There is a large element in the Republican party Strike that wants to prevent any modification whatever, and will accept any kind of ompromise which will prevent such action. Nearly everybody in Congress is very much opposed to an extra session, as Senators and members regard it as a great inconvenience to come to Washington save when they are actually obliged to. It is not likely that the Pfesident will deviate from his commission plan, but it is not believed that he will take a very strong position in favor of any tariff changes at the present time.

### PRESIDENT REACHES WASHINGTON

### Plunges Into Accumulated Work-Sees Some Senators.

WASHINGTON, Nov. 21.-President Roosevelt arrived here this morning at 8 o'clock over the Southern Railway. A small crowd was at the station to welcome his return. As he left the train he shook hands with the engineer and fire-man and thanked them for the safe run they had made. The President and Secre-Cortelyou were driven direct to the White House.

Before 10 o'clock this morning the President reached his office. He began at once to dispose of a mass of business which had accumulated during his ab-sence. Prior to the meeting of the Cabi-net, which had been called for 11 o'clock, the President found time to hold brief interviews with Senatora Burrows, of Mich-igan; Scott, of West Virginia, and Lodge, of Massachusetts.

During the next four or five days, as opportunity may offer, the President will put the finishing touches upon his annual message to Congress. It is understood that the message will be sent to Congress on the second day of the approaching ses-sion, Tuesday, December 2, owing to the fact that deaths of members of both houses have occurred during the recess, which will necessitate an adjournment on Monday. The document is almost completed, but some points of it are yet to revised.

During the early days of next week the President will consult on parts of his message with Republican leaders in Con-

WASHINGTON, Nov. 21 .- Every memher of the Cabinet was present at today's meeting. It was comparatively brief, lasting only about an hour. At its con-clusion it was stated that no business of serious consequence was transacted, although some subjects of importance were considered briefly. Secretary Hay ought with him some documents relating to the status of the negotiations pend-ing with Colombia with respect to the Panama Canal trenty. He reported the status of the negotiations, and it is stated the President will not be able to say in his message that he is ready to submit to Congress a treaty with Colombia in accordance with the Spooner act. Some portions of the President's forth-

coming message to Congress were con-sidered, but as the features of the document concerning which any division of opinion might arise have not been arepared definitely and will not be until the President shall have had time further to iscuss them with the leaders in both branches of Congress, little respecting the message was accomplished.
