left Oklanoma before the trial, however, bringing to this State a wife and several small children, and is now building a home at Green Lake. It was shown to the Governor that the honoring of the requisition would be a great United States immortal or hardship to Carter at this time, so it was refused. The requisition papers were made out as though Carter had committed the murder.

Suposed to Have Been Drowned. ASTORIA, Or., Nov. 3.-(Special.)-Al-bert Anderson, who runs a fish receiving cow at Westport Slough, is missing and is supposed to have been drowned. He left Westport in a small boat at a late hour on Friday night for his home and no trace of him has been found since, al-though the boat with Andersoa's coat in it was found adrift today. Anderson was a single man about 48 years of age and has lived at Westport for a number of

Eugene Wants More Carriers. EUGENE, Nov. 9.-(Special.)-It has become apparent that more mail carriers will be required for the free delivery system and Postmaster McCornack has taken the matter up with the department at Washington to provide an increase in the number of carriers. During the re-cent visit of Congressman Tongue here the

two carriers are provided.

the opportunity to look carefully into the needs of the office in this particular. Only

WASHINGTON HATCHERIES

THIS YEAR.

This Addition to Supply of the Col ambia River-Young Fish Die in Irrigation Ditches.

OLYMPIA. Nov. 8.—(Special.) — The State of Washington's fish hatcheries on the Columbia River and tributaries will turn loose about 25,600,000 salmon fry this season, according to the estimates of Fish Commissioner T. R. Kershaw, There are five hatcheries and one eyeing station in operation, and the amount of spawn taken this season is about as follows:

Wind River hatchery
Kalama hatchery
Kalama eyeing station
Chinook hatchery Methow hatchery

As it is estimated that only 90 per cent of the spawn in the hatcheries become fry, the number of fish that will be actually turned out is in the neighborhood of 25,000,000. In the season of 1900-1901 these hatcheries turned out 16,035,300 fry. The next season showed a big increase, but this year will eclipse all previous ones. Fish Commissioner Kershaw states that the fishermen on the Columbia this year took quite a number of the marked fish

that were turned out by the hatcheries in 1899. There were 5000 of these salmon that had holes punched in their tail fins and the first of them reported caught was in the season preceding this one. Then 460 were reported, and they were three years old. This last season the four-year-old marked salmon were often noticed, but no coupt was kept. The es-timate of the number of marked salmon through the rich central region of British that returned to the Columbia is ered very satisfactory proof of the efficiency of the State's hatchery system

According to the Fish Commissioner, this is the last year in which the Wenatchee and Methow hatcheries will be operated, unless there shall be legislation for the protection of the young fish turned out by them. These two hatcheries take the spawn late in the Fall of the big Chinook salmon that appear at the mouth Butte iniet to Port Neison is less than 2000 miles, making the total distance from the Pacific Coast to Liverpool, via Hudson's Bay, less than 500 miles. When this line is built it will mean that passengers from the Pacific Coast can be landed in Liver-incountered is that the fry that are turned out at the Methow and Wenatchee hatcheries find their way into the irri-gating ditches of Eastern Washington and nover get out, finally dying when low water comes. It seems that the only way to obviate a difficulty that is thus making the work of these two hatcheries practically useless is to screen the in-takes of the irrigating ditches. As this could only be done at large expense and as the screens would require constant attention, the plan is opposed by the farmers of the Eastern part of the State. The State of Washington also has three hatcheries in Eastern Washington that are

on tributaries of the Columbia that are not in operation. They are known as the Klickitat, Little Spökane and Colville hatcheries. They are not operated be-cause it is impossible to get sufficient numbers of salmon in the streams on which they are located. At First Too Dry, Now Too Wet.

EUGENE, Nov. 9 .- (Special.)-The rains of the past few days have been unusually heavy and have flooded the low lands everywhere. Farmers complain at not having had any opportunity to do their Fall seeding. First the ground remained dry and hard for a long time and it was really not damp enough to plow well unti the last rain, which has made it too wet The result is that a smaller acreage of Fall grain will be put in than usual.

CRITICISED HAY'S NOTE. Jew Says It Was Too Self-Protective to Be Effective.

PHILADELPHIA, Nov. 9.-Rabbi Joseph N. Krauskopf, D. D., of the Reformed Con-gregational Kenesthe Israel, a leading Heoregon fungi for the past text your properties of the subject will be of great value to students and others interested in cryptogamic botany. Mr. Sweetser known Hebrew clergymen in the East, today delivered a sermon entitled "Secretary Hay and the Roumanian Jews," in which he criticised the note sent by the Secretary to the European powers on the question of Roumanian Jews. Dr. Kraus-kopf said three months had passed siene the note was issued and the results that were anticipated have not come to pass. Continuing, he said in part:

"My want of faith in the success of these laudable and well-intentioned efforts on the part of our honored Secretary was based on the note itself. The larger part of the note, which I call the self-protecthe case. He left Oklahoma before the tive. I felt from the outset invited failure for the United States and disappointment

> The Secretary, Dr. Krauskopf said, would have written the name of the United States immortal on the moral history of manking had he invited the Jewish refugees to this country and had he turned to Christian Roumania and entreated them to put an end to the persecutions.

