# **TOMEET ON THE CRID**

Multnomah and Oregon Elevens Eager for the Fray.

MEN CONFIDENT, CHANCES EVEN

Collegians and Athletic Club Players Will Struggle for Championship Football Honors on Thanksgiving Day.

The main topic of conversation in local sporting circles is the great Thanksgiving football game between Multnomah and the University of Oregon. A singular fact about the contesting teams is that neither has been scored against this year, and that, while the collegians have played that the great they have won just as several tie games, they have won just as many victories as Multnomah. Oregon has defeated Whitman College, 5 to 0; the Oregon Medics, 11 to 0; Pacific University.

79 to 0, and has played one scorelege way. 70 to 0, and has played one scoreless game with the Oregon Agricultural College, and win the Oregon Agricultural College, and two with Albany College, Multnomah de-leated Whitman, 21 to 6; scalped Chema-twa's braves, 17 to 0, and sent the Univer-sity of Washington giadiators to a 7-to-0 defeat. From a comparison of the two scores against Whitman, it would seem that the clubpen might have an easy that the clubmen might have an easy thing against the 'varsity, but since the game with the Sons of Marcus, the Ore-gon men have shown a gradual improvement, until they are the equal, if not the superior, of any collegiate aggregation in the Northwest. The 70-to-0 score against Pacific shows that Eugene is in the field with a scoring team, and the splendid defense against the herculean charges of "Hez" Brown, the Whitman fullback, testifies the strength the 'varsity's defense play. The Oregon men will come to Portland determined to make the best game of the year for the crack Multno-mah eleven, and unprejudiced football cranks believe that their determination will be satisfied.

Multnomah has one of the best elevens

on the Pacific Coast, but every ounce of strength and nerve will be required to wrest victory from the collegians. The general impression around the Multnomah Club is that the home team will win by a small score, and some of the enthusiastic ones are willing to back their opinion with coin. The players themselves appreciate the fact that Eugene has a
crack team this year, but believe that
the winged "M" will triumph if all goes
well. "Multnomah luck" has figured
prominently in the past, and may do so
tomorrow, although Captain Kirkley and
his men hope to defeat Oregon by
straight, hard football. In McMilian, Kerrigen. Pratt. Bishon, Stott and Kirkley iastic ones are willing to back their opinrigan, Pratt, Bishop, Stott and Kirkley Multnomah has a number of first-class football men, while in Cook the club has the crack punter of the Northwest. If a kicking game is resorted to, local enthusjasts believe that Cook will outpunt Payne and Templeton, both of whom are known to be kickers of more than average ability. In weight, age, experience and dogged determination to win, the teams appear to be evenly matched, but It is conceded that Multnomah has the better field captain. George McMillan has piloted the M. A. A. C. players through

### WHITMAN STUDENTS WILL BATHE. Sons of Marcus Resolve to Drown Their Sorrow.

WHITMAN COLLEGE, Walla Walla, Nov. 25.—(Special.)—Whitman has determined to win the football game with the University of Idaho next Thursday or every member of her team will take a plunge in the new pond by Billings Hall. The team have solemnly agreed that it they are defeated each and every man on the team will come over after the game and with all his toggery on will jump in and drown his sorrow beneath the icy waters of the little lake. But Whitman believes that she will win this last game. It will be the most interest-ing game of the season, for Moscow will send a fine team down, while the defenders of the blue and gold were never in better condition. They will be handicapped, however, by the loss of "Hez" Brown, the wonderful fullback who has made such a name for himself this sea-On account of injuries received in Athenaeum-Phrenakosmian game a week ago Saturday he will not be able to play. Wiley Lasater, who will take his place on the offensive work, is a fierce man, however, at hitting an opponent's line. Another good man Whitman may lose is Ray B. Ayers, the 197-pound guard. His health is such that it is more than likely he will be out of the Thanksgiving game. Captain Chittenden has made up his conditions and will lead his team

The feeling over the game is that of determination. If Whitmen does not win she will die trying. Certain it is that the people of Walla Walla will have the chance of seeing the greatest game of the year on Thanksgiving. The game will year on Thanksgiving. The be called at 1 o'clock sharp,

