## WE WERE WORSTED

King Oscar Favors Germany in Everything.

#### FULL EXTENT IS MADE KNOWN

British and Americans Had No Right, in Arbitrators' Views, to Protect Life and Property or Uphoid Samonn Court,

WASHINGTON, D. C., Nov. 17 .- By previous arrangement between the principals, there was today published simul-taneously in Washington, London and Berlin the full text of the decision given by his majesty, King Ozcar II., as arbi-trator between the three countries named, of certain claims owing to military operations conducted in Samoa in the year 1839. The decision is long, and abounds in whereases and conclusions. and in substance it has been announced heretofore in the cable dispatches from Stockholm. The preceding publication, however, did not convey to the officials here a full realization of the complete victory won by Germany in this arbitration, for it appears that on every point the arbitrator adopted the most extreme German view, in opposition to Great Britain and the United States. The arbitration grew out of claims by

Germans or British subjects or Ameri-can citizens for compensation on ac-count of losses they alleged they had suffered in consequence of unwarranted military action on the part of the German, British or American officers in Samoa, between the 1st of January, 1899, and the 13th of May following. The question really at issue was whether or not the British and United States govern-ments should be considered responsible for the losses.

The arbitrator recites that the United States ship Philadelphia and the British steamers Porpoise and Royalist, on March 15, 1899, opened fire across the town of Apia, Samoa, directing the same against the forces of High Chief Matsafa; that swer to the British and American claims at, under the treaty of Berlin, any one of the signatory powers was fully authorized to enforce the decision of the Chief Justice of Samoa, declaring Malleton king, the arbitrator says;

"We have found nothing in the said general act, or any subsequent agreement, which authorises one of the signatory powers, or a majority of them, to take action to enforce the conditions of the act or to make the decisions of the Chief Justice binding on the part of the United

It is held that the British-American military action "has the character of a serious control over the Samoan Islands and the government thereof," which was ohibited by articles of the general act. The arbitrator insists that the Berlin conference aimed to establish a principle that in their dealings with Samoa the powers could proceed only by common actives of the three powers by proclamation had recognized the provisional govern-ment of Mataafa, the powers themselves were bound, on principles of interna-ional good faith, to maintain the situatien until by common accord they desired to change it. The action of the British-American authorities, "tending to over-throw the provisional government estab-lished," it is held, was contrary to the nforesaid obligation, and cannot be justifled either on the plea of validity ab o of the said provision of the government or its establishment under a species

of a force majeure.

Touching the British-American comto said decision, any steps taken by him was made over the protest

The arbitrator meets the British-American contention that their military action was warranted because necessary for the protection of lives and property which it was their duty to safeguard, by the flat statement that "we have found nothing in the evidence before us to show that the general condition of affairs was such as to render the military action necessary for the protection of lives and property," and then goes on to show that Mataafa never intended to cross the bay at that time and make an attack on the consulon account of the state of the could not possibly have done so at that time

atinuing, the decision recites that Malicton had been completely defeated before the arrival of the Philadelphia, but that the United States admiral and British authorities brought back his warriers and armed and provisioned them, giving them ammunition, which, under the treaty should have been issued only at the unanimous request of the three con-suls. The decision concludes as follows: "That the military action in question, namely the briefly.

namely the bringing back of the Malicto-ens and the distribution to them of arms and ammunition, the bombardment, the military operations on shore and the stoppage of the street traffic, cannot be considered as having been warranted; and that, therefore, his Brittanic majesty's government and the United States govern-ment are responsible, under the conven-tion of the 7th of November, 1899, for losses caused by said military action; while reserving for a future of the convenwhile reserving for a future decision the question as to the extent to which the two governments, or each of them, may considered responsible for

#### BATTLE OFF AGUA DULCE Colombia Troops and Insurgents Have Naval Engagement.

SAN JOSE, Costa Rica, Nov. 17.-According to news reaching here through Colombian revolutionary sources, a battle has taken place between the Colombian government and the insurgent forces at Agua Dulce. The government's gunbonts Chucito and Bogota were on their way hither to take over and convey back with them the war vessel Poas, which formerly belonged to Costa Rica, and was purchased by the Colombian government at its sale by auction early in September. The Bogota, according to these reports, is now on her way back to Panama in a disabled condition, as a result of the gagement, five officers and 15 of her crew being said to have been killed.

