

STILL SPOUTS FIRE

Devastation Is Wrought by Guatemalan Volcano.

EARTHQUAKES ARE NUMEROUS

Asbes and Pumice Stone Cover a Wide Stretch of Country—Shocks Felt All the Way to the Port of Champerico.

SAN FRANCISCO, Nov. 26.—The volcano of Santa Maria was in violent eruption when the Pacific Mail steamer City of Panama left there for this port nine days ago.

From the officers of the City of Panama it was learned that some of the planters are of the opinion that the ashes may be beneficial to the soil and the damage to the fincas may be only temporary.

Refugees are making their way to the seashore, traveling either to Ocas or Champerico, and from these ports proceeding south by steamer.

As far as the eye can reach from Champerico, it is a scene of nothing but black and white. The sea is covered with a thick layer of ash.

At other times the discharge would leap high into the air as if propelled by some gigantic force. Each explosion was accompanied by a shock that could be felt all the way to Champerico.

THE ARMY OF SANTIAGO

SAN FRANCISCO, Nov. 26.—The following address has been issued from the office in this city of Major-General Shafter, National president of the Society of the Army of Santiago de Cuba.

Comrades and Friends—It is now more than four years since the Fifth Army Corps and its reinforcements achieved the conquest of Santiago and compelled the surrender of its gallant defenders.

Two days later, on the 19th of July, an order was issued from the headquarters of the United States General Staff congratulating the Army and declaring

that all who have participated in the campaign, battle and siege of Santiago de Cuba will recall with pride the grand deeds accomplished and will hold one another dear for having shared great sufferings, hardships and triumphs together.

Owing to active field operations of a large portion of the United States Army on foreign service, it has been impracticable thus far to call the society together in a National convention.

No date has yet been definitely decided upon, but it is thought that July 19, 1903, the fifth anniversary of General Toral's surrender, would be appropriate.

General H. M. Duffield, U. S. V. (Detroit branch), "General George H. Harris (Colonel First District Columbia Volunteer Infantry, District of Columbia branch).

General Charles Dick (Lieutenant Colonel Eighth Ohio Volunteer Infantry, Ohio branch), "General George H. Brown (First Lieutenant Thirty-third Michigan Volunteer Infantry).

Colonel W. S. McCaskey (Twenty-first United States Infantry), "Colonel A. L. Gagner, A. G. U. S. A. (Lieutenant-Colonel E. J. McClelland, U. S. N., Major United States Cavalry, A. U. S. N.).

Major Alfred C. Sharpe, United States Infantry, A. A. G., "Major Francis J. Ives, Surgeon, U. S. A., "Major C. D. Parkhurst, United States Artillery Corps, Cavalry.

Major John F. Jenks (Corporal, Seventy-first New York Volunteer Infantry), "Sergeant Reginald Ronalds (First U. S. Volunteer Cavalry).

Sergeant W. Y. Hendon (First Illinois Volunteer Infantry), "Lieutenant, late First Sergeant (Twenty-second United States Infantry), "General Hamilton S. Hawkins (Brigadier-General, U. S. A., retired).

Major General U. S. A. (retired), "National President Society of the Army of Santiago de Cuba," "Life Insurance Swindling. EL PASO, Tex., Nov. 26.—In the case of the New York Life Insurance Company against Mason & Richardson, charged with swindling the company, new and sensational developments were brought out in the evidence in the habeas corpus proceeding concluded here today.

According to a Chinhuasa physician's statement the fatal illness of a brother-in-law of one of the insurance agents showed symptoms of strychnine poisoning, a sister being the beneficiary.

Panama Wants the Canal. PANAMA, Nov. 26.—News of the suspension of the Panama Canal negotiations between Secretary Hay and Senor Concha, the Colombian Minister, has been badly received here.

Seventy Hours Is the Time East Via "Chicago-Portland Special." The time between Portland and Chicago via the "Chicago-Portland Special" now is 70 hours, or two hours less than three weeks. Train leaves here every morning at 10 o'clock.

