

RAIDING IS GENERAL

Jerome's Crusade Against Gotham Gamblers.

ALL HAD BEEN FOREWARNED

Few Arrests Made But Great Quantities of Gambling Implements Captured—Canfield's Place Supposed to Be a Gibraltar.

NEW YORK, Dec. 2.—District Attorney Jerome's sensational raids on alleged gambling resorts, begun about midnight last night, were continued until 4:30 o'clock this morning and numerous small places were raided. The attacks on the latter, however, were almost overlooked in the public interest which centered in the raids on the mansions occupied by Richard A. Canfield and William Burbridge, which were entered by means of ladders, axes and sledges. The police say that Frank Farrell is interested in Burbridge's place. Great quantities of costly "evidence" were carted from those places by the police, but arrests were few.

Up to last night a general impression prevailed that Canfield's, which is in the heart of the fashionable up-town district, only a few doors from Fifth avenue, and near two celebrated restaurants, was a "Gibraltar," which could not be taken; and a similar belief prevailed in regard to Burbridge's place, which was especially protected by steel doors. This place is in a cross street up town only a half block from Fifth avenue, and a few steps to a celebrated hotel. So great was public interest aroused by the raid on Canfield's that people flocked to the neighborhood until the intersection of Fifth avenue and Forty-fourth street, the corner nearest Canfield's, was blocked with carriages and people.

After Burbridge's raiders visited Ludlum's place, otherwise known as the "Savoy Club." They got one man there, a colored subordinate employed about the place, Jerome, Captain Piper, Inspector Brooks, several assistants to the District Attorney, and numerous detectives were busy in Ludlum's place until after 4 o'clock this morning. They blew open a safe in their hunt for evidence.

Earlier in the night, District Attorney Jerome made many raids in the downtown Italian quarter, of alleged disorderly houses. These were "preliminary" as were, to the two big events, Canfield's and Burbridge's. District Attorney Jerome declined absolutely to make any sort of statement after his night's work. Captain Laney, of the East Fifty-first Street Station, in whose precinct the Canfield place has been for years, declared to the reporters and others assembled that he had never expected to live to see such an event as the raiding of Canfield's.

The raids were expected in every place visited. In Canfield's the owner declared nothing had been "done" for weeks. It was much the same in Burbridge's place, Ludlum's, although Joseph Jacob, the Citizens' Union detective, last night declared that he had played in every place. But that the raids were to be made seemed to have reached the ears of the gamblers, for every place was prepared as if in advance. At Burbridge's they even left the great steel door ajar, and it was not until the policemen had mounted ladders and done some smashing that this fact became known to them. Then they went into the house in the usual way.

Canfield was not arrested. The report last night to that effect was erroneous. He was held at his home by a detachment of a detective who claimed to have gambled in the house, but the detective said Canfield was not the man who had dealt for him. Later in the morning, E. W. Bucklin was the man, and Bucklin was arrested. He is reported to be Canfield's manager.

David Bucklin and Samuel J. Smith were in the room with Canfield. Thomas McGilguy, who was arrested at the Burlington House, was discharged.

CARTRO PLEADS POVERTY

Offers Germany Bonds With Customs Revenue as Security.

BERLIN, Dec. 2.—The published statement that Germany's claims against Venezuela amount to \$15,000,000, the correspondent of the Associated Press is officially informed by a source in the German government is not yet ready to publish the details of its demands, persons who have seen the papers say that the total is not less than \$2,000,000.

President Castro represents to Germany that Venezuela has little credit abroad, that the country is just emerging from active war, during which planting and industry were ruined, and that therefore, no matter how much Venezuela may desire to satisfy immediately the claims against her, it is obviously impossible. Hence an agreement on the subject must provide for deferred payments. The seizure of the customs house, thereby depriving the government of an important means to administer the country, would add to the internal distress and disorder.

While President Castro's proposals are not disclosed, there is reason to believe that they include the emission of bonds at a moderately high rate of interest, with some sort of a guarantee, or interest on the installments of the principal are defaulted, certain Venezuelan custom-houses may be taken over by Germany.