# TO LINE UP TODAY.

Portland Academy Eleven Will Contest With B. S. A. Rivals. The Portland Academy team will line

up in its last game of this season with the Bishop Scott Academy team this afternoon at 3:30 o'clock on Multnomah Field. Bishop Scott has undergone some hard practice during the past week, and a good close game will be the result. The teams will line up:

 
 P. A
 Position.

## Hill Scrub Team Wins.

The scrub teams of Portland Academy and Hill Military Academy lined up against each other yesterday afternoon on Multnomah Field, and after a fast and furious game Hill was decided winner by a score of 5 to 0. The star attrac-tion for Hill was a tall player named Long, who was 6 feet 6 inches high, and made his yardage every time he fell down. Toward the end of the performance the officials wandered off, and, as it was too dark to continue play, the game was called with Hill the winner.

Dentals to Play in The Dalles.

The Dental College team, which is one of the strongest football organizations in the local field, will go to The Dalles tomorrow and line up against The Dalles football eleven. The Dalles team will be the heavier of the two, but the Dentals

Hare, 150, and Davis, 150; ends. Remmington, 138, and Shaw, 145; quarter, Spaulding, 141; halves, McFarland, 146, and Boyd, 149, and fullback, Hyde, 160, the average being 151 pounds per man.

# FAVORITES FARED BADLY.

But It Was a Day of Good Races at Ingleside.

SAN FRANCISCO, Nov. 25.—Favorites

fared badly at Ingleside today, only two of them getting the decision. The sport was excellent and some close finishes were wfinessed. Artvis displayed great gameness when he took the fourth event from Beau Ormonde and Kenliworth in a drive. The last named was a pronounced favorite. Vesuvian, a 20 to 1 shot, upset calculations by running over Money Muss, the 7 to 10 favorite, in the last and winning cleverly. Esherin was a 1 to chance in the two-year-old race, but Puss in Boots beat her easily. Results: Seven furlongs, selling-Loyal S. won, Ignacio second, Mike Rice third; time

Five furlongs, purse-Puss in Boots won, Esherin second Penzance third; time

One mile, selling—Sugden won, Diomed second, Bangor third; time 1:44.

Five and a half furlongs, purse—Artvis won, Beau Ormonde second, Kenilworth

### Aristocratic Russian Prisoners London Express

A Vienna paper states that few people have any idea of the large number of men and women of noble birth undergoing penal servitude on the continent. It estimates that Russian prisons alone

contain 12,000 aristocrats, while there are several thousand noblemen in the penal establishments of Italy. Two Dukes of Notarbartolo are, for instance, at present undergoing penal servitude for life in the Italian prison of La Maddalena for the brutal murder of a young officer whom they had swindled at card playing and who had threatened to denounce them as

card sharpers. Among the convicts in a Belgian prison are Prince Charles de Looz-Coswarem, who committed a number of gigantic frauds and one crime of violence, and the Mar-quis of Varela, for the murder of his own

mother. In France there are several hundred titled aristocrats in prison, and though no statistics are available regarding Austria and Germany the same state of things is said to exist there also.

CHAIRMAN WELCH WILL CALL A MEETING OF COMMITTEE.

Arrangements Depend Upon Division of Time With the State Horticultural Society.

H. C. Welch, chairman of the con mittee of arrangements for the Grange Institute, which will be held in Portland about the middle of January, said yesterday he will call a meeting as soon as the conference committee has arranged with the State Horticultural Society for division of time at the public meeting. This will probably be soon. The object is to hold the Grange Institute and the Horticultural convention the same week, so that those who attend the institute may get the benefit of the convention, and the reverse. Three or four days will probably be consumed in both events. will probably be consumed in both events.
W. K. Newell, who represented the Hor-

abany and vicinity inspecting fruit trees shipped here from Eastern states, and particularly from New York. In-spector Reynolds deplored the fact that horticulturists yet persist in importing apple trees from the East when the home ticultural Society at the meeting of the Grange committees last Wednesday, is sure that a division of the time can be ists who continue to send abroad for

