Pensions for Wage-Earners.

The resolutions introduced by Victor L. Berger, of Milwaukee, instructing the Federation of Labor to use its best ef-forts to induce the National Congress to pass a bill securing to every wageworker who shall have reached the age of 60 years without having had an average an-nual income of \$1000, a pension of \$12 per month, provided the wageworker is citizen of the United States and has re-sided in this country for 21 years when the application for pension is made, was

unfavorably reported. Mr. Berger made an urgent appeal for passage of the resolution. Delegate of the United Metalworkers Sherman, also asked the passage of the resolution, saying that the wageworkers of the coun-try had as much right to a pension when they were worn out in the harness as any who was directly employed in its service.

"When we ask the Government for anything." he said, "we must remember that we are asking ourselves, for we are the Government.

Great applause greeted Mr. Sherman's address at frequent intervals.

James Lennon opposed the resolution because of the increased taxation it would bring, and declared that the workingmer. wanted no charity. He up-held the position he had taken, declaring that President Eliot belonged to the school which believed that matters would come right if left alone.
