BULK OF THE TRADING ON NEW YORK STOCK MARKET.

Bought Openly by Brokers Who Usually Represent Gould Interests -Pressure on Union Pacific.

NEW YORK, Nov. 11.—The stock market presented few, if any, marked characteristics today. Although London prices showed a marked improvement, the opening here was decidedly irregular. This was probably caused by the liquidation of those who withstood last week's depression as well as by the profit-taking of speculators who bought during that same period. These uneven conditions gave way to a better feeling before the end of the first hour, when it became evident that certain vague rumors of "trouble" were unfounded. The feature of the early trading as well as of The feature of the early trading, as well as of the entire day, was Manhattan, which was exceptionally strong and active, making a maximum and net gain of over five points on transactions that more than exceeded four-fifths of the day's operations. The rise in this took, which was bought openly in his places by which was bought openly in his blocks by brokers who usually represent Gould interests, revived the old story that Manhattan is to be taken over by the New York Central by a guarantee dividend. No confirmation of this was obtainable, nor did any great amount of credence attach to it.

credence attach to it.

Considerable attention was drawn to St. Paul by reason of its rather irregular movements, and the stock closed with a slight loss. New York Central, which made an early gain of one-half point, lost much of its advance, and Baltimore & Ohio fell over a point from the top, in spite of its good showing in earnings for the fiscal year. Other active railway issues that displayed heaviness included the Pacific group, the pressure against Union Pacific alone being marked. In the special class, Colorado Fuel, United States Steel, American Smelting, Sugar and a few others were steady, Sugar Sugar and a few others were steady, Sugar making a material net gain. For the most making a material net gain. For the most part, however, changes were unimportant during the early session, and the market was narrow, traders showing a disposition to await developments in the local financial situation.

The chief feature in this quarter was the transfer of \$750,000 to San Francisco and \$500,000 to New Orcleans, making a total of \$1,000,000 to the first named center in the last four taxes. days. This drain on local resources was not regarded with favor. There was practically no change in foreign exchange, demand sterling vuling at \$4 ST. While bankers say they look for no immediate exports, the fact that three for no immediate exports, the fact that three fast ships landing at French ports leave for this city during the week created some uncasiness. Call money was as high as 6 per cent. London bought about 25,000 shares in the early declines, and sold the greater part on the rise. The increased dividend in Norfolk & Western common falled to bring any material improvement to that stock, although dealings were moderately heavy. The decline of 35 points in General Electric resulted from reports of labor troubles at the company's works at Schenetiady, Profit-taking in the last hour brought recessions. hour brought recessions to a number of active issues, and, while the market rallied, the close was irregular. The question of increased rall-way wages continues to be a matter of serious discussion, as well as the congestion of frieght traffic on the leading roads, and it is becoming clear daily that the capacity of practically every trunk road will be taxed to the utmost. Honds were irregular on a small roads. Honds were irregular on a small range. To-tal sales, \$2,945,680. United States old 4s de-

WANT LOCAL OPTION. Illinois Churches to Set Aside a Day for This Subject.

SPRINGFIELD, Ill., Nov. 17 .- The ministerial association of this city has sent a letter to similar organizations and pastors throughout the state, calling upon them to set aside some Sunday, soon after the convening of the Legislature for the discussion of local option as a principle of self-government and the proposed local option bill as a rallying point and the first step in a sustained movement against

the saloon.

The Illinois Anti-Saloon League is to be the agency of the churches in the efforts. to secure local option and an anti-saloon Sunday throughout the state. It is suggested in the letter that January 25, near that time as may be convenient, be devoted to the subject.

Hunt Club Driven Back.

NEW YORK, Nov. 17.-Determined attempts in the course of the last few days to stop the Ormund (Tipperary) and Kings County hunts are reported in a telegram from Dublin, says a London dispatch to the Times. A tenant at one place refused to permit the Ormund hunt to pass over his land and a farmer in another place tried to drive back the hounds with a club. Similar opposition was offered to the Kings County hunt.

final Figures Show a Gain of Nearly One Cent-Large Volume of Bustness Transacted at the Opening.

CHICAGO, Nov. 17.—There was great activity in wheat at the opening, and a large volume of business was transacted during the first half hour of trading. Later a quieter feeling developed, but toward the close another on-slappht was made on the market, and the close was at the top for December, while May was only a shade under the best flaures of the day. Covering by shorts was a feature throughout the session. December opened ign to %c higher at 72%473c, and held steady around 73c until near the close, when there was another advance, and final flaures were at the top at 73½c, showing a gain of 75c. was another avalue, and had logues were at the top at 73%c, showing a gain of %c.

Corn ruled extremely strong. December opened &c to 15%c higher, and held firm throughout the day, the close being at the top notch of 55c, a gain of 2c over yesterday's

Oats were strong along with other grains but trading was light. December closed &c up, at 301%c.

There was little doing in provisions, the close was strong, with January pork 17%c, higher, January lard 12%c higher and ribs 12%c up.