SPEEDY BACKS ON OREGON ELEVEN

Templeton, Right Half. Payne, Fullback. Goodrich, Left Half,

UNIVERSITY OF OREGON, EUGENE, Nov. 25 .- (Special.) -- Among the best players on the Oregon eleven of this year are Joe Templeton, Clyde A. Payne and Ray Goodrich, the three backs. Templeton, who is field captain, is a member of the family that has made previous Oregon elevens famous. He played full back on the 'varsity last season, and was regarded as a thoroughly reliable player. His twin brother, Frank Templeton, is captain of the Albany College eleven. Fullback Payne is serving his third year on the 'varsity, he having played right halfback in 1890 and fullback in 1900. Ray Goodrich played halfback on the Oregon Agricultural College eleven in 1805 and 1809. Since 1900 he has been playing left halfback on the Oregon eleven, and has always proved a sure ground-gainer and a strong man on the defense. Taken as a whole, his back field is one of the best ever turned out at the "varsity, and the work of Goodrich, Payne and Templeton will be watched with interest in the big Thankegiving

dress both organizations.

practically placed the officers of the State Grange in charge of the Institute, Howard, state secretary; Mrs. Clara H. are waldo, deputy. The state master is attending the National Grange which has been in session at Lansing, Mich., but he will be home in a few days. When be arrives it will be known what charges there are for securing the attendance of the control of the National master at the institute, His presence would add very much to the interest and profit of the institute. Chairman Welch already has assur-

ances that competent speakers from the experimental station of the Oregon has also opened correspondence with other men in the state on the subject of and he feels certain that a good programme for every minute of the institute can be provided. He also says that the can be provided. He also says that the committee, even if I were aptalks on topics of interest to Grangers, ular that has ever been started in the granges. Letters are being received which indicate that there will be a large attendance, not or from Washington, not only from Oregon, but

A. F. Miller, master of Evening Star Grange, where the movement originated, says that in his travels he has found much enthusiasm for the institute. Chairman Welch says: "Portland will see more Grangers on the occasion of the Grange Institute than ever before. We hope to secure the co-operation of the Mayor and Board of Trade, Manufacturers' Association and Chamber of Commerce in making the institute a success.

## REVISE FREIGHT TARIFFS Transcontinental Agents Act on Com. plaints of Merchants.

A party of railroad freight agents was in the city yesterday on the way home to California from the meeting of the committee of inspection which was held at Vancouver, B. C., last week. They are: G. W. Luce, general freight agent of the Southern Pacific, with headquarters in San Francisco; R. H. Countiss, agent of the transcontinental freight bureau at San Francisco, and chairman of the com-mittee; E. Chambers, general freight agent of the Santa Fe at Los Angeles. W. E. Coman, of this city, general freight and passenger agent of the Southern Pacific lines in Oregon, and R. B. Miller, general freight agent of the O. R. & N., also returned from the meeting.

The committee was occupied in considering the complaints of merchants as to inconsistencies in the transcontinental tar-iff adopted last March, and in making changes where such complaints were found to be well grounded. This is generally accomplished by changing the classification. This work involves a great mass of detail, which takes time, but does not show any startling results. Mr. Luce and Mr. Chambers left last night for their homes, but Mr. Countiss

remained over until today. LAYING TRACK TO GOLDENDALE. Columbia River & Northern Has All Material on Hand.

All the material for the Columbia River & Northern Railroad from Lyle to Goldendale, has arrived at Rowena, the balance
of the rails having arrived on the ship
Bidston Hill, and the company is transferring it across the river to Lyle on

arranged, inasmuch as both the insti- their apple trees. In some listances tute and the convention have the same object. The speakers invited can address both organizations.

In the appointment of the members of the Grange committee, Chairman Welch Inspector said Oregon nurseries, produce young apple trees which are not excelled anywhere, and it is time local orchardwhich makes them responsible. The state officers on the committee are as follows: G. B. Leedy, state master: A. T. Buxton, state lecturer; Mrs. M. S. have the added expense of freight, and have the added expense of freight, and are not as desirable as the Oregon prod-

# of Other Material.

New York Sun Not long before Congress adjourned last Summer Senator Mitchell, of Oregon, caused some of his fellow statesmen to ele-Agricultural College can be secured. He vate their eyebrows to the arc of amuse-has also opened correspondence with ment by offering a resolution for the investigation of affairs in the Hawaiian Islands during the recess. The Senator undoubtedly apprehend the spirit in

> serve on the committee, even if I were ap-pointed. I have other engagements for the Summer, and therefore I am to be relieved from the suspicion of any effort on my part to get up a committee for the purpose of a Summer outing."