ELLEN GORE NOW AT REST

NO PALLBEARERS, NO MOURNERS, NO MUSIC. One of Deceased's Friends Stood in the Audience Sketching the Scene.—Much Interest Shown.

PARIS, Nov. 26.—The Ellen Gore drama reached a fitting climax today in the mournfully picturesque funeral at the American church in the Rue de Beres. The occasion was marked by a notable demonstration of sympathy, not only on the part of the Americans, but by the French middle classes, artists and other habitués of the Latin quarter.

At 2 o'clock in the afternoon the street in front of the church was packed with spectators in unique costumes, and as the cortege approached they uncovered their heads. The hearse was preceded by a uniformed functionary wearing a blue sash and a cocked hat.

The interior of the building was crowded, chiefly with women. Artists filled the aisles. One of them stood sketching the scene. The casket rested on a high catafalque in front of the altar, and was covered with a pall. It was followed by three state carriages, but, excepting the first, they were empty.

Dr. Thurber refrained from mentioning the tragedy. The cortege after the services proceeded to Bagnoux cemetery, where there was a similar brief and simple ceremony.

The official report of the commission of the American doctors, which made a post-mortem examination of the Gore's remains at the instance of Mr. Gowdy, is not expected to be presented before Saturday, owing to sickness in the family of one of the members. Mr. Gowdy is continuing the taking of depositions in the case and will forward his report to Washington next Tuesday.

TURKEY ORDERS ARMS

Has in View the Situation on the Frontiers. CONSTANTINOPLE, Nov. 26.—Sixteen batteries of quick-firing guns, numbering 75 guns in all, have been ordered from the Krupp works as the commencement of the rearmament of the Turkish artillery. The War Ministry also is authorized to purchase 220,000 small caliber Mausers to complete the present establishment. With wagons and ammunition for the artillery the orders entail an outlay of \$2,900,000.

The purchases apparently were accelerated because of the recent developments in the situation in Macedonia and the Balkans, and the impression prevailing in many quarters here that a serious outbreak, possibly leading to widespread complications, may be expected in the Spring.

STILL WARRING IN TURKEY

Reports of Small Conflicts in Mountainous Districts. LONDON, Nov. 26.—A dispatch to the Times from Salonica dated November 21 gives details of a number of conflicts which have taken place during the past few weeks between the Turkish troops and Bulgarian bands in inaccessible districts of Macedonia, proving the continuity of the revolutionary movement in spite of the exceptionally severe weather now prevailing. The encounters were mostly small. A few men were killed or wounded and considerable depredations were made and the inhabitants taking refuge in the mountains.

Germany's Tariff Bill

BERLIN, Nov. 26.—The National Zeitung today announces positively that an agreement on the tariff bill was reached at a conference held at Chancellor von Bulow's residence yesterday evening with the leaders of the majority party in the Reichstag. It is said to prove the increase of the government's figures regarding the malted barley duty. The conference will be continued this evening.

Another authority says the conservative leaders demanded at the conference that Chancellor von Bulow name a definite date for denouncing the existing treaties, but that he finally refused to do so, and was supported by the National Liberals and members of the Center party.

Transvaal Will Need More Money

LONDON, Nov. 26.—Chancellor of the Exchequer Ritchie, speaking at Croydon tonight, forebode the possibility of the House having to provide still more money for the development of the Transvaal, and also gave a promise of a probable reduction of the income tax in the next budget.

Plague Inoculation Receives Check

CALCUTTA, India, Nov. 26.—It is rumored that the government's project for a wholesale inoculation for the plague in the Punjab district has been brought to a standstill. Owing to a mischance the inhabitants of a village near Jeraul were inoculated with a poisonous serum, resulting in many deaths.

Chile Quiet, but Disatisfied

SANTIAGO DE CHILE, Nov. 26.—The decision of the British arbitration com-

BRILLIANT CAREERS Blasted by Chronic CATARRH

Walter V. Wann, violinist and instructor (Clairville), Detroit, Mich., writes:

"I suffered with catarrh of the head and throat to an aggravated degree, and had tried many remedies, but only grew worse. "Peruna was altogether different, however, as it seemed to take hold of my case the first week. I think I used eight bottles in all, but that is comparatively little when you consider the many years I suffered from catarrh.