"Had these words been spoken," he said, "It would have shown our interest to be one of humanity and not of self. It is the self-protective spirit of the Hay note that impairs its effectiveness. It is this that explains why little or no notice has been taken of it by the governments con-cerned. Not only the humanitarian obligations of a great and strong nation towards a wronged and unprotected peo-ple, but also precedent would amply justify Secretary Hay by directing in the name of the United States a halt to Roumania's outrages to its Jews. When Russia could enter into war with Turkey, by the latter's persecution of Christians, when nearly all of the great Christian nations could engage with China because of wrongs to Christian missionaries, when the United States could sacrifice thousands of lives and millions of dollars in the lib-eration of Catholic Cuba from Spanish misrule, let no one say that Christian nations have not the right nor the power cent visit of Congressman Tongue here the matter was laid before him, and he took the opportunity to look carefully into the needs of the office in this particular. Only miles and some 5,000,000 inhabitants."

Ohio Catholic Celebration. CLEVELAND, Nov. 9.-This was the biggest day of the several being taken up for the observance of the 50th anniversary OREGON CITY, Nov. 9.—(Special.)—In for the observance of the Seth anniversary addition to the local institute of Clackapontifical mass was celebrated by Bishop Dennis O'Donaghue, of Indianapolis, at city, in the Barclay School City in the John Line County at Orient next Saturday, and for County at Orient next Saturday, and for the institute at Marquam on Saturday, of Rochester, N. Y.: Bishop Horstmann, of Cieveland, and Vicar-General Byrne, of Boston. The sermon was by Bishop mas County teachers, to be need in this portinear mass was especiated by Bishop city, in the Barclay School building, Saturday. November 22, County Superintend16 o'clock. In the afternoon a parade of 10,000 Catholics, representing several societies and the city's parishes, occurred. Incidental to the celebration, the Rev. D. J. Stafford.

Hearing on Constwise Shipping Bill. MANILA, Nov. 9.-The Commission has secided to hold a public hearing on the Coastwise Shipping bill before taking final action in the matter. The measure as drafted permits foreign vessels to engage in the Philippine coastwise trade until 1994. It requires owners of foreign vessels bringing Chinese crews to the Philippines to give bonds on the China-men; it requires the payment of duties on supplies purchased abroad; If gives the Governor of the Philippines power to appoint a Commission to fix freight rates and it makes coasting steamers common carriers. The last provision is aimed at putting an end to discrimination by the trading companies operating on coastwise

"THE STRENUOUS LIFE." President Roosevelt's Book Trans . lated Into French.

A. B. CROASMAN, P. M.

PARIS, Nov. 9.—A translation into French of President Roosevelt's book, "The Strenuous Life," which appeared here last week under the title of "La Via Intense," has attracted widespread interest. The translation is by Princess Ferdinand de Faucigny-Lucinge and Jean Izou-let, who declare that their work has the authorization of Mr. Roosevelt.

The preface of the translation pays a glowing tribute to the United States, and compares President Roosevelt's book to James Bryce's "The American Common-wealth," saying the latter gives the views of the outside observer, while "The Stren-uous Life" gives the views of the observ-er on the inside. President Roosevelt is described as "the virile champion of a Nation which has become powerful in de-ciding the destinies of the world." The high standards which President Roosevelt has introduced into the public life in America are dwelt upon. Another work, by the Vicomte de

Prince Henry of Pless, who comes to represent the German Emperor at the dedi-cation of the New York Chamber of Com-

Ministers, lawyers, teachers and others

French soldiers and marines who participated in the war for American independonce. The information contained in this volume was obtained from efficial archives. The Vicemte's book is one of several works on similar subjects which are in course of preparation, and which are encouraged by the French government. Upon the title page there is an engraving from a portrait of Washington, y

FAVORS ARMY CANTEEN. Says "We" Are All of One Opinion on the Subject.

NEW YORK, Nov. 3.-General Leonard Wood, who went over with Generals Cor-bin and Young to represent this country at the German war maneavers, arrived to day on the American Line steamship St. Louis. General Wood was accompanied by his family. "I remained after Generals Corbin and

Young," said General Wood, "in order to visit Scotland with my family. The Gencrais and myself were treated very kindly both in Germany and in England. We were granted every facility for seeing the workings of the military systems, and have seen many things which were not only interesting and instructive, but will be useful if adopted in this country."

General Wood was asked whether he was in favor of establishing the canteen in the Army. He replied:

"My canteen reports are on file. General

Kunston came out strongly for the can-teen, dld he not? I think we are all of one opinion on that subject." General Wood went direct to Washing-

merce on Tuesday, was also a passens on the St. Louis.

Nosilles, which appeared last week, gives a detailed account of the operations of the toppid liver and billousness.