Nevertheless, when the time came to sail, Senator Mitchell discovered that his other engagements were not of cast iron, for he went along with the rest. His resolution had gone through, but not with-out a elight hitch. On. Mr. Foraker's motion it was curiously referred to the committee to audit and control the contingent expenses of the Senate, That tribunal, through the genial Mr. Jones of Nevada, reported favorably, but Mr. Aldrich, of Rhode Island, objected and the resolution was laid over for several days. Good nature finally prevailed and Mr. Mitchell. Mr. Burton, of Kansas, and Mr. Foster, of Washington, were authorized to make the journey at the expense of the contingent fund of the Senate. As we have re-marked, the disinterested promoter of the

excursion went along, too.

At least one of the Hawaiian investigators has now returned to this continent, for Senator Foster was reported the other day as entertaining the Hon. Charles E. Littlefield, of Maine, at Tacoma. Whether Mr. Mitchell and Mr. Burton have finished their labors we do not know. Probably they have returned also, for the season for what Senator Mitchell described as 'Summer outing" is about over. The one thing certain is that during the past three months the attention of the great Amercan public has not been concentrated upon the movements and doings of the su mmittee for the investigation of Hawailan affairs in general. Reports are coming in somewhat tardily of the com-

mittee's diligence.
For example, we learn from a belated number of the Hawalian Gazette that in a single day the Senatorial Commission, as the sub-committee styled itself or was styled after its arrival in Honolulu, "ate a luab luncheon, which delayed the afternoon sendon for some time." was "set right on many matters which affect the interests of the territory." interests of the territory," listened to an argument by A.-B. Humphreys, who appeared as attorney for our sold friend Liliuokalani, took a ride about the harbor in the steamboat John A. Cummins, and accepted an invitation to go to Walalua a day or two later as the guests of Captain Whiting-all this besides ex-amining the subject of imported Chinese and Japanese labor. We infer that this was not an exceptionally arduous and strenuous day, but merely an average one

scows, an incline down the river having been built at Rowena. There are two engines, ballast cars and steam shovel on the ground. Everything is now in shape for tracklaying to go ahead without delay. A switch has been laid at Lyle, and two miles of track have been laid from the ground of the formerly great and good Liliuokalani, two miles of track have been laid from the property of the formerly great and good Liliuokalani, two miles of track have been laid from the property of the formerly great and good Liliuokalani, two miles of track have been laid from the property of the formerly great and good Liliuokalani, two miles of track have been laid from the property of the formerly great and good Liliuokalani, two miles of track have been laid from the property of the formerly great and good Liliuokalani, two of the three Senators were inclined to regard him as a bore. two miles of track have been laid from there up. This work will be continued without interruption until Goldendale is reached.

\*\*There was some little clouding in the minds of the members of the commission when Humphreys began. Senator Mitchell said to him: You have appeared before this body in two capacities. First you came as a micus curine for the people of the territory, and later as the attorney for the former Queen of Hawaii. In which of these capacities do you appear now?

\*\*ALBANY, Nov. 24.—(Special.)—L. B. Reynolds, of Salem, Horticultural Inspector for this district, has been in a Albany and vicinity inspecting fruit trees shipped here from Eastern states, the audience whispered 'Butt in!' and the commission. Some one in the commission. Some one in the commission. The interval is to regard him as a bore. This is what to regard him as a bore. This is what to regard him as a bore. This is what to regard him as a bore. This is what to prepare the commission in the minds of the members of the commission when Humphreys began. Senator Mitchell said to him: You have appeared before this body in two capacities, First you came as amicus curine for the people of the territory, and later as the attorney for the former Queen of Hawaii. In which of these capacities do you appear now? Humphreys said he was coming under the general invitation to the people to pregent any matters which they thought to be of special importance, and, in addition, to a special invitation given by one of the minds of the commission. The invitation of the commission of the members of the commission of the commission of the minds of the members of the commission of the dwinds. H G Steers, Seattle A W Stowell, Salem M H G Steers, Seattle Chas ward, Dayton Mrs C M Coller, Asto Chasultant, and the product, or grad and the minds of the commission of the dwinds of the minds of the commission of the commission of the commission of the minds of the commission of the commission of the dwinds. A W Mack, Seattle Chas ward, Dayton Mrs CM Coller, Ast to a special importance, and, in addition, to a special invitation given by one of the attest. Inthe audience whispered 'Butt in!' and