"Peruna entirely cleared my system of any trace of it, and I am now in excellent health and have been for a year, and all due to Peruna. I am pleased to endorse it as very trustworthy."—W. V. Wann.

A great many brilliant careers have been blasted by chronic catarrh. Musicians, poets, sculptors, painters and artists of all sorts have been doomed to a life of seclusion because of the insidious encroachments of catarrh.

Catarrh of the head, producing mental derangement, Catarrh of the middle ear, producing deafness, Catarrh of the eyes, interfering with the vision, Catarrh of the throat, cutting off speech and making a miserable effort at throat affection, Catarrh of the lungs, Catarrh of the stomach, Catarrh of the abdominal and pelvic organs. Any one or all of these forms of catarrh have laid low many a man and woman who would otherwise have been destined to a useful if not glorious career.

Professor Walter V. Wann, of Detroit, a musician of more than local reputation, would have been counted as one of these victims had it not been for Peruna. He had taken many remedies for catarrh of the head and throat; as is too often the case, he grew worse and worse in spite of the remedies. Some one persuaded him to try Peruna. He found as thousands of others had found, a prompt and permanent cure. His own statement is: "Peruna entirely cleared my system of any trace of catarrh, and I am now in excellent health and have been for a year, and all due to Peruna. I am pleased to endorse it as very trustworthy."—W. V. Wann.

Address Dr. Hartman, president of The Hartman Sanitarium, Columbus, O. that a great effort will be made to conciliate the Irish party before the King visits the island.

The Woman Charged With Murder. BUTTE, Mont., Nov. 26.—The County Attorney has drawn up a complaint charging Madame La Bonta, the French dressmaker concerned in the killing of Doctor Coffey, with his murder. Editor J. W. Kelley, who is alleged to have done the shooting, is still confined in the County Jail here. The La Bonta woman was apprehended yesterday at San Francisco. Sheriff Fury will leave on an early morning train after his prisoner.

Philippine and Alaskan Cables. WASHINGTON, Nov. 26.—Brigadier-General Greely, Chief Signal Officer of the Army, was informed by cable from the Philippines today of the completion of the cable connecting the Island of Romblon with Masbate and Marinduque.

Joe Chamberlain's Visit. Effect on Politics at Home, as Well as in Africa. NEW YORK, Nov. 26.—Commenting upon the departure for South Africa of Colonial Secretary Joseph Chamberlain, the London correspondent of the Tribune writes: "The significance of all these tributes lies in the fact that the old parliamentarian who has become the strongest individual force in public life, has gone out with a special commission from crown and Cabinet to settle affairs in South Africa as he likes. Premier Balfour's personal authority will be strengthened by a special commission from the spirit of the Colonial Secretary from politics during the next six months. The education bill will be carried without the aid of Mr. Chamberlain, and the programme of the next session with the Irish measures and the London school reorganization as the chief features, will be known as exclusively the Prime Minister's. He was master of the situation for the first time when the Cabinet met yesterday with one chair vacant.

He may need his most sagacious adviser more urgently than politicians apprehend. There are persistent rumors that Lord Salisbury is returning to England in order to support Lord Hugh Cecil's agitation for an amendment to the education bill, which has now entered upon the report stage, with closure applied vigorously for three days. There is a continuance of present gossip respecting the King's intervention in Irish affairs and fundamental changes in policy which may precede the royal visit to the island next year. Some nationalists choose to assume that the King, from friendship for Mr. Gladstone, has been a home-ruler many years, but this is fact, not invention. There is a reasonable ground, however, for the belief

ESTABLISHED REPUTATION AND PERFECT TRUST

A Prominent Young Virtuoso Cured of Chronic Catarrh by Pe-ru-na After Years of Suffering.