There is no disposition here to proceed with harsh measures towards Venezuela, as milder ones will suffice to exact satisfaction; but the German government is fully committed to the intention to obtain ample satisfaction. The claims are constantly urging the government to press the collection of the amounts due them, in view of the fact that the long delay has rendered the position of Germans in Venezuela more and more vexatious. Therefore it is claimed that the government must strike, and strike hard, in order properly to assert the rights of Germany.

GERMAN CRUISERS ARRIVE.

Two of them at La Guayra, Venezuela's Chief Port.

CARACAS, Dec. 2.—The German cruisers Vteta and Falke have arrived at La Guayra from Curacao.

PLANS TO FIGHT DISEASE.

Conference of American Republics Meets to Devise Them.

WASHINGTON, Dec. 2.—The first international sanitary conference of the American republics convened here today. The governments of Mexico, Cuba, Chile, Costa Rica, Salvador, Honduras and the United States were represented by delegates. The conference is the outgrowth of the international meeting held a year ago in the City of Mexico, and sanitary and sanitation matters generally are to be discussed.

Dr. Wyman, Surgeon-General of the Marine Hospital, who called the convention to order, spoke of the closer affiliation of the American republics along sanitary lines, and said the motto of the present gathering should be, "Health, cleanliness, intellect and morals." The conference, he said, is assembled first to gain information of the shortcomings of each of the countries represented; second, to discuss

QUARANTINE, WHICH NEEDS AT TIMES TO BE

strengthened, but which may be made less severe with the increased knowledge of the diseases; third, to discuss sanitation; and, fourth, to make scientific investigations.

Secretary of the Treasury Shaw also spoke. Assistant Secretary of State Hill, speaking for the State Department, said that closer contact is needed between the American republics. "I hope," he added, "that the day is far past when the difficulties between the American republics shall have to be settled by force of arms. The three Americas are sufficient unto themselves, and while we want closer relations of other nations, it is significant that we have all that we need."

Dr. Hill pointed out that disease is an enemy that threatens to destroy us, and that man has exterminated the grosser and visible enemies. "Beats, for instance," he added, "have been so completely exterminated that the President of the United States on a recent hunting trip was unable to find any of them and was obliged to return to the White House without a shot."

Formal organization was completed by the election of Dr. Walter L. Wyman, Surgeon-General of the United States Marine Hospital Service, as president and Dr. Arthur K. Reynolds, of Chicago, as secretary.

NEW YORK, Dec. 2.—Developments in the murder of Kate Hassett, of Keith's Bijou Theater stock company, who was shot and killed last night by Barry Johnston, an actor, formerly with Richard Mansfield's company, indicate that the crime was premeditated. Johnston, who after he had shot the woman, attempted suicide, tonight is in a critical condition. The hospital surgeons intended to perform an operation upon him this afternoon, but the wounded man's condition was such as to necessitate a postponement. At the hospital tonight it was stated that Johnston was much weaker than at any time since he received the self-inflicted wound, and that his chances were less favorable. He is

MEDITATED THE DEED

JOHNSTON HAD MADE PREPARATIONS FOR MURDER.

Insane With Thwarted Passion for Another's Wife, He Now Lies at Point of Death.

PHILADELPHIA, Dec. 2.—Developments in the murder of Kate Hassett, of Keith's Bijou Theater stock company, who was shot and killed last night by Barry Johnston, an actor, formerly with Richard Mansfield's company, indicate that the crime was premeditated. At the hospital tonight it was stated that Johnston was much weaker than at any time since he received the self-inflicted wound, and that his chances were less favorable. He is

MAN WHO MAKES WAR ON GAMBLERS

At Burbridge's they even left the great steel door ajar, and it was not until the policemen had mounted ladders and done some smashing that this fact became known to them. Then they went into the house in the usual way.

Canfield was not arrested. The report last night to that effect was erroneous. He was held at his home by a detachment of a detective who claimed to have gambled in the house, but the detective said Canfield was not the man who had dealt for him. Later in the morning, E. W. Bucklin was the man, and Bucklin was arrested. He is reported to be Canfield's manager.