product so far excels that which is shipped in. He said that contiguous to almost every town in his district there were nurseries which produced young apple trees free from pests, and more mere junket.

So Humphreys butted in for the third time, and the self-sacrificing committee of tourists permitted him to butt. Ban-sim the unworthy thought that Senator were nurseries which produced young apple trees free from pests, and more mere junket.

to a special invitation given by one of the members of the commission. Some one in the audience whispered 'Butt in!' and with that the argument and the statement went on."

So Humphreys butted in for the third time, and the self-sacrificing committee of tourists permitted him to but. Banish the unworthy thought that Senator Mitchell's Pacific excursion has been a mere junket.

MINERS AND OPERATORS

In the Coal Region a Third of a Century Ago.

New York Evening Post, of August 17, 1860.

The news from the anthracite coal mines today is precisely that which every attentive reader of the letters from our special correspondent in that region, the last of which we print today, will have been led to expect. The miners and laborers there combined to demand the control of the business, including that of the capital invested in it by others, and of the markets, which represent the combined or competing interests of the operators, the transporters and the combined or competing interests of the operators. Permanent success they at first obtained has only resulted in making their complete and final failure the more conspicuous.

In the Lehigh and Schuylkill regions "the basis" was yielded to them; that is to say, the miners were permitted to dictate limits to the price of coal, and to exact a fixed share of that price as wages. However, after a trial of six weeks, the plan has broken down entirely, and the relations of labor and capital are more conspicuous.

However, after a trial of six weeks, the plan has broken down entirely, and the relations of labor and capital are more

plan has broken down entirely, and the relations of labor and capital are more utterly disorganized than ever. Today the miners of the Lehigh and nearly all of those of the Schuylkill Basin are again "out on a strike." and their employers have had such a bitter experience of the effects of surrendering the control of their businesss to an irresponsible body of men, actuated by the passions of a mob, that there is little prospect of a resumption until the Miners' Association shall with-draw its extreme demands.

In the Lackawanna region, however, the power of the association seems to be broken. Its officers themselves, it is said. agreed on Saturday to abandon "the basis," which has been the foundation of the union, and to permit the miners to resume work at the high rate of wages now common, without any stipulation for sus-pension or for a partnership in the sales of coal. It is understood that the men themselves would have done so without this permission, the authority of their committees being fast on the decline. Thus there appears to be no obstacle to a speedy resumption of acticity in the collieries of the Delaware & Hudson, and of the Delaware, Lackawanna & Western Companies; and it is to be hoped that these corporations may within a few days begin full work, forwarding to this market perhaps 90,000 tons per week of coal; or, with the Pennsylvania Coal Company, whose collieries are steadily at work, 115, 000 tons per week.

# PUTTING IT STRONG.

But Doesn't It Look Reasonable? This may read as though we were put-ting it a little strong, because it is generally thought by the majority of people that Dyspepsia in its chronic form is in-curable or practically so. But we have long since shown that Dyspepsia is cura-ble, nor is it such a difficult matter as at

first appears. The trouble with dyspeptics is that they are continually dieting, starving themselves, or going to opposite extreme or else deluging the already over-burdened stomach with "bitters," "after-dinner pills," etc., which invariably increase the difficulty even if in some cases they do give a slight temporary relief. treatment of the stomich simply makes matters worse. What the stomach wants is a rest. Now how can the stomach become rested, recuperated and at the same time the body nourished and sustained?