For ten years Drs. Copeland and Montgomery have conducted in this city the largest practice ever known in the history of the Northwest. The people know them. Their fame has grown in the strong light of intimacy and permanency. Medical pretensions and bogus healers of every variety have come and gone; passed in the night, unable to endure the day-time of acquaintance. But with time and intimacy the fame of Drs. Copeland and Montgomery has grown stronger, and confidence in their ability more implicit, until they are now recognized as masters in the treatment of all forms of chronic disease.

Read in the cases that are given here a part of the record of that skill. It can cure disease. It is doing it every day. It is making the sick well and strong. It is curing the cough that racks the chest with distress. It is relieving that cramping, shooting pain of body and limb. It is driving out poisons in the blood. It is stopping that nervous fear and trembling. It is restoring the sense of hearing to ears that are deaf.

Discharging Ear Cured—HEARING RESTORED. Miss Birdie Hastie, 304 1/2 East Morrison Street, Portland: When I was six months old I had a gathering in my head, which left me a chronic.

Discharge From the Left Ear. The ear discharged continually, a foul discharge, which kept the ear canal sore and tender. There were sharp, shooting pains back of the ear, especially when I had cold.

My hearing was very dull. When any one spoke to me I always turned the right ear, but even then I had trouble in understanding what was said, and unless I was familiar with the voice it was very hard for me to follow conversation. I was gradually getting worse and feared I would soon be entirely deaf.

After reading the many cures they were obtaining in these troubles at the Copeland Institute I went there for treatment. I was soon improving and now am entirely well. My ear has healed and I hear all right.

She DID NOT OUTGROW HER CATARRH. Miss Julia Mickelson, the bright young daughter of H. J. Mickelson, a well-known farmer, postoffice address Russellville, Ore. She was a great sufferer from catarrh since babyhood. That she has been completely cured of this trouble and fully restored to health is attested by her parents in the following words:

Catarrh All Her Life. We thought she would outgrow it, but instead she got worse and in the past two years has suffered greatly. Her nose seemed entirely closed up and she breathed through her mouth. She complained of dull headache, a bad taste in her mouth and was continually clearing her throat. Her tonsils were greatly enlarged and her throat looked

gradually getting worse and feared I would soon be entirely deaf. After reading the many cures they were obtaining in these troubles at the Copeland Institute I went there for treatment. I was soon improving and now am entirely well. My ear has healed and I hear all right.

Scrofula. It is commonly inherited. Few are entirely free from it. Pale, weak, puny children are afflicted with it in nine cases out of ten, and many adults suffer from it. Common indications are bunches in the neck, abscesses, cutaneous eruptions, inflamed eyelids, sore ears, rickets, catarrh, wasting, and general debility.

Hood's Sarsaparilla and Pills. Eradicate it, positively and absolutely. This statement is based on the thousands of permanent cures these medicines have wrought. "My daughter had scrofula, with eleven sores on her neck and about her ears. Hood's Sarsaparilla was highly recommended and she took it and was cured. She is now in good health." Mrs. J. H. Jones, Parker City, Ind. A Hood's Sarsaparilla promises to cure and keeps the promise.

The Splendid Record of Drs. Copeland and Montgomery for Years in This Community Gives Confidence and Faith to the People as They Read the Wonderful Results of Their Treatment.

Such testimony is enduring proof that Drs. Copeland and Montgomery are really curing, not merely helping or relieving; not merely improving and benefiting alone, but curing disease.

Irritated and inflamed. Cold always brought on Tonsillitis and often she got no relief until the throat gathered and broke. She also coughed continually, and this together with her Bad General Health worried us greatly. She was thin and pale and seemed just able to drag herself around. She slept with her mouth open and was very restless through the night, waking up frequently with her throat parched and dry.

We took her to Drs. Copeland & Montgomery and they Cured Her. The cough and all signs of catarrh have disappeared. She has gained 14 pounds and looks rosy and healthy. Everyone speaks of the change in her appearance.

HOME TREATMENT. No one deprived of the benefits of the Copeland treatment because of living at a distance from the city. If you cannot come to the office, write for Home Treatment Symptom Blank and Book, and be cured at home.