BURIED IN WRECK OF HOUSE

New Orleans Man Is Victim of a Pierce Wind Storm.

NEW ORLEANS, Dec. 2.—During the heavy wind that blew over New Orleans early today the home of Professor John Denier, on Metairie Ridge, was blown down. Professor Denier was fatally hurt and his wife dangerously. His 16-year-old daughter and his aged mother had narrow escapes. The house was built on stilts, and all the inmates were in bed when the crash came. Professor Denier is well known in athletic circles, and is a brother of "Tony" Denier, the clown.

WOMEN INJURED IN CARRIAGE WRECK.

NEW YORK, Dec. 2.—A carriage containing Mrs. George E. Weyl, wife of a New York broker, and her two sisters, whose home is in Atlanta, has fallen from a bridge near Caldwell, N. J. Miss Annie Sewall was seriously cut about the head and injured internally. It is feared she will not recover. The carriage was crossing the bridge, a frail structure, when the horse became frightened and backed against the light railing. The latter gave way and the party was precipitated into the stream, 40 feet below.

The carriage was badly damaged, except Miss Sewall. The horse was killed instantly.

FAMILY CREMATED IN A CABIN.

ALBUQUERQUE, N. M., Dec. 2.—News of the cremation of Mrs. Charles Ledy and her children in their little home in the recesses of the Jemez Mountains has just reached this city. The cabin took fire from a stove and the frantic mother attempted to force the children—the oldest is years of age—through a window, but before she could succeed the roof fell in upon them and they were burned to death. The father was away from home at the time.

WRECK ON RIO GRANDE RAILROAD.

GRAND JUNCTION, Colo., Dec. 2.—The Pacific Coast limited westbound on the Rio Grande Western Railroad ran into a heavy wrecked car, and the engine was demolished, and all the cars except the rear Pullman derailed.

Fireman C. W. Beidle, of Helper, Utah, was instantly killed. Engineer John Cummins, of Grand Junction, was seriously hurt, and Mall Clerk E. S. Benson, of Ogden, Utah, fatally injured. No passengers were seriously hurt. The dead and injured were taken to Grand Junction on a relief train. Traffic will be blocked for about 15 hours.

A Timely Suggestion.

"Now that winter with its bad weather is with us, I would advise every family to provide themselves against sudden attacks of colds and influenza by taking a good cough medicine like Chamberlain's Cough Remedy, which is the best among all the cough cures on the market. I have on my shelves," says Mr. L. C. Neaville, the well-known and popular druggist of Portland, Ore., "this remedy and guarantee it to be without an equal for coughs and colds, and also a perfect cure for croup." Buy it for sale by all druggists.

RECOVERED MONEY OBTAINED BY MEANS OF FRAUDULENT CLAIMS.

DALLAS, Tex., Dec. 2.—Judge Nash, of the District Court, has handed down an order in the case of a New York Life Insurance Company versus C. T. Richardson et al., which in effect grants permission to one of the defendants to withdraw her original answer and motion to dissolve the injunction and give judgment in favor of the insurance company as per agreement.

The original petition of the insurance company alleges that the payment of two policies aggregating \$40,000 was secured through fraudulent representation as to the death of policyholders.

Following the order of the court the attorney for the insurance company stated that the agreement was in substance that the company should take judgment against one of the defendants for the amount sued for, and that the injunction be perpetuated, restraining the National Exchange Bank from paying the money to her.

Richardson, who is on trial on account of the alleged insurance frauds in Mexico, at El Paso, was not represented here.

HER STORY DISCREDITED.

Sheriff Says La Bonta Is Trying to Shield Kelley.

SAN FRANCISCO, Dec. 2.—In custody of Sheriff J. B. Furey, of Silver Bow County, Montana, Mme. Ruth La Bonta, alias Eva Hart, has left for Butte. She was arrested by Detective T. B. Gibson in this city, after having been tried and convicted in the murder of Dr. H. A. Cayley, who was shot to death in her apartment at Butte, on the night of October 11, W. Kelly, editor of the Daily Inter-Mountain, who was living with the woman at the time, she maintains that she alone is guilty, and that the woman was the victim.