It appears that the sentence of death passed on the revolutionary General Uribe-Uribe, who recently capitulated to the government forces, was not carried out because General Perdomo observed that General Herrera, of the revolutionary army, has 14 government Generals as pris-oners, and he might avenge the death of Uribe-Uribe on them

(With regard to the foregoing report of an engagement at Agua Dulce, a dispatch from Panama, November 12, gives an account of a fight between the Bogots, formerly the Jessie Banning, of San and be Francisco, and manned by an American crew and two revolutionary schooners. Diary."

Of the latter, one was captured by the Bogota and the other burned, while it was calculated that from 40 to 50 rebels were killed. The Bogota's armorer was killed, and three others of the crew were

Troops Reoccupy Cumnun. CARACAS, Nov. 17.—A tugboat has arrived at La Guayra from Carupano, bringing the news that on Saturday the government troops under the command of General Vuletini attacked and reoccupied, almost without fighting, the scaport of Cumana, which has been in the hands of the insurgents. The Dutch Governor of Curacao has notified General Matos, who reached that island November 12, that he must observe a strictly neutral attitude and conduct, otherwise he will be asked to leave Curncao, General Matos has shut himself up in his house at Willemstati with his family, not wishing to be

#### OVATION TO CHAMBERLAIN Demonstration on Eve of Departure for South Africa.

LONDON, Nov. 17.-Colonial Secretary Chamberlain received an ovotion tonight at Birmingham, where a farewell banquet on the occasion of his departure for South Africa was given in his honor. Members of all parties joined in the demonstration. The affair was of a nonpolitical character. Mr. Chamberiain was accompanied by his wife and son, Austen Chamberlain. Responding to a tremendously enthusiastic welcome, the Colonial Secretary paid an affectionate tribute to his American wife, who, he declared, had sustained him by her courage and cheered him by her sympathy. He had found in her his "best and truest counselor."

#### WAR ON ANKENY.

(Centinued from First Page.)

only necessary briefly to recall the events the same vessels brought the newly-appointed king of Samoa, Malletoa, and his forces to Mulinuu Point and supplied them with arms and ammunition for the ensuing struggle against Mataafa. In an-pia, immediately following, the feature of which was the bolt of the Ankeny men in the caucus. There were four candidates for Senator, namely, Levi Ankeny, who started with 8 votes; T. J. Humes, of Seattle, who finally reached 22 votes; John L. Wilson, whose highest vote was 26, and A. G. Foster, who had managed to muster 27 votes just before the fight ended by his alliance with Wilson.

Humes threw his strength to Ankeny the day before the last caucus. The next day, January 31, Wilson withdrew, after orging his followers to go to Foster. A caucus agreement was quickly circulated among the Wilson and Foster men, re-ceiving @ signatures. Palmer and Eames, Wilson men, of King, agreed verbally to vote for the Tacoma candidate, making 51. To nominate, it was necessary to have 58 votes. These were obtained durcord, and that as the consular representatwo supposedly loyal and true Ankeny men-Field, of Okanogan, and Gese, of Walla Walla.

When the caucus met the Ankeny men made a nesperate effort to break the force of the combination, but in valu. Then, led by Speaker Gule and Senator Wilshire, of King, the Ankeny men withfrew from the caucus. There remained, however, 58 Republicans, just enough to nominate, and Foster was made Senator.

Whatever lingering hope John L. Wil-son might have entertained that Senator Foster would make good his promise was dispelled within a few months after plaint against the German consul for his ington. The Wilson appointees in Fedresial to sustain the decision of the Chief Justice, the arbitrator holds that "It cannot be considered to have been the duty of the German consul to take part in the issuance of said proclamation, and it has not been proved that with recent." in the issuance of said proclamation, and to Ankeny, with the exception of Collectit has not been proved that, with regard or of Customs ide, whose appointment were contrary to the general act, and Fester. The appointment of Charles B. therefore no responsibility attaches for Hopkins as United States Marshal, credthe attitude taken by him in this re- ited at the time to the influence of Wilson, was made personally by Foster, and Hopkins is today an anti-Wilson man to such an extent as he takes an interest in senatorial politics. To be sure, this interest is very small, Mr. Hopkins being more concerned as to the senatorial election two years hence, when Mr. Pester will aspire to succeed himself.

