WHO RAISE THE RACE ISSUE

Men of High Character Will Be Appointed, Whether White or Black -Will Stimulate Negro to Improve by Hope of Reward.

WASHINGTON, Nov. 27 .- The President has sent the following communication to a inent citizen of Charleston, S. C .: ("Personal.")-White House, Washing-ton, Nov. 26, 1902.-My Dear Sir-I am in receipt of your letter of November 10 and of one from Mr. — under date of November 11, in reference to the appointment of Dr. Crum as Collector of the Port

"In your letter you make certain spe-cific charges against Dr. Crum tending to show his unfitness in several respects for the office sought. These charges are entitled to the utmost consideration from me and I shall go over them carefully before taking any action. After making these charges, you add, as further rea-son for opposition to him, that he is a colored man, and after reciting the misdeeds that followed carpetbag, rule and negro domination in South Carolina, you say that 'we have sworn never again to submit to the rule of the African, and that such an appointment as that of Dr. Crum to any such office forces us to protest unanimously against this insult to the white blood, and you add that you understood me to say that I would never force a negro on such a community as yours.

"Mr. — puts the objection of color first; saying that first, he is a colored man and that of itself ought to bar him from the office.

Has Not Discriminated.

'In view of these last statements I think I ought to make it clear to you why I am concerned and pained by your making them and what my attitude is as regards all such appointments. How anyone could have gained the idea that I had said I would not appoint reputable and upright colored men to office, when objection was made to them solely on acjection was made to them solely on ac-count of their color, I confess I am un-able to understand. At the time of my visit to Charleston last Spring I had made and since that time I have made a number of such appointments from several states in which there is a considera-ble colored population. For example, I made one such appointment in Mississippi and another in Alabama shortly before my visit to Charleston, I had at that time appointed two colored men as Judicial Magistrates in the District of Columbia. I have recently announced another such appointment for New Orleans, and have just made one from Pennsylvania. The great majority of my appointments in every state have been of white men.

"North and South alike, it has been my sedulous endeavor to appoint only men of high character and good capacity, the other churches held a united service, Bishop Brent delivering an address whether white or black. But it is and few. George Pentecost reciting the should be my consistent policy in every prayer. Governor Taft and a majority of state where their numbers warranted it to recognize colored men of good repute and standing in making appointments to office. These appointments of colored men have in no state made more than a small pro-portion of the total number of appointments. I am unable to see how I can legitimately be asked to make an excep-tion for South Carolina. In South Carolina to the four most important positions in the state I have appointed three men and continued in office a fourth, all of them white men, three of them originally Gold Democrats, two of them, as I am in-formed, the sons of Confederate soldiers. I have been informed by the citizens of Charleston whom I have met that these four men represent a high grade of public

service. "I do not intend to appoint any unfit men to office. So far as I legitimately can, I shall always endeavor to pay regard to the wishes and feelings of the people of each locality, but I cannot consent to take the position that the door of hope, the door of opportunity, is to be shut upon any good man, no matter how worthy, purely upon the grounds of race or color. Such an attitude would, according to my convictions, be fundamentally wrong. If, as you hold, the great bulk of the colored people are not yet fit in point of character and influence to held such poeltions, it seems to me that it is worth while pressing a premium upon the ef-fort among them to achieve the character and standing which will fit them.

"The question of negro domination does not enter into the matter at all. It might as well be asserted that when I was Governor of New York I sought to bring about negro domination in that state because I appointed two colored men of good character and standing to responsible po-sitions, one of them to a position paying a salary twice as large as that paid in the office under consideration; one of them as a director of the Buffalo Exposition.

Give Colored Men Incentive.

"The question raised by you and Mr, in the statements to which I refer is simply whether it is to be declared that under no circumstances shall any man of color, no matter how upright and honest no matter how good a citizen, no matter how fair in his dealings with all his fellows, be permitted to hold any office under our Government. I certainly cannot as-sure such an attitude, and you must permit me to say that in my view it is an attitude no man should assume, whether he looks at it from the standpoint of the true interest, of the white man of the South or of the colored man of the South—not to peak of any other section of the Union. It seems to me that it is a good thing from every standpoint to let the colored man know that if he shows in a marked regree the qualities of good citizenship—the qualities which in a white man we feel are entitled to reward—then he will got be cut of from all beautiful to the man well and the man well as the cut of from all the man well as the cut of from all the man will got be cut of from all then he will got be cut of from all then he will got be cut of from all then he will got be cut of from all then he will got be cut of from all then he will got be cut of from all the cut of from all the man well got the cut of from all the then he will not be cut off from all hope

Without any regard as to what my decision may be on the merits of this partic-ular applicant for this particular place, 1 feel that I ought to let you know clearly my attitude on the far broader question raised by you and Mr. —; an attitude from which I have not varied during my term of office. Faithfully record. term of office. Faithfully yours, "THEODORE ROOSEVELT."

SEATTLE, Nov. 27 .- Natives of the Philppine Islands, urged on by the priests and through the medium of secret societies, are arming themselves, and munitions of war are being furnished them from some source not known to the Government of the United States. This is the statement of Lieutenant H. Newton Kierulff, of the transport Dix, which arrived in the harbor today to load lumber and forage for

As an evidence that this is the true state of affairs in the Philippines, Lieutenant Kierulff tells of the finding of a wrecked barge on the coast of Luzon a few weeks ago, which was loaded with guns and am-munition, which must have been delivered

He further states that cholera has been increasing in the islands, and that the death rate in the City of Manila since the withdrawal of the military forces and the turning over of the health department to the civil government, composed mainly of natives, has increased fully 69 per cent. This he says, is due to the fact that the This he says, is due to the fact that the priests tell the natives that it is unless for them to follow out the instructions of the Americans for the suppression of the disease, as it is a vicitation of God, forced upon them for giving up the country to the United States. LOST WITH ALL HANDS. Steamer Goes Down on Lake Eric with Eighteen Men.

DETROIT, Nov. 27.-In a furious gale on Lake Erie Sunday night the steamer Sylvanus Macy sprang a leak off Point Barrell, Ont., and plunged to the bottom, probably carrying her entire crew with her. The barge Mabel Wilson, which was being towed by the Macy, broke away-from the steamer in the darkness and succeeded in sailing up the lake to Am-herstburg, where she arrived this after-

The first news of the disaster was reported by the steamer Albright, which passed up the river early this morning. She reported having passed through five miles of wreckage yesterday 30 miles southwest of Long Point, parts of the cabin, life preservers and doors of some versel. The cabin was painted white, but there were no distinguishing marks to tell what vessel it was from. The arrival of the Wilson, however, leaves no doubt that the wreckage is from the Macy, as the last seen of that steamer was in the

near vicinity.

The Macy, with the Wilson in tow, left Buffalo last Saturday with a cargo of coal. When haif way up Lake Erie the gale was encountered, and when abreast of Point Barrell the tow line of the barge was thrown off by the crew of the Macy, leaving the schooner to shift for herself. When last seen by the crew of the Wilson the Macy was laboring heavily in the sea, and was evidently making for shel-ter. If the crew had time to leave the ship before the plunge to the bottom, it is not believed that the small boats could have lived long in the terrible sea run-ning. That nothing has been heard of them has convinced the owners that all

The Macy was owned by P. J. Ralph & Co., of Detroit, and was insured for \$16,-000. She is one of the older types of wooden steamers. She registered 552 tons. She was built in 1881.