Although Montana officers were not furnished with the necessary extradition papers, she seemed willing and anxious to return without them and stand trial for her crime.

Mme. La Bonta stood by her first story to the last, but Sheriff Furey does not credit it. Before his departure he said: "The woman is not telling the truth when she says that Kelley was not in her room when the shots were fired, and that the wounds that ended Dr. Cayley's life were accidentally inflicted. Dr. Cayley and the woman were in the apartment when Kelley entered. The newsman had just entered the room, and the first bullet lodged in the wall above the bed, and the second struck the doctor in the spine."

HAD DESIGNS ON BROTHER.

Ex-Convict Shot Dead While Trying to Enter His House.

CARROLL, Ia., Dec. 2.—James R. Faust was shot and killed near here, while attempting to enter his home, after the residence of his brother, Charles Faust, Charles Crone, who fired the shot, has surrendered and asserts that the victim had designs on his life.

Charles Crone is a nephew of Charles Faust.

Several years ago James Faust disappeared after serving a term in the Iowa penitentiary, and was mourned as dead. A year ago he appeared at his parents' home at Clarence, Ia., and said that he had just escaped from an insane asylum at Toledo, O.

After his disappearance from the Iowa penitentiary Faust said he had been kidnapped and been kept in various hospitals as a mad man until he finally escaped.

AFTER WEDDING PRESENTS.

Burglar Takes a Shot at Bride's Father on Eve of Event.

DENVER, Dec. 2.—Joseph W. Gilluly, treasurer of the Rio Grande Railway Company, narrowly escaped death at the hands of a burglar at his home at 1145 Pennsylvania avenue tonight. The burglar, who had entered the house through a second story window and when discovered by Mr. Gilluly, fired one shot and made his escape. The bullet missed its mark.

Mr. Gilluly's daughter, Miss Mabel, is to be married tonight to the Rev. V. H. Greer, a well-known attorney, and the burglar was after some of the wedding presents.

WOMAN WAS MARRIED.

Miss Hassett Was Really Wife of Chicago Business Man.

CHICAGO, Dec. 2.—Kate Hassett, the actress, who was shot and killed in Philadelphia last night, was the wife of Everett Beckwith, employed by a road machine manufacturing-house, with offices in this city. Her parents live in Aurora, Ill., where her father is a real estate dealer.

Mrs. Beckwith retained her maiden name on the stage. They had been married 10 years, and are said to have been very devoted. Mrs. Beckwith was in Chicago a few weeks ago to visit her husband and parents, and was to have spent the Christmas holidays here. In her last appearance here in "Are You a Mason?" she made such an impression upon Harry B. Harris that his manager engaged her for the leading role in "The Last Appeal." Her first appearance was with Madame Modjeska.

IDENTITY OF ROGUS OPPER.

Recognized as Paul Ford, Who Had Brief and Giddy Career.

SAN FRANCISCO, Dec. 2.—Many persons who have seen the pseudo P. Opper, who recently made his appearance at Portland, where he displayed himself in opera boxes and elsewhere as the admirer of Miss Marie Della Rosa, the "Fit" of the "Belie of New York" company, declare that he is none other than Paul Ford, of bright memory in gay circles of San Francisco.

Paul Ford entertained the "smart set" in San Francisco about last February very much after the fashion that Opper is said to have observed in Portland. He affected the racetrack and the Bohemian Club, the opera box and the greenroom. Suddenly he went away, and it was found that he owed many obligations which have not yet been discharged. He went to Texas, and a few months ago word came that he had eloped with a gambler's wife. He is known to have been traveling under an assumed name, and it is said that he belongs to a good family. The coming of the self-styled P. Opper, bearing strong personal resemblance to Mr. Ford, and cutting very much the same capers, has created a tremendous stir among the "Johnnies." Miss Marie Della Rosa is well known in San Francisco.