Moreover, Mr. Foster and his former managers, including B. S. Grosscup, are now among Mr. Ankeny's most active and powerful followers. It is to be presumed that they selected the legislative delegation in Pierce county, with the exception of three hold-over senators, Stanton Warburton, Lincoln Davis and Carey Stewart. Davis is an Ankeny man, but Stewart and Warburton are not believed to be pledged, as between Ankeny and Wilson. Warburton is an avowed supporter of

Harold Preston, of Seattle. The campaign opened yesterday by the Ledger in Wilson's behalf will be watched with much interest by politicians all over the state. Mr. Ankeny's managers here the state. claim that Wilson will not get a single claim that Wisson will not get a single vote from Pierce county. This, or the face of things, is approximately true, but there is no telling what the succeeding weeks of the ante-session campaign will bring forth. It is reasonably certain that Senator Warburton will never vote for Ankeny. Moreover, it is well known and understood that Congressman Cushman is opposed to Ankeny, and will throw the weight of his influence in Pierce county against the Walla Walla candidate and in favor of Preston or Wilson. Cushman, with the aid of his friends in Pierce county, delivered the majority county delegation to the McBride-Preston combination in the Republican state convention here last September. This noconsistent, as he and Foster have no been on amicable terms for a very lon time, and Foster's influence was cast against McBride and his railroad commission hobby. What Cushman will do to prevent the delivery of the Pierce county legislative delegation to Ankeny

remains yet to be seen. Out of all this a number of politica surprises may grow. The Foster men will naturally oppose the election of Preston, of King, as that would be a

menace to Foster's candidacy two years hence. However, this condition of af-fairs has brought up the scheme suggested nearly four years ago, for the forma-tion of an offensive and defensive alli-ance between King and Pierce counties. These counties, working together, could undoubtedly control Republican politics in Washington and secure the election and retention of two senators from Western Washington. No combination possible among the smaller counties could break the King-Pierce combination. combination, if made before the senatorial fight next January, would result in the climination of either Congressman Cushman or Congressman Humphrey, of King, with the chances that the latter, being

#### BOND FOR DREDGE LEASE

UPON ITS APPROVAL WORK WILL GO FORWARD.

May Not Be Necessary for the Goverument to Build Machine for These Rivers.

OREGONIAN NEWS BUREAU, Washington, Nov. 17 .- The Port of Portland will be required to give bond before the Secretary of War will approve the contract recently made for the lease of one of its dredges for use on the Columbia and Willamette below Portland. When the contract recently made between the Port of Portland Commission and Captain Langfitt LA PAZ, Bolivia, Nov. 17.—Congress has asked the banks of issue notes representing 120 per cent of their capital, in order to assist the government in the work of national defense. It has not been penses incurred in the operation of the dredge. Under this contract the Government can lease either dredge by paying \$155 per day for the old one or \$235 per day refuses either to go with the expedition or resign his post. Several members of Confor the new dredge Columbia. The Port will be expected to furnish the crew and fuel, and bear all expenses of operation. The bond is required as an extra precaution, such as is frequently required in Government contracts. The department expects the bond will be readily furnished. When at hand, the contract will be approved and expenditures can be commenced under the appropriation of \$250,000 made last session.

> Now that the Government has the option of operating a dredge of the Port of Portland, it is thought by some engineers that ft will be unnecessary to ask for future appropriations for building a Government dredge for the river below Portland.

#### Remodeling the Grant.

The engineers' office has about completed plans for remodeling the transport Grant into a sea dredge for use in cutting a temporary channel across the bar at the mouth of the Columbia River. These plans will soon be widely advertised, but the work will undoubtedly be done at San Francisco, where the Grant now ites.

To Meet Again in New York.

