agricultural and industrial oducts; and, whereas, this exhibit will have a tendency* to collicit and stimulate immi-gration to our state, we, as teachers rep-

resenting the educational resources of Eastern Oregon, realizing that the better class of visitors and immigrants will be interested in learning somewhat of our educational facilities and general school work, and believing that the exhibit will be incomplete without an educational exhibit, do hereby "Resolve, That it is the sense of this

convention that a committee of three be appointed from the teachers of this divi-sion of the Oregon State Teachers' Assoclation, to confer with a similar committee to be appointed by the Western Di-vision of the State Teachers' Ansociation; and, further, be it "Resolved, That these committees be instructed to make application to the di-

rectors baving in charge the preparation of the Fair to arrange for an educational exhibit, which will properly represent the educational interests of this great state. The committee as appointed consists of J. A. Peyton, E. E. Bragg and J. F. Nowlin, County Superintendents of Baker, Uplon and Umatilla Counties.

Shortly after the regular programme of the day was taken up. S. Y. Gillan gave a closing talk on geography, speaking, in this period, more to the teacher as a student than as an instructor, and gave a very interesting discussion of the

reography of Southern Russia, J. A. Churchili followed with a strong paper on "The Preparation of Lessons; (a) At Home; (b) At School." This paper, which denounced the practice of assigning home work to the pupils of the first eight grades, provoked a lively discussion, in which Mr. Gillan, Professor Hockenberry, President Penrose and Superintendent

Ackerman took part, the lack of time preventing any definite conclusion. Mr. Gillan then spoke on arithmetic methods until the noon intermission. In the afternoon session E. M. Bruce, of Weston Normal, spoke on "The Rela-tion the State Normal Schools Bear to the Educational System of the State." Dr. S. B. L. Penrose, of Whitman gave a very strong address on "Professional Ethics."

Mr. Gillan gave his closing talk on metaods in reading and language, and the session aciourned. This session has been a most profit-able one, and much credit is due the executive committee for the excellent way

in which the affair has been handled. The attendance was large and represent-ative, and would have been much larger but for the fact that a county institute was held in Umntilla County only a short time since, which caused school boards in that section to object to the teachers attending the meeting at La Grande. Weston State Normal turned out in force, of the faculty being present over

all the faculty being present, except President Martindale and Professor Kittredge, both of whom were sick.

ease was brought to Brighton from the neighborhood of Cumberland, R. I., and that it was due to the cows called "strippers." These "strippers" are cows which are highly fed for 18 months without being allowed to calve in order to obtain an abnormal milk supply. The animals are then fattened for slaughter. Agent Brady, of the Leinnd line, said

tonight that the order of the Secretary of Agriculture would have a very bad effect upon the commerce of Boston. The steam er Columbian, which was to have sailed on Saturday with 600 cattle and 400 sheep now on the way to this port, may not be

able to leave. It was also ascertained tonight that the restrictions which the British government placed three years ago on Canadian cat-tle shipments, on account of the outbreak of this disease, had not yet been removed.

ON SCENT OF BIG SWINDLE

Detectives Arrest Cotton Exporter on Suspicion of Stealing \$200,000,

NEW YORK, Nov. 27 .- William Landau, said to be a wealthy cotton exporter of Texas, was arrested here today on susiclon of being connected with a swindle Involving, it is said, the curn of \$200,000 or more. The firm alleged to be swindled is that of Ladenburg, Thalmann & Co., bankers of this city. The detectives took every precaution to prevent the news of the arrest becoming public and it was ad-

mitted at midnight only when an Assist-ant District Attorney stated that the pris-

oner was at police headquarters. The arrest, according to the Assistant District Attorney, was made in the office of the banking firm this afternoon. Memhers of the firm will not talk about the case and further details are lacking. The charge against Landau is "suspicion of

felony." Landau's counsel, Philip V. Fennelly, had a long conference with the prisoner at police headquarters this afternoon, Mr. Fennelly later was interviewed at his hotel and raid:

"I have been unable to examine into all the dreumstances of this matter, but so far as I have investigated. I have been unable to find that Mr. Landau has been unable to find that Mr. Landau has been other than absolutely honest. I have been unable to find any action on my client's part that will not bear the very closest ecruitny. There is nothing to suggest any wrongdoing on Mr. Landau's part. I have een and talked to a member of the firm of Ladenburg, Thalmann & Co., and have told him that I am certain this matter will straighten itself in due time. There is absolutely no doubt that an injustice has been done my client and that when the matter is unraveled and we have an opportunity to go into the circumstances of the case, he will be placed in an entirely different light."

Mr. Fennelly said that his client's home is in Buffalo and not in Texas, as the Asis in Bulantia and only in Jeans, as the AB-cistant District Attorney had stated, "Mr. Landau formerly was in business in Buf-falo," said Mr. Fennelly: "but of inte has gone out of business there. He is not a man of great wealth, but is in very contentiable circumstances" comfortable circumstances.

DRUGS KILL MORE THAN DISEASE

The leading doctors say: "There are more deaths caused by drugs than disease; if every one would keep his system fortified with an invigorating stimulant and leave drugs alone the death rate would be lowered."

Statistics show that these doctors are right, and this is why all leading doctors prescribe Duffy's Pure Malt Whiskey exclusively for Consumption, Grip, Bronprostration, Catarrh, Coughs, Dyspepsis, mainrin, and all low fevers, nervous prostration, female troubles, sleeplesgness and weakness from whatever cause; all these diseases are caused by a run-down condition of the system.

builds new tissue; it enriches and stimulates the blood, aids digestion, tones up the heart, invigorates the brain and strengthens the system so it throws off disease It kills the germs.

Mr. and Mrs. Adam Livingood, of Elverson, Pa., who have been married 65 years, say Duffy's Pure Malt Whiskey has prolonged their happy union many years beyond their silver wedding. Mr. Livingood is 91 years old, and his wife is 54. They are both hale and hearty and feel vigorous as a couple of 50 years of age.

Mrs. Matilda Watts, who is 63 years of age, says Duffy's Pure Mait Whiskey cured her of grip and has kept her strong and well.

"I suffered terribly with the grip and tried every known remedy. Changes of weather always found me in bed, and I often felt as if life was not worth the living. Ficking up the newspaper one day. I read of the great benefit derived from the use of Duffy's Mait Whiskey, and sent for a bottle. The beneficial effects were almost instantaneous. The terrible lassitude with which I had suffered so long disappeared. I was completely cured, and have felt no bid after-effects, and today, at the age of 63, I feel as though I was only 20. "Mrs. Matilda Watts, 254 W. 40th St., N. Y. C."

RE&I

COE MP

New York's leading doctor said: "Duffy's Pure Mait Whiskey is a food already digested."

If you wish to keep young, strong and vigorous and have on your check the glow of perfect health, take DUFFY'S PURE MALT WHISKEY, regularly, a teaspoonful in half a class of water or milk three times a day, and take no other medicine. It is dangerous to fill your system with drugs; they polson the system and depress the heart. "Duffy's" is an absolutely pure stimulant and tonic, free from fusel oil and other dangerous ingredients so common in malt whiskeys.