This is a great secret and this is also the secret of the uniform success of Stuart's Dyspepsia Tablets. This is a comparatively new remedy but its suc cess and popularity leaves no doubt as to its merit

The Tablets will digest the food anyway, regardless of condition of stomach The sufferer from Dyspensia according to directions, is to eat an abundance of good wholesome food and use the tablets before and after each meal and the resuit will be that the food will be digested no matter how bad your Dyspepsla may be, because, as before stated, the tablets will digest the food even if the stomach is wholly inactive. To illustrate our meaning plainly, if you take 1809 grains of meat, eggs, or ordinary food and place It in a temperature of 98 degrees, and but with it one of Stuart's Dyspepsia-Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach

The stomach may be ever so weak yet these tablets will perform the work of digestion and the body and brain will be properly nourished and at the same time a radical, lasting cure of Dyspepsia will be made because the much-abused stom-ach will be given, to some extent, a muchneeded rest. Your druggist will tell you that of all the many remed's advertised to cure Dyspepsia none of them have given so complete and general satisfac-tion as Stuart's Dyspepsia Tablets, and not least in importance in these hard times is the fact that they are also the cheapest and give the most good for the

When a hump-backed Italian named Riga landed at Dover from the Ostead boat his hump was found to be composed of tobacco. Eight pounds of snuff was also found concealed in his pockets and in a binocular case. He has been remanded on a charge of smug-

Rainier Grand Hotel, Seattle.

HOW THE CLUB MEMBERSHIP

Co-operative plan of selling planos strikes the popular note. Good planos, low prices, easy terms, reliable guarantees, bring orders pouring in so rapidly that the days of this exceptional club opportunity are numbered. Clubs will soon close and plano prices advance.

Through an error in yesterday's paper 8 members were reported in Club "A." instead of 58 and 56 instead of 51 in Club "B." The report should have read:

Club "A," 58 members. Club "B," 31 members. Club "E," 42 members. Club "D," 37 members. Club "E, "2 members. Club "D," 37 members. Today the showing is: Club "A," 62 members. Club "B," 92 members. Club "E" 48 members. Club "D," 39 members.

Club "E." 48 members.
Club "D." 39 members.
This shows that Club "E." which took the place of former Club "C." carries the most popular pianos. The planos in this club are the finest medium-priced instruments made, such as the Schumaun, the Steger; Decker, always reliable and popular; the Victor Orchestral Grand, with Empire top, and Philadelphia's greatest plano, the Lester. These fine instruments and many more just as good are in Club "E." Regular prices on them range from. 160 to \$500. To club members they go for \$34 and \$35. Payments are \$12 down when the plano is delivered to you and \$2 weekly to finish your purchase. These planos, as well as every other one we sell, have our written guarantee for five years, and also that of the manufacturer.

CLUB "D."

Shows a gain of two. This means two of the finest planos made have found homes—a Kimbail and a Chickering Planos that will be a lasting satisfaction far into coming generations. The saving on them to club members is from \$350.

CLUB "A."

Gained a little on Club "B" vesterday.

on them to club members is from and to \$500.

CLUB "A."

Gained a little on Club "B" yesterday, sales in the latter being one, while Club. "A" snowed four new members.

AND SO THEY GROW.

Yesterday was by no means a representative day. Sales all through this club selling have run from 18 to 28 daily. But even at this lower rate the limit of one hundred members to a club must soon be reached. Club "E." which was organized less than a week ago to take the place of Club "C," that was filled in less than two weeks, has now a membership of 48.

All the kinds of planos included in the clubs are on the floor, ready for inspection. Plano salesmen are here always prepared to give any information desired concerning them. We want our club members, as well as our regular purchasers, to understand thoroughly just what they are getting when they secure one of our planos at the moderate prices at which we sell them. Ellers Plano House, 35 Washington street, opposite Cordray's Theater. Cordray's Theater.

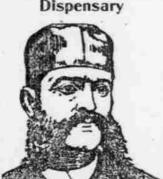

In addition to borax deposits, Death Valley contains an immense salt field, which may in time become valuable. It is about 30 miles long, from two to four miles wide, and the crust of salt probably averages one foot in thickness. Refining would be necessary before the sait could be placed upon the market,