The board of engineer officers which visited the mouth of the Columbia some time ago, and which is to report upon the plan best suited to providing and maintaining a deep-water channel across the bur at the mouth of the river, is to resume its oussions at New York December 2. It is expected that at this meeting the board will finally consider the various questions at issue and decide upon the plan to be recommended as most feasible. Their report will then be drawn by one member of the board for submission to the Secretary of War. It is hardly expected that the board's report will be completed and ready for submission before the first of the year.

#### LOSSES ON SILVER. Retards Progress in Philippines-Lower Tariff Favored.

WASHINGTON, Nov. 17,-The report of the Philippine Commission will not reach Washington for a month, but a synopsis of it has been cabled to the War Department for Secretary Root to use in his annual report. This brief abstract will not be made public until the Secretary's report is published. It is known, however, that the commission will make emmendations regarding the currency, which is in a deplorable state. The continued depreciation of the silver currency until it is worth \$2 50 for \$1 in gold has caused a great loss to the Philippine government, estimated at \$1.000,000 during the past six months. The commission believes that the currency should be established on a gold basis, as the only safe and sure way in which the financial affairs of the islands can be put in order. ther tariff concessions to the Philippines and it is believed that he will recommend of the Dingley rate, should be made 25 per cent, in order to encourage commerce between the islands and the United States, Governor Taft has also been in favor of a modification of the Chinese exclusion laws as applied to the Philippines, and believes that the commissionu should be allowed discretion in the matter of admitting Chinese labor. There is also reason to believe that the commission thinks greater latitude should be permitted in the matter of franchises, as a grant of 5000 acres to one concern is not sufficient to induce capital in large amounts to engage in the devel-opment in the islands.

#### TRAIN ROBBER FOR TRIAL Man Who Took \$40,000 From Great Northern Express,

KNOXVII.LE, Tenn., Nov. 17.—Hand-cuffed to two Deputy United States Mar-shais and surrounded by guards, Harvey Logan, alias Kid Curry, the alleged train robber, whose gang held up and robbed a Great Northern express train in Mon-tana of \$40,000, was this afternoon marched from jall to the Federal Court, where he appeared for trial before Judge C. D. Clark, of the United States Circuit Clark, of the United States Circuit Court, Logan's attorneys entered a plea in abatement in which they held that, owing to the illegal impactment of the jury which drew the indictments against Logan, the indictments should be quas The court adjourned until morning, when Judge Clark will announce his decision.

False Treatment.

## PAINE'S CELERY COMPOUND

Never Fails to Banish Disease and Re-establish Lasting Health.

Thousand of women are kept in sickness for months and years owing to false treatment and the use of worthless medicines, and we are inclined to believe that Milton thought of this class of almost-dying women when he said:

"The angelle guards ascended, mute and sad."

The common-sense treatment of today for weak, rundown and suffering women is Paine's Celery Compound. This marvelous medicine is spoken of in every part of the civilized world, and men and women of all classes derive new life from its use Elizabeth Messick, Marietta, Ohio, writes about her rescue from a low con-

"Eight years ago I was most successfully operated on for an ovarian tumor, weighing 25 pounds. After the operation tonics and foods were used in vain to bring back strength. In some way Paine's Celery Compound came to the rescue, and it really seemed that four doses work. Your compound is the only thing eight months of each year in the South in home missionary work among the freedmen. This last Spring I would have had to give up, but one bottle of Paine's Celsister cured her eczema with Paine's Celery Compound. We recommend it to all."

AND THEY WON'T JUSTIFY CLASS-ING AS FRAUDS.

The Idea of Mental Control Over Physical Ills May Be Disseminated by Mail.

WASHINGTON, Nov. 17 .- Justice Peckham, of the United States Supreme Court, today delivered an opinion in the case of the American School of Magnetic Healing vs. J. M. McAnuity, the latter being Postmaster at Nevada, Mo., where the school is located. The proceedings grew out of a fraud order issued by the Postoffice Department, prohibiting the Postmaster from delivering mail addressed to the school. The original bill asked for an injunction to prohibit the Postmaster from obeying this order. On trial in the United States Circuit Court for the West-ern District of Missouri, the department's order was sustained on a demurrer. To day's opinion reversed that judgment, but in delivering it Justice Peckham said there was no intention of passing upon the various constitutional objections set

nut in the bill. The action of the court was accom-panied by instructions to the lower court to overrule the defendant's demurrer to the amended bill, with leave to answer and to grant a temporary injunction as applied for by complainants. The opinion

"In overruling the demurrer we do not mean to preclude the defendant from showing on trial, if he can, that the business of the complainant as in fact conducted amounts to a violation of the stat-

Justices White and McKenna did not concur in the opinion.
In reviewing the case Justice Peckham quoted the plea of the Magnetic School that one human mind may control another

treating disease, and said: "One person may believe it of greater efficacy than another, but surely it cannot be said it is a fraud for one person to contend that the mind has an effect upon the body and its physical condition greater than even a vast majority of intelligent people might be willing to admit or believe. Even intelligent people may and do differ among themselves as to the extent of this mental effect. Because the complainants might or did claim to be able to effect cures by reason of working upon and affecting the mental powers of the individual, and directing them toward the accomplishment of a cure of the dis-ease under which he might be suffering, who can say that it is a fraud or false pretense or promise within the meaning of the statutes? How can any one lay down the limit and say beyond doubt that they are frauds and false pretenses?

"The claims of ability to cure may be vastly greater than most men would be ready to admit, and yet those who might deny the existence or virtue of the remedy would only differ in opinion from those who assert it. There is no exact standard or absolute truth by which to

prove the assertion false and a fraud." Purther on Justice Peckham said: "Suppose a person should assert that by the use of electricity alone he could treat diseases as efficaciously as the same heretofore have been treated by 'regular' phy sicians. Would these statutes justify the Postmaster-General, upon evidence satisfactory to him, to adjudge such claim to be without foundation and then pronounce the person so claiming to be so guilty of procuring by false or fraudulent pre-tenses the moneys of people sending him money through the malls, and then prohibit the delivery of any letters to

The opinion says that many people do not believe in vaccination and in homeopathy, and asks whether on this account vaccination is to be prohibited, and wheth-er homeopathic physicians are subject to be proceeded against by the Postmast General, Justice Perkham concluded that

Postmaster-General might think to be false opinions, but only cases of actual fraud in fact, in regard to which opinions

Did a First-Class Business, KANSAS CITY, Nov. 17.—The business done by Professor Weltmer, at Nevada, Mo., before the Government interfered,

unted to \$500,000 a year, and caused the Nevada postoffices to be 'raised from the fourth to the first class. All of the letters received contained money. Judge Phillips, in the United States District Court in Kanzas City, made the point that so much mail required all the at-tention of the healers and left no time for suggestion and concentration of thought on the sufferings of their correspondents. In April, 1901. Weltmer and his partner, Joseph H. Kelly, were fined \$1500 using the malis fraudulently.

#### CHURCH NOT DOWN ON FUN Baptist Preacher Lorimer Indorses

Recreation and Amusement. NEW YORK, Nov. 17 .- In discoursing on the "Relation of the Church to Amuse-ments," at the Madison-Avenue Baptist Church in this city, Dr. George C. Lori-mer has argued that recreation is as necessary as food to man, and that the church never has been opposed to pure and innocent enjoyment.

"We need recreation and amusement, he said, "as much as we need food and sleep. We need those forces that will bring Summer into our lives, and enable

And many other aches to which women are peculiarly subject are generally the result of a diseased condition of the womanly organism. When this diseased condition is cured, sideache, backache, headache, etc., are cured also,

Doctor Pierce's Favorite Prescription establishes regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. When these diseases are cured the aches they cause are also cured.

the aches they cause are also cured.

"I will drop you a few lines to-day to let you know that I am feeling well now," writes Miss Annie Stephens, of Belleville, Wood Co., West Va, "I feel like a new woman. I took several bottles of 'Favorite Prescription' and of the 'Golden Medical Discovery.' I have no headnehe now, no backache, and no pain in my side any more. No bearing down pain any more. I think that there is no medicine like Dr. Pierce's medicine. I thank you very much for what you have done for me—your medicine has done me much good."
